(i) Certain hazards are encountered in the production of tomatoes grown in the production area which are beyond the control or reasonable expectation of the producer of such tomatoes. Because of these circumstances, and to provide equity among producers and handlers insofar as any regulations under the marketing agreement and order are concerned, the committee should be given authority to issue exemption certificates to producer applicants to permit such applicants to sell their equitable proportion of all shipments from the production area. It is contemplated, however, that such an exemption will require the approved applicant to sell his best quality tomatoes.

The committee, by reason of its knowledge of the conditions and problems applicable to the production of tomatoes in the production area and the information which it will have available in each case, will be well qualified to judge each applicant's case in a fair and equitable manner and to fix the quantity of exempted tomatoes which each such applicant may sell.

The provisions contained in the notice of hearing relevant to the procedure to be followed in issuing exemption certificates, in investigating exemption claims, in appealing exemption claim determinations, and in recording and reporting exemption claim determinations to the Secretary are necessary to the orderly and equitable operation of the marketing agreement and order and they should, therefore, be incorporated in the agreement and order.

Provision should be made for the Secretary to modify, change, alter, or rescind any procedure established by the committee for granting of exemptions and of exemptions granted pursuant to such procedure. This is desirable to guard against inequities in the granting of exemptions and to preclude the issuance of exemption certificates in unjustifiable cases.

(j) The committee should have authority, with approval of the Secretary, to require that handlers submit to the committee such reports and information which are needed to perform such agency's functions under the marketing agreement and order. It is difficult to anticipate every type of report, or kind of information, which the committee may need in administering the program, but it should have the authority, subject to the approval of the Secretary, to request reports and information if needed, of the type set forth in the proposed marketing agreement and order. The standards to be followed by the committee in requesting handlers to furnish reports should be along the lines set forth in § 945.80 of the proposed order and such reports should be those necessary for operation of the committee in carrying out the terms and conditions of the order. Reports furnished to the committee should be submitted in such manner and at such times as may be designated by the committee. Such reporting procedures should accord with the needs and requirements of the committee which are essential to administration of the proposed order, because changing conditions may warrant changes in the forms and methods of reporting to the committee. The Secretary should retain the right to approve, also to modify, change, or rescind any requests by the committee for information in order to protect handlers from unreasonable requests for reports.

Permissive use of the specified reporting requirements, and verifications of such reports and records by the committee will provide a means for the committee to check on compliance with and operation of the marketing agreement and order.

Since it is possible that a question might arise with respect to compliance with the marketing agreement and order, handlers should maintain complete records on the handling and disposition of tomatoes for not less than two years subsequent to the termination of each crop year.

Any and all reports and records submitted for committee use by handlers should remain under appropriate protective classifications and be disclosed to none other than persons authorized by the Secretary.

(k) Except as provided in the marketing agreement and order, no handler should be permitted to handle tomatoes, the handling of which is prohibited pursuant to the marketing agreement and order, and no handler should be permitted to handle tomatoes except in conformity with the marketing agreement and order. If the program is to be effective, no handler should be permitted to evade its provisions since such action on the part of one handler, although possibly of small impact on the industry measured by the proportion of tomatoes handled by him, would be demoralizing to other handlers and would tend to impair operation of the program.

(l) The provisions of §§ 945.82 through 945.95, as published in the FEDERAL REGISTER of February 10, 1955 (20 F. R. 862), are common to marketing agreements and orders now operating. Each of such sections sets forth certain rights, obligations, privileges, or procedures which are necessary and appropriate for the effective operation of the marketing agreement and order. These provisions are incidental to, and not inconsistent with, section 8c (6) and (7) of the act, and are necessary to effectuate the other provisions of the marketing agreement and order and to effectuate the declared policy of the act. The substance of such provisions, therefore, should be included in the marketing agreement and order.

General findings. Upon the basis of evidence introduced in the hearing and record thereof it is found that:

(1) The marketing agreement and order as hereinafter set forth, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to tomatoes produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such tomatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such tomatoes as will be in the public interest:

(2) Such marketing agreement and order authorizes regulation of the handling of tomatoes grown in the production area in the same manner as, and is applicable only to, persons in the respective classes of industrial and commercial activity specified in a proposed marketing agreement and order upon which the hearing has been held;

(3) The said marketing agreement and order are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of the several marketing agreements and orders applicable to any subdivision of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and order prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of tomatoes grown in the production area;

(5) All handling of tomatoes as defined in the said marketing agreement and order, is in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

Ruling on proposed findings and conclusions. Interested parties were allowed until April 8, 1955, to file briefs with respect to findings of fact and conclusions based on evidence introduced at the hearing. No such brief was filed; hence, no ruling is necessary.

Recommended marketing agreement and order. The following marketing agreement and order are recommended as the detailed means by which the aforesaid conclusions may be carried out.

DEFINITIONS

§ 945.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 945.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 945.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 945.4 *Production area.* "Production area" means all territory in the State of Florida south or east of the Suwannee River.

§ 945.5 *Tomatoes.* "Tomatoes" means all varieties of the edible fruit (Lycopersicon esculentum) commonly known as tomatoes and grown within the production area.

§ 945.6 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of tomatoes owned by another person) who handles tomatoes or causes tomatoes to be handled.

§ 945.7 *Handle.* "Handle" or "ship" means to transport, sell, or in any other way to place tomatoes in the current of commerce within the production area or between the production area and any point outside thereof: *Provided,* That such terms shall not include: (a) The transportation, sale, or delivery of tomatoes by a producer to a handler registered as such with the committee and who has adequate facilities within the production area for grading; or (b) the transportation to and sale of tomatoes at auction markets designated by the committee. In the event a producer sells tomatoes other than is indicated in paragraphs (a) and (b) of this section, such producer shall be the first handler of such tomatoes.

§ 945.8 *Producer.* "Producer" means any person engaged in a proprietary capacity in the production of tomatoes for market.

§ 945.9 *Grading.* "Grading" is synonymous with "preparation for market" and means the sorting or separation of tomatoes into grades, sizes, maturities, and packs for market purposes.

§ 945.10 *Grade and size.* "Grade" means any one of the established grades of tomatoes and "size" means any one of the established sizes of tomatoes as defined and set forth in U. S. Standards for Fresh Tomatoes (§§ 51.1855 to 51.1876 of this title) or U. S. Consumer Standards for Fresh Tomatoes (§§ 51.1900 to 51.1913 of this title), both issued by the United States Department of Agriculture, or amendments thereto, or modifications thereof, or variations based thereon recommended by the committee and approved by the Secretary.

§ 945.11 *Pack.* "Pack" means any of the packs of tomatoes as defined and set forth in the United States Standards for Fresh Tomatoes issued by the United States Department of Agriculture (§§ 51.1855 to 51.1876 of this title), or any pack of tomatoes recommended by the committee and approved by the Secretary.

§ 945.12 *Maturity.* "Maturity" means various degrees of ripeness for tomatoes as established by the committee with approval of the Secretary.

§ 945.13 *Container.* "Container" means a box, bag, crate, hamper, basket, package, tube, bulk load or any other type of unit used in the packaging, transportation, sale, shipment, or handling of tomatoes.

§ 945.14 *Varieties.* "Varieties" means and includes all classifications or subdivisions of tomatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 945.15 *Committee.* "Committee" means the Florida Tomato Committee, established pursuant to § 945.22.

§ 945.16 *Fiscal period.* "Fiscal period" means the period beginning August 1 and ending July 31 following.

§ 945.17 *District.* "District" means each one of the geographic divisions of the production area initially established pursuant to § 945.24, or as reestablished pursuant to § 945.25.

§ 945.18 *Export.* "Export" means shipment of tomatoes beyond the boundaries of continental United States.

COMMITTEE

§ 945.22 *Establishment and membership.* (a) The Florida Tomato Committee, consisting of 15 producer members, is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) Each person selected as a committee member or alternate shall be an individual who is a producer, or an officer or an employee of a corporate producer, in the district for which selected and a resident of the production area.

§ 945.23 *Term of office.* (a) The term of office of committee members, and their respective alternates, shall be for 1 year and shall begin as of August 1 and end as of July 31.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 945.24 *Districts.* For the purpose of determining the basis for selecting committee members the following districts of the production area are hereby initially established:

District No. 1. The counties of Broward and Dade in the State of Florida;

District No. 2. The counties of Brevard, Glades, Indian River, Martin, Osceola, Okeechobee, Palm Beach, and St. Lucie in the State of Florida;

District No. 3. The counties of Charlotte, Collier, Hendry, Lee and Monroe in the State of Florida;

District No. 4. The counties of De Soto, Hardee, Highlands, Hillsborough, Manatee, Pinellas, Polk and Sarasota in the State of Florida; and

District No. 5. All the remaining counties within the production area not included in Districts 1, 2, 3, and 4.

§ 945.25 *Redistricting.* The committee may recommend, and pursuant thereto, the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts within the production area. In recommending any such changes, the committee shall give consideration to: (a) Shifts in tomato acreage within districts and within the production area during recent years; (b) the importance of new production in its relation to existing districts; (c) the equitable relationship of committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in apportionment of members within districts may become effective within less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than six months prior to such date.

§ 945.26 *Selection.* The Secretary shall select initially 3 members of the committee with their respective alternates, from each district.

§ 945.27 *Nomination.* The Secretary may select the members of the committee and alternates from nominations which may be made in the following manner:

(a) A meeting or meetings of producers shall be held in each district to nominate members and alternates for the committee. For nominations to the initial committee, the meetings may be sponsored by the United States Depart-

ment of Agriculture or by any agency or group requested to do so by such department. For nominations for succeeding members and alternates on the committee, the committee shall hold such meetings or cause them to be held prior to June 15 of each year, after the effective date of this subpart;

(b) At each such meeting at least two nominees shall be designated for each position as member and for each position as alternate member on the committee and eligible voters at such meetings may ballot to indicate the ranking of their choice for each nominee;

(c) Nominations for committee members and alternates, shall be supplied to the Secretary in such manner and form as he may prescribe, not later than July 15, of each year;

(d) Only producers may participate in designating nominees for members and alternates on the committee. In the event a person is engaged in producing tomatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees; and

(e) Regardless of the number of districts in which a person produces tomatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 945.28 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 945.27, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in §§ 945.24 through 945.26 inclusive.

§ 945.29 *Acceptance.* Any person selected as a committee member or alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 945.30 *Vacancies.* To fill committee vacancies, the Secretary may select such members or alternates from unselected nominees on the current nominee list from the district involved, or from nominations made in the manner specified in § 945.27. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in §§ 945.24 through 945.26 inclusive.

§ 945.31 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 945.32 *Procedure.* (a) Ten members of the committee shall be necessary to constitute a quorum and the same number of concurring votes shall be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication, and any vote cast at such a meeting shall be promptly confirmed in writing: *Provided,* That if any assembled meeting is held, all votes shall be cast in person.

§ 945.33 *Expenses and compensation.* Committee members and alternates may be reimbursed for expenses necessarily incurred by them in the performance of duties and in the exercise of powers under this part.

§ 945.34 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 945.35 *Duties.* It shall be, among other things, the duty of the committee:

(a) At the beginning of each term of office, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to tomatoes;

(f) To prepare a marketing policy;

(g) To recommend marketing regulations to the Secretary;

(h) To recommend rules and procedures for, and to make determinations in connection with, issuance of certificates of privilege or exemptions, or both;

(i) To investigate an applicant's claim for exemptions;

(j) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books and records shall be subject to examination at any time by the Secretary or his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;

(k) At the beginning of each fiscal period, to prepare a budget of its expenses for such fiscal period, together with a report thereon;

(l) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(m) To consult, cooperate, and exchange information with other marketing agreement committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 945.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of tomatoes handled by him as the first handler thereof during a fiscal period and the total quantity of tomatoes handled by all handlers as first handlers thereof during such fiscal period.

§ 945.41 *Budget.* At the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 945.42 *Assessments.* (a) The funds to cover the committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles tomatoes shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the committee's expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all tomatoes which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective whether particular provisions thereof are suspended or become inoperative.

§ 945.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member of the committee or alternate, he shall account to his successor, the committee, or to the person designated by the Secretary, for all receipts, disbursements, funds and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 945.44 *Refunds.* At the end of each fiscal period or other representative period used by the committee as a basis for seasonal accounting, monies arising from the excess of assessments over expenses shall be accounted for as follows:

(a) Each handler entitled to a proportionate refund of the excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him; or

(b) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this order to liquidate the affairs of the committee: *Provided,* That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of committee liquidation shall be returned upon a pro rata basis to all persons from whom such funds were collected.

RESEARCH AND DEVELOPMENT

§ 945.48 *Research and development.* The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of tomatoes. The expenses of such projects shall be paid from funds collected pursuant to § 945.42.

REGULATION

§ 945.50 *Marketing policy.* Prior to or at the same time as initial recommendations are made pursuant to § 945.51, the committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in shipping tomatoes from the production area during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by the committee to adopt a new or modified marketing policy because of changes in the demand and supply situation with respect to tomatoes. The committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee's office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(a) Market prices of tomatoes, including prices by grades, sizes, and quality in different packs, and such prices by foreign competing areas;

(b) Supply of tomatoes, by grade, size, and quality in the production area, and in other production areas, including foreign competing production areas;

(c) Trend and level of consumer income;

(d) Marketing conditions affecting tomato prices; and

(e) Other relevant factors.

§ 945.51 *Recommendations for regulations.* The committee, upon complying with the requirements of § 945.50, may recommend regulations to the Secretary whenever it finds that such regulations, as are provided for in this subpart, will tend to effectuate the declared policies of the act.

§ 945.52 *Issuance of regulations.* The Secretary shall limit the handling of tomatoes whenever he finds from the recommendation and information submitted by the Committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(a) Limit, in any or all portions of the production area, the handling of particular grades, sizes, qualities, or packs of any or all varieties of tomatoes during any period; or

(b) Limit the handling of particular grades, sizes, qualities, or packs of tomatoes differently, for different varieties, for different stages of maturity, for different portions of the production area, for different containers, for different markets, for different purposes specified in § 945.54, or any combination of the foregoing, during any period; or

(c) Limit the handling of tomatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(d) Fix the size, weight, capacity, dimensions, or pack of the container or containers which may be used in the packaging, transportation, sale, shipment, or other handling of tomatoes.

§ 945.53 *Minimum quantities.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which handling will be free from regulations issued or effective pursuant to §§ 945.42, 945.52, 945.54, 945.60, or any combination thereof.

§ 945.54 *Shipments for special purposes.* Upon the basis of recommendations and information submitted by the committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared policy of the act, shall modify, suspend, or terminate regulations issued pursuant to §§ 945.42, 945.52, 945.53, 945.60, or any combination thereof, in order to facilitate handling of tomatoes for the following purposes:

(a) For export;

(b) For relief or for charity;

(c) For processing; or

(d) For other purposes which may be specified by the committee, with the approval of the Secretary.

§ 945.55 *Notification of regulation.* The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 945.56 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent handling of tomatoes pursuant to § 945.53 or § 945.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to ship tomatoes pursuant to §§ 945.53 and 945.54; or

(2) Handlers shall obtain inspection provided by § 945.60, or pay the assessment levied pursuant to § 945.42, or both, in connection with shipments made under § 945.54; or

(3) Handlers shall obtain Certificates of Privilege from the committee to handle tomatoes effected or to be effected under the provisions of §§ 945.53 and 945.54.

(b) The committee may rescind or deny Certificates of Privilege to any handler if proof is obtained that tomatoes handled by him for the purposes stated in §§ 945.53 and 945.54 were handled contrary to the provisions of this part.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certifi-

cates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of tomatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of tomatoes handled under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 945.60 *Inspection and certification.* (a) During any period in which handling of tomatoes are regulated pursuant to §§ 945.42, 945.52, 945.54, or any combination thereof, no handler shall handle tomatoes unless each such handling is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, except when relieved from such requirements pursuant to § 945.53, or § 945.54, or both.

(b) Regrading, resorting, or repacking any lot of tomatoes shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall handle tomatoes after they have been regraded, resorted, repacked, or in any other way further prepared for market, unless each lot of such tomatoes is inspected by an authorized representative of the Federal-State Inspection Service, or such other inspection service as the Secretary shall designate: *Provided*, That the committee, with approval of the Secretary, may provide for waiving inspection requirements on any tomatoes in circumstances where it appears reasonably certain that, after regrading, resorting, or repacking, such tomatoes meet the applicable quality and other standards then in effect.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(d) When tomatoes are inspected in accordance with the requirements of this section a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

EXEMPTIONS

§ 945.70 *Procedure.* The committee may adopt, with approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

§ 945.71 *Granting exemptions.* The committee shall issue certificates of exemption to any producer who applies for such exemption and furnishes adequate evidence to the committee, that by reason of a regulation issued pursuant to § 945.52 he will be prevented from handling as large a proportion of his production as the average proportion of production handled during the entire season, or such portion thereof as may be determined by the committee, by all producers in said applicant's immediate production area and that the grade, size, or quality of the applicant's tomatoes have been adversely affected by acts beyond the applicant's control and by acts beyond reasonable expectation. Each certificate shall permit the producer to handle the amount of tomatoes specified thereon. Such certificate shall be transferred with such tomatoes at time of transportation or sale.

§ 945.72 *Investigation.* The committee shall be permitted at any time to make a thorough investigation of any producer's or handler's claim pertaining to exemptions.

§ 945.73 *Appeal.* If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 945.74 *Records.* (a) The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of tomatoes covered by such exemption certificates, a record of the amount of tomatoes handled under exemption certificates, a record of appeals for reconsideration of applications, and such information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

(b) The Secretary shall have the right, to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to §§ 945.70, 945.71, 945.72, 945.73, or any combination thereof.

REPORTS

§ 945.80 *Reports.* Upon request of the committee, made with approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part.

(a) Such reports may include, but are not necessarily limited to, the following: (1) The quantities of tomatoes received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such tomatoes; and (4) identification of the inspection certificates and the exemption certificates, if any, pursuant to which the tomatoes were handled, together with the destination of each exempted disposition, and of all tomatoes handled pursuant to §§ 945.53 and 945.54.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the tomatoes received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 945.81 *Compliance.* Except as provided in this subpart, no handler shall handle tomatoes, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall handle tomatoes except in conformity to the provisions of this subpart.

§ 945.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 945.83 *Effective time.* The provisions of this subpart, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 945.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operations of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers, who during a representative period, have been engaged in the production for market of tomatoes: *Provided*, That such majority has, during such representative period, produced for market more than fifty percent of the volume of such tomatoes produced for market.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 945.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as joint trustees for the purpose of liquidating the affairs of the committee of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 945.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 945.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 945.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the United States, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 945.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 945.90 *Personal liability.* No member or alternate of the committee nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 945.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 945.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

§ 945.93 *Counterparts.* This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[1]

§ 945.94 *Additional parties.* After the effective date hereof, any handler who had not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[1]

§ 945.95 *Order with marketing agreement.* Each signatory handler favors and approves the issuance of an order, by the Secretary, regulating the handling of tomatoes in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.[1]

Done at Washington, D. C., this 24th day of May 1955.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 4b, 40, 41, 42, 43, 45]

[Draft Release 55-14]

POSITION AND ANTI-COLLISION LIGHT SYSTEMS ON TRANSPORT CATEGORY AIRPLANES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the issuance of a Special Civil Air Regulation to extend the authority contained in Special Civil Air Regulation No. SR-392 as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by June 20, 1955. Copies of such communications will be available after June 22, 1955, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

On April 9, 1953, the Board adopted Special Civil Air Regulation No. SR-392 which permits experimentation projects on a limited number of airplanes for the purpose of improving position light and anti-collision light systems. SR-392

terminates on June 30, 1955. The Bureau of Safety Regulation considers that further improvement of the conspicuity of transport airplanes is desirable and that continued experimentation along these lines should be permitted.

This proposed special regulation would authorize continued experimentation on a limited number of transport category airplanes with position light and anti-collision light systems which deviate from the specifications prescribed in presently effective Part 4b of the Civil Air Regulations, provided such deviations are within limitations prescribed by the Administrator to be necessary for safety and for avoiding confusion in air navigation.

In view of the foregoing, notice is hereby given that it is proposed to promulgate a Special Civil Air Regulation to read as follows:

Contrary provisions of the Civil Air Regulations notwithstanding, any air carrier may, subject to the approval of the Administrator, engage, while operating airplanes in scheduled or other service, in experimentation on a limited number of airplanes, with projects designed to improve the position light and anti-collision light systems presently specified in Part 4b of the Civil Air Regulations. The Administrator shall prescribe such conditions and limitations as may be necessary to assure safety and to avoid confusion in air navigation, and shall require each carrier to disclose publicly its deviations from the requirements of Part 4b at times and in a manner which he deems consistent with the best interests of safety.

This regulation supersedes Special Civil Air Regulation No. SR-392, and shall terminate June 30, 1960, unless sooner superseded or rescinded.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended, and may be changed in the light of comments received in response to this notice of proposed rule making.

Dated at Washington, D. C., May 18, 1955.

By the Bureau of Safety Regulation.

[File No. 461]

CORSET, BRASSIERE, AND ALLIED PRODUCTS INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS ON PROPOSED TRADE PRACTICE RULES

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, firms, corporations, organizations, or other parties, including farm, labor, and consumer groups, affected by or having an interest in the proposed trade practice rules for the corset, brassiere, and allied products industry, to present to the Commission such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than June 23, 1955. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., d. s. t., June 23, 1955, in Suite 135 of the Biltmore Hotel, 43d Street and Madison Avenue, New York City, to any person who desires to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry for which trade practice rules are sought to be established through these proceedings is composed of persons, firms, corporations, and organizations engaged in the manufacture, importation, or marketing at any level of distribution, of corsets, brassieres, girdles, combinations, garter belts, bust pads, and related foundation garments.

By direction of the Commission.

CIVIL AERONAUTICS BOARD

[Docket No. 6600 et al.]

HELICOPTER AIR SERVICE, INC., AND MIDWAY AIRLINES, INC.; CHICAGO AREA SERVICE CASE

NOTICE OF HEARING

In the matter of the applications of Helicopter Air Service, Inc., for renewal and amendment of its temporary certificate of public convenience and necessity and of Midway Airlines, Inc., for a certificate of public convenience and necessity and/or exemption authority.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, particularly sections 401 and 1001 of said act, that a hearing in the above-entitled proceeding is assigned to be held on June 13, 1955, at 10:00 a. m., local time, in Room 224, U. S. Court House, 219 South Clark Street, Chicago, Illinois.

Without limiting the scope of the issues, particular attention will be directed to the following matters and questions:

1. Whether the public convenience and necessity require the renewal and amendment of the temporary certificate of public convenience and necessity of Helicopter Air Service, Inc., as set forth in its application, and amendments thereto, filed with the Board in Docket No. 6600.

2. Whether the public convenience and necessity require the grant of the application, as amended, filed with the Board by Midway Airlines, Inc. in Docket No. 6852.

3. Are the applicants fit, willing, and able to perform such transportation properly and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board thereunder.

For further details of the service proposed, and the authorizations requested, interested parties are referred to the applications, the Board's order No. E-8963, and the prehearing conference report which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties of record desiring to be heard in support or opposition to questions involved in this proceeding must file with the Board on or before June 13, 1955, a statement setting forth the matters of fact or law which he desires to advance or controvert. Any person filing such a statement may appear at the hearing in accordance with § 302.14 of the Board's rules of practice in Economic Proceedings.

Dated at Washington, D. C., May 23, 1955.

Maritime Administration

PACIFIC FAR EAST LINE, INC.

NOTICE OF APPLICATION

Notice is hereby given of the application of Pacific Far East Line, Inc., seeking the written permission of the Maritime Administrator under section 805 (a) Merchant Marine Act, 1936, 46 U. S. C. 1223, to load approximately 3,000 tons of newsprint at Port Angeles, Washington, on or about May 30, 1955, for discharge at San Francisco and Long Beach, California.

Under the provisions of section 805 (a), the Maritime Administrator may not grant any such application if the Administrator finds it will result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal service or that it will be prejudicial to the objects and policy of the act.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 805 (a) should notify the Acting Secretary, Maritime Administration, on or before noon, May 31, 1955, and should file petitions for leave to intervene in accordance with § 201.81 of the Federal Maritime Board/Maritime Administration's rules of procedure (18 F. R. 3716).

In the absence of receipt of any such request for hearing and petition for leave to intervene, the Maritime Administrator will grant the requested permission.

CHIEF HEARING EXAMINER

DELEGATION OF CERTAIN AUTHORITIES PRESENTLY DELEGATED TO MOTIONS COMMISSIONER AND HEARING EXAMINER

In the matter of amendment of Part 0 of the Commission's rules and regulations, by delegating to the Chief Hearing Examiner certain authorities presently delegated to the Motions Commissioner and the Hearing Examiner.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 18th day of May 1955:

The Commission having under consideration the delegation to the Chief Hearing Examiner of certain authorities presently delegated to the Motions Commissioner and the Hearing Examiner; and

It appearing, that the amendment herein ordered would be in aid of orderly administrative procedure; and

It further appearing, that the amendment herein ordered is procedural in nature, and, therefore, compliance with the public notice and rule making procedure required by sections 4 (a) and (b) of the Administrative Procedure Act is not required;

It is ordered, That pursuant to section 4 (i) and 303 (r) of the Communications Act, as amended, and section 3 (a) of the Administrative Procedure Act, Part 0 of the Commission's rules is hereby amended, effective immediately, as set forth below.

Released: May 20, 1955.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] MARY JANE MORRIS, *Secretary.*

1. Section 0.222 of the Commission's rules and regulations is amended by deleting in subsection (a) thereof after the words "In cases designated for hearing" the words "but before a hearing examiner has been designated to preside at a hearing and." As amended, section 0.222 (a) reads as follows:

(a) In cases designated for hearing after issuance of an initial decision, on all motions, petitions or other pleadings except (1) those requesting final disposition of any case on its merits, (2) those having the nature of an appeal to the Commission, en banc, (3) those changing the issues upon which the hearing was ordered, and (4) those requesting change or modification of a final order made by the Commission.

2. Section 0.224 of the Commission's rules and regulations is amended by substituting in subsection (c) for the words "After a hearing examiner has been designated to preside at a hearing and before he" the following phrase "After a case has been designated for hearing and before the hearing examiner."

3. Section 0.224 of the Commission's rules and regulations is further amended by adding to subsection (c) a new number (5). As amended, section 0.224 (c) reads as follows:

(c) After a case has been designated for hearing and before the hearing examiner has issued an initial decision, on motions, petitions and other pleadings concerning

(1) Petitions to intervene.

(2) Petitions filed by applicant requesting that its application or the proceeding thereon be dismissed.

(3) Dismissal of cease and desist and revocation proceedings.

(4) Requests for leave to file additional pleadings provided for in § 1.730 and pleadings in excess of the length specified in § 1.751.

(5) In the absence of the hearing examiner who has been designated to preside in a proceeding, to discharge the hearing examiner's functions delegated to him under section 0.231.

BARTLETT AND REED MANAGEMENT AND BLACKHILLS VIDEO CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Bartlett and Reed Management, Rapid City, South Dakota, Docket No. 11392, File Nos. 557/558/559/560/561/562/563-C1-P-55; and Blackhills Video Company, Rapid City, South Dakota, Docket No. 11393, File Nos. 1096/1097/1098/1099/1100/1101/1102/1103/1104/1105-C1-P-55; for construction permits for radio relay facilities.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 18th day of May 1955;

The Commission, having under consideration the above-entitled applications for construction permits to establish separate common carrier microwave systems, from points within the signal contour area of television stations located at Denver, Colorado, to Rapid City, South Dakota, for the purpose of transmitting television program material to the latter point; and

It appearing that neither applicant has submitted a satisfactory showing that its proposed facility is required to serve the public interest, convenience or necessity; and

It further appearing that the establishment of two separate and competing systems for the provision of service to the same area may result in wasteful duplication of facilities; and,

It further appearing that the Commission has advised each of the above-entitled applicants by letters, dated April

14 and April 18, 1954, respectively, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, as to the reasons why its applications cannot be granted without hearing, and has carefully considered the responses thereto:

It is ordered, That, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at the offices of the Commission in Washington, D. C., commencing at 10:00 a. m., on July 5, 1955, upon the following issues:

1. To determine the need for either or both services in the respective areas to be served.

2. To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices and services of each applicant.

3. To determine the comparative qualifications of the principals of both applicants to construct and operate the proposed microwave relay circuits.

4. To determine, in the light of the evidence adduced on the foregoing issues, whether the public interest, convenience or necessity would be served by a grant of any of the applications and whether either or both of the respective system applications should be granted.

[Docket No. G-1783]

TRANSCONTINENTAL GAS PIPELINE CORP.

NOTICE OF PETITION TO AMEND AND DATE OF HEARING

MAY 23, 1955.

Take notice that on April 29, 1955, Transcontinental Gas Pipeline Corporation (Petitioner), a Delaware corporation, having its principal place of business at Houston, Texas, filed a petition to amend the certificate of public convenience and necessity heretofore issued to Petitioner in the above-entitled matter in the manner hereinafter indicated.

By the decision of the Commission's Presiding Examiner, filed April 17, 1952, as modified and affirmed by the Commission in its order issued June 25, 1952, Petitioner was granted a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, to construct and operate facilities for the transportation and sale of natural gas to the Duke Power Company.

Petitioner seeks to amend Paragraph (A) of said Decision, which provided for the delivery of natural gas to the Duke Power Company as follows,

(A) The facilities herein authorized shall be used for the transportation and delivery of natural gas on an interruptible basis, and gas so transported and delivered shall be limited to the natural gas that is available as the difference between the Applicant's pipeline delivery capacity of 50,000 Mcf per day, which was specifically authorized by the Commission in Docket No. G-1411 and the volume of gas actually delivered under such authorization, but not in any event to exceed 30,000 Mcf in any one calendar day, and not more than the following total annual quantities:

First year 5,529,000 Mcf.
Second year 3,000,000 Mcf.
Third year 2,520,000 Mcf.
Fourth year 2,520,000 Mcf.
Fifth year 2,520,000 Mcf.

by substituting the following:

(A) The facilities herein authorized shall be used for the transportation and delivery, on an interruptible basis and subject to the terms and conditions hereinafter ordered, of such volumes of natural gas as Transcontinental may have available south of Compressor Station No. 15 and as Duke Power may be willing to purchase, but in no event shall such volumes exceed 50,000 Mcf per day.

In addition, Petitioner requests that Paragraph (C) of said Decision should be deleted. Said paragraph reads as follows:

(C) The operation of the facilities herein authorized is hereby limited to a period of five years from the date of the first delivery of natural gas to Duke Power Company unless such period shall hereafter be extended by order of the Commission.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 15, 1955, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such petition.

Protests, petitions to intervene, or notices of intervention may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before June 13, 1955.

LENOIR M. JOSEY, INC., ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

MAY 23, 1955.

In the matter of Lenoir M. Josey, Inc., Houston Oil Well Service Company, R. A. Josey Estate, Pine Lodge Oil Company, Inc., Jack S. Josey, M. F. Brown, N. E. Payne, Jack W. Craig, Robert H. Park, W. R. Donaho; Docket No. G-8709.

Take notice that Lenoir M. Josey, Inc., a Texas corporation whose address is C & I Life Building, Houston 2, Texas, filed an application on April 1, 1955, for itself and as agent for the above-entitled applicants for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the Applicants to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicants propose to sell natural gas produced from the North Hungerford Field, Fort Bend and Wharton Counties, Texas, to Tennessee Gas Transmission Company. Tennessee will transport and sell the gas in interstate commerce. The delivery point will be at Tennessee's pipe line in the field. It is estimated that the rate of delivery will be approximately 105,000 Mcf per month. The initial price will be 13.47548 cents per Mcf at 14.65 psia.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 17, 1955, at 9:30 a. m. e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 9, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

LUZ Y FUERZA DE REYNOSA S. A. AND CENTRAL POWER AND LIGHT CO.

NOTICE OF APPLICATIONS

MAY 23, 1955.

In the matters of Luz y Fuerza de Reynosa S. A., Docket No. E-6295; Central Power and Light Co., Docket No. E-6191.

Take notice that on May 16, 1955, Luz y Fuerza de Reynosa S. A. and Central Power and Light Company (Applicants), filed a joint application in each of the above dockets for authority, pursuant to section 202 (e) of the Federal Power Act, to increase the amount of electric energy which they may transmit from the United States to Mexico.

By one of these applications Applicants seek authority to export from a point near Hidalgo, Texas, to the vicinity of Reynosa, Tamaulipas, Mexico, up to 20,000,000 kwh of electric energy annually at a maximum rate of transmission of 4,000 kw; the authorization to supersede that heretofore granted by order of the Commission dated May 3, 1950, in Docket No. E-6191. In the other application Applicants seek authority to export from a point near Donna River Pumping Station at Progresso, Texas, to the vicinity of Rio Bravo, Tamaulipas, Mexico, up to 25,000,000 kwh of electric energy annually at a maximum rate of transmission of 5,000 kw; the authorization to supersede that heretofore granted by order of the Commission dated December 18, 1950, in Docket No. E-6295.

Any person desiring to be heard, or to make any protest with reference to these applications should, on or before the 13th day of June 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's general rules and regulations. The applications are on file with the Commission for public inspection.

[Docket No. G-1783]

TRANSCONTINENTAL GAS PIPELINE CORP.

NOTICE OF PETITION TO AMEND AND DATE OF HEARING

MAY 23, 1955.

Take notice that on April 29, 1955, Transcontinental Gas Pipeline Corporation (Petitioner), a Delaware corporation, having its principal place of business at Houston, Texas, filed a petition to amend the certificate of public convenience and necessity heretofore issued to Petitioner in the above-entitled matter in the manner hereinafter indicated.

By the decision of the Commission's Presiding Examiner, filed April 17, 1952, as modified and affirmed by the Commission in its order issued June 25, 1952, Petitioner was granted a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, to construct and operate facilities for the transportation and sale of natural gas to the Duke Power Company.

Petitioner seeks to amend Paragraph (A) of said Decision, which provided for the delivery of natural gas to the Duke Power Company as follows,

(A) The facilities herein authorized shall be used for the transportation and delivery of natural gas on an interruptible basis, and gas so transported and delivered shall be limited to the natural gas that is available as the difference between the Applicant's pipeline delivery capacity of 50,000 Mcf per day, which was specifically authorized by the Commission in Docket No. G-1411 and the volume of gas actually delivered under such authorization, but not in any event to exceed 30,000 Mcf in any one calendar day, and not more than the following total annual quantities:

First year 5,529,009 Mcf.
Second year 3,000,000 Mcf.
Third year 2,520,000 Mcf.
Fourth year 2,520,000 Mcf.
Fifth year 2,520,000 Mcf.

by substituting the following:

(A) The facilities herein authorized shall be used for the transportation and delivery, on an interruptible basis and subject to the terms and conditions hereinafter ordered, of such volumes of natural gas as Transcontinental may have available south of Compressor Station No. 15 and as Duke Power may be willing to purchase, but in no event shall such volumes exceed 50,000 Mcf per day.

In addition, Petitioner requests that Paragraph (C) of said Decision should be deleted. Said paragraph reads as follows:

(C) The operation of the facilities herein authorized is hereby limited to a period of five years from the date of the first delivery of natural gas to Duke Power Company unless such period shall hereafter be extended by order of the Commission.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 15, 1955, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such petition.

Protests, petitions to intervene, or notices of intervention may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before June 13, 1955.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-867]

MAINE CENTRAL RAILROAD CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

MAY 23, 1955.

In the matter of Maine Central Railroad Company, Common Stock, $100 Par Value; File No. 1-867.

The above named issuer, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw the specified security from listing and registration on the Boston Stock Exchange.

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The management wishes to encourage the holding of its common stock for investment in the vicinity of the railroad, which operates principally in the State of Maine. Accordingly it wishes to dispense with the more general market afforded by an exchange listing. Over 73,000 of the 120,000 shares are owned by directors and principal stockholders, leaving too few shares publicly held to be appropriate for an exchange market in any event.

At the annual meeting of stockholders, April 27, 1955, for which proxies were solicited, 72,058 shares were voted in favor of, and 7,095 against, delisting. The 7,095 shares were voted by 27, or 4 percent, of the 680 holders of record. An additional 7,000 shares in favor of delisting arrived too late to be voted.

The bonds and preferred stock of the applicant will remain listed on the New York and Boston Stock exchanges, respectively.

The Boston Stock Exchange has no applicable delisting rule, but has been notified of the proposed delisting.

Upon receipt of a request, on or before June 8, 1955, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

VOLUME 20 NUMBER 105

Washington, Saturday, May 28, 1955

TITLE 3—THE PRESIDENT

PROCLAMATION 3096

PRAYER FOR PEACE, MEMORIAL DAY, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS Memorial Day each year serves as a solemn reminder of the scourge of war and its bitter aftermath of sorrow; and

WHEREAS this day has traditionally been devoted to paying homage to loved ones who lie in hallowed graves throughout the land, having sacrificed their lives that war might end; and

WHEREAS in tribute to these silent dead it is fitting that we lift up our voices together in supplication to Almighty God for wisdom in our search for an enduring peace; and

WHEREAS the Congress, in a joint resolution approved May 11, 1950, provided that Memorial Day should be set aside as a day of prayer for permanent peace, and requested the President to issue a proclamation calling upon the people of the United States to observe each Memorial Day in that manner:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim Memorial Day, Monday, the thirtieth of May, 1955, as a day of Nation-wide prayer for permanent peace, and I designate the hour beginning in each locality at eleven o'clock in the morning as a period in which the people of this Nation may unite in beseeching God to guide the nations of the world into the ways of peace.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this twenty-fourth day of May in the year of our Lord nineteen hundred and fifty-five, and of the Independence of the United States of America the one hundred and seventy-ninth.

"U. S. GRADE A"; EFFECTIVE TIME AND SUPERSEDURE

In F. R. Doc. 55-3822 appearing in the FEDERAL REGISTER issue (20 F. R. 3252 et seq.) for Friday, May 13, 1955, the following corrections are hereby made:

(1) In the 13th line of paragraph (a) of § 52.2283 *Grades of Canned Peas* (20 F. R. 3252) insert the words "or a fairly good liquor" after the phrase *"Provided,* That the canned peas may possess a reasonably good liquor."

(2) In the last line of the first paragraph of *Effective time and supersedure* (20 F. R. 3255) change the words "April 4" to read "May 1."

The aforementioned errors were made inadvertently and the indicated changes are to correct the same. The change listed under (1) is necessary to provide an alternative standard for liquor and the change listed under (2) is not of substantive importance. These changes will not impose additional liabilities or burdens on any interested party and advance notice of such changes are not needed. They will merely correct and supplement, in minor aspect, the United States Standards for Grades of Canned Peas which became effective on May 13, 1955, and such changes are necessary and appropriate to enable those standards to be applied properly. Therefore, it would be impracticable, unnecessary and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, or delay the

[1] Compliance with these standards does not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 37]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.337 *Valencia Orange Regulation 37*—(a) *Findings.* (1) Pursuant to Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on May 26, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., May 29, 1955, and ending at 12:01 a. m., P. s. t., June 5, 1955, is hereby fixed as follows:

(i) District 1: 207,900 boxes;
(ii) District 2: 219,450 boxes;
(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

[Orange Reg. 280]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.740 *Orange Regulation 280*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 30, 1955. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until May 30, 1955; the recommendation and supporting information for continued regulation subsequent to May 29, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on May 24; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., May 30, 1955, and ending at 12:01 a. m., e. s. t., June 13, 1955, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 288 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than 3$\frac{5}{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straght line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges larger than such maximum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title): *Provided,* That in determining the percentage of oranges in any lot which are larger than 3$\frac{5}{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 3 inches in diameter and larger.

(2) During the period beginning at 12:01 a. m., e. s. t., June 13, 1955, and ending at 12:01 a. m., e. s. t., October 3, 1955, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 324 oranges, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(3) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and

order; and the terms "U. S. No. 1 Russet," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title).

Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 274 (§ 933.728, 20 F. R. 1359).

[Grapefruit Reg. 225]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.741 *Grapefruit Regulation 225*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 30, 1955. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until May 30, 1955; the recommendation and supporting information for continued regulation subsequent to May 29, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on May 24; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., May 30, 1955, and ending at 12:01 a. m., e. s. t., June 13, 1955, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2;

(ii) Any seedless grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(iii) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) During the period beginning at 12:01 a. m., e. s. t., June 13, 1955, and ending at 12:01 a. m., e. s. t., September 12, 1955, no handler shall ship:

(i) Any grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(ii) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iii) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(3) As used in this section, "handler," "ship," and "Growers Administrative Committee," shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2," "U. S. No. 2 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

[Lemon Reg. 591]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.698 *Lemon Regulation 591*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on May 25, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., May 29, 1955, and ending at 12:01 a. m., P. s. t., June 5, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 550 carloads;
(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

[Avocado Order 7]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

QUALITY REGULATION

§ 969.307 *Avocado Order 7*—(a) *Findings.* (1) On April 21, 1955, notice of rule-making was published in the FEDERAL REGISTER (20 F. R. 2666) regarding a proposed limitation of shipments of avocados, grown in South Florida, effective at 12:01 a. m., e. s. t., June 1, 1955, pursuant to the marketing agreement and Order No. 69, regulating the handling of avocados grown in South Florida. This regulatory program is effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 35 seq.). After consideration of all relevant matters presented, including the proposal, set forth in the aforesaid notice, which was submitted by the Avocado Administrative Committee (established pursuant to the marketing agreement and order), it is hereby found that the limitation of shipments of avocados, in the manner and during the period hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) and for making the provisions hereof effective at the time herein specified in that: Shipments of avocados, grown in South Florida, are currently prohibited until 12:01 a. m., e. s. t., June 1, 1955, under the maturity regulation (§ 969.306; 20 F. R. 3427) issued on May 12, 1955; shipments of such avocados are expected to begin on or soon after June 1, 1955, and this section should be applicable to all such shipments in order to prevent the shipment of avocados of undesirable quality and appearance; growers and handlers of Florida avocados have been notified of the provisions of the proposed regulation and were given an opportunity to submit data, views, or arguments for consideration in connection therewith, but failed to do so; compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof; and a reasonable time is permitted, under the circumstances, for the preparation for such effective time.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 1, 1955, and ending at 12:01 a. m., e. s. t., March 31, 1956, no handler shall handle:

(i) Any avocados, grown in South Florida, which do not grade at least No. 3 Grade, as defined in § 969.130 (d) of the supplementing rules and regulations (20 F. R. 3557).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: May 26, 1955.

PART 975—MILK IN THE CLEVELAND, OHIO, MARKETING AREA

ORDER TERMINATING CERTAIN PROVISION OF ORDER, AS AMENDED, REGULATING HANDLING

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 975), regulating the handling of milk in the Cleveland, Ohio, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) In § 975.60 (b) (2) of the order the provision "in barrels" does not tend to effectuate the declared policy of the act;

(b) Notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impracticable, unnecessary and contrary to the public interest, in that (1) the information on which this action is based did not become available in sufficient time for such compliance; (2) the issuance of this termination order effective as set forth below is necessary to reflect current marketing conditions and facilitate, promote and maintain the orderly marketing of milk produced for the said marketing area; (3) on April 8, 1955, the Market News Service of the Department of Agriculture stopped reporting Chicago price quotations for roller process nonfat dry milk solids for human consumption in drums and barrels. This was done because too few sales were being made in drums and barrels to report such prices. Most price quotations now relate to sales in bags and this series is being continued by the Market News Service.

It is therefore ordered, That in § 975.60 (b) (2) the provision "in barrels" be and hereby is terminated effective immediately.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 25th day of May 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

AUTHORITY: §§ 998.0 to 998.101 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 998.0 *Findings and determinations.* (a) Findings upon the basis of the hear-

ing record. Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Corpus Christi, Texas, marketing area. Upon the basis of the evidence introduced in such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expense, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe with respect to all (a) receipts of producer milk including such handler's own production, (b) other source milk at a fluid milk plant which is classified as Class I milk and, (c) Class I disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (except fluid milk plant) located in the marketing area from a nonfluid milk plant.

(b) *Additional findings.* In view of the fact that this order will constitute the original imposition of a regulatory program of this nature for the market, the provisions other than those relating to prices and payments to producers, should be put into effect prior to the effective date of the entire order to afford handlers an oportunity to make any necessary changes in their accounting procedure or other adjustments as required to conform with all provisions of the order. Reasonable time will have been afforded interested parties to prepare to comply with the aforesaid provisions. The provisions of said order are known to handlers. The decision of the Assistant Secretary of Agriculture containing all provisions of this order was issued on May 3, 1955. In view of the foregoing, it is hereby found and determined that good cause exists for making §§ 998.1 through 998.16; 998.20 through 998.22; 998.30 through 998.34; 998.40 through 998.46; 998.60, 998.61, 998.84, 998.90 through 998.93, 998.100 and 998.101 effective on June 15, 1955, and the entire order (§§ 998.1 through 998.101) effective July 1, 1955. It would be contrary to the public interest to delay such effective dates of this order for 30 days after its publication in the FEDERAL REGISTER. (See Sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of more than 50 percent of the milk covered by this order which is marketed within the Corpus Christi, Texas marketing area refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the marketing area; and

(3) The issuance of this order is approved or favored by at least three-fourths of the producer who, participated in a referendum thereon and who, during the determined representative period (March 1955), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Corpus Christi, Texas, marketing area shall be in conformity to and in compliance with the following terms and conditions:

DEFINITIONS

§ 998.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 998.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 998.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 998.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 998.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 998.6 *Corpus Christi, Texas, Marketing Area.* "Corpus Christi, Texas, Marketing Area", hereinafter called the "marketing area," means all the territory within the Counties of Nueces, Jim Wells, Kleberg, Brooks, Duval, Live Oak and San Patricio.

§ 998.7 *Fluid milk plant.* "Fluid milk plant" means any milk processing or packaging plant from which Class I milk equal to more than three percent of the Grade "A" milk and skim milk received from dairy farmers and other plants, or an average of 1,000 or more pounds of Class I milk per day, whichever is less, is disposed of during the month in the marketing area through a route(s).

§ 998.8 *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing, or bottling plant other than a fluid milk plant.

§ 998.9 *Approved plant.* "Approved plant" means: (a) A fluid milk plant and (b) any milk plant from which Class I milk is disposed of on a route in the marketing area.

§ 998.10 *Handler.* "Handler" means any person in his capacity as the operator of one or more approved plants.

§ 998.11 *Route.* "Route" means the operation of a vehicle or a plant store (including that operated by a vendor) through which milk, skim milk, buttermilk, cream or flavored milk drinks are disposed of to retail or wholesale outlets in the marketing area.

§ 998.12 *Producer.* "Producer" means any person except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is (a) received at a fluid milk plant or (b) diverted for his account by the operator of a fluid milk plant from such plant to a nonfluid milk plant during any of the months of March through July: *Provided,* That milk so diverted shall be deemed to have been received by the diverting handler at the plant from which it was diverted.

§ 998.13 *Producer milk.* "Producer milk" means all skim milk and butterfat contained in milk produced by a producer and received at a fluid milk plant directly from producers or diverted from such a plant pursuant to § 998.12.

§ 998.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form or products designated as Class I milk pursuant to § 998.41 (a) (1), except (1) such products received from other fluid milk plants, and (2) producer milk; and

(b) Products designated as Class II milk pursuant to § 998.41 (b) (1) from any source (including those produced at the plant) which are reprocessed or converted into another product during the month.

§ 998.15 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant but who receives no milk from other dairy farmers and disposes during the month of less than a daily average of 3,300 pounds of Class I milk as defined pursuant to § 998.41 (a) (1) through a route(s) in the marketing area.

§ 998.16 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

MARKET ADMINISTRATOR

§ 998.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 998.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 998.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 998.85 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 998.84) necessarily incurred by him in maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Verify all reports and payments of each handler by audit of such handler's records and the records of any other handler or person upon whose disposition of milk such handler claims classification of skim milk and butterfat and by such investigation as the market administrator deems necessary;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to § 998.30 to § 998.32, inclusive, or payments pursuant to § 998.80 to § 998.82, inclusive;

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing;

(1) On or before the 6th day of each month, the minimum price for Class I milk computed pursuant to § 998.51 (a) and the Class I butterfat differential computed pursuant to § 998.52 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 998.51 (b) and the Class II butterfat differential computed pursuant to § 998.52 (b), both for the previous month; and

(2) On or before the 12th day after the end of each month the uniform price for each handler computed pursuant to § 998.72 and the butterfat differential computed pursuant to § 998.81;

(j) On or before the 12th day after the end of each month, mail to each handler at his last known address, a statement showing for such handler the amount and value of producer milk in each class and the totals thereof; and

(k) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and such information concerning the operations hereof as are necessary and essential to the proper functioning of this part.

REPORTS, RECORDS AND FACILITIES

§ 998.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator for each of his approved plants as follows:

(a) The quantities of skim milk and butterfat contained in producer milk;

(b) The quantities of skim milk and butterfat contained in products designated as Class I milk pursuant to § 998.41 (a) received from fluid milk plants of other handlers;

(c) The quantities of skim milk and butterfat in other source milk;

(d) The quantities of skim milk and butterfat contained in inventories of products designated as Class I milk pursuant to § 998.41 (a) on hand at the beginning and end of the month;

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section including a statement of the disposition of Class I milk outside the marketing area; and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 998.31 *Payroll reports.* On or before the 20th day of each month each handler, except a producer-handler, shall submit to the market administrator his producer payroll for deliveries of milk for the preceding month for each of his fluid milk plants which shall show for each producer;

(a) His name and address;

(b) The total pounds and the average butterfat test of milk received; and

(c) Net amount of such handler's payment, together with the price(s) paid and the nature and amount of any deductions.

§ 998.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe;

(b) Each handler who causes milk to be diverted for his account directly from producers' farms to a nonfluid milk plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 998.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and other milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations including any deductions authorized by producers and disbursement of money so deducted;

§ 998.34 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler shall retain such books and

records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 998.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat at approved milk plants which is required to be reported for the month pursuant to § 998.30, shall be classified by the market administrator pursuant to the provisions of §§ 998.41 to 998.46 inclusive.

§ 998.41 *Classes of utilization.* Subject to the conditions set forth in §§ 998.43 and 998.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including reconstitued skim milk) and butterfat (1) disposed of in fluid form as milk, skim milk, buttermilk, flavored milk drinks, cream, cultured sour cream, any mixture of cream and milk or skim milk (other than frozen storage cream, aerated cream products, eggnog, ice cream, ice cream mix or other frozen mixes, evaporated or condensed milk and milk products contained in hermetically sealed containers), and (2) not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those designated as Class I milk pursuant to paragraph (a) of this section;

(2) Disposed of and used for livestock feed;

(3) Contained in inventory of milk and milk products designated as Class I milk pursuant to paragraph (a) (1) of this section on hand at the end of the month; and

(4) In shrinkage not to exceed 2 percent (5 percent with respect to skim milk during the months of April, May and June) of skim milk and butterfat, respectively, in producer milk and other source milk.

§ 998.42 *Shrinkage.* The market administrator shall assign shrinkage at the fluid milk plant(s) of each handler as follows:

(a) Compute the shrinkage at the fluid milk plant(s) of each handler as follows:

(a) Compute the shrinkage of skim milk and butterfat classified as Class II milk; and

(b) Assign the amounts pro rata to the handler's receipts of skim milk and butterfat, respectively, in producer milk and in other source milk.

§ 998.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified as Class II milk;

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 998.44 *Transfers.* Skim milk or butterfat disposed of each month from a fluid milk plant shall be classified:

(a) As Class I milk, if transferred in the form of products designated as Class I milk in § 998.41 (a) (1) to a fluid milk plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers in their reports submitted for the month to the market administrator pursuant to § 998.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 998.46 (a) (2) and the corresponding step of (b) and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *And provided further,* That if either or both handlers have other source milk as defined pursuant to § 998.14 during the month, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk of both handlers;

(b) As Class I milk, if transferred to a producer-handler in the form of products designated as Class I milk in § 998.41 (a) (1);

(c) As Class I milk, if transferred or diverted in the form of milk, skim milk or cream in bulk to a nonfluid milk plant located more than 225 miles distant by the shortest highway distance as determined by the market administrator, except that cream so transferred may be classified as Class II milk if notice is given to the market administrator at least 24 hours prior to shipment, each container is labeled by the transferor as "ungraded cream for manufacturing only" and such shipment is so invoiced;

(d) As Class I milk, if transferred or diverted in the form of milk, skim milk or cream in bulk to a nonfluid milk plant located not more than 225 miles distant by the shortest highway distance as determined by the market administrator, unless the following conditions are met:

(1) The transferring-handler claims Class II utilization in a product specified in § 998.41 (b);

(2) The operator of such nonfluid milk plant keeps adequate books and records showing the utilization of all skim milk and butterfat received at such plant and the market administrator is permitted to examine such books and records for the purpose of verification; and

(3) The Class I milk, as defined pursuant to § 998.41 (a) in such nonfluid milk plant does not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers, who the market administrator determines, constitute the regular source of supply for such plant: *Provided,* That any Class I milk in excess of receipts from such dairy farmers shall be assigned to milk, skim milk, or cream so transferred or diverted.

§ 998.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the fluid milk plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handler: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 998.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 998.45 the market administrator shall determine the classification of producer milk received at the fluid milk plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 998.42 (b);

(2) Subtract from the remaining pounds of skim milk in series beginning with Class II milk, the pounds of skim milk in other source milk as defined pursuant to § 998.14;

(3) Subtract from the remaining pounds of skim milk in series beginning with Class II milk, the pounds of skim milk contained in inventory on hand at the beginning of the month and classified pursuant to § 998.41 (b) (3);

(4) Subtract from the remaining pounds of skim milk in each class the skim milk contained in products designated as Class I milk in § 998.41 (a) (1) received from the fluid milk plants of other handlers, according to the classification of such skim milk as determined pursuant to § 998.44 (a);

(5) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(6) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section;

(c) Determine the weighted average butterfat content of producer milk allocated to Class I and Class II milk; respectively.

MINIMUM PRICES

§ 998.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed, pursuant to paragraphs (a), (b), and (c) of this section rounded to the nearest one-tenth cent.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture, divided by 3.5 and multiplied by 4.0.

(b) The price per hundredweight computed by adding together the plus values of subparagraphs (1) and (2) of this paragraph:

(1) From the Chicago butter price, subtract 3 cents, add 20 percent thereof, and multiply by 4.0.

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department of Agriculture, deduct 5.5 cents, multiply by 8.5, and then multiply by 0.96.

(c) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture.

§ 998.51 *Class prices.* Subject to the provisions of § 998.52, the minimum prices per hundredweight to be paid by each handler for milk received at his fluid milk plant from producers during the month shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price as determined pursuant to § 998.50, plus the following amount:

Month:	*Amount*
March, April, May and June	$2.55
All other months	2.95

Provided, That the above amounts shall be increased or decreased, respectively, by the same amount as any increase or decrease respectively, provided by the supply-demand adjustment determined pursuant to Order No. 43 regulating the handling of milk in the North Texas marketing area.

(b) *Class II milk price.* The minimum price per hundredweight to be paid by each handler for producer milk received at his fluid milk plant and classified as Class II milk shall be the price computed pursuant to subparagraph (1) of this paragraph for the months of March, April, May and June; and for each of the other months the price computed pursuant to subparagraph (1) of this paragraph or the price computed pursuant to subparagraph (2) of this paragraph, whichever is higher:

(1) The average of the basic or field price reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from dairy farmers at the following plants or places for which prices have been reported to the market administrator or to the Department:

Carnation Co., Sulphur Springs, Tex.

Lamar Creamery, Paris, Tex.

(2) The sum of the plus values computed as follows:

(i) Subtract 3 cents from the Chicago butter price, add 20 percent thereof, and multiply by 4.0.

(ii) From the simple average, as computed by the market administrator, of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b., manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department of Agriculture, deduct 5.5 cents, multiply by 8.16.

§ 998.52 *Butterfat differential to handlers.* For milk containing more or less than 4 percent butterfat, the class prices pursuant to § 998.51 shall be increased or decreased, respectively, for each one-tenth of one percent butterfat by the appropriate rate, rounded in each case to the nearest one-tenth cent, determined as follows:

(a) *Class I milk.* Multiply the Chicago butter price for the preceding month by 0.120;

(b) *Class II milk.* Multiply the Chicago butter price for the current month by 0.110.

APPLICATION OF PROVISIONS

§ 998.60 *Producer-handlers.* Sections 998.40 through 998.46, 998.50 through 998.53, 998.70 through 998.72 and 998.80 through 998.85 shall not apply to a producer-handler.

§ 998.61 *Plants subject to other Federal orders.* (a) An approved plant will be considered to be a non-fluid milk plant during the month for the purpose of this part if (1) a larger volume of Class I milk is disposed of from such plant in the marketing area of another order issued pursuant to the act than is distributed in the Corpus Christi marketing area to wholesale or retail outlets (other than to a distributing plant(s)) during the month, and (2) such plant would be subject to regulation pursuant to such order.

(b) The operator of such approved plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require in lieu of the reports required pursuant to § 998.30 and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICE

§ 998.70 *Net obligation of handlers.* The net obligation of each handler for producer milk received at his fluid milk plant(s) during each month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of such milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amount computed by multiplying the pounds of overage deducted from each class pursuant to § 998.46 (a) (6) and the corresponding step of § 998.46 (b) by the applicable class price;

(c) Add an amount computed as follows:

(1) Determine the pounds if any, that the skim milk or butterfat in inventory, subtracted from Class I milk pursuant to § 998.46 (a) (3) and the corresponding step of § 998.46 (b) is not in excess of the pounds in producer milk classified as Class II milk (other than as shrinkage) for the preceding month; and (2) multiply such pounds by the difference between the Class I price in the current month and the Class II price in the preceding month adjusted by the appropriate butterfat differentials;

(d) Add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months.

§ 998.71 *Computation of aggregate value used to determine uniform prices.* For each month the market administrator shall compute an aggregate value for each handler from which to determine the uniform price per hundredweight for producer milk of 4.0 percent butterfat content as follows:

(a) Add or subtract from the amount computed pursuant to § 998.70 for each one-tenth percent that the average butterfat content of producer milk received by such handler is less or more, respectively, than 4.0 percent, an amount computed by multiplying such difference by the butterfat differential to producers, as determined pursuant to § 998.81 and multiplying the result by the total hundredweight of producer milk; and

(b) Add the amount represented by any deductions made for eliminating fractions of a cent in computing the uniform price for such handler for the preceding month.

§ 998.72 *Computation of uniform prices for handlers.* The market administrator shall compute a uniform price for producer milk received by each handler as follows: Divide the aggregate value computed pursuant to § 998.71 by the total hundredweight of producer milk received by such handler. The result, less any fraction of a cent, shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, at a fluid milk plant.

PAYMENTS

§ 998.80 *Payments to producers.* Except as provided in paragraph (c) of this section, each handler shall make payment to each producer for milk received from such producers as follows:

(a) On or before the 28th day of each month, for milk received during the first 15 days of the month at not less than the Class II price for the preceding month;

(b) On or before the 15th day after the end of each month, for milk received during such month, an amount computed at not less than the uniform price per hundredweight pursuant to § 998.72 subject to the butterfat differential computed pursuant to § 998.81; plus or minus adjustments for errors made in previous payments to such producers; and less (1) payment made pursuant to paragraph (a) of this section, (2) marketing service deductions pursuant to § 998.83 and (3) proper deductions authorized by such producer;

(c) (1) Upon receipt of a written request from a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association each handler shall pay to the cooperative association on or before the 13th and 26th day of each month, in lieu of payments pursuant to paragraphs (a) and (b) respectively, of this section an amount equal to the sum of the individual payments otherwise payable to such producers. The foregoing payment shall be made with respect to milk of each producer whom the cooperative association certifies is a member effective on and after the first day of the calendar month next following receipt of such certification through the last day of the month next preceding receipt of notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association.

(2) A copy of each such request, promise to reimburse and certified list of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion, through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(d) In making the payments to producers pursuant to paragraphs (b) and (c) of this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement which shall show for each month:

(1) The month and the identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to this part;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer.

§ 998.81 *Butterfat differential to producers.* The applicable uniform prices to be paid pursuant to § 998.80 to producers delivering milk to each handler shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 4.0 percent, respectively, by a butterfat differential equal to the average of the butterfat differentials determined pursuant to paragraphs (a) and (b) of § 998.52, weighted by the pounds of butterfat in producer milk in each class and the result rounded to the nearest tenth of a cent.

§ 998.82 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts, or verification of weights and butterfat tests of milk or milk products discloses errors resulting in money due a producer or the market administrator from such handler or due such handler from the market administrator, the market administrator shall notify such handler of any amount so due, and payment thereof shall be made on or before the next date for making payments, as set forth in the provisions under which such error occurred.

§ 998.83 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 998.80, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 15th day after the end of each month and pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

§ 998.84 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to all (a) receipts of producer milk, including such handlers' own production; (b) other source milk at a fluid milk plant which is classified as Class I milk; and (c) Class I milk disposed of during the month through routes located in the marketing area from a nonfluid milk plant other than a plant defined in § 998.61.

§ 998.85 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 998.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 998.101.

§ 998.91 *Suspension or termination.* The Secretary may suspend or terminate this part or any provisions of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 998.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 998.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignment or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 998.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United State to act as his agent or representative in connection with any of the provisions of this part.

§ 998.101 *Separability of provisions.* If any provision of this part or its application to any person or circumstances is held invalid the application of such provision and of the remaining provisions of this part, to other persons or circumstances, shall not be affected thereby.

Sections 998.1 through 998.16; 998.20 through 998.22; 998.30 through 998.34; 998.40 through 998.46; 998.60, 998.61, 998.84, 998.90 through 998.93, 998.100 and 998.101 shall be effective on and after the 15th day of June 1955 and the entire order (§§ 998.1 through 998.101) shall be effective on and after the 1st day of July 1955.

Issued at Washington, D. C., this 25th day of May 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

PART 1067—AVOCADOS

AVOCADO REGULATION NO. 1

§ 1067.1 *Avocado Regulation No. 1.* (a) On and after the effective time of this section, the importation into the United States of any avocados is prohibited unless:

(i) Such avocados grade at least No. 3 grade, as defined in § 969.130 (d)[1] of this chapter, as amended (20 F. R. 3558), effective under the marketing agreement and Order No. 69 (Part 969 of this chapter; 19 F. R. 3439) regulating the handling of avocados grown in South Florida; and

(ii) Each such importation is made in conformance with the general regulations (Part 1060 of this subchapter; 19 F. R. 7707, 8012) applicable to the importation of listed commodities and the requirements of this section.

(b) Inspection by the Federal or Federal-State Inspection Service, or such other governmental inspection service as may be designated or approved by the Administrator, with appropriate evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of avocados, is required on all imports of avocados pursuant to § 1060.3 of this subchapter.

(c) Inspection certificates shall cover only the quantity of avocados that is being imported at a particular port of entry by a particular importer.

(d) The inspections performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title). The cost of any inspection and certification shall be borne by the applicant therefor.

(e) Each insepction certificate issued with respect to any avocados to be imported into the United States shall set forth, among other things:

(1) The date and place of inspection;

(2) The name of the shipper, or applicant;

(3) The name of the importer (consignee);

(4) The commodity inspected;

(5) The quantity of the commodity covered by the certificate;

(6) The principal identifying marks on the containers;

(7) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(8) The following statement, if the facts warrant: Meets U. S. import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(f) Notwithstanding any other provision of this section, any importation of avocados which, in the aggregate, does not exceed 55 pounds may be imported without regard to the restrictions specified herein.

(g) It is hereby determined, on the basis of the information currently available, that there are no variations in characteristics between the domestic and imported avocados which would require the establishment of equivalent or comparable quality requirements with respect to such imports.

It is hereby found that it is impracticable and contrary to the public interest to postpone the effective time of this regulation beyond that hereinafter specified (5 U. S. C. 1001 et seq.) because (a) the same quality restrictions as are provided herein are being made applicable to shipments of avocados produced in South Florida and the requirements of section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), makes such import regulation mandatory; (b) such domestic and import restrictions should become effective at as near the same time as is reasonably practicable; (c) notice that this action was being considered was published in the FEDERAL REGISTER issue of April 21, 1955 (20 F. R. 2668), and no written data, views, or arguments in connection therewith were received within the prescribed time; (d) compliance with this import regulation will not require any special preparation which cannot be completed by the effective time; (e) notice hereof in excess of three days, the minimum that is prescribed by said section 8e, is given with respect to this import regulation; and (f) such notice is hereby determined, under the circumstances, to be reasonable.

(Sec. 401 (e), 68 Stat. 907; 7 U. S. C. 608e)

Done at Washington, D. C., this 26th day of May 1955, to become effective at 12:01 a. m., e. s. t., June 5, 1955.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6289]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

V. LA ROSA & SONS, INC.

Subpart—*Advertising falsely or misleadingly:* § 13.20 *Comparative data or merits:* § 13.170 *Qualities or properties of product or service.* In connection with the offering for sale, sale, and distribution of the food products La Rosa sphaghetti and La Rosa macaroni or of any product of substantially similar composition, whether sold under the same names or any other name or names, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., the purchase in commerce, of respondent's said products, which advertisements (1) represent directly or by implication: (a) That any portion or serving of respondent's products will provide an amount of calories other than that which will be, in fact, provided when such portion or serving is prepared in accordance with respondent's directions or recommendations; (b) that said products are low-calorie foods or may be eaten as desired without increasing body weight; (c) that said products will at the same time provide more protein and fewer calories than other foods with which said products are compared, unless said representation be true; and (d) that said products are both high in protein and low in calories; or which advertisements (2) misrepresent the amount of calories or protein provided by respondent's products in comparison with other foods, or in any other manner; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, V. La Rosa & Sons, Inc., Brooklyn, New York, N. Y., Docket 6289, April 14, 1955]

This proceeding was heard by Frank Hier, hearing examiner, upon the complaint of the Commission which charged respondent, engaged in the manufacture and sale of macaroni and spaghetti, with making certain misrepresentations in connection with the advertisement of its said products through newspapers of general circulation, radio continuities, and otherwise, and upon a stipulation between the parties which was filed with the Commission, appears of record, and provides for the entry of a consent order, respondent admitting, by the terms of said stipulation, all the jurisdictional allegations set forth in the complaint, and stipulating that the record in the matter may be taken as if the Commission had made findings of jurisdictional fact in accordance with such allegations, and that the agreement was for settlement purposes only and does not constitute an admission by respondent that it has engaged in any violation of law.

The parties to such stipulation expressly waived the filing of an answer, a hearing before the hearing examiner or the Commission; the filing of exceptions or oral arguments before the Commission, and all other and further procedure before the hearing examiner and the Commission to which respondent might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission, and respondent further agreed that the order to be entered should have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon, and specifically waived any and all right, power, or privilege to challenge or contest the validity of the order entered in accordance with the stipulation.

The stipulation further provided that it, together with the complaint, should constitute the entire record in the matter and that the complaint might be used in construing the terms of said order, which order might be altered, modified, or set aside in the manner provided by the statute for the orders of the Commission, and such stipulation further provided that it was subject to approval in accordance with Rules V and XXII of the Commission's rules of practice and that said order should have no force and effect unless and until it became the order of the Commission.

Thereafter said hearing examiner, on the basis of the foregoing, made his initial decision in which he concluded that the proceeding was in the public interest, and in conformity with the action contemplated and agreed upon by such stipulation, made his order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order To File Report of Compliance", dated April 14, 1955, became, on that date, pursuant to Rule XXII of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That the respondent, V. La Rosa & Sons, Inc., a corporation and its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of the food products La Rosa spaghetti and La Rosa macaroni or of any product of substantially similar composition, whether sold under the same names or under any other name or names, do forthwith cease and desist from:

1. Disseminating or causing to be disseminated by means of United States mails or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents directly or by implication:

(a) That any portion or serving of its products will provide an amount of calories other than that which will be, in fact, provided when such portion or serving is prepared in accordance with respondent's directions or recommendations;

(b) That said products are low calorie foods or may be eaten as desired without increasing body weight;

(c) That said products will at the same time provide more protein and fewer calories than other foods with which said products are compared, unless said representation be true;

(d) That said products are both high in protein and low in calories.

2. Disseminating or causing to be disseminated by means of United States mails or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, any advertisement which misrepresents the amount of calories or protein provided by respondent's products in comparison with other foods, or in any other manner.

3. Disseminating or causing to be disseminated any advertisement, by any means for the purpose of inducing or which is likely to induce directly or indirectly the purchase in commerce as "commerce" is defined in the Federal Trade Commission Act, of respondent's said products, which advertisement contains any of the representations prohibited in paragraph 1 hereof or any misrepresentation forbidden in paragraph 2 hereof.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: April 14, 1955.

By the Commission.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter C—Military Education

PART 543—PROMOTION OF RIFLE PRACTICE

THE NATIONAL MATCHES

A new § 543.8, prescribing rules and regulations for the annual competition known as the National Matches, is added as follows:

§ 543.8 *Rules and regulations for National Matches*—(a) *General*—(1) *Purpose.* This section cites the statutory authority and the application thereof, and prescribes the conditions which govern the conduct of the National Matches.

(2) *Scope of National Matches (see figure 1).* (i) Those competitions for which trophies and medals are provided for by appropriated funds are referred to in this section as the National Trophy Matches. Regulations governing the National Matches are prescribed by the Secretary of the Army, upon recommendation of the National Board for the Promotion of Rifle Practice.

(ii) The National Matches are considered to be the ultimate in an overall integrated national program which has for its purpose the promotion of rifle and pistol marksmanship training among able-bodied citizens of the United States.

(iii) Following are the matches (National Trophy Matches) for which the national trophies, medals, and other badges are awarded by the National Board for the Promotion of Rifle Practice:

(*a*) National Trophy Individual Rifle Match (open).

(*b*) National Trophy Rifle Team Match (classified).

(c) National Intercollegiate Service Rifle Team Match (classified).

(*d*) National Trophy Individual Pistol Match (open).

(*e*) National Trophy Pistol Team Match (classified).

(*f*) Infantry Trophy Match (classified).

Requests for detailed information concerning these matches may be submitted to The National Board for the Promotion of Rifle Practice, Department of the Army, Washington 25, D. C.

(iv) The following are the matches for which trophies and medals are awarded by the National Rifle Association of America:

(*a*) Smallbore rifle matches.

(*b*) Junior School matches.

(c) Muzzle loading rifle and pistol matches.

(*d*) Pistol and revolver matches.

(*e*) High power rifle matches.

Detailed information concerning these matches will be found in the program of the National Championships of the National Rifle Association of America, published annually.

Section 113 of the National Defense Act of 1916, as amended, provides that there shall be held an annual competition known as the National Matches, together with a small arms firing school, which competition and school shall be held annually under such regulations as may be prescribed by the Secretary of the Army. The National Matches provided for by this act are required to consist of rifle and pistol matches to be open to all components of the services comprising the Armed Forces of the United States, the Reserve Officers' Training Corps, rifle clubs and civilians for the purpose of competing for national trophies, medals, and other prizes to be provided; and in addition, competitions for which trophies and medals are provided by the National Rifle Association of America (act 14 Feb. 1927 (44 Stat. 1095), and act 28 May 1928 (45 Stat. 786)).

(3) *Who may compete.* (i) The National Trophy Matches are open to any able-bodied citizen of the United States 16 years of age or older on the date of the match entered.

(ii) No team will have as a team captain or coach, anyone who is less than 21 years of age on his or her last birthday prior to the beginning date of the National Matches, and who is not a citizen of the United States.

(b) *Small Arms Firing School*—(1) *Mission and objective.* The primpary mission of the Small Arms Firing School is to bring to civilians and members of the various reserve components of the Armed Forces of the United States not reached through training programs conducted within the active military services information concerning methods of instruction which will assist them in promoting interest and raising the standard of performance in the use of individual arms by the citizenry of our country. This school is but part of the Armed Forces' civilian small arms training program which is directed towards developing competent civilian instructors. The methods and means of instruction presented by the school are considered to be the "Standard of Perfection" employed in rifle and pistol marksmanship instruction. A part of the instruction with the caliber .30 rifle will be devoted to technique of rifle fire training.

(2) *Open to.* Conduct of the Small Arms Firing School is a responsibility of the Infantry School of the United States Army (located at Fort Benning, Georgia). The curriculum of the school is prescribed by the Secretary of the Army upon recommendation of the National Board for the Promotion of Rifle Practice. It is open to all individuals attending the National Matches whether competitors or not.

(3) *Certificate of attendance.* Each person who attends all sessions of the school and satisfactorily completes the course will receive a certificate of at-

tendance. The attendance of all persons, including those who have previously received certificates of proficiency, is encouraged.

(c) *Place, dates, and control of National Matches*—(1) *Place and dates.* The National Matches together with the Small Arms Firing School will be held annually at such place and during such period of time as may be recommended by the National Board for the Promotion of Rifle Practice (see § 543.4) and approved by the Secretary of the Army. This information will be disseminated annually by appropriate means at the earliest possible date.

(2) *Officials of the National Matches.* Control of the National Matches is exercised through a joint staff composed of personnel from any or all of the services comprising the Armed Forces of the United States, Reserve components thereof, and qualified civilian personnel designated by the National Rifle Association of America. The Executive Officer of the matches, designated by the Secretary of the Army, will be in charge of the National Matches.

(3) *Pit discipline.* All pit personnel will be properly instructed as to their duties and as to safety precaution. Proper discipline will be maintained constantly to insure safety and efficient operation of the matches.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[7 CFR Parts 725, 726]

BURLEY AND FLUE-CURED TOBACCO; FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

NOTICE OF FORMULATION OF REGULATIONS RELATING TO ESTABLISHMENT OF TOBACCO FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR THE 1956-57 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1312, 1313, 1375), the Secretary of Agriculture is preparing to formulate regulations governing the establishment of farm acreage allotments and normal yields for marketing quotas to be in effect during the 1956-57 marketing year for Burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco.

Subsection (a) of section 312 of the act (7 U. S. C. 1312) requires the Secretary to proclaim a national marketing quota for each marketing year for each kind of tobacco for which a national marketing quota was proclaimed for the immediately preceding marketing year. Marketing quotas were proclaimed for the 1955-56 marketing year for Burley tobacco, flue-cured tobacco, fire-cured tobacco, dark air-cured tobacco, and Virginia sun-cured tobacco.

Fire-cured and dark air-cured tobacco growers favored marketing quotas for the 1956-57 marketing year in referenda held pursuant to the act (7 U. S. C. 1312) (20 F. R. 809).

The applicability of the regulations to be issued for Burley, flue-cured, and Virginia sun-cured tobacco will be contingent upon the proclamation of national marketing quotas for such kinds of tobacco pursuant to section 312 of the act (7 U. S. C. 1312), and upon approval of quotas by growers voting in referenda.

It is proposed that the regulations governing the establishment of farm acreage allotments and normal yields for Burley, flue-cured, fire-cured, dark air-cured, and Virginia sun-cured tobacco for the 1956-57 marketing year be substantially the same as the regulations in effect for the 1955-56 marketing year (19 F. R. 3549, 3553, 7151), except as described below:

1. The 1955 farm tobacco acreage allotment would be the 1956 preliminary allotment provided that the harvested acreage in one or more of the five years 1951-55 was equal to 50 percent or more of the allotment for the farm; where the harvested acreage for each of the five years 1951-55 was less than 50 percent of the allotment for the farm, the highest harvested acreage during the five years 1951-55 will be the 1956 preliminary allotment, not to exceed the 1955 allotment. The 1955 provisions for waiving the reductions for underplanting would be discontinued since the above provisions appear to render continuance of such waivers unnecessary. If tobacco was harvested in 1951-55 on a farm for which no 1955 allotment was determined, the 1956 preliminary allotment, not to exceed 25 percent of the 1955 allotments for similar old farms, will be determined by the community and county committees for such farm on the basis of land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco, but with no consideration being given to the acreage of tobacco harvested in 1955.

2. A new definition of the term "producer" would be added to mean a person who, as owner, landlord, tenant, sharecropper, or laborer is entitled to share in the tobacco available for marketing from the farm or in the proceeds thereof.

3. As provided by law in the case of Burley tobacco, the 1956 farm acreage allotment will not be less than the smallest of (a) the 1955 allotment, (b) five-tenths of an acre, or (c) 10 percent of the cropland in the farm; also, no 1955 Burley farm tobacco acreage allotment of seven-tenths acre or less will be reduced more than one-tenth of an acre for 1956.

4. The proviso in paragraph (a) of §§ 725.621 and 726.621 dealing with divisions of farms would be changed to read as follows: *"Provided,* That with the recommendation of the county committee and approval of the State committee and with the written agreement of all interested persons the tobacco acreage allotment determined for a tract under the provisions of this paragraph may be increased or decreased by not more than the larger of one-hundredth acre or 10 percent of the 1956 acreage allotment determined for the entire farm with corresponding increases or decreases made in the acreage allotment apportioned to the other tract or tracts."

5. The proviso in §§ 725.623 and 726.623 would be changed to provide a maximum acreage allotment for a new farm of 25 percent of the allotments for old farms that are similar to the new farm.

6. The acreage for adjustments of old farm allotments by ASC county and community committees would be limited to one-tenth of one percent of the total acreage allotted to all farms in the State for 1955.

7. 1956 farm tobacco acreage allotments would be determined in acres and hundredths of an acre. The rule of fractions would be to round upward fractions of more than five-thousandths and round downward fractions of five-thousandths or less (i. e., 0.0050 would be 0.00 and 0.0051 would be 0.01).

8. A provision would be included to require the farm operator or his representative to file a report with the county committee or its representative on Form CSS-578, Report of 1955 Acreage, showing all fields of tobacco on the farm in 1955; and if any producer on the farm files, or aids or acquiesces in the filing of, any false report with respect to the acreage of tobacco grown on the farm in 1955, the 1956 acreage allotment for the farm, pursuant to Public Law 21, 84th Congress, would be reduced, except that if each producer establishes to the satisfaction of the county and State committees that the filing, or aiding or acquiescing in the filing of, the false report was unintentional on his part and that he could not reasonably have been expected to know that the report was false, reduction will not be required if the report is corrected and payment of all additional penalty is made.

9. Yield per acre data used in determining farm normal yields per acre would be based on the yields obtained on the farm during the years 1950-54.

10. The average available for allotments to farms on which no tobacco was harvested during the years 1951-55 would be limited to one-tenth of one percent of the national marketing quota.

11. The farm operator would be required to live on and obtain 50 percent or more of his livelihood from the farm covered by the application for a new farm allotment.

12. A provision would be included to provide that a new farm allotment shall not be approved for any farm which was part of another farm during the past five years for which an old farm allotment was established. Also, a new farm allotment shall not be determined for a farm not operated by the owner thereof.

Prior to the final adoption and issuance of these regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than ten days after the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D. C., this 26th day of May 1955.

PENOVA INTERESTS ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

MAY 11, 1955.

Take notice that Penova Interests, and Others (Applicants) filed an individual application under a docket number listed above for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the Applicant making application to render service as reflected in the tabulation set forth below, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission, and open for public inspection.

Applicants produce natural gas from fields in West Virginia, which is sold in interstate commerce to Hope Natural Gas Company for resale, all as reflected in the tabulation set forth below, and as more fully described in the applications.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on June 28, 1955, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (c) (2) or § 1.32 (b) where requested of the Commission's Rules of Practice and Procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before June 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 109060; FCC 55M-469]

LAKE SHORE BROADCASTING CO., INC. (WSHE)

ORDER AFTER PREHEARING CONFERENCE

In re application of Lake Shore Broadcasting Co., Inc. (WSHE), Sheboygan, Wisconsin, Docket No. 10960, File No. BP-8808; for construction permit.

1. Hearing in this matter had been scheduled to open on May 4, 1954. On April 29, 1954, it was indefinitely continued to permit consideration by the Commission of a promised amendment to an application for modification of construction permit for Station WSHE, to specify 950 kc (File No. BMP-6456). A grant of that application as amended would render moot the protests involved on the instant 800 kc proceeding. It was not until March 3, 1955, however, that WSHE filed the amendment; on May 19, 1955, it further amended the 950 kc proposal.

2. A prehearing conference was held on May 20, 1955, pursuant to an order of April 22, 1955, to consider the question of WSHE's tying up 800 kc while its 950 kc application is being processed. The following rulings are made on the basis of the discussion at the conference; and it is so ordered this 24th day of May 1955:

(a) Hearing on the instant 800 kc application is scheduled for July 5, 1955, at 10:00 a. m., in Washington, D. C.

(b) The parties shall exchange exhibits on July 1, 1955, and on the same date counsel will meet for the purpose of discussing possible stipulations and otherwise shortening the hearing.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

CHEROKEE BROADCASTING CO. AND VALLEY BROADCASTING CO.

ORDER CONTINUING HEARING

In re applications of Max M. Blakemore and E. C. Blakemore d/b as Cherokee Broadcasting Company, Murphy, North Carolina, Docket No. 11102, File No. BP-9210; Valley Broadcasting Company, Murphy, North Carolina, Docket No. 11255, File No. BP-9464; for construction permits.

It is ordered, This 24th day of May 1955, on the Chief Hearing Examiner's own motion, that, by reason of the illness of the Examiner assigned to preside in the above-entitled proceeding, the further hearing therein, which is presently scheduled for May 24, 1955, be, and it is hereby, continued without date.

HAROLD M. GADE AND MONMOUTH COUNTY BROADCASTERS

ORDER CONTINUING HEARING

In re applications of Harold M. Gade, Eatontown, New Jersey, Docket No. 11124, File No. BP-9096; Monmouth County Broadcasters, Long Branch, New Jersey, Docket No. 11125, File No. BP-9231; for construction permits.

The Commission having under consideration a petition of the Chief of its Broadcast Bureau, filed May 23, 1955, for continuance of certain proceedings heretofore scheduled by the Hearing Examiner in the above-entitled matter, viz., the exchange of direct affirmative case exhibits on or before May 23, 1955; further prehearing conference, May 26,

1955; commencement of hearing June 2, 1955;

It appearing, that, subsequent to the issuance of the order scheduling the above proceedings, the Commission accepted for filing a new application (File No. BP–9771) which is mutually exclusive with those here involved, and that, petitioner alleges, in due course, under the provisions of § 1.387 of the rules, such application will be consolidated for hearing herein; and,

It appearing further, that since the proceedings in this matter, as presently scheduled, may not be conducted in the absence of the third applicant, supra, it is appropriate that they and each of them be continued for a period of approximately forty-five days, as proposed by petitioner; and,

It appearing further, that the instant pleading states good cause, and that immediate action thereon is imperative and in the public interest, and, therefore, the four-day requirement specified in § 1.745 is hereby waived;

Accordingly, it is ordered, This 23d day of May 1955, that the petition is granted, and that the proceedings in the above-entitled matter, as presently scheduled by the Hearing Examiner, are continued as follows:

June 30, 1955: Exchange of direct affirmative case exhibits.

July 8, 1955: Further prehearing conference.

July 18, 1955: Commencement of hearing.

ELECTRIC BOND AND SHARE CO.

SUPPLEMENTAL ORDER GRANTING CERTAIN RECITALS

MAY 24, 1955.

The Commission having heretofore approved a plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act") by Electric Bond and Share Company ("Bond and Share"), a registered holding company, providing, among other things, for the divestment of a portion of its holdings of the common stock of United Gas Corporation ("United Gas"); and Bond and Share having notified the Commission pursuant to Rule U-44 (c) of the rules and regulations under the act of the proposed sale of not to exceed 15,000 shares of the common stock of United Gas to not more than ten different persons, who will purchase for investment, at prices per share equal to the last closing sale price on the New York Stock Exchange immediately prior to each such sale; Bond and Share proposing to pay a fee of thirty cents per share to an agent for negotiating the sales;

The Commission having notified Bond and Share that no declaration need be filed in respect of this matter; and

Bond and Share having requested that the Commission enter an order containing the recitals required by the Internal Revenue Code, and the Commission deeming it appropriate that such request be granted:

It is ordered and recited, That the sales of not exceeding 15,000 shares of common stock of United Gas Corporation to persons purchasing for investment are necessary or appropriate to the integration or simplification of the holding company system of which Electric Bond and Share Company is a member and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, all in accordance with the meaning and requirements of sections 1081 to 1083, inclusive, and section 4382 (b) (2) of the Internal Revenue Code of 1954.

By the Commission.

NATIONAL FUEL GAS CO. ET AL.

ORDER AUTHORIZING PROPOSED REDUCTION IN PAR VALUE OF CAPITAL STOCK AND PAYMENT OF DIVIDEND OUT OF CAPITAL SURPLUS

MAY 23, 1955.

In the matter of National Fuel Gas Company, Pennsylvania Gas Company, Pennsylvania Oil Company; File No. 70–3359.

National Fuel Gas Company ("National Fuel"), a registered holding company, and its direct public-utility subsidiary, Pennsylvania Gas Company ("Pennsylvania Gas"), and its indirect wholly-owned non-utility subsidiary, Pennsylvania Oil Company ("Pennsylvanio Oil"), have filed a joint declaration with this Commission pursuant to sections 6 (a), 7, and 12 (c) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-46 promulgated thereunder regarding the following proposed transactions:

Pennsylvania Oil proposes (a) to reduce the par value of its outstanding capital stock from $1 per share to 50 cents per share so that the 576,000 outstanding shares will have an aggregate par value of $288,000 and (b) to pay a cash dividend of $288,000 out of the capital surplus which will be created by and result from said reduction in the par value of the capital stock. According to the joint declaration, as at December 31, 1954, Pennsylvania Oil had only $6,607 of earned surplus but has at least $288,000 in funds in excess of its requirements and that its parent, Pennsylvania Gas, will be in need of additional working capital to be used in connection with its 1955 construction program. It is represented that when an amendment to Pennsylvania Oil's Articles of Incorporation to accomplish the proposed reduction in par value is filed and approved by the Department of State of Pennsylvania, the payment of the dividend out of capital surplus will not be unlawful under the laws of the Commonwealth of Pennsylvania and will not violate the legal rights of the holders of any securities issued by any company in the National Fuel holding company system.

Due notice having been given of the filing of said joint declaration in the manner prescribed by Rule U-23 and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable standards of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said joint declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

NATIONAL FUEL GAS CO. AND MARS CO.

ORDER AUTHORIZING PROPOSED REDUCTION IN PAR VALUE OF CAPITAL STOCK AND PAYMENT OF DIVIDEND OUT OF CAPITAL SURPLUS

MAY 23, 1955.

National Fuel Gas Company ("National Fuel"), a registered holding company, and its wholly owned nonutility subsidiary company, the Mars Company ("Mars"), have filed with this Commission a joint declaration pursuant to sections 6 (a), 7, and 12 (c) of the Public Utility Holding Company Act of 1935 (the "act") and Rule U-46 promulgated thereunder regarding the following proposed transactions:

Mars proposes (a) to reduce the par value of its outstanding 100,000 shares of capital stock from $10 per share to $5 per share or $500,000 in the aggregate and (b) to pay a cash dividend of not more than $500,000 out of the capital surplus which will be created by and result from said reduction in the par value of the capital stock. According to the joint declaration, as at December 31, 1954, Mars had only $23,000 of earned surplus but has ample current assets in the form of marketable securities to provide cash to pay the proposed dividend and still have sufficient working capital for its current and foreseeable needs, and its parent, National Fuel, will place the proceeds from this proposed dividend in its treasury for use in financing certain of its other subsidiaries engaged in the public-utility business. It is represented that when an amendment to Mars' Articles of Incorporation to accomplish the proposed reduction in par value is filed and approved by the Department of State of Pennsylvania, the payment of a dividend out of capital surplus will not be unlawful under the laws of the Commonwealth of Pennsylvania and will not violate the legal rights of the holders of any securities issued by any company in the National Fuel holding company system.

Due notice having been given of the filing of said joint declaration in the manner prescribed by Rule U-23 and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable standards of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that said joint declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

CONSOLIDATED NATURAL GAS CO. ET AL.

ORDER AUTHORIZING ISSUANCE AND SALE BY PARENT COMPANY OF CAPITAL STOCK PURSUANT TO RIGHTS OFFERING

MAY 24, 1955.

In the matter of Consolidated Natural Gas Company, the East Ohio Gas Company, Hope Natural Gas Company, the Peoples Natural Gas Company, New York State Natural Gas Corporation, the River Gas Company; File No. 70–3376.

Consolidated Natural Gas Company ("Consolidated"), a registered holding company, and its subsidiaries named above have filed with this Commission a joint application-declaration and amendments thereto regarding an overall system financing program, including, among other things, the issuance and sale by Consolidated, pursuant to section 7 of the act, of shares of its capital stock as summarized below:

Consolidated proposes to offer 738,721 shares of its capital stock, par value $10 per share, for subscription at $31.00 per share, on warrants to be issued to the holders of its outstanding capital stock of record at the close of business on June 2, 1955. Each such holder will be granted the right to subscribe for shares of capital stock at the rate of one share for each ten shares held on such record date, the subscription offer to expire at 3:30 p. m., New York time, June 21, 1955.

The rights to subscribe will be evidenced by transferable subscription warrants. No fractional shares of capital stock will be issued. Rights may be purchased to entitle the holder of the warrant to subscribe to one or more full shares of capital stock or rights may be sold. For the convenience of stockholders and without charge to them for such service, the Hanover Bank will act as agent for the warrant holders in purchasing and selling rights, but not to exceed 9 rights for each warrant holder.

Consolidated anticipates that some shares of its capital stock offered for subscription will not be subscribed for, and, on the basis of past experience, estimates that this number of shares will amount to about 3 percent of the total offering. Shares for which subscriptions are not exercised, up to 5 percent of the issue, will be offered after the subscription date at the subscription price to Bankers Trust Company as Trustee of Consolidated's Annuity Trust, subject to call for the account of the Trustees under the Alternative Thrift Trust of Consolidated's Employees Thrift Plan. Any such shares not so subscribed or sold to Bankers Trust Company will thereafter be sold on the open market.

According to the filing, the primary purpose of the financing is to obtain funds to repay $20,000,000 of Consolidated's short-term bank loans made on March 15, 1955, the remaining funds realized to be used by Consolidated to finance in part the construction program of its subsidiaries during 1955.

It is represented that no State commission, and no Federal commission, other than this Commission, has jurisdiction over the proposed issuance and sale of shares of capital stock.

Consolidated has submitted estimates of fees and expenses incurred and to be incurred in connection with its proposed transactions, but the record has not been completed in respect thereof.

Consolidated requests the Commission to enter an order herein permitting the declaration regarding the proposed issuance and sale of shares of capital stock to become effective and that such order become effective forthwith upon its issuance.

Due notice having been given of the filing of the joint application-declaration, and a hearing not having been requested of or ordered by the Commission; and the Commission having examined the filing and finding that the applicable provisions of the act and rules promulgated thereunder are satisfied and that no adverse findings are necessary in respect of the proposed issuance and sale by Consolidated of 738,721 shares of its capital stock; and the Commission deeming it in the public interest and the interest of investors and consumers, that said declaration, in so far as it relates to the issuance and sale of capital stock by Consolidated, should be permitted to become effective forthwith.

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration, as amended, in so far as it proposes the issuance and sale by Consolidated of 738,721 shares of its capital stock, be and it hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That jurisdiction be, and hereby is, reserved in respect of (1) all fees and expenses in connection with the transactions proposed herein including the issue and sale of capital stock by Consolidated, and (2) the remaining transactions which are the subject of said application-declaration.

By the Commission.

Secretary.

§ 421.726 *Applicable sections of 1954 CCC Grain Price Support Bulletin 1, and Supplements 1 and 2, Corn.* The following sections of the 1954 CCC Grain Price Support Bulletin 1, as amended, and Supplements 1 and 2, Corn, as amended, published in 19 F. R. 967, 1595, 3365, 6901, 6902, 7155, and 20 F. R. 411, shall be applicable to the 1954 Corn Reseal Loan Program: § 421.401 *Administration;* § 421.405 *Approved lending agencies;* § 421.408 *Liens;* § 421.410 *Set-offs;* § 421.411 *Interest rate;* § 421.413 *Safeguarding the commodity;* § 421.414 *Insurance on farm-storage loans;* § 421.415 *Loss or damage to the commodity;* § 421.416 *Personal liability of the Producer;* § 421.417 *Release of the commodity under loan;* § 421.419 *Foreclosure;* § 421.420 *Purchase of notes;* § 421.488 *Determination of quantity;* § 421.489 *Determination of quality.* Other sections of the 1954 C. C. C. Grain Price Support Bulletin 1, as amended, and Supplements 1 and 2, Corn, as amended, shall be applicable to the extent indicated in this subpart.

§ 421.727 *Availability*—(a) *Area and scope.* The reseal program will be available wherever corn is grown in the continental United States except in designated angoumois moth areas: *Provided, however,* That such program will be available only where ASC State committees determine that there may be a shortage of storage space and that corn can be safely stored on the farm for the period of the reseal loan. This program provides, under certain circumstances, for the extension of 1954-crop farm-storage loans and the making of farm-storage loans on 1954-crop corn covered by purchase agreements. Neither warehouse-storage loans nor purchase agreements will be available to producers under this program.

(b) *Time.* (1) The producer who desires to participate in the reseal loan program must file an application for a farm-storage reseal loan with the county committee.

(2) In the case of a farm-storage loan, the producer will be required to apply for extension of his loan before the final date for delivery specified in the delivery instructions issued to him by the county committee.

(3) The producer who signed a purchase agreement on farm-stored corn is required, under the 1954 Corn Price Support Program, to notify the county committee not later than July 31, 1955, if he intends to sell the corn to CCC. If the producer has notified the county committee, on or before July 31, 1955, of his intention to sell the corn to CCC, or to participate in this program, he may obtain a farm-storage loan on the corn. The loan documents must be executed by the producer on or before the final date for delivery specified in the delivery instructions, or on or before September 30, 1955, if the producer has not requested or received delivery instructions. The loan documents must be presented for disbursement within 15 days after execution. Disbursement of loans will be made to producers by approved lending agencies under an agreement with CCC, or by ASC county offices by means of sight drafts drawn on CCC. Payment in cash, credit to the producer's account, or the drawing of a check or draft shall constitute disbursement. The producer shall not present the loan documents for disbursement unless the corn is in existence and in good condition. If the corn was not in existance and in good condition at the time of disbursement, the total amount disbursed under the loan shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized under this subpart, the producer shall be personally liable for repayment of the amount of such excess.

(c) *Source.* A producer desiring to participate in the resale loan program should make application to the county committee which approved his loan or purchase agreement. Disbursements of loans completed on corn covered by purchase agreements shall be made to producers by ASC county offices by means of sight drafts drawn on CCC or by approved landing agencies under agreements with CCC.

§ 421.728 *Eligible producer.* An eligible producer shall be any individual, partnership, association, corporation, or other legal entity who produced the corn in 1954 as landowner, landlord, tenant, or sharecropper and who either completed a farm-storage loan or signed a purchase agreement on farm-storage corn of the 1954-crop.

§ 421.729 *Eligible corn*—(a) *Requirements of eligibility.* The corn (1) must meet the requirements set forth in § 421.486 (a), (b), (c), and (f) of 1954 C. C. C. Grain Price Support Bulletin 1, Supplement 1, Corn; (2) must grade No. 3 or better, or No. 4 on the factor of test weight only, but otherwise No. 3 or better, and must contain not in excess of 15.5 percent moisture in the case of ear corn nor in excess of 13.5 percent moisture in the case of shelled corn; and (3) must be under price support loan or purchase agreement.

(b) *Inspection*—(1) *Extended farm-storage loans.* If a producer makes application to extend his farm-storage loan, the commodity loan inspector shall, with the producer, reinspect the corn and structure in which the corn is stored. If recommended by either the commodity loan inspector or the producer, a sample of the corn shall be taken and submitted for grade analysis.

(2) *Corn covered by purchase agreement.* If a producer makes application for a farm-storage loan on corn covered by a purchase agreement, the commodity loan inspector shall inspect the corn and storage structure, obtain a sample if the corn and structure appear eligible, and proceed in the regular manner for the inspection of a commodity to be placed under loan.

§ 421.730 *Approved storage.* Corn covered by any loans extended and any new loans completed must be stored in structures which meet the requirements for farm-storage loans as provided in § 421.406 (a). Consent for storage for any loans extended or new loans completed must be obtained by the producer for the period ending September 30, 1956, if the structure is owned or controlled by someone other than the producer, or if the lease expires prior to September 30, 1956.

§ 421.731 *Approved forms.* (a) The approved forms, which together with the provisions of this subpart govern the rights and responsibilities of the producer, shall consist of Producer's Note and Supplemental Loan Agreement, Commodity Loan Form A, secured by a Commodity Chattel Mortgage on Commodity Loan Form AA, and such other forms and documents as may be prescribed by CCC. Notes and chattel mortgages must have State and documentary revenue stamps affixed thereto where required by law. Loan documents executed by an administrator, executor or trustee will be acceptable only where legally valid.

(b) Where required by State law, a new producer's note and chattel mortgage shall be completed when a farm-storage loan is extended.

§ 421.732 *Quantity eligible for reselling.* (a) The quantity of corn eligible for reseal on an extended farm-storage loan, will be the quantity shown on the original note and chattel mortgage, less any quantity delivered or redeemed.

(b) A producer may obtain a loan on not in excess of the quantity of corn specified in the purchase agreement, minus any quantity of the corn under such purchase agreement (1) which has been previously placed under loan or (2) on which he exercises his option to sell to CCC.

§ 421.733 *Additional service charges.* (a) When a farm-storage loan is extended, the producer will not be required to pay an additional service charge.

(b) At the time a farm-storage loan is made to the producer on corn covered by a purchase agreement, the producer

shall pay an additional service charge of ½ cent per bushel on the number of bushels placed under loan, or $1.50 whichever is greater. No refund of service charges will be made.

§ 421.734 *Transfer of producer's equity.* The producer shall not transfer either his remaining interest in or his right to redeem the corn mortgaged as security for a loan under this program. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the corn must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the corn from storage when the proceeds of the sale are needed to repay all or any part of the loan. Any such approval shall be subject to the terms and conditions set out in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers at the office of the county committee.

§ 421.735 *Storage and track-loading payments*—(a) *Storage payment.* A reseal storage payment will be made as follows:

(1) Storage payment for full reseal period: A storage payment computed at the rate of 15 cents per bushel will be made to the producer on the quantity involved if he (i) redeems corn from the loan on or after July 31, 1956 (ii) delivers corn to CCC on or after July 31, 1956, or (iii) delivers corn to CCC prior to July 31, 1956, pursuant to demand by CCC for repayment of the loan solely for the convenience of CCC if the corn was not damaged or otherwise impaired due to negligence on the part of the producer.

(2) Prorated storage payment: A prorated storage payment computed at the rate of 0.00049 per bushel a day, but not to exceed 15 cents per bushel, according to the length of time the quantity of corn involved was in store after September 30, 1955, will be made to the producer (i) in the case of loss assumed by CCC under the provisions of the loan program, (ii) in the case of corn redeemed from the loan prior to July 31, 1956, and (iii) in the case of corn delivered to CCC prior to July 31, 1956, pursuant to its demand and not solely for the convenience of CCC, or upon request of the producer and with the approval of CCC: *Provided, however,* That no storage payment will be made with respect to corn so delivered to CCC which is damaged or otherwise impaired due to negligence on the part of the producer. In the case of losses assumed by CCC, the period for computing the storage payment shall end on the date of the loss; and in the case of redemptions, on the date of repayment.

(3) In no case will any storage payment be made where the producer has made any false representation in the loan documents or in obtaining the loan, or where the corn has been abandoned, or where there has been conversion on the part of the producer.

(b) *Track-loading payment.* A track-loading payment of 3 cents per bushel will be made to the producer on corn delivered to CCC in accordance with instructions of the county committee, on track at a country point.

§ 421.736 *Maturity and satisfaction.* (a) Loans will mature on demand but not later than July 31, 1956. The producer must pay off his loan, plus interest, on or before maturity or deliver the mortgaged corn in accordance with the instructions of the county committee. If the producer desires to deliver the corn he should, prior to maturity, give the county committee notice in writing of his intention to do so. The producer may, however, pay off his loan and redeem his corn at any time prior to the delivery of the corn to CCC or removal of the corn by CCC. Credit will be given at the applicable settlement value according to grade and/or quality for the total quantity eligible for delivery. Delivery of corn will be accepted only from bin(s) in which the corn under reseal loan is stored. The provisions of § 421.418 (a), (c), and (e), (2), (3) and (4) and of § 421.493 (a) shall be applicable thereto.

§ 421.737 *Support rates.* (a) The support rate for an extended farm-storage loan shall remain the same as for the original loan and the support rate for corn covered by a purchase agreement placed under a farm-storage loan shall be the same as the support rate established for the corn in § 421.494 (a) (1) and (2).

(b) Any discounts or premiums established for variation in classification and quality as shown in § 421.494 (b) shall be applicable in determining the settlement value.

§ 421.738 *CSS commodity offices.* The CSS commodity offices and the areas served by them are shown below:

Chicago 5, Ill., 623 South Wabash Avenue: Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

PART 2—SERVICE RECORDS; FEES

Section 2.5 is amended as follows:

The fifth item is deleted. The fourth and thirteenth items are amended and two new items are added so that when taken with the introductory material such amended and added items will read as follows:

§ 2.5 *Fees for service, documents, papers, and records not specified in the Immigration and Nationality Act.* In addition to the fees enumerated in sections 281 and 344 of the Immigration and Nationality Act, the following fees and charges are prescribed:

* * * * *

For filing an appeal from, or a motion to reopen or reconsider, any decision under the immigration laws, except from a decision in an exclusion or deportation proceeding. (The minimum fee of $10 shall be charged whenever such an appeal or motion is filed by or on behalf of two or more aliens and all of such aliens are covered by one decision.) ---------- 10.00

* * * * *

For filing application for waiver of visa of an individual alien at the time he applies for admission to the United States as a returning resident ---------- 10.00

* * * * *

For filing application for waiver of passport of an individual alien at the time he applies for admission to the United States for permanent residence ---------- 10.00

For filing application for preexamination. (The fee shall not be applicable to an alien who has submitted the required fee with an application for suspension of deportation which is still pending.) - 25.00

PART 6—BOARD OF IMMIGRATION APPEALS: APPEALS; REOPENING AND RECONSIDERATION

1. Paragraph (c) of § 6.1 *Board of Immigration Appeals* is amended to read as follows:

(c) *Jurisdiction by certification.* The Commissioner, Assistant Commissioner, Examinations Division, regional commissioners, or the Board may in any case arising under subparagraphs (1) through (6) of paragraph (b) of this section require certification of such case to the Board.

2. Subdivision (iii) of subparagraph (1) of paragraph (h) of § 6.1 *Board of Immigration Appeals* is amended so that, when taken with the introductory material, it will read as follows:

(h) *Referral of cases to the Attorney General.* (1) The Board shall refer to the Attorney General for review of its decision all cases which:

* * * * *

(iii) The Commissioner or the Assistant Commissioner, Examinations Division, requests be referred to the Attorney General for review.

3. The first sentence in § 6.2 *Reopening or reconsideration* is amended to read as follows: "Reconsideration or reopening of any case in which a decision has been made by the Board, whether requested by the Assistant Commissioner, Examinations Division, or a regional commissioner, or by the party affected by the decision, shall be only upon written motion to the Board."

4. Paragraph (c) of § 6.21 *Motion to reopen or motion to reconsider* is amended to read as follows:

(c) *Distribution of motion papers when Assistant Commissioner, Examinations Division, or a regional commissioner is the moving party.* Whenever a motion to reopen or a motion to reconsider is made by the Assistant Commissioner, Examinations Division, or a regional commissioner, he shall cause one copy of the motion to be served upon the alien or party affected, as provided in §§ 292.11 and 292.12 of this chapter, and shall cause the record in the case and one copy of the motion to be filed directly with the Board, together with proof of service upon the alien or other party affected. Such alien or party shall have a period of ten days from the date of service upon him of the motion within which to submit a brief in opposition to the motion. Two copies of such brief shall be filed directly with the Board and one copy directly with the Commissioner. The submission of such brief may be waived. The Board, in its discretion, for good cause shown may extend the time within which such brief may be submitted.

PART 7—REGIONAL COMMISSIONERS: APPEALS

Paragraph (a) of § 7.1 is amended by adding subparagraph (19) so that when taken with the introductory material it will read as follows:

§ 7.1 *Regional commissioners*—(a) *Appellate jurisdiction.* Appeals shall lie to the regional commissioners from the following:

* * * * *

(19) Decisions of district directors on applications for preexamination under Part 485 of this chapter.

PART 9—AUTHORITY OF COMMISSIONER, REGIONAL COMMISSIONERS, AND ASSISTANT COMMISSIONERS

Section 9.5a is amended by adding paragraph (ccc) so that when taken with the introductory material it will read as follows:

§ 9.5a *Authority of Regional Commissioners.* The powers, privileges, and duties conferred or imposed upon officers or employees of the Service under this chapter with respect to the following-described matters are hereby conferred or imposed upon the regional commissioners:

* * * * *

(ccc) Applications for preexamination under Part 485 of this chapter.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103; Interpret or apply sec. 501, 65 Stat. 290; 5 U. S. C. 140)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relate to matters of agency management.

Dated: May 24, 1955.

HERBERT BROWNELL, Jr.,
Attorney General.

Recommended: May 16, 1955.

J. M. SWING,
Commissioner of Immigration and Naturalization.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

[Amdt. 9]

PART 728—WHEAT

SUBPART—WHEAT MARKETING QUOTAS FOR THE 1954 CROP

EXTENSION OF TIME LIMITS FOR FARMERS NOT PROPERLY NOTIFIED

The amendment herein is issued under the Wheat Marketing Quota provisions of the Agricultural Adjustment Act of 1938, as amended, for the purpose of providing for the sending of a notice of the farm marketing quota and farm marketing excess, and for extending the period within which the farmer may apply for a downward adjustment in his farm marketing excess and within which he may avoid or postpone the penalty by storage or delivery of the excess wheat to the Secretary in any case where a proper notice had not previously been sent to the operator of the farm in time to provide him the opportunity to apply for a downward adjustment of his farm marketing excess and to store or deliver his farm marketing excess to avoid or postpone the penalty under existing regulations.

Since the only purpose of the amendment is to extend time limits for the benefit of producers on farms for which proper notices of rights under the present regulations had not previously been sent, it is hereby found that compliance with the notice, procedure, and 30-day effective date provisions of section 4 of the Administrative Procedure Act is unnecessary. Therefore, the amendment herein shall become effective upon the date of its publication in the FEDERAL REGISTER.

A new § 728.498 is added to read as follows:

§ 728.498 *Farms for which notice of 1954 farm marketing quota and farm marketing excess of wheat was not issued.* Where, for any reason, proper notice of the farm marketing quota and farm marketing excess and of the producer's right to obtain a downward adjustment in the farm marketing excess for his farm on account of actual production, and of his right to store or deliver to the Secretary the farm marketing excess of wheat established for the farm was not issued to the producer within the time in which he was required to make application for a downward adjustment, or to store or to deliver to the Secretary the farm marketing excess as prescribed by §§ 728.460, 728.461, 728.-432 and 728.483, the producer shall be so notified by the county committee on Form MQ-93-Wheat (1954) and the producer may, within 30 days from the date such notice is mailed to him apply to the county committee for a downward adjustment in the amount of the farm marketing excess and may within 30 days from the date such notice is mailed store or deliver to the Secretary the farm marketing excess as provided in §§ 728.-461, 728.482 and 728.483. In the event application for downward adjustment in the farm marketing excess is made by the producer, a revised notice on Form MQ-93-Wheat (1954) showing the results of the determinations of the county committee shall be mailed to the operator of the farm and also to the applicant if he is not such operator.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interprets or applies 55 Stat. 203, as amended; 7 U. S. C. 1340)

Done at Washington, D. C., this 26th day of May 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Interpret or apply secs. 301, 358, 359, 361–368, 372, 373, 374, 376, 388, 52 Stat. 38, 62, 63, 64, 65, 66, 68, as amended; 55 Stat. 88, as amended, 66 Stat. 27; 7 U. S. C. 1301, 1358, 1359, 1361–1368, 1372, 1373, 1374, 1376, 1388.

GENERAL

§ 729.640 *Basis and purpose.* The regulations contained in §§ 729.640 to 729.669 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the determination of farm peanut acreages, the issuance of marketing cards, the identification of peanuts, the collection and refund of penalties, and the records and reports incident thereto, on the marketing of peanuts of the 1955 crop, regardless of whether such peanuts are marketed before, during, or after the 1955–56 marketing year. Prior to preparing the regulations in §§ 729.640 to 729.669, public notice of their formulation was published in the FEDERAL REGISTER (20 F. R. 566) in accordance with the Administrative Procedure Act (5 U. S. C. 1003). Views and recommendations received in response to such notice have been duly considered within the limits prescribed by the Agricultural Adjustment Act of 1938.

§ 729.641 *Definitions.* As used in §§ 729.640 to 729.669 and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) "Act" means the Agricultural Adjustment Act of 1938, as amended and supplemented.

(b) "Areas" means:

(1) The Southeastern Area consisting of the States of Alabama, Georgia, Mississippi, Florida, and that part of South Carolina south and west of the Santee-Congaree-Broad Rivers.

(2) The Southwestern Area consisting of the States of Arizona, Arkansas, California, Louisiana, New Mexico, Oklahoma, and Texas.

(3) The Virginia-Carolina Area consisting of the States of Missouri, North Carolina, Tennessee, Virginia, and that part of South Carolina north and east of the Santee-Congaree-Broad Rivers.

(c) "Buyer" means a person who:

(1) Buys or otherwise acquires peanuts from a producer;

(2) Buys or otherwise acquires farmers' stock peanuts from any person; or

(3) Markets, as a commission merchant, broker, or cooperative any peanuts for the account of a producer and who is responsible to the producer for the amount received for the peanuts.

(d) Committees: (1) "Community committee" means the persons elected within a community as the community committee, pursuant to the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(2) "County committee" means the persons elected within a county as the county committee, pursuant to the regulations governing the selection and functions of Agricultural Stabilization and Conservation county and community committees.

(3) "State commitee" means the persons designated in a State by the Secretary as the Agricultural Stabilization and Conservation committee.

(e) "County office manager" means the person employed by the county committee to execute the policies of the county committee and be responsible for the day-to-day operation of the county ASC office, or the person acting in such capacity.

(f) "Deputy Administrator" means the Deputy Administrator for Production Adjustment or the Acting Deputy Administrator for Production Adjustment, Commodity Stabilization Service, United States Department of Agriculture.

(g) "Director" means the Director or the Acting Director of the Oils and Peanut Division, Commodity Stabilization Service, United States Department of Agriculture.

(h) "Excess acreage" means the acreage by which the farm peanut acreage exceeds the farm allotment but there will be no excess acreage if the farm peanut acreage is one acre or less.

(i) "Excess peanuts" means peanuts in excess of the farm marketing quota determined pursuant to § 729.646.

(j) "Farm" means all adjacent or nearby farmland under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farmland which the county committee determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(k) "Farm allotment" means the farm peanut acreage allotment for the 1955 crop of peanuts established pursuant to §§ 729.610 to 729.630 of the marketing quota regulations for the 1955 crop of peanuts (19 F. R. 6134).

(l) "Farm peanut acreage" means the farm peanut acreage for the farm as determined under § 729.611 (i) of the marketing quota regulations for the 1955 crop of peanuts (19 F. R. 6134).

(m) "Farmers stock peanuts" means picked or threshed peanuts produced in the continental United States during the calendar year 1955 which have not been shelled, crushed, cleaned (except for removal of foreign material) or otherwise changed from the state in which picked or threshed peanuts are customarily marketed by producers.

(n) "Market" means to dispose of peanuts, including farmers stock peanuts, shelled peanuts, cleaned peanuts, or peanuts in processed form by voluntary or involuntary sale, barter, or exchange, or by gift inter vivos. The terms "marketed", "marketing", and "for market" shall have corresponding meanings to the term "market" in the connection in which they are used. The terms "barter" and "exchange" shall include the payment by the producer of any quantity of peanuts for the harvesting, picking, threshing, cleaning, crushing, or shelling of peanuts, or for any other service rendered to him by anyone.

(o) "Marketing card": (1) "Excess penalty card" means MQ–77—Peanuts (1955) or MQ–77–VC—Peanuts (1955), 1955 Peanut Excess Penalty Marketing Card. MQ–77 will be issued for farms in the Southeastern area and in the Southwestern area. MQ–77–VC will be issued for farms in the Virginia-Carolina area. These cards will be issued for farms for which it is determined that the farm peanut acreage is in excess of the larger of the farm allotment or one acre. A portion of each lot of peanuts identified by an excess penalty card is subject to the marketing penalty prescribed in § 729.655 at the time the peanuts are marketed.

(2) "Within quota card" means MQ–76—Peanuts (1955) or MQ–76–VC—Peanuts (1955), 1955 Peanut Within Quota Marketing Card. MQ–76 will be issued for farms in the Southeastern area and in the Southwestern area. MQ–76–VC will be issued for farms in the Virginia-Carolina area. These cards will be issued for farms for which it is determined that the farm peanut acreage is not in excess of the larger of the farm allotment or one acre. A within quota card authorizes the marketing of all peanuts produced on the farm without payment at the time of marketing of the penalty prescribed in § 729.655.

(p) "Marketing year" means the 1955 marketing year beginning August 1, 1955, and ending July 31, 1956.

(q) "Offices": (1) *"County ASC office"* means the office of the Agricultural Stabilization and Conservation county committee.

(2) "State ASC office" means the office of the Agricultural Stabilization and Conservation State committee.

(r) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(s) "Peanuts" means all peanuts produced, excluding any peanuts which were not picked or threshed either before or after marketing from the farm.

(t) "Person" means an individual, partnership, association, farmers cooperative association, corporation, firm, joint-stock company, estate or trust, or other business enterprise or other legal entity, and whenever applicable, a State, a political subdivision of a State, or any agency thereof.

(u) "Pound" means that quantity of farmers stock peanuts equal to one pound standard weight. If peanuts have been graded at the time of marketing, the poundage shall be the weight thereof excluding foreign material and excess moisture. If shelled peanuts are marketed, the poundage therefor shall be converted to the weight of farmers stock peanuts by multiplying the number of pounds of shelled peanuts by 1.5 and the result shall be the number of pounds of peanuts considered as marketed under this part.

(v) "Producer" means a person who, as landlord, tenant, or sharecropper is entitled to share in the peanuts produced on the farm or in the proceeds thereof.

(w) "Quota peanuts" means peanuts which are within the amount of the farm marketing quota determined pursuant to § 729.646.

(x) "Sales memorandum" means:

(1) Form MQ–93—Peanuts (1952), which may be used (i) by buyers to record and report data with respect to purchases of peanuts identified by both within quota and excess penalty cards, (ii) to record and report data with respect to purchases of peanuts that are not identified by a marketing card, and (iii) by shellers to record and report data with respect to peanuts shelled for producers in instances where all of the shelled peanuts are returned to the producer.

(2) Form MQ–94—Peanuts (1955), which may be used by buyers in the Southeastern and Southwestern areas to record and report data with respect to purchases of peanuts identified by either a within quota or an excess penalty card if the peanuts have been inspected by the Federal-State Inspection Service.

(3) Form MQ–76–A–VC—Peanuts (1955), ten copies of which are attached to each Form MQ–76–VC. This form may be used by buyers to record and report data with respect to purchases of peanuts identified by Form MQ–76–VC.

(4) Form MQ–77–A–VC—Peanuts (1955), ten copies of which are attached to each Form MQ–77–VC. This form may be used by buyers to record and report data with respect to purchases of peanuts identified by Form MQ–77–VC.

(5) Any other form furnished by the buyer for recording and reporting purchases of peanuts, provided (i) the State committee determines that the use of forms other than those enumerated in subparagraphs (1) through (4) of this paragraph will not operate to reduce effective administration of the program in the State and (ii) the form proposed for use by the buyer is approved by the State Administrative Officer of each State in which the buyer will purchase 1955 crop peanuts as being consecutively numbered and containing the necessary language and spaces for recording and reporting the same information as that required by Form MQ–93—Peanuts (1952) for purchases of farmers stock peanuts.

(y) "Secretary" means the Secretary or the Acting Secretary of the United States Department of Agriculture.

(z) "State administrative officer" means the person employed by the State committee to execute the policies of the State committee and be responsible for the day-to-day operations of the State ASC office, or the person acting in such capacity.

(aa) "Yields": (1) "Normal yield" means the normal yield per acre for the farm as determined under § 729.621 or 729.623, whichever is applicable of the marketing quota regulations for the 1955 crop of peanuts (19 F. R. 6134).

(2) "Actual yield" means the actual yield per acre for the farm obtained by dividing the farm peanut acreage into the total production of peanuts for the farm.

§ 729.642 *Instructions and forms.* The Director shall cause to be prepared and issued such forms as are necessary and shall cause to be prepared such instructions with respect to internal management as are necessary for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Deputy Administrator.

§ 729.643 *Extent of calculations and rule of fractions.* (a) The farm peanut acreage shall be expressed in tenths of an acre and fractions of less than one-tenth of an acre shall be dropped.

(b) The percentage of excess peanuts for a farm, hereinafter referred to as the "percent excess," shall be expressed in tenths of a percent and fractions of less than one-tenth of a percent shall be dropped, except that the minimum percent excess for a farm having any excess acreage shall be one-tenth of one percent.

(c) The converted penalty rate shall be expressed in tenths of a cent and fractions of less than a tenth of a cent shall be dropped, except that the minimum converted penalty rate for a farm having any excess acreage shall be one-tenth of a cent.

(d) The amount of penalty with respect to any lot of peanuts, or the amount of damages due Commodity Credit Corporation under an agreement made pursuant to § 729.659, shall be expressed as dollars and in whole cents. Fractions of less than a cent shall be dropped.

(e) The quantity of peanuts marketed, the farm marketing quota, and the normal and actual yield per acre, shall be expressed in whole pounds. Fractions of less than a pound shall be dropped.

IDENTIFICATION AND MEASUREMENT OF FARMS

§ 729.644 *Identification of farms.* Each farm as operated for the 1955 crop of peanuts shall be identified by a farm serial number and all records pertaining to marketing quotas for the 1955 crop of peanuts shall be identified by the farm serial number.

§ 729.645 *Measurement of farms.* The peanut acreage on farms shall be measured to determine compliance with farm allotments in accordance with instructions issued by the Deputy Administrator.

FARM MARKETING QUOTAS AND MARKETING CARDS

§ 729.646 *Amount of farm marketing quota.* (a) The farm marketing quota for a farm having no excess acreage shall be the actual production of peanuts on the farm peanut acreage.

(b) The farm marketing quota for a farm having excess acreage shall be a quantity of peanuts equal to the actual yield multiplied by the farm allotment.

§ 729.647 *Marketing quotas not transferable.* Farm marketing quotas are not transferable in whole or in part from one farm to another farm and peanuts produced on one farm shall not be marketed on a marketing card issued with respect to another farm. If any amount of peanuts produced on one farm is falsely identified by a representation that such peanuts were produced on another farm the allotment next established for each such farm shall be reduced as provided in § 729.624 of the marketing quota regulations for the 1955 crop of peanuts (19 F. R. 6134).

§ 729.648 *Issuance of marketing cards.* (a) A marketing card shall be issued to the operator of each farm having 1955 crop peanuts for use by any producer for marketing his share of the peanuts produced on the farm. If the county office manager finds that it will serve a useful purpose, additional marketing cards may be issued in the name of the operator and delivered to other producers on the farm or the marketing card may be issued in the name of the operator and one or more producers on the farm.

(b) If the county committee determines that such action is necessary to enforce the provisions of §§ 729.640 to 729.669, the issuance of a marketing card may be withheld for any farm until the committee provides for an estimate to be made of the peanut production on such farm. The estimated production on each such farm will be used in determining, after all peanuts produced on such farms have been marketed or otherwise disposed of, whether the marketing card issued for each farm was properly used.

(c) Upon return to the county ASC office, of any marketing card where all spaces for recording sales have been used and before the marketing of peanuts from the farm has been completed, a new marketing card of the same kind, bearing the same name, information, and identification as the used card shall be issued. A new marketing card of the same kind shall also be issued to replace a card which has been determined by the county office manager to have been lost, stolen, mutilated, or destroyed.

(d) Within quota card: A farm is eligible for a within quota card under any one of the following conditions:

(1) The farm has no excess acreage.

(2) The acreage planted to peanuts on the farm is in excess of the farm allotment but an agreement on Form MQ–92—Peanuts (1955) is executed and approved in accordance with § 729.659.

(3) (i) The farm has excess acreage which consists of peanuts grown only for experimental purposes on land owned or leased by a publicly owned agricultural experiment station and produced at public expense by employees of the experiment station, or peanuts produced by farmers pursuant to an agreement with a publicly owned experiment station whereby the experiment station bears the cost and risks incident to the production of the peanuts and the proceeds from the crop inure to the benefit of the experiment station. Any such agreement must be approved by the State committee prior to the issuance of a marketing card for the farm.

(ii) Prior to the approval of any agreement between farmers and publicly owned experiment stations for the production of peanuts for experimental purposes, the State committee shall cause to be made such investigation as may be necessary to determine that each of the following conditions is met:

(*a*) The peanuts are grown for experimental purposes only.

(*b*) The experiment could not be carried out satisfactorily with peanuts grown on other lands owned or leased by the experiment station and produced at public expense by employees of the experiment station.

(*c*) The size of the acreage covered by the agreement is necessary for carrying on the experiment.

(*d*) The experiment station bears the costs and risks incident to the production of the peanuts.

(*e*) Payment to the farmer is consistent with prevailing rates for labor, workstock, machinery, equipment, and land rentals.

(*f*) The proceeds from the peanuts inure to the experiment station.

(e) Excess penalty card: An excess penalty card shall be issued for a farm if the farm peanut acreage exceeds the larger of the farm allotment or one acre and the farm is not eligible for a within quota card under paragraph (d) of this section.

§ 729.649 *Person authorized to issue cards.* The county office manager shall sign marketing cards for farms in the county as issuing officer. The issuing officer may designate not more than three persons to sign his name in issuing marketing cards: *Provided,* That each person so designated shall place his initials immediately beneath the name of the issuing officer as written by him or stamped on the card.

§ 729.650 *Successors-in-interest.* Any person who succeeds in whole or in part to the share of a producer in the peanuts to be marketed from a farm shall, to the extent of such succession, have the same rights as the producer to the use of any marketing card issued for the farm.

§ 729.651 *Invalid marketing cards.* (a) A marketing card shall be invalid if:

(1) It is not issued or delivered in the form and manner prescribed;

(2) Entries are omitted, incorrect, contradictory, or illegible;

(3) It is lost, destroyed, or stolen;

(4) Any erasure or alteration has been made and not properly initialed; or

(5) The converted penalty rate on an excess penalty card has been altered.

(b) If any marketing card becomes invalid (other than by loss, destruction, or theft) the operator, or the person having the card in his possession, shall return it to the county ASC office from which it was issued. If any marketing card is lost, destroyed, or stolen, the producer to whom the card was issued shall give written notice of such fact to the county ASC office from which the card was issued.

(c) If a marketing card becomes invalid because an entry is not made as required either through omission or incorrect entry, and the proper entry is later made and initialed by the issuing officer or a person designated by the issuing officer to sign his name in issuing marketing cards as provided in § 729.649, then such card shall become valid; or if the invalid card is not made valid in this manner, it shall be cancelled and a new card issued in its place.

§ 729.652 *Report of misue of marketing card.* Any information which causes a member of a State, county, or community committee, or an employee of a State or county ASC office, or any person engaged in buying or handling peanuts, to believe that any peanuts have or are being marketed on a marketing card issued for another farm or to another producer shall be reported immediately by such committeeman, employee, or person to the county ASC office or to the State ASC office.

MARKETING OR OTHER DISPOSITION OF PEANUTS AND PENALTIES

§ 729.653 *Extent to which marketings from a farm are subject to penalty.* The penalty for a farm having excess acreage shall be determined as follows:

(a) If the peanuts produced on the farm are properly marketed with an excess penalty card issued for the farm, the penalty shall be paid on each lot of peanuts marketed from the farm in an amount determined by multiplying the converted penalty rate for the farm by the number of pounds in the lot.

(b) If the peanuts produced on the farm are not properly marketed with an excess penalty card issued for the farm but the disposition of the peanuts produced on the farm is accounted for to the satisfaction of the State committee, the total amount of penalty for the farm shall be determined by multiplying the total quantity of peanuts marketed from the farm by the converted penalty rate for the farm.

(c) If the disposition of peanuts produced on the farm is not accounted for to the satisfaction of the State committee or if any amount of peanuts produced on one farm is falsely identified by a representation that such peanuts were produced on another farm, the total amount of penalty for the farm shall be determined by multiplying the normal yield by the excess acreage by the basic penalty rate.

(d) If the representative of the county committee is prevented by the operator or other producer or person from determining the farm peanut acreage, the farm will be deemed to have excess acreage and the penalty for the farm shall be determined by multiplying the quantity of peanuts marketed from the farm by the basic penalty rate. If, however, the operator furnishes a complete and correct report containing the information specified in § 729.661 (b), the penalty for the farm shall be determined in accordance with paragraph (b) of this section. The procedure outlined in this section shall not be deemed to affect the right of the Secretary to obtain measurement as provided for in the act.

(e) Notwithstanding the foregoing provisions of this section, the penalty will not be applicable to the shriveled, damaged, split, and broken peanut kernels which are obtained in the process of shelling farmers stock peanuts of the 1955 crop for use by the producer as seed in 1956 if the quantity of peanuts shelled by or for the producer is in line with the seed requirements for his farm in 1956 as determined by the county office manager.

§ 729.654 *Identification of marketings.* (a) Each marketing of peanuts from a farm shall be recorded by the buyer or his representative on a marketing card issued for the farm on which the peanuts were produced, if such marketing card is presented to the buyer by the producer at the time the peanuts are marketed. Each marketing of peanuts wtihout a marketing card shall be subject to the penalty at the rate prescribed in § 729.655 (a) unless the marketing consists of shriveled, damaged, split, and broken peanut kernels which were produced in shelling not in excess of that quantity of farmers stock peanuts for a producer which the county office manager determines is reasonable for seed purposes on the producer's farm for the 1956 crop. The marketing of such shriveled, damaged, split, and broken kernels that are not identified by marketing card will be identified by Form MQ–93—Peanuts (1952) partially executed by the county office manager to show the quantity of peanuts that is reasonable for seed purposes on the producer's farm for the 1956 crop. Buyers will record and report purchases of shelled peanuts from producers on Form MQ–91—Peanuts (1955): *Provided, however,* That a person who is not engaged in the business of buying peanuts for movement into the regular channels of trade shall not be required to make a record and report of purchases of peanuts from producers if the county office manager has determined that it would be administratively impracticable to require such buyer to execute forms, keep the records and make the buyer's reports as required in §§ 729.640 to 729.669, in which case the producer marketing the peanuts shall be responsible for reporting each marketing to the county ASC office.

(b) A buyer who resells any farmers stock peanuts of the 1955 crop shall keep, as part of or in addition to the records maintained by him in the conduct of his business, such records as he determines are necessary to enable him to certify, in connection with any such resale of farmers stock peanuts, that such peanuts were identified to him by valid marketing cards when purchased from farmers or other records of resale and that any penalty due was collected and remitted. The records maintained by the buyer with respect to such peanuts shall be available for examination in accordance with § 729.666.

§ 729.655 *Rate of penalty.* (a) The basic penalty rate shall be equal to 50 percent of the basic rate of the loan or support price for peanuts for the marketing year.

NOTE: The exact amount of the penalty rate for peanuts of the 1955 crop will be issued as an amendment to this section as soon as the basic rate of the loan or support price for 1955 is announced

(b) The converted penalty rate for a farm shall be determined as follows:

(1) Compute the percent excess for a farm by dividing the farm peanut acreage into the excess acreage.

(2) Multiply the percent excess for the farm by the basic penalty rate.

§ 729.656 *Persons to pay penalty.* (a) The penalty due on peanuts purchased directly from a producer shall be paid by the buyer who may deduct an amount equivalent to the penalty from the price paid to the producer, except that the penalty due on marketings by a producer directly to any person outside the United States shall be paid by the producer. The buyer shall not be relieved of any liability with respect to the amount of penalty because of any error which may occur in executing a sales memorandum. If the buyer fails to collect or to pay the penalty due on any marketing of peanuts from a farm, he and all producers on the farm shall be jointly and severally liable for the amount of the penalty.

(b) Notwithstanding any other provisions of §§ 729.640 to 729.669, if the county office manager finds that peanuts produced on a farm on which there is excess acreage have been or probably will be sold to persons who are not engaged in the business of buying peanuts for movement into the regular channels of trade and determines that it would be administratively impracticable to effect the collection of the marketing penalty from such persons, the county office manager may, on the basis of county office records or other available information, estimate the actual yield and the production for the farm and determine the amount of penalty due on the quantity of peanuts marketed to such persons. The amount of penalty shall be determined by multiplying the converted penalty rate by the estimated total production for the farm. The amount of penalty may be collected from the operator or producer before the marketing card is issued if he agrees to payment of the penalty in this manner. If the county office manager determines that satisfactory information is not available for estimating the 1955 yield, a normal yield for the farm shall be determined and it shall be considered to be the estimated actual yield for the purpose of determining the amount of penalty. An excess penalty card shall be issued for the farm. If the penalty is paid before the excess penalty card is issued, the penalty rate on the card shall be shown as "zero". If the county committee determines, after marketing of the 1955 crop for the farm has been completed that the actual production for the farm was less than the estimated production, any penalty paid in excess of the amount actually due shall be refunded upon presentation of a request therefor as provided in § 729.660. If the county committee determines, after marketing of the 1955 crop for the farm has been completed that the actual production for the farm was more than the estimated production, the county committee shall immediately redetermine the amount of penalty due and shall make demand upon the producer for the amount of unpaid penalties.

§ 729.657 *Marketings subject to penalty.* In addition to marketings subject to penalty that are identified by excess penalty cards, the marketing of peanuts under any of the following conditions shall be deemed to be a marketing subject to penalty at the rate prescribed in § 729.655.

(a) *Producer marketings.* (1) Any marketing of peanuts by a producer which is not identified by a valid marketing card shall be deemed to be a marketing subject to penalty at the rate prescribed in § 729.655 (a) unless the peanuts marketed consist of shriveled, damaged, split, and broken peanut kernels as described in § 729.654 (a) or unless the marketing is within the terms of the proviso contained in § 729.654 (a). The penalty due under the provisions of this paragraph shall be determined by multiplying the pounds marketed by the basic penalty rate, and such amount of penalty shall be paid by the buyer who may deduct an amount equivalent to the penalty from the amount due the producer.

(2) Notwithstanding the provisions of § 729.653, if any producer falsely identifies or fails to account for the disposition of any peanuts produced on a farm, an amount of peanuts equal to the normal yield of the excess acreage for the farm shall be deemed to have been a marketing subject to penalty from such farm. The penalty for the farm shall be determined by multiplying the normal yield by the excess acreage by the basic penalty rate, and such amount of penalty shall be paid by the producer.

(b) *Buyer's marketings.* The part or all of any marketing of peanuts by a buyer which such buyer represents to be a resale, but which when added to prior sales by such buyer is in excess of the total amount of his prior purchases shall be deemed to be a marketing subject to penalty unless and until such buyer furnishes proof acceptable to the State committee showing that such marketing is not a marketing subject to penalty. Any penalty due under this paragraph shall be paid by the buyer making the resale.

(c) *Marketings not reported.* Any marketing of peanuts which, under the regulations in §§ 729.640 to 729.669, a buyer is required to report, but which is not so reported within the time and in the manner therein required, shall be deemed to be a marketing subject to penalty unless and until such buyer furnishes a report of such marketing which is acceptable to the State committee. The penalty shall be determined by multiplying the pounds marketed by the basic penalty rate, and such amount of penalty shall be paid by the buyer who fails to make the report as required.

§ 729.658 *Payment of penalty.* Penalties shall become due at the time the peanuts are marketed and shall be paid by remitting the amount thereof to the State ASC office not later than the end of two calendar weeks following the week in which the peanuts became subject to penalty. Penalties due under § 729.653 (c) shall become due on demand. A draft, money order, or check drawn payable to the Treasurer of the United States may be used to pay any penalty, but any such draft or check shall be received subject to collection and payment at par.

§ 729.659 *Use of agreement to permit marketings from overplanted farms—* (a) *Within quota card issued on basis of agreement.* If the State committee determines that the agreement provided for in this section will serve a useful purpose, it may authorize its use in the State. Where the use of the agreement is authorized, the county office manager may, upon request of the operator of any farm on which the acreage planted to peanuts exceeds the farm allotment, issue a within quota card with respect to the farm in the manner prescribed in § 729.648 if the operator executes an agreement form in which he represents that the farm peanut acreage will not exceed the larger of the farm allotment or one acre and such form is approved by the county committee.

(b) *Form of agreement.* The agreement referred to in this section shall be on Form MQ–92—Peanuts (1955) executed in accordance with instructions issued by the Deputy Administrator. If the county committee determines that a within quota card issued pursuant to this section would be used as a device to evade the payment of penalty or the terms and conditions of the 1955 crop price support program, the agreement shall not be approved by the county committee and a marketing card shall not be issued for the farm until the farm peanut acreage has been determined.

(c) *Payment of penalty.* If any penalty becomes due for a farm for which an agreement has been executed and approved, the amount of the penalty shall be determined in accordance with § 729.653. At the request of the county office manager, the operator shall surrender the marketing card issued for the farm showing thereon the required record of all peanuts marketed. After collecting the amount of any penalty due, an excess penalty card shall be issued for the farm if marketings from the farm have not been completed.

§ 729.660 *Request for refund of penalty.* After the marketing of peanuts from the farm has been completed and the disposition of any other peanuts produced on the farm can be shown, the producer or any other person who bore

the burden of the payment of any penalty may request the return of the amount of such penalty which is in excess of the amount required under §§ 729.640 to 729.669 to be paid. Such request shall be filed with the county ASC office within two years after the payment of the penalty. No refund shall be made because of peanuts kept on the farm for seed or for home consumption.

RECORDS AND REPORTS

§ 729.661 *Producer's records and reports*—(a) *Report on marketing card.* Each marketing card issued with respect to a farm on which peanuts are produced in 1955 shall be returned to the county ASC office whenever marketings from the farm are completed or at such earlier time as the county office manager may request. Failure to return the marketing card shall constitute failure to account for disposition of peanuts marketed from the farm in the event that a satisfactory account of such disposition is not furnished otherwise, and the allotment next established for such farm shall be reduced as provided in § 729.624 of the marketing quota regulations for the 1955 crop (19 F. R. 6134).

(b) *Additional reports by producers.* (1) In addition to any other reports which may be required under §§ 729.640 to 729.669, the operator of each farm or any other producer on the farm (even though the farm has no excess acreage) shall, upon written request from the State administrative officer sent by registered mail to such person at his last known address, furnish the Secretary a written report of the disposition made of all peanuts produced on the farm by sending the name to the State ASC office within 15 days after the request for such report was deposited in the United States mails. Such written report shall show for the farm:

(i) The farm peanut acreage;

(ii) The total production of peanuts on the farm peanut acreage;

(iii) The name and address of the buyer to or through whom each lot of peanuts was marketed, the number of pounds marketed in each lot, and the date marketed;

(iv) The quantity of peanuts not marketed; and

(v) In the case of a farm for which an agreement was approved under § 729.659, the gross value received for each lot of peanuts.

(2) Failure to file the report as requested or the filing of a report which is found by the State committee to be incomplete or inaccurate shall constitute failure of the producer to account for disposition of peanuts produced on the farm and the allotment next established for such farm shall be reduced as provided in § 729.624 of the marketing quota regulations for peanuts of the 1955 crop (19 F. R. 6134).

§ 729.662 *Records and reports of buyers and others.* The following paragraphs shall apply to all marketings except marketings within the terms of the proviso contained in § 729.654 (a):

(a) *Record of marketings.* (1) Each buyer shall keep such records as will enable him to furnish the State ASC office the following information with respect to each lot of peanuts marketed to or through him by a producer:

(i) Serial number of the marketing card presented by the producer to identify each marketing.

(ii) Name of producer and either the name of the operator of the farm or the farm serial number.

(iii) Date of marketing.

(iv) Number of pounds marketed.

(v) Amount of any penalty due and the amount of any deduction for penalty from the amount paid the producer.

(2) This record may be kept by the buyer maintaining a file on his copies of sales memoranda.

(3) Records of all resales of farmers stock peanuts by the buyer shall be maintained and the name of each person to whom such resale was made shall be shown on the buyer's record in accordance with § 729.654 (b).

(b) *Sales memorandum.* Buyers will record and report each purchase of farmers stock peanuts on a sales memorandum. The CSS copies of sales memoranda, with remittances covering the penalties due on purchases of excess peanuts, shall be forwarded to the State ASC office by means of MQ–79—Peanuts (1955), Buyers Weekly Report and Transmittal to State ASC Office, not later than the end of the two calendar weeks following the week in which the peanuts were marketed.

(c) *Sheller's report of shelled peanuts purchased or acquired from producers.* Persons who shell peanuts for producers and purchase or retain a quantity of the shelled peanuts shall record and report such purchases or acquisitions of shelled peanuts from producers on Form MQ–91—Peanuts, Sheller's Report of Peanuts Shelled for Producers. The CSS copy of Form MQ–91—Peanuts, with remittances covering the penalty due on the purchase of excess peanuts subject to penalty shall be forwarded to the State ASC office not later than the end of two calendar weeks after the buyer has ceased purchasing shelled peanuts of the 1955 crop.

(d) *Additional records and reports.* Each buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut picking or peanut threshing machine shall keep such records and furnish such reports to the State ASC office, in addition to the foregoing, as the State committee may find necessary to insure the proper identification of the marketings of peanuts and the collection of penalties due thereon as provided in §§ 729.640 to 729.669.

§ 729.663 *Record and report of peanuts shelled for producers.* Any person who shells peanuts for a producer and does not retain any of the shelled peanuts shall make a record of the shelling of each lot of such peanuts by executing Form MQ–93—Peanuts (1952) and shall forward the CSS copies of the form to the State ASC office by letter not later than two calendar weeks following the week in which the peanuts are shelled. If any of the shelled peanuts are retained by the seed sheller, such action constitutes a marketing and the buyer shall record and report data covering the purchase of the shelled peanuts as provided in § 729.662 (c).

§ 729.664 *Separate records and reports from persons engaged in more than one business.* Any person who is required to keep any record or make any report as a buyer, processor, or other person engaged in the business of shelling or crushing peanuts, and who is engaged in more than one such business shall keep such records as will enable him to make separate reports for each such business in which he is engaged to the same extent for each such business as if he were engaged in no other business.

§ 729.665 *Failure to keep records or make reports.* Any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts, or manufacturing peanut products, or any person owning or operating a peanut picking or peanut threshing machine, who fails to make any report or keep any record as required in accordance with §§ 729.640 to 729.669, or who makes any false report or record, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than $500.00.

§ 729.666 *Examination of records and reports.* Any buyer, warehouseman, processor, or common carrier of peanuts, any broker or dealer in peanuts, any agent marketing peanuts for a producer or acquiring peanuts for a buyer or dealer, any peanut growers cooperative association, any person engaged in the business of cleaning, shelling, crushing, or salting peanuts or manufacturing peanut products, or any person owning or operating a peanut picking or threshing machine, shall make available for examination upon written request by the State administrative officer or the Director, such books, papers, records, accounts, correspondence, contracts, documents, and memoranda as the State administrative officer or the Director has reason to believe are relevant to any matter under investigation in connection with enforcement of the program and which are within the control of such person.

§ 729.667 *Length of time records and reports to be kept.* Records required to be kept and copies of reports required to be made by any person in accordance with §§ 729.640 to 729.669 for the 1955–56 marketing year shall be kept by him until July 31, 1958. Records shall be kept for such longer period of time as may be requested in writing by the Director.

MISCELLANEOUS

§ 729.668 *Information confidential.* All data reported to or as required by the Secretary pursuant to the provisions of §§ 729.640 to 729.669 shall be kept confidential by all officers and employees of the United States Department of Agriculture and by all members and employees of State or county committees, and only such data so reported or acquired as the Deputy Administrator deems relevant shall be disclosed by them and then only in a suit or administrative hearing, under Title III of the act.

§ 729.669 *Redelegation of authority.* Any authority delegated to the State committee by the regulations in §§ 729.640 to 729.669 may be redelegated by the State committee.

NOTE. The record-keeping and reporting requirements of these regulations have been approved by, and subsequent reporting requirements will be subject to the approval of, the Bureau of the Budget in accordance with the Federal Reports Act of 1952.

Done at Washington, D. C., this 26th day of May 1955. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

ANIMAL FEED CONTAINING ANTIBIOTIC DRUGS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for the certification of antibiotic and antibiotic-containing drugs (19 F. R. 1141, 8690; 20 F. R. 1551) are amended as indicated below:

1. In § 146.26 *Animal feed containing penicillin* • • •, the words "and it contains not less than 100 grams of chlortetracycline per ton of feed" in the first sentence of paragraph (b) (7) are changed to read: "and it contains, per ton of feed, not less than 100 grams of chlortetracycline or not less than 75 grams of streptomycin and 15 grams of penicillin."

2. Section 146.26 (b) (20) (i) is amended by inserting between the words "percent" and "and there has been" the following words: "or 2,4-diamino-5-(*p*-chlorophenyl)-6-ethylpyrimidine in a quantity, by weight of feed, of 0.00075 percent and sulfaquinoxaline in a quantity, by weight of feed, of 0.0075 percent."

3. Section 146.26 (b) (20) (ii) is amended by inserting immediately after the word "arsenosobenzene" the following new words: "or 2,4-diamino-5-(*p*-chlorophenyl)-6-ethylpyrimidine and sulfaquinoxaline".

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it would be against public interest to delay providing for the amendments set forth above, and since it conditionally relaxes existing requirements.

I further find that animal feeds containing antibiotic drugs and other ingredients specified in these amendments need not comply with the requirements of sections 502 (l) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure their safety and efficacy, provided they are used in the amounts and for the conditions specified.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: May 25, 1955.

[SEAL] GEORGE P. LARRICK,
Commissioner of Food and Drugs.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

MISCELLANEOUS AMENDMENTS

1. In § 21.467, that portion of paragraph (a) (1) preceding subdivision (i) is amended and new paragraphs (a) (1) (iii), (4), and (b) (6) are added as follows:

§ 21.467 *Customary cost of tuition*—(a) *Definition.* (1) Under the provisions of paragraph 11 (d), Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), the term "customary cost of tuition," or "customary tuition charges" shall mean that charge which an educational or training institution requires nonveteran enrollees, or veterans enrolled under Public Law 550, 82d Congress, as amended, similarly circumstanced to pay as and for tuition for a course, except that the institution (other than a nonprofit institution of higher learning) is not regarded as having a "customary cost of tuition" for the course or courses in question in the following circumstances:

• • • • • •

(iii) In determining whether the majority of the enrollment of the educational and training institution in the course in question consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, the principles set forth in § 21.2035 (a) (2) are for application.

• • • • • •

(4) Notwithstanding having established a "customary cost of tuition" as set forth in subparagraph (2) of this paragraph, effective November 22, 1954, if the majority of the enrollment of the educational institution in the course in question no longer consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, the institution, in the absence of an agreement or contract providing a different rate, may be considered as having a "customary cost of tuition" as defined in subparagraph (1) of this paragraph which may be paid in behalf of veterans enrolled in training under Part VII and Part VIII. Payment under this subparagraph will not modify agreements or settlements (paid vouchers) heretofore consummated, and such payment may be made only upon receipt of a written request from the institution. The request from the institution will include a certification as to the enrollment in each course in question containing the following information:

(i) Number of veterans enrolled under Public Laws 16 and 346, 78th Congress, as amended, and Public Law 894, 81st Congress, as amended, combined.

(ii) Number of veterans enrolled under Public Law 550, 82d Congress, as amended.

(iii) Number of nonveteran-enrollees.

(b) *Frozen tuition rates.* • • •

(6) Notwithstanding having established a "customary cost of tuition" (frozen rate), as provided in subparagraph (1) of this paragraph, effective November 22, 1954, if the majority of the enrollment of the educational institution in the course in question no longer consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, the institution, in the absence of an agreement or contract having frozen tuition rates, may be considered as having a "customary cost of tuition" as defined in paragraph (a) (1) of this section which may be paid in behalf of veterans enrolled in training under Part VII and Part VIII. Payment under this subparagraph will not modify agreements or settlements (paid vouchers) heretofore consummated, and such payment may be made only upon receipt of a written request from the institution and a certification as to the enrollment in each course having frozen tuition rates containing the information set forth in paragraph (a) (4) (i) through (iii) of this section.

• • • • • •

2. In § 21.470, paragraph (b) (3) is amended to read as follows:

§ 21.470 *Total payments to nonprofit educational institutions for courses of 30 weeks or more.* • • •

(b) *Limitation on total payments by the Veterans Administration.* • • •

(3) *Fair and reasonable compensation basis for nonprofit institutions having no "customary cost of tuition."* (See § 21.467.) Payment on a fair and reasonable basis calculated in accordance with the provisions of § 21.530 and under the requirements of a contract as set forth in § 21.570 will be in lieu of all claimed charges for tuition and fees where a nonprofit educational institu-

tion (not including educational institutions of higher learning) has no "customary cost of tuition" as defined in § 21.467. A nonprofit tax-supported educational institution (not including educational institutions of higher learning) receiving payment on a fair and reasonable basis calculated in accordance with the provisions of § 21.530 (a) and under a contract providing for adjustment of contract rates as provided in § 21.530 (a) (4), will not be considered as having established a "customary cost of tuition" (fixed rate) as contemplated in § 21.467. The payment of a fair and reasonable rate will be limited to an amount which together with the allowable charge for books, supplies, and equipment will not exceed the rate of $500 for a full-time course for an ordinary school year, unless the veteran elects to have such excess paid by the Veterans Administration (where authorized) and to have his period of entitlement accelerated accordingly. (The provisions of this subparagraph are equally applicable for courses of less than 30 weeks.) (See § 21.495 (b).)

3. In § 21.495, paragraph (b) (2) (i) is amended to read as follows:

§ 21.495 *Amount payable by the Veterans Administration under Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), for a course of less than 30 weeks.* • • •

(b) • • •

(2) • • •

(i) The Veterans Administration will pay a fixed fair and reasonable charge as follows: Except for courses provided by nonprofit institutions of higher learning, institutional on-farm training courses, and correspondence courses, in any case wherein a school has entered into one or more contracts for a period or periods in excess of 12 calendar months (see example in § 21.467 (b) (2)) for a course or courses of education or training of less than 30 weeks, the rate of the last contract shall, without further justification, be paid as a fair and reasonable rate for such course or courses. However, the above shall not preclude an educational institution from requesting a fair and reasonable rate under § 21.530 which will be negotiated and allowed by the Veterans Administration. Effective November 22, 1954, if the majority of the enrollment of the educational institution in the course or courses in question no longer consists of veterans in training under Part VII and Part VIII, the institution, in the absence of an agreement or contract having a fixed fair and reasonable rate, may be considered as having a "customary cost of tuition" as defined in § 21.467 (a) (1) which may be paid in behalf of veterans enrolled in training under Part VII and Part VIII under the same conditions provided in § 21.467 (b) (6). Each request by an educational institution for a fair and reasonable rate will be submitted to the regional office with cost data provided on VA Form 7–1968 for profit institutions and VA Form 7–1969 for nonprofit institutions prepared in accordance with Veterans Administration Regulations. In any case wherein the Manager believes that the last contract rate for tuition, books, or supplies was obtained as a result of fraud or misrepresentation or was in conflict with the governing regulation, the Manager will carefully reexamine such rate, and if the contract is determined to have been invalid, the Manager will take appropriate action including negotiation of a contract on a proper and legal basis.

• • • • •

4. In § 21.530, that portion of paragraph (a) (5) (iii) (*b*) preceding (*1*), paragraph (a) (5) (iv) and (vii), that portion of paragraph (b) (1) preceding subdivision (i), and that portion of paragraph (f) (1) preceding subdivision (i) are amended to read as follows:

§ 21.530 *Determination of fair and reasonable compensation*—(a) *Nonprofit institutions.* • • •

(5) *Establishment of customary cost of tuition under section 2, Public Law 610, 81st Congress, and adjustment for surplus or deficit.* • • •

(iii) *Where surplus or deficit exists school may elect to continue regulatory formula.* • • •

(*b*) At the end of any contract or contract adjustment period a surplus or deficit which resulted from the payment of the agreed fair and reasonable rate of compensation may be settled on a lump-sum basis, provided that appropriate adjustment has been or is made for surpluses or deficits for all previous periods, including surplus which may have been on hand on March 1, 1949. The institution will submit to the regional office on VA Form 7–1969 a certified statement of actual costs and actual hours of instruction for which the institution is entitled to be paid for the period of the most recent contract. Allowable costs will include only those provided in the cost formula in this paragraph. Each such VA Form 7–1969 will include a statement on schedule K, part 2, of the surplus or deficit for the entire period between the effective date of the first contract under this paragraph and the termination date of the most recent contract plus any surplus determined as of March 1, 1949. These cost data will also be used for the determination of a new fair and reasonable rate to be included in the next contract. In no case will compensation for a deficit, attributable to veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, be made in an amount which when added to the fair and reasonable tuition and other charges for fees, books, and supplies result in the payment of a rate in excess of the rate of $500 for a full-time course for an ordinary school year $14.70 per week). (See subdivision (vii) of this subparagraph.)

• • • • •

(iv) *Establishment of customary cost of tuition upon lump-sum adjustment of surplus or deficit.* If a surplus or deficit exists, the institution may elect at the expiration of the contract period which occurs on or after 24 months or the expiration of any subsequent contract to make or receive a lump-sum adjustment of surplus or deficit and accept as a customary rate the rate established by the actual allowable cost of the prior contract, or, if the majority of the enrollment in the courses under contract no longer consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), the institution may elect to be paid the rate charged nonveteran-enrollees or veterans enrolled under Public Law 550, 82d Congress, as amended, and no further adjustments will be required or made. In each case where an institution has a contract which serves as the basis for establishing a customary cost of tuition, the institution will prepare on VA Form 7–1969 a certified statement of actual costs and actual hours of instruction for which the institution is entitled to be paid for the period of such most recent contract. Allowable costs will include only those provided in the cost formula in this paragraph. Each such VA Form 7–1969 will include a statement on schedule K, part 2, of the surplus or deficit for the entire period, between the effective date of the first contract under this paragraph and the termination date of the contract which completed the 24-month period and which established the customary cost of tuition as provided in this subparagraph plus any surplus determined as of March 1, 1949. In each case where a surplus or deficit is determined, the most recent contract will be supplemented (VA Form 7–1972). For payment of surplus by the institution to the Veterans Administration, the standard clause provided in subdivision (iii) (*b*) (*1*) of this subparagraph will be used. For payment of a deficit to the educational institution by the Veterans Administration, the standard clause provided in subdivision (iii) (*b*) (*2*) of this subparagraph will be used. Where the school elects to repay an existing surplus through a lump-sum repayment to the Veterans Administration as in this subdivision and elects to establish a customary cost of tuition (frozen rate), or to be paid the rate charged nonveteran-enrollees or veterans enrolled under Public Law 550, 82d Congress, as amended, the chief of the training facilities activity will secure from a responsible official of the institution a statement in writing as to the manner in which the lump-sum repayment will be made and will advise the finance officer accordingly in writing. Where payments of tuition rates under previous contracts have resulted in a deficit to the contractor and the school elects to be paid such deficit in a lump sum and elects to establish a customary cost of tuition (frozen rate), or to be paid the rate charged nonveteran-enrollees or veterans enrolled under Public Law 550, 82d Congress, as amended, the Veterans Administration will reimburse the school by lump-sum settlement, as in this subdivision: *Provided, however,* That in no case will compensation for a deficit, attributable to veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, be made in an amount which when added to the fair and reasonable tuition and other charges for fees, books, supplies, and equipment results in the payment of a rate in excess of the rate of $500 for a full-time course for an ordinary school year ($14.70 per week). (See subdivision (vii) of this subparagraph.) The Veterans Administration will make payment of the approved amount of the deficit upon the submission of a voucher for such lump sum in accordance with Veterans Administration Regulations, but itemization of charges for individual veterans will not be necessary.

• • • • •

(vii) *Limitations on payments and tuition rates.* In no case under the provisions of this subparagraph will the Veterans Administration pay a deficit incurred during any contract period which would result in the payment of charges for tuition, fees, books, and supplies at a rate in excess of the rate of $500 for an ordinary school year ($14.70 per week), or a rate in excess of the fair and reasonable rate determined on the basis of the pro rata amount of allowable costs attributable to veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended. The costs attributable to veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, shall be the pro rata part of total allowable costs incurred in operation of the course that the hours or months of instruction furnished to such veterans bears to the total hours or months of instruction furnished to all students in the course for the period involved.

• • • • •

(b) *Other than nonprofit institutions.* • • •

(1) *Submission of financial statements.* The determination of fair and reasonable compensation by the chief, training facilities activity will require the submission by profit educational institutions of a detailed certified financial statement on VA Form 7–1968, Statement of Costs—Profit Institution. The entries by the educational institution on this form must be consistent with the records of the institution and will include the actual cost experience of a minimum period of 12 months unless prior authorization is given by the regional office for a lesser period. Such cost data will be for the most recent actual cost experience of the institution for the specific course involved. In the case of new courses, estimated costs may be submitted if actual experience is not available. The procedures for making determinations of allowable cost items should be clearly understood before cost statements are prepared by the educational institution, since the submission of insufficient or improper data or information may result in delays, duplication of work, and unnecessary expense. Detailed financial data will consist of the following:

• • • • •

(f) *Allowance for depreciation and toolroom attendants under special conditions involving frozen rates.* (1) Where an educational institution is being paid a customary cost of tuition established under the provisions of § 21.467 (b) (frozen), a regional office may, under the following conditions, determine a fair and reasonable allowance for depreciation of tools and equipment and salaries of toolroom attendants and may provide for payment to the institution in addition to the frozen rate by supplementing existing contracts, if necessary, in any case where:

• • • • •

5. Section 21.606 is revised to read as follows:

§ 21.606 *Contracts required.* Inasmuch as the customary charges for flight training will exceed the rate of $500 for a full-time course for an ordinary school year of 34 weeks, contracts will be required for such training in accordance with the provisions of § 21.570. No contract will be approved until the manager of the regional office has found that the rates proposed to be charged are fair and reasonable. For the purpose of negotiating contracts under Public Law 346, as amended, for flight instruction as defined in § 21.601, effective November 22, 1954, managers are authorized to approve proposals as fair and reasonable without requiring the submission of detailed cost figures and to approve contracts for one or all of the unit flight courses, provided the majority of the enrollment in the unit course or courses no longer consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, and the charges for the course are not more than those made to other students, including veterans enrolled under Public Law 550, 82d Congress, as amended, pursuing the same or comparable courses, as set forth in published catalogs or bulletins of the school or institution. In the event a school or institution does not publish a bulletin, a responsible official of the school or institution will individually certify to the manager of the regional office, within whose territory the school or institution is located, the customary charges for the courses offered.

6. In § 21.616, that portion of paragraph (c) (1) preceding subdivision (i) is amended and a new paragraph (f) is added as follows:

§ 21.616 *Review and adjustment of contract rates.* • • •

(c) *Lump-sum adjustment of surplus or deficit upon completion of a contract or adjustment period or at the termination of contractual relationships.* (1) At the end of any contract or adjustment period a surplus or deficit which resulted from the payment of the agreed fair and reasonable rate of compensation may be settled on a lump-sum basis, provided that appropriate adjustments have been or are made for surpluses or deficits for all previous periods, including surplus which may has been on hand on September 1, 1947. The institution will submit to the regional office on VA Form 7–1969 a certified statement of actual costs and actual months of instruction for which the institution was entitled to be paid for the period of the most recent contract. Allowable costs will include only those provided in the cost formula in §§ 21.613 through 21.619. Each such VA Form 7–1969 will include a statement on schedule K, part 2, of the surplus or deficit for the entire period between the effective date of the first contract for on-farm training under Public Law 377, 80th Congress, and the termination date of the most recent contract plus any surplus determined as of September 1, 1947. These cost data will also be used for the determination of a new fair and reasonable tuition rate to be included in the next contract. In no case will compensation for a deficit, attributable to veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A), be made in an amount which when added to the fair and reasonable tuition and other charges for fees, books, supplies and equipment results in the payment of a rate in excess of the rate of $500 for a 12-month period ($41.66 per month), for contracts entered into subsequent to February 21, 1952. (See § 21.619.) At the termination of contractual relationships under §§ 21.613 through 21.619 a final adjustment will be made, both where money is due the Government and where it is due the school.

• • • • •

(f) An institution which has a contract for on-farm training containing tuition rates subject to adjustment for surplus or deficit under the provisions of this section may elect at the expiration of the contract to effect final settlement of any surplus or deficit as provided in paragraph (c) of this section, and to accept payment of the rate charged similarly circumstanced nonveteran-enrollees or veterans enrolled under Public Law 550, 82d Congress, as amended, if the majority of the enrollment in the course under contract no longer consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, and no further adjustments will be required or made. When the majority of the enrollment in the institutional on-farm training course no longer consists of veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended, it has been administratively determined that the rate charged nonveteran enrollees or veterans enrolled under Public Law 550, 82d Congress, as amended, is fair and reasonable as contemplated in § 21.613 (b) for training under Part VII or Part VIII, Veterans Regulation 1 (a), as amended.

7. Section 21.619 is revised to read as follows:

§ 21.619 *Limitation of payments; institutional on-farm training.* Effective February 21, 1952, the maximum rate which the Veterans Administration will pay for training in a course of institutional on-farm training is the rate of $500 for a 12-month period, and the maximum rate will not be in excess of $41.66 per veteran per month determined over the period of any contract or adjustment period. In no event will the Veterans Administration pay a deficit incurred during any contract period at a rate in excess of the fair and reasonable rate determined on the basis of the prorata amount of allowable costs attributable to veterans in training under Part VII and Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12A). The costs attributable to veterans in training under Part VII and

Part VIII, Veterans Regulation 1 (a), as amended, shall be the pro rata part of total allowable costs incurred in operation of the course that the months of instruction furnished to such veterans bears to the total months of instruction furnished to all students in the course for the period involved.

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interpret or apply secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended, sec. 261, 66 Stat. 663; 38 U. S. C. 693g, 697–697d, 697f, g, 971, ch. 12 note)

This regulation is effective June 1, 1955.

SUBPART A—SCOPE OF REGULATIONS

§ 196.1 *Stills.* This part relates to the manufacture, taxpayment, removal, use, and registration of stills and worms or condensers, and the exportation of stills and worms with benefit of drawback of internal revenue tax.

§ 196.2 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part, including applications, claims, records, and reports. Information called for shall be furnished in accordance with the instructions on the forms, or issued in respect thereto.

SUBPART B—DEFINITIONS

§ 196.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 196.6 *Assistant regional commissioner.* "Assistant regional commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under, the direction and supervision of the regional commissioner.

§ 196.7 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 196.8 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division" shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 196.9 *Distilled spirits.* "Distilled spirits" shall mean that substance known as ethyl alcohol, hydrated oxide of ethyl, or spirits of wine, which is commonly produced by the fermentation of grain, starch, molasses, or sugar, including all dilutions and mixtures of this substance.

§ 196.10 *Distilling.* "Distilling" shall mean the distillation of spirits or alcohol as defined by sections 5002 (b) (1) and 5319 (1), I. R. C. Such distillation shall include: (a) The original manufacture of distilled spirits from mash, wort, or wash, or any material suitable for the production of spirits; (b) the redistillation of spirits in the course of original manufacture; (c) the redistillation of spirits, or products containing spirits within the provisions of section 5082, I. R. C.; (d) the distillation, redistillation, or recovery of ethyl alcohol or of completely or specially denatured alcohol, or of articles containing ethyl alcohol or completely or specially denatured alcohol; and (e) the redistillation or recovery of tax-free alcohol.

§ 196.11 *Distilling apparatus.* "Distilling apparatus" shall mean any still or worm or condenser defined in §§ 196.17 and 196.18.

§ 196.12 *District director.* "District director" shall mean a district director of internal revenue.

§ 196.13 *Inclusive language.* Words in the plural form shall include the singular, and vice versa, and words in the masculine gender shall include the feminine, associations, partnerships, and corporations.

§ 196.14 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 196.15 *Person, manufacturer, distiller, user.* "Person," "manufacturer," "distiller," or "user" shall be construed to mean and include an individual, a trust, estate, partnership, association, company, or corporation.

§ 196.16 *Regional commissioner.* "Regional commissioner" shall mean the regional commissioner of internal revenue in each of the internal revenue regions.

§ 196.17 *Still.* "Still" shall mean any apparatus capable of being used for separating alcoholic or spirituous vapors, or alcohol or spirituous solutions, or alcohol or spirits, from alcohol or spirituous solutions or mixtures, but shall not include stills used for laboratory purposes or stills used for distilling water or other nonalcoholic materials where the cubic capacity of such stills is one gallon or less.

§ 196.18 *Worm or condenser.* "Worm" or "condenser" shall mean any apparatus capable of being used when connected with a still, for condensing or liquefying alcoholic or spirituous vapors, but shall not include worms or condensers to be used with laboratory stills or stills used for distilling water or other nonalcoholic materials where the cubic capacity of such stills is one gallon or less.

SUBPART C—MANUFACTURE, TAXPAYMENT, SALE, REMOVAL, AND REGISTRATION OF STILLS OR WORMS OR CONDENSERS

§ 196.25 *Manufacturer of stills defined.* Any person who manufactures any still or worm or condenser to be used in distilling shall be deemed a manfacturer of stills.

(68A Stat. 617; 26 U. S. C. 5102)

§ 196.26 *Special tax liability; rate of tax.* Manufacturers of stills, as to each place of manufacturer, shall pay a special (occupational) tax of $55, and, in addition thereto, a special (commodity) tax of $22, for each still or worm or condenser to be used in distilling made by him, i. e., $22 for each still and $22 for each worm or condenser.

(68A Stat. 617; 26 U. S. C. 5101, 5102)

MANUFACTURE OF PARTS OF STILLS AND ASSEMBLING THEREOF

§ 196.27 *Parts procured from same manufacturer.* If separate parts of a complete still or worm or condenser, of any kind, are furnished by the same manufacturer to a distiller, or other person, who assembles the same into a still or worm or condenser for distilling, the manufacturer of the parts will incur liability for the special (occupational and commodity) taxes imposed upon manufacturers of stills.

(68A Stat. 617; 26 U. S. C. 5102)

§ 196.28 *Materials or apparatus procured and converted into distilling apparatus.* If a distiller or other person procures materials or apparatus, which are not separately subject to tax under the provisions of this part and converts same into a still or worm or condenser for distilling, he will incur liability for the special (occupational and commodity) taxes imposed upon manufacturers of stills.

(68A Stat. 617; 26 U. S. C. 5102)

RECONSTRUCTION OF STILLS

§ 196.29. *Repairs or alterations.* Whenever a still or worm or condenser, to be used in distilling, is repaired or altered by the addition of new material to such an extent as to virtually result in the construction of a new still or worm or condenser, the person making such repairs or alterations will be held liable for the special (commodity) tax of $22 for each still or worm or condenser so repaired or altered, and in addition will incur liability for the special (occupational) tax of $55 as a manufacturer of stills.

(68A Stat. 617; 26 U. S. C. 5101, 5102)

§ 196.30 *Extent of changes.* Minor structural changes made in a still or worm or condenser, such as the limited replacement of parts or the addition of new materials, which do not effect any material change in the mode of operation, character, or capacity of the distilling apparatus, will not be deemed to constitute the manufacture of a new still or worm or condenser.

(68A Stat. 617; 26 U. S. C. 5102)

§ 196.31 *Manufacturer to notify assistant regional commissioner.* Any person making such changes, repairs, or alterations of a still or worm or condenser will immediately notify the assistant regional commissioner of the region of the extent of such repairs or alterations, advising him of the quantity and cost of new materials and parts and the precise nature of the changes. If the changes, repairs, or alterations are involved or complicated, a sketch of the apparatus showing the changes or alterations should also be furnished the assistant regional commissioner for determination of tax liability. If such is available, information as to the initial cost of the construction of the apparatus should likewise be furnished the assistant regional commissioner.

(68A Stat. 617; 26 U. S. C. 5102)

§ 196.32 *Action by assistant regional commissioner.* The assistant regional commissioner will determine in each instance whether changes, repairs, or alterations of any still or worm or condenser constitute the manufacture of a new still or worm or condenser, and will in each case notify the manufacturer of his decision. In any instance where tax liability has been incurred, the assistant regional commissioner will promptly notify the appropriate district director of such tax liability. The district director will thereupon take appropriate action to collect the required special taxes. Such investigations and inspections in connection therewith will be made as the assistant regional commissioner deems necessary. In the event of doubt whether the changes, repairs, or alterations of any still, worm, or condenser are of such nature or extent as to incur tax, the assistant regional commissioner will refer the case, together with all the evidence available, including a sketch of the apparatus showing the extent of new materials and replacements, to the Director, Alcohol and Tobacco Tax Division, for a ruling.

(68A Stat. 617; 26 U. S. C. 5102)

NAME PLATES

§ 196.33 *Name plate of manufacturer on still.* Each still or worm or condenser must be identified as follows:

(a) Name of manufacturer.

(b) Address of manufacturer.

(c) Manufacturer's serial number for the article. Such identification shall be shown by the manufacturer on a plate, securely attached to the apparatus by riveting or brazing, or be cut, by the manufacturer, by suitable die legibly and durably in the material of which the apparatus is made. The identification marks may not be covered by insulating or other material, or otherwise obscured or concealed. Such marks on stills or worms or condensers will be disclosed by the manufacturer or vendor in the notice to the assistant regional commissioner.

PAYMENT OF TAX

§ 196.34 *Special tax return.* Special (occupational) taxes imposed on manufacturers of stills or worms or condensers and the special (commodity) taxes on such articles will be paid by the manufacutrer pursuant to the filing of a special tax return, Form 11, showing the information required by the form.

§ 196.35 *Execution of Form 11.* The return of an individual proprietor shall be signed by the proprietor; the return of a partnership shall be signed by an authorized member of the firm; and the return of a corporation shall be signed by an authorized officer thereof. In each case, the person signing the return shall designate his capacity as "individual owner," "member of firm," or in the case of a corporation, the title of the officer. Receivers, trustees, assignees, executors, administrators, and other legal representatives who continue the

business of a bankrupt, insolvent, deceased person, etc., will indicate the fiduciary capacity in which they act. When a return is signed by an agent or attorney-in-fact, his signature should be preceded by the name of the principal followed by his title. Returns signed by persons as agents will not be accepted unless they file with the district director a power of attorney, authorizing them so to act. Form 11 must contain or be verified by a written declaration that it has been executed under the penalties of perjury.

(68A Stat. 749, 846; 26 U. S. C. 6055, 7011)

§ 196.36 *Special (occupational) tax.* The special (occupational) tax on manufacturers of stills is due on the 1st day of July in each year, or on commencing such trade or business. In the former case, the tax shall be reckoned for one year, and in the latter, it shall be reckoned proportionately from the 1st day of the month in which the liability to the special tax commenced, to and including the 30th day of June following. It shall be the duty of the special-taxpayers to render their returns with required remittances to the district director at such times within the calendar month in which the special tax liability commenced as shall enable him to receive such returns, duly signed and verified, together with the remittances, not later than the last day of the month, except in cases of sickness or absence where, as provided by section 6081, I. R. C., an extension not to exceed six months is granted by the district director.

(68A Stat. 624; 26 U. S. C. 5142)

§ 196.37 *Posting of stamp.* The special (occupational) tax stamp must be conspicuously posted in the establishment or place of business of the manufacturer of stills.

(68A Stat. 831; 26 U. S. C. 6806)

§ 196.38 *Special (commodity) tax.* The special (commodity) tax on each still or worm or condenser intended for distilling is due when the manufacture thereof is completed and must be paid before such article is removed from the place of manufacture or before being set up, if manufactured on the premises where intended to be used, by affixing to the article the special (commodity) tax stamp. At the time of affixing such stamp it must be canceled by the manufacturer by writing across the face thereof, in permanent ink, the word "canceled" followed by the name of the manufacturer, the manufacturer's serial number of the article, and the date of cancellation.

§ 196.39 *Affixing stamp to apparatus.* After cancellation of the stamp has been completed, the stamp shall be enclosed in a moisture proof case having a transparent face. The case, with stamp enclosed, must be secured to the article by means of screws, bolts, or rivets, or by brazing.

(68A Stat. 830; 26 U. S. C. 6804)

§ 196.40 *Types of distilling apparatus subject to special (commodity) tax.* Under the law the $22 tax is due on each still and on each worm or condenser used as indicated in this section and not merely one tax on the unit. This means that tax is due on the beer still, and each successive still or worm or condenser through which the spirits are passed, including an intermediate or primary worm or condenser for low wines, which require doubling, with the following exceptions:

(a) A worm or condenser for the condensation of aldehydes or fusel oil only, where such aldehydes or fusel oil contain only negligible quantities of alcohol, is not subject to the $22 tax.

(b) A preheater used solely for preheating distilling material is not subject to the $22 tax.

(c) A cooler, consisting of a series of metal tubes enclosed in a water jacket or other apparatus of similar construction, used solely for reducing the temperature of hot spirits, is not subject to the $22 tax.

(d) A separator or dephlegmator, used solely for separating vapors of lower boiling points from vapors of higher boiling points, allowing the latter to condense and reflux to the still, and the former to pass forward to a worm or condenser, is not subject to the $22 tax.

(68A Stat. 617; 26 U. S. C. 5101)

§ 196.41 *Use by United States.* Any still or distilling apparatus intended for use by the United States, or any governmental agency thereof, in distilling, may be removed by the manufacturer, subject to the notice of removal prescribed by § 196.42 without payment of the special (commodity) tax thereon.

(68A Stat. 900; 26 U. S. C. 7510)

PROCEDURE FOR REMOVAL FOR DOMESTIC USE FOR DISTILLING

§ 196.42 *Notice of removal.* No still, boiler (doubler or pot still), worm, condenser, or other distilling apparatus intended for use in distilling, shall be removed from the premises of the manufacturer, or dealer, as the case may be, for delivery to a user, or for his own use, until the assistant regional commissioner of the region to which the equipment will be shipped has been notified on Form 110. Such notice shall contain or be verified by a written declaration that it is made under the penalties of perjury, and must disclose the name and address of the manufacturer or vendor, the approximate date the apparatus is to be removed, the name and address of the person by whom the apparatus is to be used, the purpose for which it is to be used, the type and kind of apparatus, its capacity, the manufacturer's serial number of the apparatus, the serial number of the manufacturer's special (occupational) tax stamp and, unless the apparatus is to be removed without payment of tax for use by the United States, the serial number of the special (commodity) tax stamp for the apparatus. No distilling apparatus may be set up for distilling without application to and permit from the assistant regional commissioner in whose region the apparatus is to be used as provided in § 196.43. (See §§ 196.60 to 196.72 relative to exportation of stills and worms with benefit of drawback.

(68A Stat. 617; 26 U. S. C. 5105)

§ 196.43 *Application and permit to set up distilling apparatus.* Upon receipt of such distilling apparatus and before setting up the same for distilling, the user shall apply to the assistant regional commissioner on part 1, Form 1609, in duplicate, for permission to set up such apparatus, specifying the type of apparatus, the capacity, the serial number thereof, the name and address of the manufacturer, the name and address of the vendor, and the purpose for which the apparatus will be used. The assistant regional commissioner shall then, if he has in his possession the notice of removal of the distilling apparatus from the premises of the manufacturer or vendor, issue a permit on part 2, Form 1609, authorizing the distilling apparatus to be set up by the user. Such permission will contain the stipulations: (a) That the distilling apparatus must be immediately registered when set up, as required by §§ 196.45 to 196.47, and (b) that all provisions of internal revenue law and regulations, as may be applicable to the class of operations to be conducted, will be complied with prior to use of such apparatus for distilling.

(68A Stat. 617, 628; 26 U. S. C. 5105, 5174)

§ 196.44 *Failure to give notice; penalty.* Failure to give the notice of intention to remove and obtain the permit to set up a still is punishable in the sum of $500, and the distilling apparatus is forfeitable to the Government.

(68A Stat. 683; 26 U. S. C. 5602)

REGISTRY OF STILLS

§ 196.45 *Registration with assistant regional commissioner.* Every person having in his possession, custody, or under his control, any still or distilling apparatus set up, and intended for use in distilling, shall register the same on Form 26 with the assistant regional commissioner of the region in which such still or distilling apparatus is located. The Form 26 shall be executed in accordance with the headings of the various columns and lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part, and shall contain or be verified by a written declaration that it has been executed under the penalties of perjury. An approved copy of Form 26 will be returned to the registrant by the assistant regional commissioner, and shall be retained on the premises where the still is set up for examination by visiting internal revenue officers.

(68A Stat. 628; 26 U. S. C. 5174)

§ 196.46 *When still is "set up."* A still will be regarded as set up and subject to registry when it is in position over a furnace, or connected with a boiler so that heat may be applied, although the worm or condenser may not be in position. These instructions as to stills set up are intended merely as illustrations and are not expected to cover all types of stills or worms or condensers requiring registration under the law.

(68A Stat. 628; 26 U. S. C. 5174)

§ 196.47 *Change in location or ownership of distilling apparatus.* In the event a user desires to remove any distilling apparatus subject to registration under this part to another location after the same has been registered, no permit therefor will be required. The user must, however, prior to removal, file Form 26 to register the apparatus "not for use" and to disclose the location to which the removal is to be made and the approximate date of such removal. After removal, no such distilling apparatus intended for use in distilling may be again set up without application to and permit from the assistant regional commissioner in whose region the apparatus is to be used, as provided in § 196.43. Likewise, when a user sells or otherwise disposes of any distilling apparatus, no permit for removal, sale, or disposition thereof will be required. The user must, however, prior to disposal of such apparatus, file Form 26 with the assistant regional commissioner to register the apparatus "not for use" and to disclose the method of disposition (sale, destruction, or otherwise), the name and address of the person to whom disposed of, the approximate date the apparatus is to be removed, and the purpose for which it is intended to be used. After removal, no such distilling apparatus intended for use in distilling may be again set up without application to and permit from the assistant regional commissioner in whose region the apparatus is to be used, as provided in § 196.43. Where there has been a change in ownership, custodianship, control, or a removal to other premises, of any still or distilling apparatus, intended for use in distilling, the person in whose possession, custody, or under whose control the still or distilling apparatus is set up must immediately register the same with the assistant regional commissioner.

(68A Stat. 617, 628; 26 U. S. C. 5105, 5174)

SUBPART D—EXPORTATION OF STILLS AND WORMS WITH BENEFIT OF DRAWBACK

§ 196.60 *Exportation.* An exportation is a severance of goods from the mass of things belonging to this country with the intention of uniting them to the mass of things belonging to some foreign country. The export character of any shipment will be determined by the intention with which it is made. The shipment assumes an export character only when destined for use in a foreign country.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.61 *Puerto Rico, Guam, American Samoa, or Virgin Islands.* Reference in this part, and in the forms prescribed thereunder, to exportation to a foreign country shall apply to shipments from the United States to Puerto Rico, Guam, American Samoa, or the Virgin Islands.

(68A Stat. 618, 908; 26 U. S. C. 5106, 7653)

§ 196.62 *Drawback of tax.* Drawback of the tax paid on stills and worms manufactured for export is allowable upon exportation: Where a special (commodity) tax has been paid on stills and worms intended for export and drawback is desired, the manufacturer shall brand such articles, make application for allowance of drawback, and deliver such articles into customs custody as provided in §§ 196.63 to 196.67.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.63 *Marking of stills, worms or condensers.* Stills, worms or condensers intended for exportation with benefit of drawback shall have branded or stamped thereon, in a conspicuous place, the words "for export," followed by the serial number of the article and the manufacturer's name. Where such articles are manufactured from metal plates, the words "for export," with the serial number of the article and the manufacturer's name directly thereunder, will be stamped (in letters and figures which must, in no case, be less than one-half inch in height) thereon with a suitable die or otherwise permanently affixed to each article. Where the article is constructed of wood, the words "for export," the serial number of the article and the manufacturer's name will be branded thereon. If the article is to be exported in a shipping container, the foregoing marks must also be shown on such container in a manner which will enable ready identification by customs officers.

§ 196.64 *Request for inspection; entry for exportation; drawback claim.* After manufacture of the stills, worms or condensers and before the same are removed from the place of manufacture, the manufacturer (exporter) will forward to the district director of his district Form 1610, in triplicate, with parts 1 and 2 duly executed. Request for exportation and release of the apparatus for immediate exportation, and application for allowance of drawback, equal to the internal revenue tax paid on the apparatus when actually exported, will be made in part 1 of Form 1610. Entry for exportation of the apparatus and claim for drawback of the internal revenue tax paid thereon will be made by the manufacturer (exporter) in part 2 of the form, and shall contain or be verified by a written declaration that it is made under the penalties of perjury. The stamps denoting payment of the tax must be attached to the original of the claim.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.65 *Payment of tax; inspection by collection officer; certificate.* Upon the receipt of claim and entry on Form 1610, and upon the payment of the tax due, the district director will direct a collection officer to proceed to the place of manufacture, and, if the stills, worms or condensers are found to agree with those described in the form, and are properly marked or branded as required by this part, the collection officer will execute the certificate in part 4 of the form. The stamp, or stamps, attached to the claim must, in the presence of the collection officer, be canceled by the manufacturer by writing across the face thereof in ink the word "canceled" followed by the name of the manufacturer, the manufacturer's serial number of the apparatus, and the date of cancellation. The collection officer will then release the apparatus for delivery to carrier or into customs custody, and will mail or deliver two copies (one the original, with the special tax stamps attached) of the claim and entry, Form 1610, to the collector of customs and forward the remaining copy to the district director.

(68A Stat. 618; 26 U. S. C. 5106)

DELIVERY OF SHIPMENT FOR EXPORT; BILL OF LADING

§ 196.66 *Place of manufacture located at the port of exportation.* The manufacturer shall deliver the shipment directly for customs inspection and supervision of lading. The drawback entry, Form 1610, must be filed with the collector of customs at least six hours prior to the lading of the distilling apparatus in order to allow opportunity for customs inspection. The exporter must file a copy of the export bill of lading with the district director of the district in which the place of manufacture is located, for attachment to the copy of Form 1610 retained by him. The bill of lading must show the exporter as the shipper, the manufacturer's serial numbers of the articles, and the number of articles contained in the shipment.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.67 *Place of manufacture located elsewhere than at the port of exportation.* The manufacturer shall deliver the shipment either directly for customs inspection and supervision of lading or to a common carrier for transportation to the port of export. The exporter shall transmit a copy of the bill of lading covering such transportation and a copy of the export bill of lading to the district director, for attachment to the copy of Form 1610 retained by him. In case of exportation through a border port to contiguous foreign territory the bill of lading will show the routing, particularly the name of the carrier that is to deliver the shipment for customs inspection at the border port, and will cover transportation to the foreign destination: *Provided,* That where a through bill of lading is not obtainable, separate bills of lading covering the shipment from the place of manufacture to the border port and from the border port to the foreign destination will be procured. The bill of lading will also show that the shipment was sent in care of the collector of customs or the deputy collector of customs at the border port. One copy of the through bill of lading or of each of the separate bills of lading, as the case may be, will be transmitted by the exporter or his agent immediately by letter to the district director, for attachment to the copy of Form 1610 retained by him.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.68 *Inspection and lading.* The collector of customs, to whom claim and entry on Form 1610 is transmitted by the collection officer, will fill in on each copy of said form the order for inspection and lading. The inspector of customs will carefully examine the apparatus described in the entry and he will, if he finds the articles to be otherwise than described, make a special report thereon. After having complied with the order of inspection and after the apparatus has been duly laden on board the conveyance of the export carrier, the inspector will

complete and sign the certificate of inspection and lading in part 6 of Form 1610. If the inspector discovers any evidence of fraud, he will detain the apparatus and notify the collector of customs, who will inform the assistant regional commissioner of the region in which said port is located.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.69 *Certificate of exportation.* After inspection and lading and clearance for a foreign port of the vessel or car on which the articles described in the entry are laden, the collector of customs will execute the certificate of exportation on each copy of the claim and entry, Form 1610. He will retain one copy of the form for his entry record and will transmit the original to the district director for the district from which the apparatus was shipped.

(68A Stat. 618; 26 U. S. C. 5106)

APPROVAL AND SUBMISSION OF CLAIMS

§ 196.70 *Action by district director.* The district director will immediately examine the claim for drawback on Form 1610, received from the collector of customs (§ 196.69), and if satisfied that the claim is a valid one, he will endorse his approval thereon and forward it with the special tax stamps attached, to the assistant regional commissioner of the region in which the claimant is located.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.71 *Action by assistant regional commissioner.* If the assistant regional commissioner finds that the claim is in order, he will approve the claim. If the claim is disallowed in whole or in part, the assistant regional commissioner will so notify the claimant and state the reasons therefor.

(68A Stat. 618; 26 U. S. C. 5106)

§ 196.72 *Penalty for fraudulently claiming drawback.* One who fraudulently claims or seeks to obtain an allowance of drawback on merchandise on which no tax has been paid, or a greater allowance of drawback than the tax actually paid, is liable to forfeiture of triple the amount claimed or $500, at the election of the Director, Alcohol and Tobacco Tax Division.

(68A Stat. 869; 26 U. S. C. 7304)

SUBPART E—REMOVAL OF STILLS NOT INTENDED FOR USE IN DISTILLING

§ 196.80 *Removal for domestic use.* Distilling apparatus which is to be used within the United States, the territories of Hawaii and Alaska, and the District of Columbia for purposes other than for distilling, as defined in § 196.10, is exempted from the procedure and requirements set forth in §§ 196.42 to 196.47. Manufacturers and vendors of distilling apparatus for purposes other than for distilling shall maintain at their premises a record showing all stills manufactured, received, and removed or otherwise disposed of. Such record shall show the name and address of the purchaser and the purpose for which each still is to be used. Such records will be kept available for a period of 2 years for inspection by internal revenue officers. At the close of each month, and not later than 10 days thereafter, the manufacturer or vendor shall submit a report to the assistant regional commissioner of the region in which his premises are located showing the number of stills on hand at the beginning of the month, the number received, the number disposed of, the number on hand at the end of the month, and as to each such still removed, the name and address of the purchaser and the type, capacity, and kind. Each report shall be signed by the manufacturer or vendor or his authorized agent and immediately above the signature there shall appear the following statement, "I declare under the penalties of perjury that this report has been examined by me and to the best of my knowledge and belief is a true and correct report." Upon application by the manufacturer or vendor, the assistant regional commissioner may waive the requirement for the submission of such report when he finds that such waiver will not jeopardize the revenue. Such waiver shall terminate upon notification by the assistant regional commissioner to the manufacturer or vendor.

§ 196.81 *Removal for exportation.* Distilling apparatus intended for use for purposes other than for distilling, marked and branded as required by § 196.63, may be removed without payment of tax, for exportation by the manufacturer or dealer.

§ 196.82 *Export bill of lading required.* When any distilling apparatus is removed for exportation, without payment of tax, under the provisions of § 196.81, the vendor must obtain a copy of the export carrier's bill of lading covering the shipment of the article. Such bill of lading must be kept available for a period of not less than 2 years for inspection by internal revenue officers.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

CALDWELL SALES AND COMMISSION CO.

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Caldwell Sales and Commission Company, Caldwell, Idaho, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 25th day of May 1955.

POST OFFICE DEPARTMENT

ESTABLISHMENT OF REGIONAL HEADQUARTERS AT MEMPHIS, TENN., FOR TENNESSEE, ALABAMA, AND MISSISSIPPI

The following is the text of Order No. 55895 of the Postmaster General, dated May 11, 1955:

Pursuant to the authority of section 1 (b) of Reorganization Plan No. 3 of 1949, the following changes will become effective on May 16, 1955:

1. On the effective date there will be established a regional headquarters at Memphis, Tennessee, under a Regional Director who will exercise the powers, duties, functions and jurisdiction delegated by Order No. 55809 dated January 3, 1955, and Order No. 55810 dated January 3, 1955 (20 F. R. 276). Pending appointment of a Regional Director the postal affairs affecting the Bureau of Operations and Bureau of Personnel in the region shall be under the direction of the Regional Operations Manager who will be responsible to the Assistant Postmaster General, Bureau of Post Office Operations. The Regional Operations Manager will be subject to all policy affecting regional operations prescribed by the Department in Washington. There will also be a Regional Controller in the regional office who will be responsible to the Assistant Postmaster General and Controller, Bureau of Finance. The Regional Personnel Manager will be administratively responsible to the Regional Operations Manager so far as Bureau of Operations activities are concerned, and functionally to the Assistant Postmaster General, Personnel. Functions such as those listed below which were formerly discharged by various headquarters, bureaus and offices in Washington will now be discharged by the regional staff.

A. Personnel functions, including such items as recruitment, selection and placement of personnel; training activities; labor relations; safety and health programs; classification of positions; awards and efficiency rating systems; review and disposition of disciplinary actions; and liaison with the Civil Service Commission in the region.

B. Service functions, including recommendations to the Department for the establishment or discontinuance of post offices, classified stations and branches; approval of requests for allowances of funds; maintenance of high standards of service in all post offices; and effective control of costs.

C. Industrial engineering functions, including administration of cost reduction programs; improvement in work methods; endorsement of requests for capital expenditures; maintenance of work standards; layout of facilities; provision of work simplification methods and training; and development of systems and procedures, other than accounting and fiscal procedures.

D. Controller functions, including the direction of accounting, budget and cost analysis activities.

E. Public information functions, including encouragement of public cooperation and participation in improving postal methods; and maintaining good relations with federal, state and municipal officials.

2. Pending the appointment of a Regional Director, this order does not affect the bureau and offices of the Department other than:

A. Bureau of Operations;

B. Bureau of Personnel;

C. Bureau of Finance (and Controller).

All other bureaus and offices, however, are expected to coordinate and cooperate with this new regional organization.

3. The region will be divided into five districts. All postmasters in each district will report directly to their district manager.

4. Previous orders or instructions concerning the routing of communications from postmasters to the above-mentioned bureaus in Washington are hereby superseded. All communications, with respect to the functions set forth in this order will be directed to the appropriate district manager, with the exceptions of monthly and quarterly accounts, which will continue to be routed as at present.

5. District headquarters cities, and the jurisdiction of each district, are as follows:

DISTRICT NUMBER 1—MEMPHIS, TENN.

Tennessee Counties: Bedford, Benton, Carroll, Cheatham, Chester, Crockett, Davidson, Decatur, Dickson, Dyer, Fayette, Gibson, Giles, Hardeman, Hardin, Haywood, Henderson, Henry, Hickman, Houston, Humphreys, Lake, Lauderdale, Lawrence, Lewis, Lincoln, McNairy, Madison, Marshall, Maury, Montgomery, Moore, Obion, Perry, Robertson, Rutherford, Shelby, Stewart, Sumner, Tipton, Wayne, Weakley, Williamson and Wilson.

MEMBER LINES OF PACIFIC WESTBOUND CONFERENCE ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 57–55 between the member lines of the Pacific Westbound Conference, modifies the basic conference agreement (No. 57) to provide that all payments of freight shall be received in United States currency, or its equivalent in other currency, as may be provided in the conference tariffs. Agreement No. 57 presently provides that no payment of freight shall be received in any currency other than United States or its equivalent on cargo originating in the United States, or in any currency other than Canadian or its equivalent on cargo originating in Canada.

(2) Agreement No. 7807–C, between the carriers comprising the Canada Mexico Line joint service provides for the cancellation of approved joint service Agreement No. 7807, which covers

the trades between ports on the St. Lawrence River and on the east coast of Canada, on the one hand, and ports on the east coasts of South and Central America and in islands in the Caribbean Sea, with calls at United States Atlantic ports, but not including transportation within the purview of the coastwise laws of the United States.

(3) Agreement No. 7840–26 between the Member Lines of the Atlantic Conference, modifies the provision of the basic agreement of said Conference (No. 7840) providing that agents, responsible clerks of General Agents and their wives and dependent children may be granted a 75 per cent reduction in fare, by adding a clause providing that in connection with the annual convention of the American Society of Travel Agents to be held in Lausanne, Switzerland, from October 9 to 15, 1955, the 75 per cent reduction may be granted, eastbound and westbound, to (a) the accompanying husband of a qualified female agent or of a qualified female responsible clerk, provided such clerk or agent is registered for attendance at said convention, and (b) to a salaried employee of the American Society of Travel Agents traveling to attend said convention and to an accompanying husband or wife of such an employee. Under such clause departure from Europe on the westbound voyage must take place on or before December 31, 1955, after which date said clause becomes void. Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: May 26, 1955.

[Docket No. G-2281]

OHIO FUEL GAS CO.

ORDER RECONVENING HEARING, FIXING DATE OF HEARING, AND PRESCRIBING PROCEDURE

On May 3, 1954, hearing was commenced in the above docket concerning the lawfulness of the rates, charges, classifications, and services contained in FPC Gas Tariff, Second Revised Volume No. 1, filed on September 18, 1953, by the Ohio Fuel Gas Company (Ohio Fuel). At that hearing, Ohio Fuel presented certain testimony and exhibits in support of the increased rates and charges contained in its proposed tariff, based on its operations in the calendar year 1953, adjusted for certain known changes.

Counsel for Ohio Fuel also indicated on the record that due to the pendency of two other dockets involving the Company's rates and charges (G-1786 and G-1965) and the pendency of proceedings involving rates of some of its suppliers, Ohio Fuel would have to present additional testimony before this proceeding could be brought to a conclusion. Following the presentation of its testimony, counsel for Ohio Fuel made a motion, concurred in by all parties present, that the proceedings be recessed until further order of the Commission.

During the period this proceeding has been in recess and subsequent to Commission determinations in the pending dockets referred to above, conferences and discussions have been held looking toward a limiting of the issues herein.

Ohio Fuel has indicated that it is now ready to present evidence on all issues present in this proceeding, including testimony and exhibits reflecting its operations in the calendar year 1954.

The Commission finds: It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act that the hearing in this proceeding be reconvened at the time and place and on the date hereinafter designated, in accordance with the procedure hereinafter provided and ordered.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 15, and 16 of the Natural Gas Act and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR, Chapter I), public hearing is reconvened to commence on June 13, 1955, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the above-entitled proceeding.

(B) At the hearing provided for by paragraph (A), Ohio Fuel shall go forward first and shall present its complete case-in-chief, including its testimony and exhibits reflecting its operations in the calendar year 1954.

(C) After Ohio Fuel has concluded the presentation of its complete case-in-chief as provided in paragraph (B), the other parties to the proceeding, including Staff Counsel, may proceed with cross-examination respecting the matters and issues involved in the proceeding. Upon request of any party to the proceeding, including Staff Counsel, the hearing shall be recessed by the Presiding Examiner for such time or times as the Examiner may find appropriate and reasonable to permit proper preparation of such cross-examination.

(D) Following presentation by Ohio Fuel, and cross-examination as provided in paragraph (C), opportunity shall then be afforded the other parties to present testimony and evidence with respect to the matters and issues involved in the proceeding. Any such testimony and evidence shall then be subject to cross-examination. Upon the conclusion of such cross-examination, opportunity shall be afforded to Staff Counsel (after recess, if requested) to present evidence respecting the matters and issues involved in the proceeding. Such testimony and evidence as the Staff offers will then be subject to cross-examination, after which an opportunity will be afforded to Ohio Fuel to offer rebuttal evidence respecting such issues.

(E) In the interest of expedition, Ohio Fuel shall, on or before June 8, 1955, serve upon all parties to this proceeding copies of the testimony and exhibits it proposes to offer at the hearing, including five (5) copies thereof upon Staff Counsel.

(F) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: May 24, 1955.

Issued: May 24, 1955.

By the Commission.

UNITED STATES TARIFF COMMISSION

[Investigation 4]

SHELLED FILBERTS

NOTICE OF SUPPLEMENTAL INVESTIGATION AND PUBLIC HEARING

The United States Tariff Commission, on the 25th day of May 1955, under the provisions of section 22 (d) of the Agricultural Adjustment Act, as amended, instituted an investigation supplemental to its Investigation No. 4 under section 22 of the Agricultural Adjustment Act, as amended, with respect to: Shelled Filberts, whether or not blanched.

Purpose of supplemental investigation. Under a proclamation of October 11, 1954, issued pursuant to section 22, on the basis of a report and recommendation of the Tariff Commission, the President imposed a fee of 10 cents per pound, but not more than 50 per centum ad valorem, upon shelled filberts, whether or not blanched, entered, or withdrawn from warehouse, for consumption during the period from October 1, 1954, to September 30, 1955, both dates inclusive, in excess of an aggregate quantity of 6,000,000 pounds. This fee is in addition to any other duties imposed on the importation of such filberts.

The Commission has received information indicating that the existing restrictions on imports of shelled filberts under section 22 may be too restrictive. The purpose of this supplemental investigation is to determine whether changed circumstances require the modification of the import restrictions imposed under the aforementioned proclamation with respect to shelled filberts in order to carry out the purposes of section 22.

Hearing. A public hearing in this supplemental investigation will be held beginning at 10 a. m., e. d. s. t., on June 21, 1955, in the Hearing Room, Tariff Commission Building, Eighth and E Streets NW., Washington, D. C.

Request to appear. Interested parties desiring to appear and to be heard at the hearing should notify the Secretary of the Commission in writing at its offices in Washington, D. C., at least three days in advance of the date set for the hearing.

Issued: May 26, 1955.

By order of the Commission.

INTERSTATE POWER CO.

SUPPLEMENTAL ORDER RESCINDING TERMS AND CONDITIONS WITH RESPECT TO PREFERRED STOCK

MAY 25, 1955.

The Commission on November 16, 1954, having entered its order herein (Holding Company Act Release No. 12705) imposing certain conditions for the protection of the preferred stockholders in connection with the issue and sale by Interstate Power Company ("Interstate"), the applicant herein, of 200,000 shares of its 4.36 percent Preferred Stock;

Interstate having on May 5, 1955, with the approval of its stockholders, amended its Certificate of Incorporation so as to make applicable to all issues of its preferred stock the protective provisions contained in the Commission's order dated November 16, 1954; and having requested that the terms and conditions imposed in the aforesaid order be rescinded as no longer necessary; and

The Commission finding that the terms and conditions imposed in said order with respect to the issue and sale of applicant's 4.36 percent Preferred Stock are now duplicative and unnecessary:

It is ordered, That the conditions contained in the Commission's order of November 16, 1954 aforesaid be, and the same hereby are rescinded.

JOHN H. WARE, 3D

ORDER REGARDING ACQUISITION BY AFFILIATE OF PUBLIC UTILITY COMPANIES OF OUTSTANDING CAPITAL STOCK OF NON-AFFILIATED GAS UTILITY COMPANY

MAY 25, 1955.

John H. Ware, 3d ("Ware") has filed an application and an amendment thereto with this Commission pursuant to the provisions of sections 9 (a) (2) and 10 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following described transaction.

Ware is an affiliate of Penn Fuel Gas, Inc. ("Penn Fuel"), an exempt holding company, and its 14 gas utility subsidiaries, and of Salem Gas Company, a gas utility company which is not itself affiliated with Penn Fuel. Ware will purchase for cash from four individuals all of the outstanding capital stock of Jersey Shore Gas & Heating Company ("Jersey Shore"), a Pennsylvania corporation and a gas utility company, consisting of 720 shares of common stock, par value $10 per share. The agreed price of $24,000 to be paid by Ware for Jersey Shore's outstanding common stock was determined by arm's-length negotiation.

Jersey Shore's service area is located approximately 11 miles west of the service area of Lock Haven Gas Company ("Lock Haven"), a subsidiary of Penn Fuel. Lock Haven and Jersey Shore have made arrangements to obtain supplies of natural gas from a common source which will be delivered through an existing transmission line of Trans-Penn Transit Company, a non-affiliated pipe line company. A common connection will be constructed jointly by Lock Haven and Jersey Shore with such line and, as a result of such connection, Lock Haven and Jersey Shore will be physically connected.

Upon the acquisition by Ware of the common stock of Jersey Shore, Penn Fuel will furnish management and related services to the company on the same basis (approximately at cost) that such services are presently rendered by Penn Fuel to its subsidiaries.

No State commission and no Federal regulatory agency, other than this Commission, has any jurisdiction over the transaction.

Jersey Shore's presently authorized capital stock consists of 4,000 shares of common stock, par value $10 per share, of which 720 shares are issued and outstanding, and 200 shares of preferred stock, par value $100 per share, none of which is issued and outstanding. Dividends on the preferred stock are noncumulative. Ware has stipulated and agreed that, upon acquisition of the outstanding common stock of Jersey Shore, he will cause Jersey Shore to execute and file a stipulation with the Commission that it shall not, following the acquisition of its common stock by Ware, issue any of its authorized preferred stock unless it shall have given the Commission 30 days' advance notice of any such proposed transaction and that, upon receipt of notice from the Commission given during such 30-day period, the company will not issue any of such preferred stock unless and until its charter shall have been amended to provide that dividends thereon shall be cumulative.

The fees, commissions and expenses incurred, or to be incurred, and paid in connection with the acquisition by Ware of the outstanding common stock of Jersey Shore will consist solely of legal fees and incidental expenses, estimated at not to exceed $1,000, all of which will be paid by Ware.

Due notice of the filing of said application having been given in the manner prescribed by Rule U-23 promulgated under the act, and no hearing having been requested of, or ordered by, the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied, that the fees and expenses incurred, or to be incurred, and paid are not unreasonable, that said application, as amended should be granted, and that the Commission's order should become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said amended application be, and the same hereby is, granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

WISCONSIN SOUTHERN GAS CO., INC.

ORDER REGARDING ISSUANCE BY REGISTERED HOLDING COMPANY OF SHARES OF COMMON STOCK AS DIVIDEND

MAY 25, 1955.

Wisconsin Southern Gas Company, Inc. ("Wisconsin"), a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the provisions of sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following described transaction.

Wisconsin will issue to its stockholders on or about June 1, 1955, as a dividend, 7,570 shares of authorized but unissued common stock, par value $10 per share, at the rate of one share for each ten shares held. The stock dividend will be issued in full shares only and transferable scrip certificates will be issued to stockholders entitled to receive fractional shares. Wisconsin will assist stockholders to transfer or purchase and sell scrip representing fractional shares and will redeem, after July 1, 1955, at the rate of $11.30 per share, any scrip presented representing rights to less than one share of stock if arrangements cannot be made forthwith to transfer or sell such rights for not less than $11.30 per share. Any expense incurred in handling scrip certificates for stockholders desiring to "round-out" to full shares will be paid by Wisconsin.

The stock dividend is being issued for the purpose of capitalizing the major portion of Wisconsin's earned surplus as a preliminary step to the merger of Wisconsin and its only subsidiary, Wisconsin Southern Gas Company, a public utility company.

Wisconsin will, upon the issuance of the stock dividend, debit its Earned Surplus with $85,540, the equivalent of $11.30 per share, and credit Common Capital Stock with $75,700, the aggregate par value of the shares to be issued, and credit Capital Surplus with $9,840, or $1.30 per share. The book value of Wisconsin's common stock is approximately $11.36 per share. There is no active market for the stock.

No State commission and no Federal regulatory agency, other than this Commission, has any jurisdiction over the proposed transaction.

The fees and expenses to be paid by Wisconsin in connection with the issuance of the stock dividend are estimated as follows:

Aberg, Bell, Blake & Conrad, Counsel for the company	$1,000
Miscellaneous expenses, including registrar, transfer agent and Federal issue stamp taxes	1,000
Total	2,000

Due notice of the filing of said declaration having been given in the manner prescribed by Rule U-23 promulgated under the act, and no hearing thereon having been requested of, or ordered by, the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied, that the fees and expenses to be paid in connection with said transaction, if they do not exceed the amounts estimated, are not unreasonable, that said declaration, as amended, should be permitted to become effective, and that the Commission's order should become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said amended declaration be, and the same hereby is, permitted to become effective forthwith, subject to the

terms and conditions prescribed in Rule U-24.

By the Commission.

STANDARD POWER AND LIGHT CORP.

ORDER GRANTING EXEMPTION REGARDING PROPOSED SALE OF COMMON STOCK OF DUQUESNE LIGHT CO.

MAY 25, 1955.

Standard Power and Light Corporation ("Standard Power"), a registered holding company, has filed an application, pursuant to Rule U-100 promulgated under the Public Utility Holding Company Act of 1935 ("act") for exemption from the requirements of Rule U-44 promulgated under the act. Standard Power proposes to sell not more than 10,000 shares of common stock of Duquesne Light Company, a public utility subsidiary of Standard Power, out of a total of 348,600 shares of such common stock held by Standard Power, either (a) on the New York Stock Exchange by means of ordinary brokers' transactions at prevailing market prices on the date or dates of sales; or (b) by negotiated private sale, after inquiry among a limited number of prospective buyers, with a buyer or buyers who will agree to purchase for investment and not for resale to the public and at prevailing market prices on the New York Stock Exchange on the date or dates of sale, less a discount of not more than $0.50 per share.

Standard Power has represented that in the event its application for exemption is granted, it will comply with the requirements of Rule U-24 promulgated under the act.

It appearing to the Commission that the requirements of Rule U-44, as applied to the proposed transactions, are not necessary or appropriate in the public interest or for the protection of investors or consumers:

It is ordered, Pursuant to said Rule U-100, that said application be, and the same hereby is, granted forthwith, subject to the provisions of Rule U-100 (b) and Rule U-24.

EQUITY CORP. ET AL.

NOTICE OF APPLICATION

MAY 25, 1955.

In the matter of the Equity Corporation, the Morris Plan Corporation of America, Planning & Service Corporation and James W. Nankervis; File No. 812-932.

Notice is hereby given that Planning & Service Corporation ("Pasco"), a Delaware corporation, having its principal place of business at 103 Park Avenue, New York, New York, has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 ("act") for an order of the Commission granting an exemption from the provisions of section 17 (a) (3) of the act so as to permit the loan or advance of money by Pasco to James W. Nankervis, an employee of Pasco.

The Equity Corporation ("Equity"), a registered investment company, is the owner and holder of a majority of the voting stock of The Morris Plan Corporation of America ("Morris Plan"). Equity and Morris Plan, each own 45.45 percent and 54.55 percent, respectively, of the capital stock of Pasco, a company which furnishes services to the Morris Plan group and the Equity group of companies. James W. Nankervis is an employee, but not an officer, of Pasco and is not affiliated with Equity or Morris Plan in any other capacity. Under these circumstances, Nankervis is an affiliated person of an affiliated person of Equity and under the provisions of section 17 (a) (3) it is unlawful for him to borrow money from Pasco unless an exemption is granted by the Commission pursuant to the authority vested in it by section 17 (b) of the act.

Nankervis, Pasco's district manager for the Poughkeepsie area, has arranged to purchase a dwelling which will cost approximately $16,000 upon terms requiring a down payment of $2,400 (and other expenses of $1,350) and the balance on a 5 percent FHA mortgage which will require payments of approximately $73 monthly over a period of thirty years. He desires to obtain the sum of $2,000 from his employer to meet, in part, these cash requirements and Pasco desires to make an unsecured loan or advance to him in that amount with interest at 4 percent per annum. The loan, if the application is granted, will be repaid at a rate of not less than $50 per month for the first year, $60 per month for the second year and $70 per month thereafter until paid, with interest at the rate aforesaid on declining principal balances.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the office of the Commission in Washington, D. C.

Notice is further given that any interested person may, not later than June 10, 1955, at 5:30 p. m., e. d. s. t., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

AUTHORITY: §§ 443.1138 to 443.1148 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 1054, 15 U. S. C. 714c, 7 U. S. C. 1447, 1421.

§ 443.1138 *General statement.* The purchase program provided for in this subpart is a part of the 1955 Cottonseed Price Support Program formulated by Commodity Credit Corporation (hereinafter referred to as "CCC") and the Commodity Stabilization Service (hereinafter referred to as "CSS"). This subpart states the terms and conditions (a) under which cotton ginners, who purchase 1955-crop cottonseed produced in the United States from producers, may sell such cottonseed to CCC in accordance with this subpart (such ginners will hereinafter be referred to as "participating ginners"), in cases where nonparticipation by oil millers under the provisions of 1955 CCC Cottonseed Bulletin 3 (oil millers participating under said Bulletin will hereinafter be referred to as "participating oil millers") makes purchases by CCC from participating ginners necessary, and (b) under which CCC will purchase 1955-crop cottonseed directly from producers in cases where nonparticipation by ginners under this subpart makes such purchases necessary. The program will be carried out by CSS under the general supervision and direction of the Executive Vice President, CCC. The requirements with respect to loans to producers are contained in the 1955 C. C. C. Cottonseed Bulletin 1.

§ 443.1139 *Administration.* (a) Operations under the program with respect to the purchase, transportation, handling, and storage of cottonseed prior to delivery of the cottonseed to an oil miller or to a storage facility approved by the New Orleans CSS Commodity Office (such storage facility will hereinafter be referred to as "approved storage facility") will be administered through Agricultural Stabilization and Conservation (hereinafter referred to as "ASC") State and county committees (hereinafter referred to as "State" and "county committees"). All contracts in connection with such operations may be executed on behalf of CCC only by authorized CCC contracting officers.

(b) Contracts for the storage and handling of cottonseed subsequent to delivery of the cottonseed to an oil miller or an approved storage facility, for the sale, crushing and processing of cottonseed, and for the transportation, storage, handling and sale of the products derived therefrom, will be executed by CCC contracting officers in the New Orleans CSS Commodity Office, Wirth Building, 120 Marais Street, New Orleans 16, Louisiana (hereinafter referred to as "the New Orleans office").

(c) State and county committees and the New Orleans office do not have authority to modify or waive any of the provisions of this subpart or any amendments thereto.

§ 443.1140 *Availability of purchases.* (a) *Area.* The purchase program will be available in all cotton-producing areas of the United States.

(b) *Time.* Purchases will be made from the date of the issuance of this subpart through February 29, 1956.

(c) *Source.* (1) Purchases of cottonseed eligible for purchase by CCC will be made by participating ginners from producers. Purchases will also be made directly from producers by CCC through county committees in areas where ginners do not participate in the program and the appropriate State committee determines that such direct purchases are necessary in order to make the program effective. Payments to producers for cottonseed purchased by CCC and

for any authorized transportation performed by the producers in accordance with § 443.1143, will be made by means of sight drafts drawn on CCC by county office employees designated by county committees.

(2) Purchases of eligible cottonseed will be made by participating oil millers from participating ginners and others. Purchases will also be made from participating ginners by CCC through county committees in areas where oil millers do not participate in the program and the appropriate State committee determines that such purchases are necessary to make the program effective. Payments to participating ginners for cottonseed purchased by CCC will be made by means of sight drafts drawn on CCC by county office employees designated by county committees.

(3) Lists of participating oil millers will be maintained in the New Orleans office and lists of participating ginners will be maintained in the State and county offices.

§ 443.1141 *Eligible producer.* (a) An eligible producer shall be any individual, partnership, corporation, association, trust, estate, or other legal entity, or a State or political subdivision thereof or an agency of such State or political subdivision, producing cottonseed in 1955 in the capacity or landowner, landlord, tenant, or sharecropper.

(b) A cooperative association that handles cottonseed for its producer-members will be considered an eligible producer when selling eligible cottonseed delivered to the association and produced by eligible producers who are members of the association.

§ 443.1142 *Eligible cottonseed.* Eligible cottonseed shall be cottonseed which meet the following requirements:

(a) Such cottonseed must have been produced in the United States in 1955 by an eligible producer.

(b) Such cottonseed must have been produced by the person tendering them for purchase, or by the person who delivered the cottonseed to the cooperative association or ginner tendering the cottonseed for purchase, and the beneficial interest in the cottonseed must be in such person at the time he makes such tender or delivery and must always have been in him or in him and a former producer whom he succeeded before the cottonseed were harvested. Cottonseed tendered by a cooperative association for purchase must have been produced and delivered to the association by its producer-members. Any person tendering cottonseed for purchase must have the legal right to sell the cottonseed.

§ 443.1143 *Purchase price*—(a) *Price to producers.* (1) Any direct purchases by CCC from producers will be made at gin or other designated point of delivery at the rate of $42.00 per gross ton for basis grade (100) cottonseed, with premiums and discounts for other grades equal to the same percentage of such price as the percentage by which the grade of cottonseed purchased exceeds or is less than basis grade (100). The price per ton thus computed may be rounded to the nearest multiple of 10 cents. The grade of eligible cottonseed purchased by CCC directly from producers shall be considered to be the average grade of cottonseed for the area in which the purchase is made (see § 443.1148) as determined on the basis of the latest cottonseed grade report for the area published by CSS or as determined by such other method as the Executive Vice President, CCC, may approve. In areas where both upland and American-Egyptian cotton are grown, the CSS grade report for any such area shall specify the average grade for each such type of cottonseed, and the price to be paid producers in the area shall be determined on the basis of the average grade for the area for the type of cottonseed purchased. The average grade for Sea Island and Sealand cottonseed shall be considered to be that reported for cottonseed in the area in which such cottonseed are produced. Notwithstanding the requirements in this subparagraph, if, at any time while direct purchases are being made by CCC, the State ASC Administrative Officer determines that the average grade for an area, as determined on the basis of the latest cottonseed grade report for the area published by CSS, is higher than the grade of cottonseed being produced in any county in such area, where direct purchases are being made, the State ASC Administrative Officer may reduce the price paid to producers in such county below the price established on the basis of the average grade for the area: *Provided*, That no producer shall be paid, during the period such reduced prices are effective, less than $42.00 per gross ton basis grade (100) cottonseed with price adjustments computed upon the difference between the average grade of cottonseed produced in the county during such period and basis grade (100). The average grade of cottonseed produced in the county during such period shall be determined on the basis of official chemical analysis covering cottonseed produced in such county or on such other reasonable basis as may be determined by the appropriate State ASC Administrative Officer.

(2) The grade of any cottonseed purchased before the first grade determination for an area is made shall be considered to be 90.

(3) If the producer, upon authorization by the County Office Manager, transports the cottonseed from (i) the point of delivery to CCC to (ii) an oil miller or approved storage facility or designated concentration point the producer will be paid for such transportation at a rate not in excess of the commercial rate for such transportation service.

(b) *Price to ginners.* (1) (i) Any purchases by CCC from participating ginners will be at the rate of $46.00 per net ton for basis grade (100) cottonseed, f. o. b. conveyance or carrier at the gin, with premiums and discounts for other grades equal to the same percentage of such price as the percentage by which the grade of cottonseed purchased exceeds or is less than basis grade (100). Cottonseed which are "below grade" or "off quality", as defined in the U. S. Official Standards for Grades of Cottonseed, will be purchased from participating ginners by CCC at the market value of such cottonseed as determined by CCC. The grades of cottonseed purchased by CCC from such ginners shall be determined in accordance with the United States Official Standards for Grades of Cottonseed, by chemical analysis of samples drawn from the cottonseed by federally licensed cottonseed samplers or such other persons as are approved by CCC, and forwarded to and analyzed by federally licensed cottonseed chemists. A ginner tendering cottonseed for purchase by CCC must not have paid any producer for cottonseed purchased by the ginner on or after the date of filing notice of his intention to participate in the program, less than $42.00 per gross ton basis grade (100), plus or minus a percentage of such price equal to the percentage by which the average grade of cottonseed for the area in which the gin is located (see § 443.1148) exceeded or was less than basis grade (100). Such average grade shall be determined on the basis of the latest CSS grade report for the area at the time of purchase from such producer or by such other method as the Executive Vice President, CCC, may approve. In areas where both upland and American-Egyptian cotton are grown, the CSS grade report for any such area shall report the average grade for each such type of cottonseed and the price to be paid producers in the area shall be determined on the basis of the average grade for the area for the type of cottonseed purchased. The average grade for Sea Island and Sealand cottonseed shall be considered to be that reported for cottonseed in the area in which such cottonseed are produced. If it is determined by the County Office Manager and the State ASC Administrative Officer that any participating ginner paid any producer less than the prices he should have paid under the foregoing provisions of this section, such ginner shall not, without prejudice to any other rights which CCC may have, be eligible to make

any further sales to CCC under the 1955 Cottonseed Price Support Program.

(ii) Notwithstanding the preceding requirements as to price, a participating ginner, after first notifying the County Office Manager for the county where the gin is located of his intention to do so, may reduce the price paid to producers below the price established on the basis of the average grade for the area: *Provided*, That the ginner shall not pay any producer, during the period he is paying such reduced price, less than $42.00 per gross ton basis grade (100) with price adjustments computed upon the difference between the average grade of cottonseed produced at the gin during such period and basis grade (100). The average grade of cottonseed produced at the gin during such period shall be determined on the basis of official chemical analysis or oil mill grade reports covering such cottonseed or on such other reasonable basis as may be approved by the County Office Manager. The ginner shall furnish the county office with certified copies of such chemical analyses, grade reports, or other evidence satisfactory to the County Office Manager, showing the average grade of cottonseed produced at the gin during such period. If it is determined by the State ASC Administrative Officer and County Office Manager that any participating ginner paid producers less than the prices he should have paid in accordance with the preceding three sentences, such ginner shall, without prejudice to any other rights which CCC may have, be ineligible to make any further sales to CCC under the 1955 Cottonseed Price Support Program unless he first pays all of such producers the difference between the price paid to producers and the price they should have received.

(iii) A ginner may round per ton prices for cottonseed purchased from producers to the nearest multiple of 10 cents.

(2) The grade of cottonseed purchased from a producer before the first grade determination for an area is made shall be considered to be 90.

(3) If the ginner, upon authorization by the County Office Manager, transports cottonseed from the gin to oil miller, or approved storage facility, or designated concentration point, the ginner will be paid for such transportation at a rate not in excess of the commercial rate for such transportation service.

§ 443.1144 *Approved forms.* The approved forms, together with the provisions of this subpart and any supplements and amendments thereto, shall govern the rights and responsibilities of producers and participating ginners. Approved forms may be obtained from ASC county offices. Any fraudulent representation made by a producer or ginner in executing an approved form may render him subject to criminal prosecution under Federal law and liable for any damages resulting from the purchase of the cottonseed involved. Documents executed by an administrator, executor or trustee will be acceptable only where valid in law and must be accompanied by documentary evidence of the authority of the person executing such documents. The approved forms consist of the following:

(a) *Producers.* Producer's Voucher (CCC Cottonseed Purchase Form 5) shall be executed by the producer when the cottonseed are purchased from the producer by CCC.

(b) *Cotton ginners.* (1) Each cotton ginner desiring to sell cottonseed to CCC pursuant to this subpart shall, prior to tender of any cottonseed for sale, file with the county office for the county in which each gin is located a Ginner's Notice of Intention to Participate (CCC Cottonseed Purchase Form 1). The filing of such notice does not obligate the ginner to sell any cottonseed to CCC, but all applicable provisions of this subpart must be complied with by the ginner if any cottonseed are offered by the ginner for sale to CCC under the 1955 Cottonseed Price Support Program.

(2) After the Ginner's Notice of Intention to Participate has been filed, a Ginner's Certificate (CCC Cottonseed Purchase Form 2) shall be completed and executed by the participating ginner to cover all cottonseed purchased by him from producers and the form shall be submitted by the ginner to the appropriate county office at such times and covering such periods of time as the State ASC Administrative Officer determines are necessary to make the program effective.

(3) If cottonseed are sold to CCC, the ginner shall prepare and execute a Ginner's Voucher and Certificate (CCC Cottonseed Purchase Form 4) covering the cottonseed and deliver the form to the county office. Each Ginner's Voucher and Certificate submitted by a ginner to the county office shall be supported by weight certificates or warehouse receipts covering the cottonseed purchased which have been issued by an oil miller or an approved storage facility or a representative of the county committee at a designated concentration point, and, in the absence of warehouse receipts guaranteeing grade, by official chemical analyses certificates covering the cottonseed and identifying such cottonseed by lot numbers and/or receipt numbers and weights.

§ 443.1145 *Determination of quantity.* The quantity of cottonseed purchased from the producer by CCC shall be the gross weight actually delivered to CCC as determined by a representative of the county committee, or by an approved storage facility, or by an oil miller. The quantity of cottonseed purchased from a producer by a participating ginner shall be the gross weight of the cottonseed as customarily determined by the ginner in his purchases of cottonseed from producers. The quantity of cottonseed purchased from a ginner by CCC shall be the net weight of the cottonseed at first destination after deduction of the weight of any foreign matter in excess of 1 percent.

§ 443.1146 *Liens.* If liens or encumbrances exist on the cottonseed, proper waivers must be obtained.

§ 443.1147 *Set-offs.* (a) If the cottonseed are purchased from a producer by CCC under this subpart and the producer is indebted to CCC on any accrued obligation, or if any installment or installments of any loan made available by CCC on farm-storage facilities or mobile drying equipment are past due, or are payable or prepayable, under the provisions of the note evidencing such loan, out of the proceeds of the purchase, he must designate CCC or the lending agency holding such note as the payee of the proceeds of the purchase to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of service charges and amounts due prior lienholders.

(b) If the producer is indebted to any other agency of the United States, and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of amounts under paragraph (a) of this section.

(c) Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or by legal action.

§ 443.1148 *Grade reporting areas.* Areas for grade reporting purposes will be established by the Director, Cotton Division, CSS, and a list of area delineations may be obtained from the applicable ASC State office or the Director of the Cotton Division, CSS, USDA, Washington 25, D. C.

Issued this 26th day of May 1955.

AUTHORITY: §§ 51.1 to 51.17 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 607, 52 Stat. 1007, 1011, as amended; 49 U. S. C. 551, 557.

§ 51.1 *Ground instructor rating and certificate requirements.* A ground instructor rating and certificate with respect to any ground school subject in which a certificated flying school is required to provide instruction will be issued to an applicant who complies with the following requirements:

(a) *Age.* Applicant shall be at least 18 years of age.

(b) *Character.* Applicant shall be of good moral character.

(c) *Citizenship.* An applicant for a ground instructor rating and certificate may be a citizen of any country or a person without nationality.

(d) *Aeronautical knowledge.* Applicant shall have practical and theoretical knowledge of each ground school subject with respect to which he seeks a rating. Such knowledge shall be sufficient to accomplish satisfactorily a written examination thereon.

GROUND INSTRUCTOR CERTIFICATE

§ 51.2 *Application.* Application for a ground instructor certificate shall be made upon the applicable form prescribed and furnished by the Administrator.

§ 51.3 *Display.* A ground instructor certificate shall be kept readily available to the instructor at all times when he is engaged in giving instruction in any ground school subject with respect to which he is rated, and shall be presented upon the request of any student receiving such instruction, school officer, or authorized representative of the Administrator.

§ 51.4 *Duration.* A ground instructor certificate shall be of 60 days' duration, and unless the holder is otherwise notified by the Administrator within such period, it shall continue in effect thereafter until otherwise specified by the Board, unless suspended or revoked.

(a) *Temporary certificates.* The Administrator or his authorized representative may issue a temporary ground instructor certificate for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

§ 51.5 *Recent experience requirements.* The holder of a ground instructor certificate shall not exercise the privileges thereunder unless during the preceding twelve calendar months he has:

(1) Served for at least three months as a ground school instructor, or

(2) Demonstrated to the satisfaction of the Administrator that he is able to meet the standards currently prescribed by the regulations of this subchapter for the issuance of the certificate and rating.

§ 51.6 *Identification.* The holder of a certificate issued under the provisions of this part shall not exercise the privileges conferred by the certificate unless he has readily available a current airman identification card or other identification card acceptable to the Administrator which duly describes him. The airman identification card may be obtained from the Administrator who shall prescribe its form and the manner of applying for it.

§ 51.7 *Expired certificates; special issuance.* The holder of a ground instructor certificate which has expired within the preceding twelve months may obtain a new certificate and the same rating theretofore held immediately prior to its expiration, upon application, by demonstrating to the satisfaction of the Administrator that he is able to meet the standards currently prescribed by the regulations of this subchapter for the issuance of the certificate and rating.

§ 51.8 *Nontransferability.* A ground instructor certificate is not transferable.

§ 51.9 *Surrender.* Upon the suspension, revocation, or expiration of a ground instructor certificate, the holder thereof shall, upon request, surrender such certificate to any officer or employee of the Administrator.

§ 51.10 *Reexamination.* An applicant for a ground instructor rating who has failed to pass any prescribed examination or test therefor shall not apply for reexamination for the same rating until the expiration of 30 days from the date of such failure or after he has received not less than 5 hours' instruction on each subject of the examination failed from a certificated ground instructor rated for such subject and presents a statement from such instructor showing the amount of instruction given and stating that he deems the applicant qualified to pass the required examination in such subject.

§ 51.11 *Revocation.* No person whose ground instructor certificate has been revoked shall apply for or be issued a ground instructor certificate of any rating for a period of 1 year after the revocation, except as the order of revocation may otherwise provide.

§ 51.11a *Change of address.* Within 30 days after any change in the permanent mailing address of a holder of a ground instructor certificate, the holder shall notify the Administrator in writing of such change. Such notice shall be mailed to the Administrator of Civil Aeronautics, Attention Airman Records Branch, Washington 25, D. C.

GROUND INSTRUCTOR RATING RECORD

§ 51.12 *Ground instructor rating record.* An appropriate Ground Instructor Rating Record, prescribed and issued by the Administrator, shall be attached to each ground instructor certificate issued after May 1, 1940. The ground school subject or subjects for which the holder of such certificate is rated shall be entered on such record.

§ 51.13 *Application to amend.* When any change is desired in a Ground Instructor Rating Record referred to in § 51.12 the applicant shall file a written request therefor upon the applicable form prescribed and furnished by the Administrator.

EXAMINATIONS AND TESTS

§ 51.14 *General.* The examinations and tests prescribed in this part will be conducted by an authorized representative of the Administrator.

§ 51.15 *Time and place.* All examinations and tests will be held at such times and places as the Administrator may designate.

§ 51.16 *Inspection.* An applicant for a ground instructor rating shall offer full cooperation with respect to any inspection and examination which may be made of such applicant upon proper request by any authorized representative of the Administrator prior or subsequent to the issuance of a ground instructor certificate.

§ 51.17 *Standard of performance.* All practical and theoretical examinations and tests shall be accomplished to the satisfaction of the Administrator and the passing grade in each subject shall be 70 percent.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 15—CEREAL FLOURS AND RELATED PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

EFFECTIVE DATE OF ORDER AMENDING THE DEFINITION AND STANDARD OF IDENTITY FOR ENRICHED FARINA

In the matter of amending the definition and standard of identity for enriched farina:

Pursuant to the provisions of the Federal Food, Drug and Cosmetic Act (sec. 401, 52 Stat. 1046, as amended 68 Stat. 54; 21 U. S. C. 341) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (20 F. R. 1996), notice is hereby given that no objections were filed to the order published in the FEDERAL REGISTER on April 15, 1955 (20 F. R. 2481) amending the definition and standard of identity for enriched farina (21 CFR 15.140). The amendments promulgated by that order will become effective June 14, 1955.

NOTE: Coincident with this effective date, the postponement of the requirement for riboflavin as an ingredient of enriched farina (8 F. R. 3358) is terminated.

(Sec. 401, 52 Stat. 1046, as amended; 68 Stat. 54; 21 U. S. C. 341)

Dated: May 26, 1955.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. In § 4.4, paragraph (a) (1) is amended to read as follows:

§ 4.4 *Indian wars.* • • •

(a) *Widow.* (1) The term "widow" shall mean a person who was married to the veteran prior to March 4, 1917. The rate provided in the act of March 3, 1944, as amended, for a widow who was the wife of the veteran during the period of his service is payable only when the widow is unremarried and was the wife of the veteran during the period of his service in an Indian war or campaign (Public Law 245, 78th Congress, as amended). (See § 4.80.) Continuous cohabitation to date of death of the veteran is required in marriages entered into subsequent to March 2, 1899 (30 Stat. 1380). (See § 4.16.)

• • • • •

2. In § 4.6, paragraph (a) (1) is amended to read as follows:

§ 4.6 *Civil War.* • • •

(a) *Widow.* (1) The term "widow" shall mean a person who was married to the veteran prior to June 27, 1905. The rate provided in the act of July 3, 1926, as amended, for a widow who was the wife of the veteran during the period of his service is payable only when the widow was the wife of the veteran during his Civil War service (Public Law 454, 69th Congress, as amended). (See § 4.80.) Continuous cohabitation to date of death of the veteran is required in marriages entered into subsequent to March 2, 1899 (30 Stat. 1380). (See § 4.16.)

• • • • •

3. In § 4.12, the introduction and paragraph (a) (1) are amended to read as follows:

§ 4.12 *Spanish-American War, Boxer Rebellion, and Philippine Insurrection; service acts as reenacted by Public Law 269, 74th Congress, and as amended.* For the purposes of Public Law 166, 69th Congress (act of May 1, 1926), as reenacted by Public Law 269, 74th Congress (act of August 13, 1935), and amended by Public Law 144, 78th Congress (act of July 13, 1943), Public Law 242, 78th Congress (act of March 1, 1944), Public Law 762, 80th Congress (act of June 24, 1948), and Public Law 108, 82d Congress (act of August 4, 1951), the following definitions of relationship shall govern in the adjudication of claims for death pension:

(a) *Widow.* (1) The term "widow" of a veteran of the Spanish-American War, Boxer Rebellion, or Philippine Insurrection shall mean a person who was married to the veteran prior to January 1, 1938. As to awards and increases in pension approved on or after March 1, 1944, continuous cohabitation as described in § 4.16 must be established (sec. 4, Public Law 242, 78th Congress): *Provided,* That where the widow is entitled solely by virtue of the provisions of section 2, Public Law 242, 78th Congress, pension shall not be paid for any period prior to April 1, 1944. The rate provided in the act of March 1, 1944, as amended, for a widow who was the wife of the veteran during the period of his service is payable only when the widow was the wife of the veteran during his war service (Public Law 242, 78th Congress, as amended). (See § 4.117.)

• • • • •

4. In § 4.15a, paragraph (a) (1) is amended to read as follows:

§ 4.15a *Korean conflict.* • • •

(a) *Widow.* The term "widow" shall mean a woman who was married to the veteran:

(1) Prior to February 1, 1965; and

• • • • •

5. In § 4.17, paragraphs (a) (1) and (d) (1) are amended to read as follows:

§ 4.17 *Determination of domestic relations questions*—(a) *Jurisdiction over determinations.* (1) Determinations of domestic relations questions other than those indicated in § 13.402 of this chapter may be made by the adjudicating office where, as contemplated by the last sentence of § 3.6 of this chapter, the circumstances involved are on all fours with those in a case in which a formal opinion has been rendered by the General Counsel or by a Chief Attorney approved by the General Counsel. Except as provided in paragraph (d) (2) of this section, determinations made by the adjudicating offices will be approved by the chief of the division responsible for death claims.

• • • • •

(d) *Common-law marriages.* (1) When a common-law marriage is alleged, the claimant will be required to establish a prima facie case of marriage by submitting a certified statement on VA Form 8–4138 setting out in detail all of the facts and circumstances concerning the alleged common-law marriage, such as the agreement between the parties at the inception of their cohabitation, the period of cohabitation, places and dates of residence, and whether or not children were born as the result of such relationship. This statement should also show whether the parties were members of any church or organization as husband and wife, had jointly entered into any business transaction or jointly executed any legal document, or had held title jointly to any real estate. There should also be required similar statements in affidavit form from two or more persons who know as the result of personal observation the reputed relationship which existed between the parties of the alleged common-law marriage, including the periods of cohabitation, places of residence, whether the parties held themselves out as husband and wife, and whether they were generally accepted as such in the communities in which they lived. In the event that children were born as the result of such cohabitation, the claimant should furnish the birth certificate of such children.

6. Section 4.31 is revised to read as follows:

§ 4.31 *Death of veteran due to service rendered during Korean conflict; Public Law 28, 82d Congress.* For the purposes of Public Law 2, 73d Congress (act of March 20, 1933), Part I, Veterans Regulation 1 (a), (38 U. S. C. ch. 12A), as amended by Public Law 28, 82d Congress (act of May 11, 1951), the period of the Korean conflict shall comprise the period commencing June 27, 1950, and ending January 31, 1955, both dates inclusive. The surviving widow, child or children, and/or dependent mother or father of any deceased person who died as a result of injury or disease incurred in or aggravated by active military or naval service rendered during such period shall be entitled to receive compensation at the monthly rates specified in § 4.124.

7. In § 4.33, paragraph (c) is revoked.

§ 4.33 *Death of veteran (1) as a direct result of armed conflict, or (2) while engaged in extra hazardous service, including such service under conditions simulating war, or (3) while the United States is engaged in war (Public Law 359, 77th Congress, and section 2, Public Law 868, 80th Congress).* • • •

(c) [Revoked.]

8. In § 4.50, paragraph (b) is amended to read as follows:

§ 4.50 *Death of veteran who served during Korean conflict from disease or injury not the result of service who at time of death had a service-connected disability; Public Law 312, 78th Congress, (act of May 27, 1944), and Public Law 483, 78th Congress (act of December 14, 1944), as amended by Public Law 28, 82d Congress (act of May 11, 1951).* • • •

(b) Computation of the 90 days service may include continuous service in an enlistment entered into prior to June 27, 1950, and continuing into the following period, or in an enlistment entered into prior to February 1, 1955, and continuing into the following period.

9. In § 4.124, the headnote, the introduction of paragraph (a) (1), and paragraph (a) (3) are amended to read as follows:

§ 4.124 *Death due to wartime service or Korean conflict.* (a) (1) Where death resulted from active military or naval service rendered during the Civil War, the Indian wars, the Spanish-American War, including the Boxer Rebellion and Philippine Insurrection, World War I, World War II, or Korean conflict, the following rates are payable:

• • • • •

(3) The foregoing rates for periods prior to September 1, 1948, are contained in section 5, Public Law 198, 76th Congress, as amended by section 10, Public Law 667, 77th Congress; section 14 (a), Public Law 144, 78th Congress; and section 2, Public Law 662, 79th Congress. The rates in section 5, Public Law 198, 76th Congress, originally applied only to World War I cases but were specifically made applicable to cases pertaining to the Spanish-American War, including the Boxer Rebellion and Philippine Insurrection, under the terms of Public Law 242, 77th Congress, and became applicable to cases pertaining to the other wars by reason of the provisions of paragraph I (c), Part II, Veterans Regulation 1 (a), (38 U. S. C. ch. 12A), as amended by Public Law 359, 77th Congress. The rates on and after September 1, 1948, as to cases pertaining to Spanish-American War, Boxer Rebellion and Philippine Insurrection, World War I and World War II are contained in paragraph IV, Part I, Veterans Regulation 1 (a), as amended by section 1, Public Law 868, 80th Congress, and are applicable to cases pertaining to other wars by virtue of the provisions of section 2, Public Law 868, 80th Congress. The increase in rates payable for periods on and after December 1, 1949, for widows with children is contained in section 3 (b), Public Law 339, 81st Congress. These rates were made applicable, effective May 11, 1951, to claims based on service rendered during the Korean conflict (see § 4.31) by Public Law 28, 82d Congress. The rates on or after July 1, 1952, are contained in Public Law 356, 82d Congress. The increase in rates payable for periods on or after October 1, 1954, for widows without children and for parents is contained in section 2, Public Law 695, 83d Congress.

• • • • •

10. Section 4.126 is revised to read as follows:

§ 4.126 *Death due to Veterans Administration hospital treatment, etc.*—(a) *Rates under section 31, Title III, Public Law 141, 73d Congress, or section 12, Public Law 866, 76th Congress.* Where death occurred under the conditions set forth in section 31, Title III, Public Law 141, 73d Congress, or section 12, Public Law 866, 76th Congress, the rates payable (1) where the veteran served in a war or during the Korean conflict, are those authorized in paragraph 1, Veterans Regulation 1 (g) (38 U. S. C. ch. 12A), subject for periods on and after September 1, 1946, to the increases provided by section 2, Public Law 662, 79th Congress, or (2) where the veteran served during peacetime are those authorized in paragraph 2, Veterans Regulation 1 (g); *Provided,* That for periods on and after September 1, 1948, the rates outlined in § 4.122 or § 4.124, whichever is applicable, shall be payable. Nothing contained in this paragraph shall prevent the payment of a higher rate under a service or other act where authorized.

(b) *Rates under section 2, Public Law 16, 78th Congress (par. 4, Part VII, Veterans Regulation 1 (a)).* Where the death of a veteran of World War II or the Korean conflict, occurred under the conditions set forth in section 2, Public Law 16, 78th Congress (par. 4, Part VII, Veterans Regulation 1 (a)), and Public Law 894, 81st Congress, the rates payable are those set forth in § 4.124.

(Sec. 31, 48 Stat. 526, sec. 12, 54 Stat. 1197, sec. 2, 57 Stat. 43, sec. 2, 60 Stat. 910, 64 Stat. 1121; 38 U. S. C. 471a–3, 501a, 501a–1, ch. 12A, 701a)

11. In § 4.140, the headnote is amended to read as follows:

§ 4.140 *World War I, World War II, and Korean conflict.* • • •

12. In § 4.194, paragraph (a) (7) is amended to read as follows:

§ 4.194 *Veteran of any war and Korean conflict; definition of*—(a) *Persons included.* • • •

(7) *Korean conflict.* Any person discharged or released from active duty under conditions other than dishonorable, who served in the active military or naval service of the United States on or after June 27, 1950, and prior to February 1, 1955 (Public Law 28, 82d Congress).

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1154]

OREGON

REVOKING PUBLIC LAND ORDER NO. 118 OF APRIL 29, 1943, WHICH RESERVED PUBLIC LANDS FOR USE OF WAR DEPARTMENT AS PATTERN BOMBING RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 118 of April 29, 1943, reserving public lands in Oregon for use of the War Department as a pattern bombing range, is hereby revoked:

WILLAMETTE MERIDIAN

T. 5 N., R. 30 E.,
Sec. 10, SE¼;
Sec. 11, E½W½.

The areas described aggregate 320 acres.

The land is grazing land located approximately 25 miles north and slightly west of Pendleton, Oregon. The topography is rolling to rough. The soil is a coarse, sandy loam with vegetation of cheat, sage, and weeds. The land lies at an elevation of 900 to 1,050 feet and the average annual precipitation is 9 inches. Most of the land is too rough for cultivation and there is not sufficient precipitation to produce paying crops. There is no source of irrigation water at the present time.

No application for the land may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The land will not be subject to occupancy or disposition until it has been classified.

This order shall not otherwise become effective to change the status of the described land until 10:00 a. m. on the 35th day after the date of this order. At that time the said land shall become subject to application, petition, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Veterans' preference-right applications under the said act of September 27, 1944, may be filed on or before 10:00 a. m., on the 35th day after the date of this order, and those covering the same land shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, filed on or before 10:00 a. m., on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same land; otherwise, priority of filing shall govern.

Inquiries concerning the land shall be addressed to the Manager, Land Office, Bureau of Land Management, Portland, Oregon.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11330; FCC 55–625]

[Rules Amdt. 3–46]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS FOR TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606 *Table of assignments*, rules governing television broadcast stations, Docket No. 11330.

1. The Commission has under consideration its notice of proposed rule making issued on April 1, 1955 (FCC 55–403) and published in the FEDERAL REGISTER on April 8, 1955 (20 F. R. 2284), proposing to reserve Channel 13 at Monroe, Louisiana, for use by a non-commercial educational station in response to a petition filed by the State Superintendent of Education on behalf of the State of Louisiana.

2. The last day for filing comments in this proceeding was April 29, 1955. The only comment in opposition to the proposal was filed by Mr. Robert F. Pool, Shreveport, Louisiana, discussed more fully below.

3. Channels 8, 13, and 43 are assigned to Monroe. Station KNOE–TV operates on Channel 8. Station KFAZ has suspended operations on Channel 43 and its construction permit was deleted on January 6, 1955. No applications have been filed for Channel 13. Three channels in all are reserved for educational use in Louisiana: Channel 19 at Lake Charles; Channel 34 at Baton Rouge, and Channel 8 at New Orleans. All of these cities where channels are reserved are in the southern half of Louisiana. Monroe, a city with a population of about 38,000 persons, is located in the northeastern part of the State.

4. In support of the instant petition, the State Superintendent points out that no applications have been filed for Channel 13 in Monroe, and submits that a survey indicates little likelihood that Channel 13 will be required for commercial use in the future. It is urged that, on the other hand, there is a definite need for an educational station at Monroe to serve this area of northern Louisiana where approximately one million people reside within a 100-mile radius of Monroe and are served by about 778 elementary and secondary schools, seven colleges and universities, four special schools and eleven State-operated trade schools, as well as the Louisiana State University Extension Program and the State Department of Education Adult Education Program. Petitioner states that it has statutory authority to build and operate an educational station and that $150,000 has been appropriated for such use during the fiscal year 1954–1955 (Act No. 591). Petitioner represents that upon grant of the proposed amendment, it will immediately file an application for a construction permit for an educational station on Channel 13 in Monroe. In this connection, the State Superintendent points out that Delta Television, the former permittee of KFAZ, has agreed to make its studio and transmitter buildings and its technical facilities and equipment available to the educational station and will not dispose of them until the State of Louisiana is able to obtain authority to construct a non-commercial educational station on Channel 13 if such steps are taken promptly. In addition, Delta Television has offered to furnish technical and managerial advice and training to personnel for the proposed educational station. Because of the immediate availability of studio and transmitter facilities, detailed programming plans and adequate financing, it is urged that the station would be able to begin operating at Monroe much more rapidly and much more economically than at any other location in Louisiana, and that the experience gained at Monroe would expedite the long-range plans of the State of Louisiana for full utilization of all its non-commercial educational channel assignments.

5. Robert F. Pool in opposing the proposed amendment urges that changing the assignment of Channel 13 to an educational assignment would preclude the possibility of competitive television in the market of Monroe; that the State of Louisiana has not applied for any of the channels reserved for education in the State; that he knows of several prospective applicants for this channel when the network problem is resolved within the next 12 months; and that in the event the Board of Education desires an educational channel in Monroe, Channel 43 should be so reserved for educational use.

6. We have carefully considered the comments filed in this proceeding, and we have concluded that Channel 13 in Monroe should be reserved for use by a non-commercial educational television station. We believe that the State of Louisiana, through its State Board of Education, has made a showing warranting such a reservation. The Louisiana State Board of Education has demonstrated a need for an educational facility in this part of the State and has shown a desire and ability to proceed with plans for the prompt establishment of an educational television service for the people of Louisiana. Indeed, petitioner represents that an application can be submitted to the Commission for an educational station in Monroe within ten days from the designation of the channel for educational purposes. We believe the contentions of Mr. Pool in opposition to the request of the State Department of Education are without merit. Channel 13 was assigned to Monroe for commercial purposes some time ago. No applications for this assignment have been filed. In view of the intense interest and need for the use of this frequency for educational purposes as established in the record of this proceeding, we do not believe that we would be justified in permitting the assignment to remain unused for an indefinite period of time. We have therefore concluded that the public interest, convenience and necessity would be served by reserving Channel 13 in Monroe for use by a non-commercial educational television station.

7. Authority for the adoption of the amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

8. In view of the foregoing; *It is ordered*, That, effective July 6, 1955, the table of assignments contained in § 3.606 of the rules governing television broadcast stations is amended, in so far as the city named is concerned, as follows:

City:	Channel No.
Monroe, La	8+, [1]13, 43+

PART 9—AVIATION SERVICES

TYPES OF EMISSION

In the matter of amendment of § 9.175 of the Commission's rules governing aviation services; Docket No. 11295.

At the session of the Federal Communications Commission held in its offices in Washington, D. C., on the 25th day of May 1955;

The Commission having under consideration the above captioned matter which proposed to amend Part 9, of the Commission's rules governing aviation services, to allow licensees of stations authorized to use A3 emission in the Aviation Services to transmit tone signals superimposed on the normal aeronautical frequencies for the sole function of establishing or maintaining voice communications; and

It appearing that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, general notice of proposed rule making in this matter, which made provision for the submission of written comments by interested persons, was duly published in the FEDERAL REGISTER on March 9, 1955 (20 F. R. 1412), and that the period provided for the filing of comments has now expired; and

It further appearing that no objections to the proposed amendment have been received; and

It further appearing that the proposed amendment is in accordance with the authority contained in sections 303 (c), (f) and (r) of the Communications Act of 1934, as amended.

[1] Commissioners Hyde, Doerfer and Lee dissented in opinion.

It is ordered, That effective July 11, 1955, § 9.175 of Part 9 of the Commission's rules governing aviation services is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended, 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

Released: May 26, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Section 9.175 is amended to read as follows:

§ 9.175 *Types of emission.* Stations in the aviation services may be authorized to use type A1, A2, A3 and special emission as may be appropriate. The authorization to use A3 emission will be construed to include the use of tone signals or signaling devices whose sole function is to establish or maintain voice communications. Special emission includes all types not provided for by existing international regulations, such as all types of FM, pulse transmission, and frequency shift keying.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 927]

MILK IN NEW YORK METROPOLITAN MILK MARKETING AREA

NOTICE OF PUBLIC MEETING FOR CONSIDERATION OF PROPOSED AMENDMENT TO CLASSIFICATION AND ACCOUNTING RULES AND REGULATIONS

Pursuant to provisions of § 927.36 of the order, as amended (7 CFR Part 927), regulating the handling of milk in the New York metropolitan milk marketing area, and of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), notice is hereby given of a public meeting to be held on June 7, 1955, at 10 a. m., e. d. t., at the office of the Market Administrator, 205 East Forty-second Street, New York, New York, for consideration of proposed rules and regulations heretofore issued (7 CFR 927.101 et seq.) pursuant to said order. Interested persons will be afforded an opportunity to participate in the meeting through the submission of written data, views, or arguments or to present the same orally. Copies of the said rules and regulations as heretofore issued and of the proposed amendments to be considered at this public meeting may be procured from the Market Administrator.

The proposed amendments to be considered at said public meeting are as follows:

1. By Milk Dealers' Association of Metropolitan New York, Inc.:

Amend § 927.170 *Cream: Step Nine*, by adding the words "whipped topping mixture" after the words "homogenized mixture."

By the Market Administrator:

In the event the preceding proposal is adopted, provide for the handling of whipped topping mixture in §§ 927.144, 927.146, and 927.154.

2. By Milk Dealers' Association of Metropolitan New York, Inc.:

Provide a plant loss allowance on milk received from other plants by making the following changes:

Eliminate §§ 927.180 and 927.181 and substitute the following:

§ 927.180 *Milk: Step Four.* Add to the remaining butterfat in all classes 1.0 percent: *Provided*, That if such additions are greater than the remaining plant loss, they shall be reduced pro rata to the point where they are equal to the plant loss. Deduct such additions from the plant loss.

§ 927.181 *Milk: Step Five.* Deduct a quantity of butterfat, equal to the butterfat received in the form of milk from other plants and in the form of exempt milk, pro rata from the remaining butterfat leaving the plant or in the closing inventories at the plant: *Provided*, That such deductions shall not be greater than the remaining butterfat leaving the plant or in the closing inventories at the plant. Classify any remaining plant loss as Class I–A.

3. By Ferndale Farms, Inc.:

Amend § 927.176 (p) to read as follows:

(p) Cottage cheese, farmer cheese, and popcorn cheese with cream added, 2.5 percent;

4. By General Ice Cream Corporation:

Provide an additional allowance to take care of the second stage in the manufacture of 80 percent plastic cream.

5. By the Market Administrator:

Incorporate into the permanent accounting rules and regulations the temporary amendment to the classification rules and regulations with respect to half and half issued by the Market Administrator on August 23, 1954 (19 F. R. 5532).

6. By the Market Administrator:

Make the following changes in the definitions:

(a) Amend § 927.108 by adding the following: "This definition includes but is is not limited to the products properly known as buttermilk, chocolate drink, chocolate milk, egg nog and yogurt."

(b) Amend §§ 927.125 and 927.126 by adding the following: "The addition of water as such at any plant shall not be considered the addition of a non-milk ingredient for purposes of this definition."

7. By the Market Administrator:

Amend those provisions with respect to the elimination of butterfat received or in the opening inventories in the form of milk drinks by providing that they shall be eliminated from butterfat leaving the plant or in the closing inventories in the form of milk drinks in like form. This requires amendment to, among others, §§ 927.150, 927.151, 927.172, 927.173 and 927.177.

8. By the Market Administrator:

A. Amend the rules for determining the butterfat content of cultured and flavored milk drinks in Classes II and III by:

(1) Determine the fat content of the product by test.

(2) Eliminate the quantities of fat other than butterfat in the same manner as is provided for homogenized mixtures.

B. Provide for the following plant loss allowance as follows:

(1) Amend § 927.154 by adding new paragraph (i) as follows:

(i) Packaged milk drinks in Class II and Class III, 1.5 percent;

(2) Amend § 927.176 by adding new paragraph (s) as follows:

(s) Cultured and flavored milk drinks in Class II and Class III, 2.5 percent;

C. Amend § 927.231 by adding the following to the table:

Cultured milk drink..	40 quarts or 40 quart can.	86.00
Flavored milk drink..	....do....	91.00

9. By the Market Administrator:

A. Amend § 927.201 (d) by adding the following provisos: "*Provided*, That the butterfat in pool cream which has been classified at the shipping plant in accordance with § 927.33 (d) shall, to the extent possible, be first assigned to the same class of butterfat: *Provided, further*, That any remaining butterfat so classified shall be first assigned pro rata to the remaining classes of butterfat excepting Classes I–A and II, to the extent possible. Any remaining butterfat shall be first assigned to Class II and then to Class I–A."

B. Amend § 927.202 (e) by adding the following provisos: "*Provided*, That the butterfat in pool milk which has been classified at the shipping plant in accordance with § 927.33 (d) shall, to the extent possible, be first assigned to the same class of butterfat: *Provided, further*, That any remaining butterfat so classified shall first be assigned pro rata to the remaining classes of butterfat excepting Classes I–A and II, to the extent possible. Any remaining butterfat shall be first assigned to Class I–A and then to Class II."

10. By the Market Administrator:

A. Amend § 927.220 by eliminating the two sentences beginning with "In the event that the opening inventories . . ." and ending with ". . . in like form could be deducted.", and substitute therefor the following: "In the event that the opening inventories of any product were also opening inventories for the previous month, the butterfat in such product shall be deducted in the same manner as receipts of such product."

B. Add a new sentence to § 927.220 as follows: "In the event that no pooled butterfat is received in the succeeding

month, closing inventories of butterfat in the form of milk, half and half, concentrated fluid milk or plain condensed milk, fluid milk products, cultured or flavored milk drinks, cream, sour cream and fluid cream products shall be classified on a pro rata basis in the same manner as is classified the butterfat in all dairy products leaving the plant."

11. Amend § 927.106 by deleting the words "all parts" and substituting the words "any part or parts."

Issued at New York, N. Y., this 25th day of May 1955.

[SEAL] A. J. POLLARD,
Acting Market Administrator.

Agricultural Research Service

[7 CFR Part 301]

PINK BOLLWORM

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Administrator, Agricultural Research Service, pursuant to sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162) and section 3 of the Insect Pest Act (7 U. S. C. 143), is considering amending notice of quarantine No. 52 relating to the pink bollworm and the regulations supplemental to said quarantine (7 CFR, 1953 Supp. 301.52, 301.52–1 et seq., as amended, 19 F. R. 1787, 3809) in the following respects:

1. Amend § 301.52 by deleting in paragraph (b) the words "lint waste products derived from the milling of cottonseed, nonlint oil mill trash" and substituting therefor the words "waste products, including motes, derived from the milling of cottonseed," and by substituting the word "trucks" for the word "boats" in paragraph (d).

2. Amend § 301.52–1 (c), (h), (l), (n), (o), (p), (r), and (u), respectively, to read as follows:

§ 301.52–1 *Definitions.* • • •

(c) *Cotton products.* Seed cotton, cotton lint, linters, oil mill waste, gin waste, gin trash, all other forms of unmanufactured cotton fiber, cottonseed, cottonseed hulls, cottonseed cake, and cottonseed meal.

• • • • •

(h) *Oil mill waste.* Waste products, including motes, derived from the milling of cottonseed.

• • • • •

(l) *Regulated articles.* Products and articles that may move under the regulations in this subpart.

• • • • •

(n) *Certificate.* An approved document issued by an inspector evidencing the apparent freedom of regulated articles from the pink bollworm.

(o) *Limited permit.* An approved document issued by an inspector to allow movement of noncertified, regulated articles to or from authorized and designated gins, oil mills, or processing or manufacturing plants.

(p) *Dealer-carrier permit.* An approved document issued to persons engaged in ginning, manufacturing, processing, or handling regulated articles for subsequent movement from or within the regulated area, or to persons moving regulated articles from or within the regulated area.

• • • • •

(r) *Moved (movement and move).* Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved by any person from any part of the regulated area in any State, into or through any other State, Territory, or District of the United States. ("Movement" and "move" shall be construed accordingly.)

• • • • •

(u) *Heat treatment.* Treatment of cottonseed at an approved plant whereby the cottonseed is heated to a temperature of 150° F. for a minimum period of 30 seconds, under the supervision of an inspector, and subsequently protected from contamination.

3. Amend § 301.52–2 to read as follows:

§ 301.52–2 *Regulated area.* The following are hereby designated as a single, continuous regulated area within the meaning of the regulations in this subpart:

Arizona. Counties of Cochise, Graham, Greenlee and Santa Cruz, and all of Pima County except that portion lying west of the west line of Range 6 East.

Arkansas. Counties of Calhoun, Clark, Columbia, Conway, Crawford, Dallas, Franklin, Garland, Hempstead, Hot Springs, Howard, Johnson, Lafayette, Little River, Logan, Miller, Montgomery, Nevada, Ouachita, Perry, Pike, Polk, Pope, Scott, Sebastian, Sevier, Union, and Yell.

Louisiana. Parishes of Allen, Beauregard, Blenville, Bossier, Caddo, Calcasieu, Cameron, Claiborne, De Soto, Jefferson Davis, Lincoln, Natchitoches, Red River, Sabine, Union, Vermilion, Vernon, and Webster.

New Mexico. Counties of Catron, Chaves, Curry, De Baca, Dona Ana, Eddy, Grant, Hidalgo, Lea, Luna, Otero, Quay, Roosevelt, Sierra, Socorro, and Valencia.

Oklahoma. The entire State.

Texas. The entire State.

4. Amend § 301.52–3 to read as follows:

§ 301.52–3 *Regulated articles.* Cotton; cotton products; okra; kenaf; bagging and other containers and wrappers for cotton and cotton products; railway cars, trucks, and other means of transportation which have been used in conveying regulated cotton or cotton products or which are contaminated therewith or with live pink bollworms; and, when contaminated with live pink bollworms or regulated cotton or cotton products, any other commodities, including picking, ginning, and oil mill equipment and other cotton processing machinery; farm equipment, farm household goods, and farm products; shall not be moved from or within the regulated area; and live pink bollworms shall not be removed from any State, or Territory or the District of Columbia into any other State, or Territory, or the District of Columbia; except as hereinafter provided.

5. Amend §§ 301.52–4 and 301.52–5, respectively, to read as follows:

§ 301.52–4 *Unregulated movement of certain regulated articles.* No restrictions are imposed on the movement within the regulated area of baled or unbaled lint, cottonseed cake, and cottonseed meal; nor upon the movement to any destination of samples of lint and linters of the usual trade size: *Provided,* That the bales of lint or linters from which the samples have been taken have been produced in an approved gin or oil mill and the samples have been subsequently protected from contamination; nor upon the movement to any destination of bagging and other containers and wrappers for cotton and cotton products not contaminated with either live pink bollworms, or regulated cotton or cotton products; nor upon the movement to any destination of any means of transportation which have been used in conveying regulated cotton or cotton products but are not within § 301.52–8, except as otherwise provided in § 301.52–5 (d) (2) (iv).

§ 301.52–5 *Conditions governing movement of regulated articles*—(a) *Seed cotton.* Seed cotton produced in the regulated area may be moved within or from such area without limited permit or certificate, if destined to another point within the regulated area or to a contiguous nonregulated area, solely for ginning at a gin approved to receive such seed cotton.

(b) *Baled lint.* Baled lint produced at approved gins in the regulated area may be moved from the regulated area to a nonregulated area under a certificate if it has been given standard or equivalent compression at an approved plant or has been given approved fumigation under the supervision of an inspector and has been subsequently protected from contamination. For the purposes of such compression, baled lint may be moved under limited permit to an approved plant in an adjacent nonregulated area.

(c) *Baled linters.* (1) Baled linters produced at an approved plant from cottonseed that has received an approved treatment and has been subsequently protected from contamination may be moved from the regulated area to any destination under a certificate.

(2) Baled linters produced at an approved plant from untreated cottonseed and given standard or equivalent compression at an approved plant or other approved treatment and subsequently protected from contamination may be moved from the regulated area to any destination under a certificate.

(3) Baled linters produced at an approved plant from untreated cottonseed may be moved under limited permit to any destination within the regulated area in New Mexico, Oklahoma, or Texas; to any noncotton-producing State; or to an approved cellulose plant at any location; for processing.

(d) *Cottonseed.* (1) Cottonseed produced at approved gins in that part of the regulated area in Arkansas, Arizona, Louisiana, and in those counties of New Mexico and Texas where gins are required to heat treat cottonseed as a continuous process of ginning[1] may be moved under certificate to any destination if such cottonseed has received an approved heat treatment at the gin where produced and is subsequently protected from contamination.

(2) Cottonseed produced in Oklahoma and in those counties of Texas and New Mexico where the gins are not required to heat treat cottonseed as a continuous process of ginning may be moved when it meets the requirements of any one of the following procedures:

(i) Such seed may be moved under limited permit to approved oil mills located in Oklahoma or those counties in Texas or New Mexico where gins are not required to heat treat cottonseed as a continuous process of ginning, for processing.

(ii) Such seed may be moved under limited permit to designated oil mills located in that part of the regulated area where gins are required to heat treat cottonseed as a continuous process of ginning, for treatment upon arrival.

(iii) Such seed may be moved under certificate to any destination when it has received an approved treatment under supervision of an inspector and is subsequently protected from contamination.

(iv) Railway cars, trucks, or other means of transportation moving such seed in accordance with any of the procedures specified in this subparagraph must be cleaned or treated under the supervision of an inspector immediately after unloading.

(e) *Cottonseed cake and meal.* Cottonseed cake and meal produced at an approved oil mill in the regulated area from treated or untreated seed and subsequently protected from contamination may be moved to any destination within the regulated area without restriction, but may be moved to destinations in a nonregulated area only under a certificate.

(f) *Cottonseed hulls.* (1) Cottonseed hulls produced at an approved oil mill from cottonseed that has been given approved treatment and subsequently protected from contamination may be moved to any destination under a certificate.

(2) Cottonseed hulls produced at an approved oil mill from untreated cottonseed may be moved under limited permit to any destination within that part of the regulated area in New Mexico, Oklahoma, or Texas, or to any noncotton-producing State, for utilization. Such products may be certified for movement to any destination after they have received an approved treatment under the supervision of an inspector and have been subsequently protected from contamination.

(g) *Oil mill waste.* (1) Oil mill waste produced at an approved oil mill from cottonseed that has been given an approved treatment and has been subsequently protected from contamination may be moved to any destination under a certificate.

(2) Oil mill waste produced from untreated seed may be moved under a certificate to any destination after it has received approved fumigation or other approved treatment.

(h) *Cottonseed meats.* All cottonseed meats (whole cottonseed from which the hulls or outer coverings have been removed) produced from untreated cottonseed may be moved under limited permit for further processing to any approved mill within that part of the regulated area in New Mexico, Oklahoma, or Texas. Cottonseed meats from treated cottonseed, when subsequently protected from contamination, may be moved to an approved oil mill in the regulated area without certificate or limited permit and may be moved to any destination under a certificate.

(i) *Baled gin waste.* Baled gin waste produced at approved gins in the regulated area may be moved under a certificate to nonregulated areas after such baled gin waste has received an approved treatment under the supervision of an inspector.

(j) *Gin trash.* Gin trash may be moved from a regulated area to any destination under a certificate when such gin trash has been given an approved fumigation or other approved treatment under the supervision of an inspector and has been subsequently protected from contamination.

(k) *Kenaf.* Kenaf produced in the regulated area may be moved without certificate or limited permit to any destination when produced under such conditions as in the judgment of the inspector render it free from infestation. Otherwise, it may be moved only under a certificate after it has received an approved treatment under the supervision of an inspector.

(l) *Okra*—(1) *Okra seed.* Okra seed produced in the regulated area may be moved to any destination under a certificate after such seed has received an approved fumigation under the supervision of an inspector.

(2) *Edible okra.* (i) Edible okra produced in Texas may be moved under a certificate to any destination during the period December 1 to March 31, inclusive, when produced under such conditions as in the judgment of the inspector render it free from infestation.

(ii) Edible okra produced in Texas during the period April 1 to November 30, inclusive, may be moved to any destination under a certificate which may be issued if the okra has been produced under such conditions as in the judgment of the inspector render it free from infestation or has been processed or treated under the supervision of an inspector in accordance with methods selected by him from administratively authorized procedures known to be effective under the conditions applied.

(iii) Edible okra produced in Texas during the period April 1 to November 30, inclusive, when shipped via common carrier by the holder of a dealer-carrier permit authorizing such shipment and when suitably identified on the container thereof with a stamp as required by the inspector, may be moved without certificate or limited permit to any destination in the noncotton-producing States of Colorado, Connecticut, Delaware, Idaho, Indiana, Iowa, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Washington, West Virginia, Wisconsin, and Wyoming; or the District of Columbia; or the following cities in cotton-producing States: Chicago, Illinois; Kansas City and Wichita, Kansas; Kansas City, Missouri; and Louisville, Kentucky; for immediate processing or consumption therein.

(iv) Edible okra produced in any other part of the regulated area may be moved without restriction to any destination when produced under such conditions as in the judgment of the inspector render it free from infestation. Otherwise, it must be processed or treated as provided in subdivision (ii) of this subparagraph or must meet the requirements of subdivision (iii) of this subparagraph.

6. Delete § 301.52–6, and redesignate §§ 301.52–7, 301.52–8, 301.52–9, 301.52–10, 301.52–11, 301.52–12, 301.52–13, and 301.52–14, respectively, as §§ 301.52–6, 301.52–7, 301.52–8, 301.52–9, 301.52–10, 301.52–11, 301.52–12, and 301.52–13. In redesignated §§ 301.52–6, 301.52–9, and 301.52–12, substitute the phrase "regulated articles" for the phrase "restricted articles" wherever the latter appears.

7. Amend redesignated §§ 301.52–7 and 301.52–8 to read, respectively, as follows:

§ 301.52–7 *Articles originating outside the regulated area.* (a) Articles of a kind covered by § 301.52, except cotton harvesting or ginning machinery, originating in the United States but outside the regulated area may be moved from the regulated area under certification without processing, fumigation or other treatment, if, while in the regulated area, these articles have been handled and stored in such a manner as to maintain their identity and prevent infestation or contamination with other regulated articles, otherwise such products will require the same treatment as products originating in the regulated area.

(b) Regulated articles imported into the regulated area in accordance with the provisions of §§ 319.8, 319.8–1, et seq. of this chapter shall, before movement from the regulated area, meet the requirements of this subpart applicable to regulated articles produced in such area.

§ 301.52–8 *Cleaning or treating requirements for articles when contaminated.* Railway cars, trucks, and other means of transportation; bagging and other containers or wrappers for cotton; cotton processing machinery; farm equipment; farm household goods; farm products; and any other commodities; which are contaminated with live pink bollworms, or with cotton or cotton products originating within the regulated area or imported thereinto from contiguous areas of Mexico may be moved from or within the regulated area only after they have been freed from

[1] The Chief of the Branch will make public a list or a map of the regulated area showing the counties in which gins are required to heat treat cottonseed as a continuous process of ginning.

such contamination by cleaning or treatment to the satisfaction of an inspector, after which cleaning or treatment no certificate or limited permit will be required except as prescribed by an inspector for bagging, for other containers or wrappers for cotton, and for cotton processing or harvesting machinery; and as provided elsewhere in this subpart. Cotton harvesting machinery or cotton ginning machinery, that has been used or otherwise kept within the regulated area will be deemed contaminated and may be moved to a nonregulated area or to that part of the regulated area in Arizona, Arkansas, or Louisiana from any part of the regulated area not in one of these three States only if it has been cleaned and given an approved fumigation and is covered by a certificate.

8. Amend redesignated § 301.52–13 by inserting the word "pink" between the words "such" and "bollworms" in the last sentence of this section.

These amendments would combine into a single, continuous area the present heavily and lightly infested pink bollworm regulated areas, and would extend the combined area by the addition thereto of the Arkansas Counties of Calhoun, Clark, Conway, Crawford, Dallas, Franklin, Garland, Hot Springs, Johnson, Logan, Montgomery, Ouachita, Perry, Pike, Polk, Pope, Scott, Sebastian, Union, and Yell.

Another amendment would more specifically define oil mill waste in the notice of quarantine and regulations. In addition, other amendments would modify present procedures for the movement either within the regulated area or to points outside thereof, of regulated articles, particularly with reference to the movement of okra.

Slight modifications have also been made in the requirements for the movement from the regulated area of cotton harvesting and ginning machinery.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Plant Pest Control Branch, Agricultural Research Service, U. S. Department of Agriculture, Washington 25, D. C., within 10 days after the date of the publication of this notice in the FEDERAL REGISTER.

DIRECTOR, FISH AND WILDLIFE SERVICE

DELEGATION OF AUTHORITY TO NEGOTIATE CONTRACTS FOR PURCHASE OF CERTAIN EQUIPMENT

MAY 25, 1955.

SECTION 1. *Delegation of authority.* (a) The Director of the Fish and Wildlife Service is authorized to exercise, in accordance with the provisions of paragraph (b) of this section, the authority delegated to the Secretary of the Interior by the Administrator of General Services (20 F. R. 2837), to negotiate, without advertising, under section 302 (c) (12) of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C., sec. 252 et seq.), contracts for the purchase of outboard motors for use in Alaska, except the making of determinations under section 302 (c) (12) of the act.

(b) The authority granted in paragraph (a) of this section shall be exercised in accordance with applicable limitations and requirements in the act, particularly sections 304 and 307, and in accordance with the policies, procedures and controls prescribed by the General Services Administration.

SEC. 2. *Redelegation.* The Director of the Fish and Wildlife Service may, in writing, redelegate or authorize written redelegation of the authority granted in section 1 of this order. Each such redelegation shall be published in the FEDERAL REGISTER.

DOUGLAS MCKAY,
Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

CHAIRMEN, ET AL., OF AGRICULTURAL STABILIZATION AND CONSERVATION COMMITTEES

DELEGATION OF AUTHORITY AS CONTRACTING OFFICERS

Pursuant to authority vested in the Executive Vice President, Commodity Credit Corporation, by the bylaws of the Corporation, the respective chairmen, or in their absence the acting chairmen, of the Agricultural Stabilization and Conservation County Committees in the cotton-producing States, or if so designated by such Agricultural Stabilization and Conservation County Committees,

the ASC county office managers are hereby appointed contracting officers of Commodity Credit Corporation, with authority to execute, in the name of the Corporation, contracts, agreements, or other documents relating to the purchase, transportation, handling, and storage of cottonseed prior to the delivery of such cottonseed to an oil miller or an approved storage facility under the 1955-Crop Cottonseed Purchase Program formulated by Commodity Credit Corporation and Commodity Stabilization Service.

The foregoing authority as contracting officers shall be exercised in accordance with instructions issued by the appropriate Vice President of Commodity Credit Corporation, which shall be available for public inspection in the files of the Agricultural Stabilization and Conservation county offices in the respective cotton-producing States.

Issued this 26th day of May 1955.

[SEAL] PRESTON RICHARDS,
Acting Executive Vice President, Commodity Credit Corporation.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

REGIONAL ADMINISTRATIVE OFFICER, REGION VI (SAN FRANCISCO)

REDELEGATION OF AUTHORITY TO EXECUTE LEGENDS ON BONDS, NOTES OR OTHER OBLIGATIONS EVIDENCING LOANS MADE UNDER TITLE I OF THE HOUSING ACT OF 1949, AS AMENDED, INDICATING ACCEPTANCE OF SUCH INSTRUMENTS AND PAYMENT THEREFOR

The Regional Administrative Officer, Region VI (San Francisco), Housing and Home Finance Agency, is hereby authorized to take the following action:

Execute, on behalf of the Housing and Home Finance Administrator, in instances where necessary or appropriate, any legend appearing on any bond, note or other obligation being acquired by the Federal Government from a local public agency pursuant to Title I of the Housing Act of 1949, as amended (63 Stat. 414–421, as amended, 42 U. S. C. 1952 ed. and Sup. I 1450–1460), which legend indicates the Federal Government's acceptance of the delivery of the particular bond, note or other obligation and its payment therefor on the date specified in the particular legend.

(Reorg. Plan 3 of 1947, 61 Stat. 954; 62 Stat. 1268, 1283–85 (1948), as amended, 12 U. S. C., 1952 ed., 1071c; Delegation of Authority effective Jan. 25, 1955, 20 F. R. 556 (Jan. 25, 1955).)

Effective as of the 1st day of June, 1955.

M. JUSTIN HERMAN,
Acting Regional Administrator, Region VI.

GENERAL SERVICES ADMINISTRATION

PALM OIL HELD IN THE NATIONAL STOCK PILE

DISPOSITION

Pursuant to the provisions of section 3 (e) of the Strategic and Critical Materials Stock Piling Act, 60 Stat. 597, 50 U. S. C. 98b (e), notice is hereby given of a proposed disposition of approximately 30,000,000 pounds of palm oil now held in the National Stock Pile.

This quantity of palm oil is no longer needed in the National Stock Pile because of a revised determination by the Office of Defense Mobilization that this quantity of palm oil is obsolescent for use in time of war because of the development of new nonstrategic materials.

It is proposed to channel the palm oil to be disposed of to the steel industry, which is the major consumer of this commodity and for whose use the commodity was originally stock piled. It is believed that this plan will protect the United States against avoidable loss and also protect producers, processors and consumers of palm oil against avoidable disruption of their usual markets.

This material will be available for disposition on and after December 2, 1955.

Dated: May 26, 1955.

A. J. WALSH,
Commissioner, Emergency Procurement Service, General Services Administration.

MOTOR CARRIER APPLICATIONS

MAY 27, 1955.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (a) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

SECURITIES AND EXCHANGE COMMISSION

[Docket Nos. 70–3340, 70–3350]

PENNSYLVANIA POWER & LIGHT CO. AND BALTIMORE GAS AND ELECTRIC CO.

ORDER REGARDING ACQUISITIONS BY EXEMPT HOLDING COMPANIES OF OUTSTANDING SECURITIES OF NON-AFFILIATED PUBLIC UTILITY COMPANIES

MAY 25, 1955.

In the matter of Pennsylvania Power & Light Company, File No. 70–3340; Baltimore Gas and Electric Company (formerly Consolidated Gas Electric Light and Power Company of Baltimore), File No. 70–3350.

Pennsylvania Power & Light Company ("Penn Power"), an exempt holding company and electric utility company, and Baltimore Gas and Electric Company ("Baltimore") (formerly Consolidated Gas Electric Light and Power Company of Baltimore), an exempt holding company and electric and gas utility company, which companies are not affiliated with each other, have filed applications and amendments thereto pursuant to sections 9 (a) (2) and 10 of the Public Utility Holding Company Act of 1935 ("act"), with respect to the following transactions:

Penn Power and Pennsylvania Water & Power Company ("Penn Water"), a non-affiliated exempt holding company and electric utility company, have entered into a joint agreement of merger which has been approved by the requisite vote of the stockholders of each company. Pursuant to the terms of this agreement, Penn Power will acquire all of the assets, rights and privileges of Penn Water and assume all of Penn Water's liabilities, obligations and duties, subject to an accord and settlement of certain litigation between Penn Water and Baltimore.

Penn Power will acquire the public utility assets of Penn Water and, in addition:

(1) All of the outstanding securities of Susquehanna Transmission Company of Maryland ("Transmission Company"), consisting of 12,055 shares of common stock, par value $100 per share, and $2,348,000 principal amount of 5 percent first mortgage bonds due 1940 (past due); and

(2) 100,000 shares (50 percent) of the Class B common stock, no par value, of Safe Harbor Water Power Corporation ("Safe Harbor"), constituting 50 percent of the outstanding voting securities of Safe Harbor. The remaining 50 percent of this stock is owned by Baltimore which also owns all of the non-voting Class A common stock, no par value, of Safe Harbor.

Transmission Company, a Maryland corporation, owns transmission lines and substations, all of which are located in Maryland and substantially all within Baltimore's electric service area. These facilities are interconnected with Baltimore's system and are used to transmit and deliver power to, or for the account of, Baltimore from Penn Water and Safe Harbor.

Safe Harbor, a Pennsylvania corporation, owns and operates a hydroelectric plant on the Susquehanna River having a generating capability of 230,000 kw. One-third of the power generated by Safe Harbor is sold to Penn Water and two-thirds to Baltimore.

Penn Power will retain the 100,000 shares of the Class B, no par value, common stock of Safe Harbor, all of whose properties are located within the service area of Penn Power, and will enter into an agreement with Safe Harbor and Baltimore pursuant to which Penn Power will be entitled to purchase one-third of the output of Safe Harbor and Baltimore will continue to purchase the remaining two-thirds.

Penn Power and Baltimore have entered into a letter agreement dated December 22, 1954, pursuant to which Penn Power has agreed to sell, and Baltimore has agreed to buy, the outstanding common stock of Transmission Company promptly after the merger of Penn Water into Penn Power. Transmission Company's outstanding first mortgage bonds and an open account indebtedness to Penn Water will be retired and canceled prior to Baltimore's acquisition of Transmission Company's common stock.

The base price to be paid by Baltimore for the common stock of Transmission Company, subject to certain adjustments, is approximately $5,000,000, which amount is $672,750 in excess of the original cost of the fixed assets of Transmission Company, less applicable book depreciation at October 31, 1954.

Baltimore will, as soon as practicable after its acquisition of the common stock of Transmission Company, liquidate that company and acquire direct ownership of all of its properties and facilities.

The Pennsylvania Public Utility Commission has approved, inter alia, the acquisition by Penn Power of the outstanding securities of Transmission Company and the 100,000 shares of Class B common stock of Safe Harbor, and the Public Service Commission of Maryland has approved Penn Power's acquisition of Transmission Company's outstanding securities. The Public Service Commission of Maryland has also approved the acquisition by Baltimore of the outstanding common stock of Transmission Company. The Federal Power Commission has approved, inter alia, the merger of the public utility facilities of Penn Water with those of Penn Power and the transfer from Penn Water to Penn Power of the licensed hydro-electric project at Holtwood, Pennsylvania.

Penn Power will pay a fee of $2,500 to Simpson Thacher & Bartlett for legal services in connection with the proposed acquisitions of securities and no other fees or expenses will be incurred in connection therewith.

Baltimore will not pay any fees or commissions, directly or indirectly, in connection with the acquisition of the Transmission Company stock, and its expenses will not exceed $100.

Penn Power and Baltimore have requested that there be no waiting period between the issuance of the Commission's order granting their applications and the effective date thereof.

Due notice of the filing of said applications having been given in the manner prescribed by Rule U-23 promulgated under the Act, and no hearing having been requested of, or ordered by, the Commission; and the Commission finding that the applicable provisions of the act and the rules thereunder are satisfied, that the fees and expenses set forth above are not unreasonable, that said applications, as amended, should be granted, and that the Commission's order should become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said amended applications be, and the same hereby are, granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

STANDARD POWER AND LIGHT CORP.

NOTICE OF FILING OF DECLARATION REGARDING PROPOSED CASH DISTRIBUTION OUT OF CAPITAL SURPLUS

MAY 25, 1955.

Notice is hereby given that a declaration has been filed with this Commission by Standard Power and Light Corporation ("Standard Power"), a registered holding company, pursuant to Section 12 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-46 promulgated thereunder in respect of a proposal by Standard Power to make a cash distribution of $0.35 per share, in part out of earned surplus to the full extent thereof which at April 30, 1955, amounted to $215,362.31 and the balance out of capital surplus, which as of the same date was $111,267,689.14, to each

holder of record on June 24, 1955, of its outstanding 1,320,000 shares of common stock and 110,000 shares of common stock, Series B.

Standard Power represents that its only outstanding obligations senior to the common stock are two bank loans, one in the amount of $1,500,000 which matures on July 29, 1955, and the other in the amount of $260,000 which matures on October 26, 1955. It is stated in the declaration that these loans will not be adversely affected by the proposed cash distribution since Standard Power has sufficient marketable securities to enable it to raise any balance of cash required to pay the loans when they become due.

The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed cash distribution. The fees and expenses to be incurred in connection with said distribution are estimated not to exceed $1,000, including counsel fees, not in excess of $500.

Notice is further given that any interested person may, not later than June 10, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may take such action as it may deem appropriate under the circumstances.

By the Commission.

FEDERAL COMMUNICATIONS COMMISSION

[Amdt. 0-6, FCC 55-608]

CHIEF OR ACTING CHIEF, COMMON CARRIER BUREAU

DELEGATION OF AUTHORITY TO ACT ON APPLICATIONS TO CLOSE COMPANY-OPERATED MAIN OFFICES WHERE SUBSTITUTE SERVICE IS TO BE PROVIDED IN SAME COMMUNITY

In the matter of amendment of section 0.253 (d) of the Commission's Statement of Delegations of Authority.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of May 1955;

The Commission having under consideration the necessity for amending section 0.253 (d) of the Commission's Statement of Delegations of Authority to authorize the Chief of the Common Carrier Bureau or, in his absence, the Acting Chief of the Bureau, to act upon applications filed by communications common carriers, pursuant to section 214 of the Communications Act of 1934, as amended, and Part 63 of the Commission's rules and regulations, for authority to close company-operated main offices where substitute service is to be provided by a facsimile-operated agency office in the same community, in those cases where applicable Commission policy has been established;

It appearing that such amendment is designed to improve the internal administration of the Commission and will facilitate the prompt and orderly handling of the above-described applications;

It further appearing that the amendment herein ordered relates to internal Commission organization and procedure and, therefore, compliance with the public notice and rule making procedures prescribed by sections 4 (a) and (b) of the Administrative Procedure Act is not required;

It further appearing that authority for the proposed amendment is contained in sections 4 (i) and 5 (d) of the Communications Act of 1934, as amended;

It is ordered, That, effective immediately, section 0.253 (d) of the Commission's Statement of Delegations of Authority is amended to read as follows:

(d) For an authorization for temporary or emergency closure of telegraph offices, for any closure of a telegraph office at a military establishment, for closure of railroad-operated agency offices, for closure of company-operated main offices where substitute service is to be provided by a telephone, teleprinter or facsimile-operated agency office in the same community and for any reduction in the hours of telegraph service in a community or part of a community in those cases where applicable Commission policy has been established.

[Docket Nos. 6584, 6585; FCC 55-624]

ALBUQUERQUE BROADCASTING CO. (KOB)

MEMORANDUM OPINION AND ORDER REOPENING RECORD AND EXPANDING ISSUES

In re applications of Albuquerque Broadcasting Company (KOB), Albuquerque, New Mexico, Docket No. 6584, File No. BMP-1738; for modification of construction permit; Albuquerque Broadcasting Company (KOB), Albuquerque, New Mexico, Docket No. 6585, File Nos. BL-1799, BZ-1583; for license to cover construction permit as modified and authority to determine operating power by direct measurement.

1. The Commission has before it: (1) The above-entitled applications of Albuquerque Broadcasting Company, filed on February 3, 1944, for modification of construction permit and for licensee to cover construction permit, as modified, for operation on the frequency 770 kc, with power of 50,000 watts, unlimited time; (2) a petition filed November 23, 1953, by American Broadcasting-Paramount Theatres, Inc. (formerly American Broadcasting Company) to "Expand Issues and Reopen Record"; and (3) a motion filed May 10, 1954, by American Broadcasting-Paramount Theatres, Inc. to substitute it for American Broadcasting Company, Inc., as a party in the instant proceeding. The matters presented to us by these applications, petitions and motions involve questions of a fundamental nature in view of the basic provisions of the Commission's rules and regulations governing the allocation of frequencies for standard broadcast stations. Their complexity is indicated by the many conflicting proposals which have been presented in the course of this proceeding by the parties involved and the long period of time during which this proceeding has been before us. Upon careful review of the record in this proceeding and the numerous proposals that have been submitted by the parties involved, together with the determinations made by the Circuit Court of Appeals, District of Columbia Circuit, in American Broadcasting Company, Inc. v. Federal Communications Commission, 191 F. 2d 492, upon aspects of the proceeding which have been presented for court review, we have decided upon the course of action provided for below which, in our view, is best designed to bring this proceeding to the stage of final disposition.

2. Station KOB is regularly licensed on the frequency 1030 kc, with 10 kw power, unlimited time. In October 1941 KOB was operating on its assigned frequency but under a Special Service Authorization permitting use of increased power. On October 14, 1941, the Commission, on its own motion, granted KOB a six-month Special Service Authorization to operate on 770 kc. The background and reasons for that action are described in detail in our Memorandum Opinions of December 14, 1949, and September 30, 1952 (5 RR 1117; 8 RR 346 respectively), and will not be repeated here. The September 30, 1952 Order removed the above-entitled KOB application from the "pending file for consideration and the adoption of a Proposed Decision". However, the Commission in its September 30, 1952, Order was aware of the age of the record in this proceeding and saved this question for later consideration as it stated "The mere passage of time does not necessarily render a record stale. The question of whether the record in this case is adequate is one of the questions which we must and will, consider in connection with the Proposed Decision which we will issue."

3. Upon review of the record of this proceeding together with the pleadings filed by the parties involved, we have become convinced that in order to arrive at a decision best designed to serve the public interest the hearing issues must be enlarged in order to permit the receipt of additional evidence with respect to possible KOB operation on 770 or 1030 kilocycles. This necessity for

such enlargement of the issues, discussed further in paragraph 6 below, together with the need for current evidence in the record concerning the radio service being received in the areas affected, see paragraph 8 below, is responsible in large part for our view that the record should be reopened for further data. In addition, since the closing of the record in this proceeding, the Commission has adopted many changes in the Engineering Standards which substantially affect the present evidence of record. For this reason, also, we believe the record should be reopened for further data. Such changes include (1) new methods of computing ground wave signal attenuation; (2) new adjacent channel ratios of desired to undesired signal; (3) the adoption of a new soil conductivity map; and (4) elimination of skywave measurements. The last mentioned change—elimination of skywave measurements—renders irrelevant a substantial portion of the instant record and, more important, would simplify the presentation of new coverage and interference data. Naturally, all evidence of record that is unaffected by the change in engineering and other pertinent considerations, or, by the time that has elapsed since the record was closed, is competent evidence and need not be resubmitted.

4. The issues of this proceeding as they read at present are as follows:

1. To determine the areas and populations which would receive primary as well as secondary services from Station KOB operating with either 10 kw or 50 kw on 1030 kc, as well as what other broadcast services are available to those areas and populations.

2. To determine the areas and populations which receive primary as well as secondary service from Station KOB operating with 25 kw—50 kw LS on 770 kc as well as what other broadcast services are available to those areas and populations.

3. To determine the areas and populations which would receive primary as well as secondary service from Station KOB operating with 50 kw on 770 kc as well as what other broadcast services are available to those areas and populations.

4. To determine the areas and populations which would be prevented from receiving primary or secondary service particularly from Station WBZ should Station KOB operate with either 10 kw or 50 kw on 1030 kc, as well as what other broadcast services are available to those areas and populations.

5. To determine the areas and populations which are prevented from receiving primary or secondary service particularly from Station WABC (formerly WJZ) as the result of Station KOB operating with 25 kw—50 kw-LS on 770 kc, as well as what other broadcasting services are available to those areas and populations.

6. To determine the areas and populations which would be prevented from receiving primary or secondary service particularly from Station WABC should Station KOB operate with 50 kw on 770 kc as well as what other broadcast services are available to those areas and populations.

7. To determine whether § 3.25 of the Commission's rules should be amended so as to permit the operation of Station KOB as proposed in Application BMP-1738.

8. To determine whether the granting of these applications would tend toward a fair, efficient and equitable distribution of radio service as contemplated by section 307 (b) of the Communications Act of 1934, as amended.

9. To determine the directional antenna patterns that Stations KOB and WABC operating on 770 kc with 50 kw could use, each protecting the service of the other as a Class I-B station in accordance with the Commission's rules, regulations and standards.

10. To determine what areas and populations would receive primary as well as secondary service from Stations KOB and WABC each operating on 770 kc with 50 kw power employing a directional antenna designed to protect the service of the other as a Class I-B Station and which other service is presently available to those areas and populations.

5. In the above-mentioned WABC petition to "Expand Issues and Reopen Record", WABC seeks to include issues relative to the following:

(a) Operation of KOB on 1030 kc, 50 kw, DA-N.

(b) Overlap of secondary services of Westinghouse Stations, including particularly the recently authorized WOWO, Fort Wayne, Indiana, station.

(c) Other clear channel frequencies which might be used by KOB in the event KOB is not returned to 1030 kc.

In the same petition WABC also requests other issues to permit the taking of evidence on matters covered in an offer of proof WABC made in Docket No. 10336 involving KOB's application for extension of Special Service Authorization to permit continued operation of KOB on 770 kilocycles, File No. BSSA-275. The offer of proof included "social and economic findings; supplemental engineering findings; and program findings". The social and economic findings are related to network operations of the American Broadcasting Company, viz a viz, the Columbia Broadcasting System and the National Broadcasting Company and highlight the key role of Station WABC as the flagship station of the American Broadcasting Company and the general desirability of permitting the American Broadcasting Company to develop into a strong and competitive network. The supplemental engineering findings consider the possibility of KOB operation on other clear channels and the program findings relate to the network affiliations of a number of clear channel stations which WABC contends could share their respective channels with KOB. WABC also contends that since the record was closed in the instant proceeding, The Court of Appeals, District of Columbia Circuit in the Lubbock (85 App. D. C. 48), Easton (87 App. D. C. 344), and Democrat Printing (91 App. D. C. 72) cases has made it clear that other program service in the area which an existing licensee will lose service is a factor of prime importance in proceedings of the nature involved herein.

6. The frequency 1030 kc is historically involved in this matter, it having been the original frequency assignment of KOB following the frequency shifts required by the 1937 North American Regional Broadcasting Agreement[1] and it is the frequency specified in the license held by KOB ever since March 1941. Its full consideration as a possible assignment is obviously warranted. Although the oustanding KOB license for 1030 kc operation contemplates classification of Station KOB as a Class II station protecting WBZ, full consideration of KOB operation on the 1030 kilocycle channel warrants consideration of the possibility of establishing KOB's classification as I-B with appropriate higher protection from Station WBZ. Further, the original issues of this proceeding include issues as to the joint use of 770 kc by Stations WABC and KOB with each protecting the other as Class I-B stations. A fair comparison of the relative merits of KOB operating on 770 kc and 1030 kc can only be made on comparable issues and accordingly that portion of WABC's petition which seeks inclusion of issues relating to such consideration is granted. Also to be complete, the record should include evidence as to KOB operating as a Class II station—the classification contemplated by KOB's outstanding license. Thus hereinbelow, the Commission is adopting issues to adduce information as to possible operation of KOB designed to fully protect Stations WABC and WBZ as Class I-B stations.

7. In support of its request for an issue to investigate possible KOB operation on other clear channel frequencies, WABC contends that consideration of these other frequencies is not only fair and equitable but is essential in finding the best possible solution to the question of a permanent assignment for KOB. The Commission has recognized for some time the merit of this contention and the general relationship between the question of a permanent assignment for KOB and the "Clear Channel" proceeding (Docket No. 6741) which is basically concerned with the optimum usage of 24 I-A clear channels and 22 I-B clear channels. In fact the Commission on August 9, 1946, adopted an Order placing the subject KOB applications in the pending file until after a final decision was rendered in the Clear Channel hearing (1 RR 53: 905). The delay of the instant proceeding occasioned by the Commission's action in tying the subject KOB proceeding to the Clear Channel hearing is an integral part of the history and record of this case. It was not until the Court of Appeals, District of Columbia Circuit, ruled that separate consideration of the subject KOB problem was required, did the Commission remove the KOB application from the pending file for further consideration. To consider, as WABC suggests, the possible use of other clear channels clearly brings up anew the issue of including a minia-

[1] See the Commission's Memorandum Opinion and Order of December 14, 1949 (5 RR 1717).

ture Clear Channel hearing within the subject KOB proceeding. In the Commission's opinion, consideration of other clear channels in this matter is clearly a reattachment of the subject proceeding to the voluminous and complex Clear Channel hearing, and the only hope for solution of the KOB problem, short of a simultaneous decision in the Clear Channel proceeding, requires the Commission to restrict its consideration to the two frequencies which have been directly involved since the problem first arose in 1941. Whatever equities there are for considering other clear channels, and there are some, they are dwarfed by the compelling need for the earliest termination of this proceeding possible, consistent with a fair and judicious hearing and decision. Accordingly, WABC's issue to investigate the possible use of KOB of other clear channels must be denied.

8. With respect to WABC's request for issues relating to network operations and programming in general, it is not clear just what type of issues WABC desires. A broad programming issue going to the individual program service being rendered by the hundreds of stations serving all or portions of the areas concerned would encumber the record with a staggering amount of evidence of questionable value. Certainly the public interest would not be served by including issues permitting or encouraging the introduction of such evidence. Also, the Commission has repeatedly reaffirmed its finding that operation of all three stations directly concerned is in the public interest. Therefore the basic problem presented by the subject KOB applications is the technical solution to the problem of simultaneous operation of all three stations. Thus the matter is primarily an allocation problem and therefore must be primarily concerned with the engineering consideration pertinent to the best possible utilization of the frequencies and facilities involved. This does not necessarily imply, however, that due consideration cannot or should not be given to the programming involved, or that such information, kept within bounds, could not be pertinent and helpful in reaching a decision in this matter. Thus information as to the number of stations and their classification and network affiliations—especially the clear channel stations—providing service to all or part of the potential primary and secondary service areas of Stations KOB, WABC, and WBZ warrants consideration. Accordingly, the Commission hereinafter is adopting issues designed to elicit such information as well as information concerning the existing programming of Stations KOB, WABC, and WBZ. The particular weight that such information may have in our ultimate decision must, of course, depend upon a complete review of the record at the time of our decision.

9. In support of its request for an issue relating to the overlap of service areas of "Westinghouse" stations, WABC relies primarily on the fact that on March 26, 1953, the Commission granted Westinghouse Radio Stations, Inc., licensee of Station WOWO, Fort Wayne, Indiana, a construction permit to increase the nighttime power of Station WOWO from 10 kilowatts to 50 kilowatts, using a directional antenna. To the extent that this newly authorized WOWO operation and other "Westinghouse" stations serve areas that may lose service from WBZ because of any subsequent operation of KOB on 1030 kilocycles, WABC's request for an issue to determine such evidence is germaine to the basic issues of this proceeding and such an issue is adopted below,

10. The WABC motion to substitute parties is a proper one because the ownership of Station WABC has changed in the interim and this motion is granted below.

11. The Examiner who presided at the original hearing is no longer with the Commission. Therefore, another examiner will conduct the further hearing. Upon conclusion of the further hearing, the Examiner will allow the parties an appropriate period for the filing of proposed findings and conclusions and will then issue an Initial Decision. The Initial Decision, will, of course, take into consideration the evidence adduced in the previous hearing. However, in view of the Commission's Report and Order of March 11, 1954, eliminating skywave measurements (10 RR 1562), all evidence based on skywave measurements in the instant proceeding should be disregarded. By the same token all coverage and interference data necessary for a determination of issues involved herein should be determined on the basis of the present rules and Standards of Good Engineering Practice.

12. Following the issuance of an Initial Decision, opportunity will be given to all parties to except to all parts of the Initial Decision; oral argument will then be scheduled on the exceptions.

13. We believe the action here taken to reopen the record is necessitated by the present state of the record. In view of the history of this case the Commission will take all steps possible to expedite action in this proceeding. The Examiner is directed to make every appropriate effort to expedite the proceeding.

14. In view of the foregoing: *It is ordered,* That the above-described WABC petition to Expand Issues and Reopen Record is granted to the extent indicated in the body of this Opinion; and in all other respects it is denied;

It is further ordered, That WABC's motion to substitute the American Broadcasting-Paramount Theatres, Inc. for American Broadcasting Company, Inc. as a party in the instant proceeding is granted;

It is further ordered, That the record in the above-entitled proceeding is reopened to bring up to date the present evidence of record on the existing issues and to adduce evidence on the following additional issues:

11. To determine the directional antenna patterns that Stations KOB and WBZ operating on 1030 kc with 50 kw could use, each protecting the service of the other as a Class I-B station in accordance with the Commission's rules, regulations and standards.

12. To determine what areas and populations would receive primary as well as secondary service from Stations KOB and WBZ each operating on 1030 kc with 50 kw power employing a directional antenna designed to protect the service of the other as a Class I-B station and what other service is presently available to those areas and populations.

13. To determine the directional antenna patterns that Station KOB could use respectively, operating on 770 kc or 1030 kc with 50 kw, to protect the existing operation of Station WABC or Station WBZ as a Class I-B station in accordance with the Commission's rules, regulations and standards.

14. To determine the areas and populations which would receive secondary service from the existing operation of Station WABC or Station WBZ respectively, if afforded protection from interference as a Class I-B station in accordance with the Commission's rules, regulations and standards.

15. To determine the areas and populations which would receive service from Station KOB operating with 50 kw on 770 kc or 1030 kc respectively, employing a directional antenna designed to protect the existing operation of Station WABC or Station WBZ as a Class I-B station in accordance with the Commission's rules, regulations and standards.

16. To determine the areas and populations to be gained or lost if KOB operated in the manner described in Issue 13 as opposed to operation in the manner described in Issues 9 and 11 as well as what other broadcast services are available to those areas.

17. To determine the nature and character of program service now being rendered by Stations KOB, WABC, and WBZ.

18. To determine the extent to which the present secondary service area of Station WBZ may be affected by the simultaneous operation of Stations WBZ and KOB as contemplated by Issues 1, 4, 12, 14, and 15 and the extent to which such areas receive service from other standard broadcast stations operated by Westinghouse Radio Stations, Inc.

19. To determine the classification and network affiliation of standard broadcast stations serving all or part of the service areas established in Issues 1, 2, 3, 4, 5, 6, 10, 12, 14, 16, and 18.

It is further ordered, That the Examiner, to be designated in a subsequent order, is directed to make every effort, consonant with a fair and thorough hearing, to expedite the proceeding and to issue an initial decision as promptly as possible.

It is further ordered, That the Westinghouse Broadcasting Company, Inc., licensee of Station WBZ, Boston, Massachusetts, is made a party to the proceeding.

NEW BRITAIN BROADCASTING CO. (WKNB-TV) ET AL.

ORDER DESIGNATING APPLICATIONS FOR HEARING ON STATED ISSUES

In re applications of The New Britain Broadcasting Company (WKNB-TV), New Britain, Connecticut, Docket No. 11399, File No. BMPCT-2787, for modification of construction permit (Channel 30); Julian Gross, et al. (Transferor), and National Broadcasting Company, Inc. (Transferee), Docket No. 11400, File No. BTC-1896, for transfer of control of New Britain Broadcasting Company (WKNB and WKNB-TV).

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 26th day of May 1955;

The Commission having under consideration (1) the above-entitled applications; (2) the oppositions to said applications filed by Elm City Broadcasting Corporation, licensee of television station WNHC-TV, Channel 8, New Haven, Connecticut, and by WATR, Inc., permittee of television station WATR-TV, Channel 53, Waterbury, Connecticut; (3) the Commission's letter of May 4, 1955, sent to the above-named applicants pursuant to section 309 (b) of the Communications Act of 1934, as amended; and (4) the joint response to said letter of May 4, 1955, filed by the above-named applicants on May 12, 1955; and

It appearing that the above-named applicants filed their applications on a contingent basis requesting that a grant of the transfer application be contingent on a grant of the modification application; and

It further appearing that in its letter to the above-named applicants of May 4, 1955, the Commission notified said applicants of all objections to their applications, particularly with respect to the questions raised as to whether grants of said applications would be consistent with the provisions of §§ 3.35, 3.636 and 3.658 (f) of the Commission's rules and its policies promulgated thereunder; that the Commission was unable to determine that grants of said applications would be in the public interest; and that applicants were being afforded an opportunity to reply to the Commission's letter; and

It further appearing that upon due consideration of the above-entitled applications, the Commission's letter of May 4, 1955, and the applicants' reply thereto of May 12, 1955, the Commission finds that it is unable to determine at this time that grants of the above-entitled applications would be in the public interest; that a hearing thereon is required; and that said applicants are legally, financially, technically and otherwise qualified except as to the issues set forth below; and

It further appearing that the issues framed below involve questions of law and policy, and interpretations of certain sections of the Commission's rules; that the law, policy and interpretations may be determined from the uncontroverted facts set forth in the oppositions and joint response filed herein, and by the Commission taking official notice of its records; that, therefore, a fact finding hearing does not appear to be required herein; that an oral hearing appears to be appropriate for the consideration of arguments on the issues framed below; and that, in the event the Commission should find it necessary, after the oral hearing ordered herein, to institute fact finding proceedings in connection with the issues specified below, appropriate provisions may be made for such fact finding; and

It further appearing that Elm City Broadcasting Corporation and WATR, Inc., have made their interests in the above-entitled applications known to the Commission, and have requested that said applications be designated for hearing and that they be named parties therein;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing to commence at 10:00 a. m. on June 20, 1955, at the offices of the Commission in Washington, D. C., before the Commission en banc, on the following issues:

(1) To determine whether or not grants of the above-entitled applications would be consistent with the provisions of §§ 3.35 (1) and 3.636 (a) (1) of the Commission's rules and its policies promulgated thereunder.

(2) To determine whether or not grants of the above-entitled applications would be consistent with the provisions of § 3.658 (f) of the Commission's rules and its policies promulgated thereunder.

(3) To determine whether or not, on the basis of the hearing record adduced with respect to Issues "(1)" and "(2)" above, grants of the above-entitled applications would serve the public interest, convenience and necessity.

It is further ordered, That the hearing ordered herein shall consist solely of oral argument on the issues specified above: *Provided, however*, That in the event the Commission shall find that there is a dispute as to the facts before it or that other reasons exist for instituting fact finding proceedings in connection with the issues specified above, appropriate provision shall be made for such fact finding.

It is further ordered, That Elm City Broadcasting Corporation and WATR, Inc., are hereby made parties to the proceedings herein.

TEXAS EASTERN TRANSMISSION CORP. AND TRANSCONTINENTAL GAS PIPELINE CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

MAY 26, 1955.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern), whose address is Texas Eastern Building, Shreveport, Louisiana, and Transcontinental Gas Pipeline Corporation (Transcontinental), whose address is 3100 Travis Street, Houston, Texas, filed a joint application on November 1, 1954, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the Applicants to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application, which is on file with the Commission and open for public inspection.

Texas Eastern and Transcontinental propose to exchange natural gas on an Mcf for Mcf basis at the convenience of the joint Applicants. The exchanges would be effected through existing authorized interconnections. No new facilities are proposed.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 21, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 16, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-8518]

ORANGE GROVE OIL AND GAS CORP., AND H. J. MOSSER

ORDER FIXING DATE OF HEARING AND SPECIFYING PROCEDURE

On March 2, 1955, the Commission issued its order suspending proposed changes in rates filed by Orange Grove Oil and Gas Corporation and H. J. Mosser (Applicants) in the foregoing designated docket, pertaining to sales of natural gas in interstate commerce to Trunkline Gas Company (Trunkline).

The Commission finds: It is proper and in the public interest that the proceedings in the foregoing designated docket be set for hearing and that prior thereto Applicants shall submit to the hereinafter specified material to the Commission for consideration in this proceeding.

The Commission orders:

(A) Pursuant to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 4, 14, 15, and 16, a public hearing be held commencing June 27, 1955, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issued presented in these proceedings.

(B) Applicants shall submit to the Commission, at least 5 days prior to the commencement of the hearing in this proceeding as herein provided, 5 copies of maps verified by a responsible officer of Applicants, showing the following:

(i) Full details of the facilities at the point or points of deliveries to Trunkline;

(ii) Major pipeline facilities by which the gas is transported from each well to the points of delivery to Trunkline; and,

(iii) Important pipeline facilities such as dehydration and gasoline plants, compressor stations, product removal plants, measuring stations, regulators, purification plants, and the like, connected to the pipeline facilities specified in (i) and (ii) above.

(C) At the hearing, Applicants shall go forward first and shall present their complete case-in-chief with respect to the issues in these proceedings. Upon completion thereof, other parties to the proceedings, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct.

(D) Following the presentation of Applicants' case and such cross-examination as is provided in paragraph (B), other parties may present such testimony and evidence as they are prepared to offer with respect to the issues in these proceedings.

(E) Upon completion of the proceedings as provided in paragraphs (B) and (C), upon request of any party to the proceedings, including Commission Staff Counsel, the hearing may be recessed by the Presiding Examiner to prepare for full cross-examination and the preparation of testimony and evidence which such parties desire to offer.

(F) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Issued: May 26, 1955.

Adopted: May 25, 1955.

SUNRAY OIL CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Sunray Oil Corporation (Applicant), on April 25, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, dated April 22, 1955.	Louisiana Nevada Transit Co., in Cotton Valley Field, Webster Parish, La.	Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 55.	May 26, 1955

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until October 26, 1955, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: May 25, 1955.

Issued: May 25, 1955.

[Docket Nos. G-5258, G-8487]

TRANSCONTINENTAL GAS PIPE LINE CORP.

ORDER CONSOLIDATING PROCEEDINGS, FIXING DATE OF HEARING AND SPECIFYING PROCEDURE

By order issued November 26, 1954, at Docket No. G-5258, the Commission suspended until April 1, 1955, First Revised Sheets Nos. 28-P and 28-Q, Second Revised Sheet No. 26-B, Third Revised Sheets Nos. 17-B and 17-F, Fourth Revised Sheet No. 28-I, Fifth Revised Sheets Nos. 9, 19, and 24, Sixth Revised Sheets Nos. 5, 12, and 16 to Transcontinental Gas Pipe Line Corporation's (Transcontinental) FPC Gas Tariff, Original Volume No. 1. The suspended revised sheets proposed an increase in rates of $3,204,335 or 5.4 percent per annum over the rates approved in Docket No. G-2439, which became effective September 1, 1954.

By order issued December 28, 1954, the Commission permitted Second Revised Sheet No. 28-P, Third Revised Sheet No. 26-B, Fourth Revised Sheets Nos. 17-B and 17-F, Fifth Revised Sheet No. 28-I, Sixth Revised Sheets Nos. 9, 19, and 24, and Seventh Revised Sheets Nos. 5, 12, and 16 to Transcontinental's FPC Gas Tariff, Original Volume No. 1, filed on November 26, 1954, to be substituted for the revised sheets (except First Revised Sheet No. 28-Q), suspended by the order issued November 26, 1954, and suspended the substituted revised sheets and First Revised Sheet No. 28-Q until February 1, 1955. The suspended substitute revised sheets propose an annual increase of $796,000, or 1.26 percent in addition to the $3,204,000 suspended by order issued November 26, 1954.

By order issued February 11, 1955, the Commission permitted Second Revised Sheet No. 28-P, Third Revised Sheet No. 26-B, Fourth Revised Sheets Nos. 17-B and 17-F, Fifth Revised Sheet No. 28-I, Sixth Revised Sheets Nos. 9, 19, and 24, and Seventh Revised Sheets Nos. 5, 12, and 16 to become effective as of February 1, 1955, subject to Transcontinental's filing a corporate undertaking to refund any excess charges, with interest at 6 percent per annum, found by the Commission to be not justified.

By order issued February 18, 1955, at Docket No. G-8487, the Commission suspended until April 1, 1955, Third Revised Sheet No. 28-P, Fourth Revised Sheet No. 26-B, Fifth Revised Sheets Nos. 17-B and 17-F, Sixth Revised Sheet No. 28-I, Seventh Revised Sheets Nos. 9, 19, and 24, and Eighth Revised Sheets Nos. 5, 12, and 16 to Transcontinental's FPC Gas Tariff, Original Volume No. 1, filed on January 20, 1955, proposing an increase in rates of $2,176,000, or 3.3 percent per annum, over and above the $4,017,000 increase, which became effective, subject to Transcontinental's undertaking, on February 1, 1955. By order issued April 15, 1955, the Commission permitted these revised sheets to become effective as of April 1, 1955, subject to Transcontinental's undertaking, to assure refund of excess charges with interest at six per cent per annum, found by the Commission to be not justified.

The Commission finds: It is appropriate, reasonable, and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to consolidate the proceedings in Docket Nos. G-5258 and G-8487, and to hold public hearings in the consolidated proceedings, all as hereinafter provided and ordered.

The Commission orders:

(A) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 5, 14, 15, and 16 of the Natural Gas Act and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR Chapter I), a public hearing be held, commencing on June 20, 1955, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the above-entitled proceedings.

(B) At the hearing, Transcontinental shall go forward first and shall present its complete case-in-chief with respect to the issues in these proceedings. Upon completion thereof, other parties to the proceedings, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct.

(C) Following the presentation of Transcontinental's case and cross-examination, as provided in paragraph (B), other parties may present their testimony and evidence with respect to the issues in these proceedings.

(D) In the interest of expedition, Transcontinental shall, not later than 5 days next preceding the date hereinbefore fixed for the commencement of the hearings herein, serve upon all parties to these proceedings copies of the testimony and exhibits they propose to offer at the hearing, including five (5) copies thereof upon Commission Staff Counsel.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: May 25, 1955.

Issued: May 26, 1955.

By the Commission.

Part 17 3875

effect requested the withdrawal of their answer, and expressly waived hearing before the hearing examiner or the Commission, the making of findings of fact or conclusions of law by the hearing examiner or the Commission, the filing of exceptions and oral argument before the Commission, and all further and other proceedings before the hearing examiner or the Commission to which they might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission.

It was also agreed by respondents that the order contained in the stipulation should have the same force and effect as if made after full hearing, presentation of evidence and findings and conclusions thereon, and respondents specifically waived any and all right, power, or privilege to challenge or contest the validity of the order entered in accordance with their stipulation, and agreed that said Stipulation for Consent Order, together with the complaint, should constitute the entire record in the proceeding, upon which the initial decision should be based, and it was further set forth that the complaint in the matter might be used in construing the terms of said order, which might be altered, modified, or set aside in the manner provided by statute for orders of the Commission, and that the signing of the Stipulation for Consent Order was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint.

Thereafter said hearing examiner made his initial decision in which he set forth the aforesaid matters and his conclusion in view of said facts and the further fact that the order embodied in the stipulation was identical with that which accompanied the complaint and was adequate to forbid all the acts and practices charged therein, that such order would safeguard the public interest to the same extent as could be accomplished by a full hearing and all other adjudicative proceedings waived in said stipulation; and accordingly, in consonance with the terms of such stipulation, granted the request for withdrawal of respondents' answer, accepted the Stipulation for Consent Order submitted therein, found that the proceeding was in the public interest, and issued his order to cease and desist and order granting request for withdrawal of respondents' said answer.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated April 19, 1955, became, on that date, pursuant to Rule XXII of the Commission's rules of practice, the decision of the Commission.

Said order to cease and desist is as follows:

It is ordered, That respondent, National Training Service, Inc., a corporation, and its officers, and Michael F. Bell, individually and as an officer of said corporation, and the respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution, in commerce, as "commerce" is defined in the Federal Trade Commission Act, of a course of study and instruction intended for preparing students thereof for examination for civil service positions under the United States Government, or any similar courses of study, do forthwith cease and desist from:

1. Representing, directly or by implication:

(a) Through the use of postal cards or other sales literature, that respondents have any information pertaining to the United States Civil Service which is not available to the general public; or that persons pursuing respondents' methods of preparation for United States Civil Service examinations are assured of employment in said service;

(b) That respondents have any connection with the United States Civil Service Commission or any other agency of the United States Government;

(c) That respondents' sales agents are representatives or employees of the United States Civil Service Commission or any other government agency, or have any connection therewith;

(d) That respondent, National Training Service, Inc., is anything other than a business operated for profit or is sponsored by the United States Government or Civil Service Commission, or that any money paid to it is paid to the United States Civil Service Commission or any other United States government agency;

(e) That it is necessary for persons seeking United States Civil Service positions to take respondents' course of study in order to qualify for or obtain such positions;

(f) That applicants or prospective purchasers of respondents' course of study are especially selected or that the number of applicants is restricted;

(g) That persons having completed respondents' course of study and passed a civil service examination are guaranteed or assured of positions in the United States Civil Service or at locations selected by them;

(h) That unless prospective purchasers decide to purchase respondents' course of study at the time of the sales agents' visit, they will lose the opportunity to enroll in said course or for civil service employment;

(i) That the taking and passing of a United States Civil Service examination assures eligibles of immediate employment in said civil service;

(j) That sales agents or representatives of respondents give personal assistance or instruction at any time after the sale of said course of study to purchasers thereof;

(k) That persons employed in the United States Civil Service are not required to serve in the Armed Forces of the United States.

2. Inviting or soliciting inquiries by means of postal cards or other sales literature in such manner as to imply or suggest that respondents have some connection with the United States Civil Service or some branch or agency of the United States Government;

3. Using credentials resembling official identifications or using or displaying official publications of the United States Government, or other books or publications resembling them in such a manner as to represent or imply that respondents or their agents are connected with the United States Government or any branch thereof;

4. Soliciting, procuring or accepting contracts for respondents' course of study without permitting prospects to read the same over fully and thoroughly.

It is further ordered, That request for withdrawal of respondents' answer to the complaint herein be, and the same hereby is, granted.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents National Training Service, Inc., a corporation, and Michael F. Bell, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 19, 1955.

By the Commission.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Amdt. 35-1]

PART 35—FLIGHT ENGINEER CERTIFICATES

EXPERIENCE REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of May 1955.

The experience requirements of § 35.6 (a) and (b) of Part 35 of the Civil Air Regulations provide that an applicant for a flight engineer certificate may credit certain experience gained in the maintenance and repair of multiengine aircraft of a type used in air carrier operations having engines rated at least at 800 horsepower each. Consequently, an applicant for a flight engineer certificate is precluded by the present regulation from crediting experience gained on aircraft not used in air carrier operations. The Board believes that it should remove the requirement that experience must be gained in a type of aircraft used in air carrier operations and permit an applicant for a flight engineer certificate to qualify if he has gained certain experience on any multiengine aircraft having engines of at least 800 horsepower each. The Board is of the opinion that the level of experience required by Part 35 will in no way be lowered by this amendment. The applicant still will be required to meet all of the other provisions of Part 35 before he will be issued a flight engineer certificate.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due con-

branch thereof; (4) soliciting, procuring, or accepting contracts for respondents' course of study without permitting prospects to read the same over fully and thoroughly; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, National Training Service, Inc., et al., Greenwich, Conn., Docket 6283, April 19, 1955.]

In the Matter of National Training Service, Inc., a Corporation, and Michael F. Bell, Individually and as an Officer of Said Corporation

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondents with the dissemination of confusing, misleading, and deceptive advertisements concerning their course of study and instruction for examinations for certain United States Civil Service positions, and upon a Stipulation for Consent Order disposing of all the issues in the proceeding, submitted to said examiner pursuant to an agreement entered into by respondents with counsel supporting the complaint, whereby respondents admitted all the jurisdictional allegations set forth in the complaint, agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance therewith, in

sideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 35 of the Civil Air Regulations (14 CFR Part 35, as amended) as follows, effective July 1, 1955.

By amending paragraphs (a) and (b) of § 35.6 by deleting in each paragraph the phrase "of a type used in air carrier operations and".

Subchapter C—Procedural Regulations

[Reg. PR-24]

PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

TIME FOR FILING ANSWERS TO PETITIONS FOR INTERVENTION

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of May 1955.

Section 302.15 (c) (3) of the Board's revised rules of practice (Part 302 of the Procedural Regulations) permits separate answers to be made to any petition seeking formal intervention in a proceeding. However, this rule further provides that separate answers may not be made when such a petition is filed after the close or the taking of evidence so that opposing parties can only state their views thereon, to the Board, in brief or oral argument.

The attention of the Board has been called to the fact that a party to a proceeding would be deprived of the opportunity to oppose a petition for intervention filed after the close of the taking of evidence, where the Board rules on such a petition prior to oral argument or the filing of briefs. Upon further consideration of this rule the Board has concluded that it should not deprive parties seeking to oppose the granting of a petition for intervention of the opportunity to express their views thereon prior to the submission of briefs or argument. The availability of such an opportunity will not interfere with the exercise, in appropriate cases, of the Board's prerogative to defer rulings concerning the disposition of petitions for intervention until after argument has been held. Accordingly, the Board has determined to amend Rule 15 (c) (3) so as to permit the filing of separate answers to all petitions to intervene without regard to the time when such petitions are filed.

Since this amendment is not a substantive rule but one of agency procedure, notice and public procedure hereon are unnecessary, and the amendment may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 302 of the Procedural Regulations (14 CFR Part 302) as follows, effective May 27, 1955:

By amending § 302.15 (c) (3) to read as follows:

(3) *Answer.* Any party to a proceeding may file an answer to a petition to intervene, making specific reference to the factors set forth in paragraph (b) of this section, within seven (7) days after the petition is filed.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 1001, 52 Stat. 1017; 49 U. S. C. 641)

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter N—Irrigation Projects; Construction Costs

PART 149—REIMBURSEMENT OF CONSTRUCTION COSTS, FORT HALL UNIT, FORT HALL INDIAN IRRIGATION PROJECT, IDAHO

Sec.
149.1 Repayment contracts.
149.2 Construction costs.
149.3 Repayment of construction costs.

AUTHORITY: §§ 149.1 to 149.3 issued under sec. 9 46 Stat. 1061.

§ 149.1 *Repayment contracts.* A rehabilitation program was established on the Fort Hall Unit of the Fort Hall Project in 1936. Based upon the estimated construction costs, contracts were signed by all non-Indian landowners within the project, including such landowners within the Little Indian Unit, now a part of the Fort Hall Unit. Under the terms of their contracts, the landowners agreed to repay to the Government their pro rata share, on an acreage basis, of all expenditures for construction and other necessary improvements for carrying out the approved program, payments not to exceed $7.50 per acre, based upon an estimated expenditure of $450,000.00 for a project then considered as covering approximately 60,000 acres.

§ 149.2 *Construction costs.* The program of rehabilitation has now been completed at a cost of $419,186.52. This amount, chargeable on an equal per acre basis against 60,000 acres, amounts to a rate of $6,986 per acre, which rate is hereby determined to be the per acre cost to be repaid to the United States under the 1936 contracts.

§ 149.3 *Repayment of construction costs.* Under the terms of the contracts, the landowners agreed to repay the construction cost in forty (40) equal annual installments. Therefore, the annual per acre installment is hereby fixed at seventeen and one-half cents (17½¢) per acre, due and payable on December 1st of each year, the first payment being due on December 1, 1955. Under section 4 of the repayment contracts of the landowners and the act of March 10, 1928 (45 Stat. 210), the charges remain a lien against the lands until paid.

PART 5—CENTRAL COMMITTEE ON WAIVERS AND FORFEITURES AND FIELD COMMITTEES ON WAIVERS

MISCELLANEOUS AMENDMENTS

1. In § 5.10, paragraph (b) (2) is amended to read as follows:

§ 5.10 *Central Committee on Waivers and Forfeitures.* • • •

(b) • • •

(2) All overpayments arising in field offices wherein the amount involved is in excess of $800. (See § 5.0 (b) and (c), however.)

• • • • • •

2. In § 5.11, paragraph (a) is amended to read as follows:

§ 5.11 *Committees on Waivers in field offices.* (a) In each district office and regional office there is established a field Committee on Waivers, consisting of three members designated from among the employees of that field office, whose service on the committee is in addition to their regular duties. In the Veterans Benefits Office, District of Columbia, there are established two field Committees on Waivers, of three members each, whose service on the committee is in addition to their regular duties as employees of the Veterans Benefits Office. No authorized certifying officer of the finance activity shall serve as a member of any of these committees. The Manager of the field office shall designate the members of the committee. In regional offices, the committee shall function directly under, and be administratively responsible to, the adjudication officer. In district offices, the committee shall function directly under, and be administratively responsible to, the director, claims service. In the Veterans Benefits Office, District of Columbia, the two committees shall function directly under, and be administratively responsible to, the chief, veterans claims division, and the chief, dependents claims division, respectively. If the Manager of the field office considers that a larger committee is necessary because of unusual conditions, he may appoint additional members for the period during which such conditions prevail, but the membership of the committee shall not exceed seven. Questions of the jurisdiction of the committee and the assignment of cases to its members shall be determined by the Chairman. The Manager of the field office shall report to the Chairman, Central Committee on Waivers and Forfeitures, the name of each person designated as a member of the Committee on Waivers and the name of each person appointed as Chairman or Alternate Chairman.

• • • • • •

3. Section 5.12 is revised to read as follows:

§ 5.12 *Jurisdiction of committees in field offices.* (a) Where the amount involved is not more than $800 and the case is properly before the committee under applicable Veterans Administration Regulations and administrative issues, the field Committee on Waivers has authority to render a decision on an overpayment or other indebtedness. Such decision is final, subject however, to the right of the committee to reverse or modify its own decisions upon the receipt of new and material evidence or upon a showing of clear and unmistakable error; and subject further to the administrative review jurisdiction of the Central Committee of Waivers and Forfeitures when a request for administrative review is duly filed and except as to determinations under paragraph (c) of this section to an appeal to the Board of Veterans Appeals by a veteran or his dependent, or so claiming, pursuant to established appeal procedure. No Committee on Waivers is authorized to reverse or modify a decision rendered by a Committee on Waivers of another field office or by the Central Committee on Waivers and Forfeitures.

(b) Except as to the cases referred to in paragraph (c) of this section, where the amount of the overpayment or other indebtedness is more than $800, it shall be referred by the Committee on Waivers to the Central Committee on Waivers and Forfeitures, without rendering a decision, but such Committee on Waivers shall furnish a brief setting forth a complete statement of facts and its recommendations as to the decision, with reasons supporting the recommendations.

(c) Determinations as to the liability of educational institutions or training establishments under section 7, Public Law 610, 81st Congress, or section 266, Public Law 550, 82d Congress, shall be made by field Committees on Waivers where the question has been properly submitted regardless of whether the amount of the overpayment is more than $800, but where the amount is more than $2,500 there must be an administrative review as prescribed by §§ 21.113 and 21.2304 of this chapter.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, 38 U. S. C. 11a, 426, 707. Interpret or apply secs. 28, 504, 43 Stat. 615, 629, as amended, sec. 4, 46 Stat. 529, as amended, secs. 11, 15, 48 Stat. 10, 11, sec. 9, 50 Stat. 662, sec. 1, 53 Stat. 1252, secs. 1, 609, 54 Stat. 1193, 1013, secs. 1, 4, 57 Stat. 554, 555, sec. 1500, 58 Stat. 300, sec. 1, 60 Stat. 908, sec. 9, 65 Stat. 35, Vet. TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1155]

NEW MEXICO

RESERVING LANDS WITHIN CIBOLA NATIONAL FOREST FOR USE OF FOREST SERVICE

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F. R. 4831), it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the Cibola National Forest in New Mexico are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws but not the mineral-leasing laws, and reserved for use of the Forest Service, Department of Agriculture, as recreation areas:

NEW MEXICO PRINCIPAL MERIDIAN

JUAN TABO RECREATION AREA

T. 11 N., R. 4 E.,
Sec. 2, lots 1, 2, 5, 6.
T. 12 N., R. 4 E.,
Sec. 35, S½SW¼SE¼, S½NE¼SW¼SE¼, S½N½NE¼SW¼SE¼, SW¼SE¼SE¼, S½NW¼SE¼SE¼, S½N½NW¼SE¼SE¼, N½SE¼SE¼SE¼, S½NE¼SE¼SE¼:
Sec. 36, S½NW¼SW¼SW¼, SW¼NE¼SW¼SW¼.

The areas described aggregate 202.25 acres.

LA CUEVA RECREATION AREA

T. 11 N., R. 4 E.,
Sec. 2, N½SW¼SW¼, N½SE¼SW¼, SE¼SE¼SW¼, E½SW¼SE¼SW¼, E½W½SW¼SE¼SW¼, SW¼SE¼, W½SE¼SE¼, NE¼SE¼SE¼, W½SE¼SE¼SE¼;
Sec. 11, lot 11, E½W½NE¼NE¼, W½E½NE¼NE¼.

The areas described aggregate 159.32 acres.

SPRINGTIME RECREATION AREA

T. 8 S., R. 6 W.,

[Public Land Order 1156]

WASHINGTON

REVOKING EXECUTIVE ORDER NO. 1713 OF FEBRUARY 24, 1913

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 1713 of February 24, 1913, reserving certain unsurveyed islands in Washington for public purposes, which was revoked in part by Executive Order No. 5151 of August 30, 1929, is hereby revoked so far as it affects the remaining island withdrawn thereby, known as Victim Island in the E½, sec. 17, T. 36 N., R. 2 W., Willamette Meridian, containing approximately 6 acres.

The island is located in the San Juan Island group. The terrain is rocky and vegetation consists of a defective stand of second-growth Douglas Fir and Hemlock, with an understory of brush. There are no indications of water on the island and the soil is such as to preclude its use for agricultural purposes.

No application for the released land may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The land will not be subject to occupancy or disposition until it has been classified.

This order shall not otherwise become effective to change the status of the released land until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Veterans' preference-right applications under the said act of September 27, 1944, may be received on or before 10:00 a. m. on the 35th day after the date of this order, and those covering the same lands shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, including the mineral-leasing laws, received on or before 10:00 a. m. on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same land; otherwise, priority of filing shall govern.

Inquiries concerning the island shall be addressed to the Manager, Land Office, Bureau of Land Management, Spokane, Washington.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

[9 CFR Part 76]

VESICULAR EXANTHEMA

INTERSTATE MOVEMENT OF SWINE

Notice is hereby given in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that, pursuant to the provisions of sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111-113, 120), it is proposed to amend § 76.30 of the regulations restricting the interstate movement of swine and certain swine products because of vesicular exanthema, a contagious, infectious, and communicable disease (9 CFR, 1954 Supp., 76.30) in the following respects:

1. Subparagraph (2) of paragraph (c) of § 76.30 would be amended to read:

(2) Prior to January 1, 1956, swine which have been fed raw garbage but which, for a period of 30 consecutive days just prior to the interstate movement, have been fed cooked garbage or other feeds to the exclusion of any raw garbage, which have been kept on a premise on which no raw garbage has been fed to swine during such 30-day period, and which have not come in contact with swine fed any raw garbage during such 30-day period, may be moved interstate under this subpart from a non-quarantined area, if accompanied by a certificate signed by an inspector of the Branch, an inspector employed by the State of origin of the swine, or other inspector who may be approved by the Chief of Branch for this purpose, stating that, as far as he has been able to determine, such swine have been fed cooked garbage or other feeds to the exclusion of any raw garbage for a period of 30 consecutive days just prior to the interstate movement and that a visual inspection of all swine on the premises of origin just prior to movement therefrom disclosed no indication of vesicular exanthema. The provisions of subparagraph (1) of this paragraph shall not be applicable to such movements.

2. Subparagraph (2) of paragraph (d) of § 76.30 would be amended to read:

(2) Prior to January 1, 1956, swine products derived from swine which had been fed raw garbage but which, for a period of 30 consecutive days just prior to slaughter, had been fed cooked garbage or other feeds to the exclusion of any raw garbage, which had been kept on a premise on which no raw garbage had been fed to swine during such 30-day period, and which had not come in contact with swine fed any raw garbage during such 30-day period, may be moved interstate under this subpart from a non-quarantined area. The provisions of subparagraph (1) of this paragraph shall not be applicable to such movements.

The proposed amendment would extend to January 1, 1956, the provisions contained in § 76.30 (c) (2) and (d) (2) of the regulations, which constitute exceptions to the provisions of § 76.30 (c) (1) and (d) (1) pertaining to the interstate movement from non-quarantined areas of swine fed raw garbage, and carcasses, parts and offal derived from such swine. Under the latter provisions swine fed any raw garbage may not be moved interstate except to an approved establishment for immediate slaughter and special processing, and carcasses, parts and offal derived from such swine, may not be moved interstate except to an approved establishment for special processing.

The provisions of § 76.30 (c) (2) and (d) (2) were included in the regulations to be effective until January 1, 1954, and were extended to July 1, 1955 (B. A. I. Order 383 (Revised) and amendments 15 and 32), because of the limited availability of satisfactory garbage-cooking equipment. This situation has been steadily improving. It is believed that after the termination of the proposed extension to January 1, 1956, there will be no necessity for any further extension of such provisions. Thereafter, swine fed any raw garbage, and carcasses, parts and offal derived from such swine, may be moved interstate from non-quarantined areas only for immediate slaughter and special processing, or special processing, in accordance with the provisions of § 76.30 (c) (1) and (d) (1) of the regulations.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them with the Chief, Animal Disease Eradication Branch, Agricultural Research Service, United States Department of Agriculture, Washington, D. C., within 15 days after publication hereof in the FEDERAL REGISTER.

Done at Washington, D. C., this 31st day of May 1955.

Acting Administrator, Agricultural Research Service.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 25]

[Docket No. 10090; FCC 55-621]

PATENTS

FILING OF INFORMATION

In the matter of promulgation of rule governing the preparation and filing of patent reports annually; Docket No. 10090.

1. On December 8, 1954, the Commission released a proposed report and order tentatively adopting a modified rule (§ 25.1), for governing the preparation and filing of patent information annually.[1] The Report considered the objections made to the rule initially noticed; it explained that the initial rule had been modified to require that only the patents which the party reporting "knew or believed to be in use" need be reported. This modification was made to meet the general objection that the rule imposed too great a work load, particularly on large patent holding companies, in that it required extensive studies of all patents they owned or had the right to sublicense, and the equipment to which the patents related, to determine all the patents which were in use and thus be fully responsive to the rule.

2. The December 8, 1954, Report made provision for oral argument before the Commission on February 1, 1955, for parties who had previously filed comments; it required that those who wished to take part in the oral argument must file Notice of Appearance. Out of the 83 "persons" who had previously filed comments but 5 took part in the oral argument, namely, the American Telephone and Telegraph Company, Aircraft Industries Association, Collins Radio Company, Allen B. DuMont Laboratories, Inc., and Sylvania Electric Products, Inc.

3. Each party who took part in the February 1, 1955, oral argument opposed the rule tentatively proposed by the Commission's December 8, 1954, Report. In the main, the objections to the rule again centered about the volume of work required in the preparation and filing of reports fully responsive to the rule. A. T. & T. pointed out that it owns 8,800 patents and holds the right to sublicense 20,000 patents which it does not own; that under the rule proposed the Bell Companies must examine all the patents they own or hold the right to sublicense which are "known or believed" to be in use for communication services, in order to ascertain the "specific purpose or purposes" for which each such patent is being used; that this was due to the fact that the Bell Companies do not maintain records showing the use of either the patents they own, or the patents under which they hold the right to sublicense; and finally, that under the rule as it stood, many minor patents not connected with the transmission or reception of messages or programs must be studied and reported. In summary, A. T. & T. argued that the rule as proposed was (1) unduly burdensome and expensive; and (2) that a great deal of material called for by the rule was unnecessary and would not serve a useful purpose commensurate with the effort and expense involved. Each of the other parties who took part in the oral argument subscribed to these overall objections to the proposed rule.

5. On the other hand, during the February 1, 1955, oral argument some of the parties expressed the opinion that the Commission in order to carry out its public interest responsibilities under the Communications Act of 1934, as amended, should have sufficient patent information at hand to permit continuous study of the practices of communication carriers or radio licensees with respect to the patents they own, or patents they do not own, but hold the right to sublicense any "person" thereunder. It was also accepted that knowledge of the patents being used, and hence, the licensing information respecting said patents called for by the proposed rule, could not be obtained by the Commission from the United States Patent Office records. In addition, there was opinion that the Commission's proposed rule should be modified so that it would not require reports from "persons" who own or hold the right to sublicense but a few communication patents.

6. After careful consideration of the arguments made and facts advanced respecting the work load imposed on patent holders required to file reports under the rule, we have modified said rule to further reduce, to quite a large extent, the information required both as to patents in use and as to licensees. The modified rule is set forth below. The greatest inroads for reducing the work load are made by modifying the rule to negative the need to report patents not directly connected with the transmission or reception of messages or programs, and to remove the requirement that the party reporting must report licensee use of the patents he owns or can sublicense. We believe that the rule as now modified calls for the minimum data and records necessary for Commission purposes, and that the work load required for the preparation of reports under said rule is not burdensome or overexpensive even to the larger patent holders. In addition, the rule now removes the necessity of filing reports by "persons" who own or control a small number of communication patents.

7. In order that the rule as modified may be clearly understood, we will explain in this report the changes made for accomplishing the purposes above. Referring to part (a) of the revised rule, the purpose of excluding the filing of patent reports by "persons" who own or control a small number of communication patents, is accomplished by requiring only "persons" who own or hold the right to sublicense "one or more groups" of electrical communication patents, a group of patents meaning 10 or more patents, "each having one or more claims directed to the same or similar signal transmitting or receiving operations." Signal transmissions as here used is synonymous with message or program transmissions.

8. The reduction in the number of patents as to which any "person" within the rule must report is accomplished by changes made in (a) (1) of the rule. This part of the rule as now modified requires that the "person" reporting need only list unexpired patents with claims directed to "electrical operations" which he knows or believes are being used in the transmission or reception of message or program services he furnishes, or in equipment he manufactures and sells for services regulated or authorized by the Commission. In contrast, the rule tentatively adopted by the Commission's December 8, 1954, Report required that the "person" reporting list all of the unexpired patents which he owns or has the right to sublicense, and which he knows or believes are being used by anyone in one or more communication services regulated or authorized by the Commission. Under the substitute language the party reporting need not list patents which do not have claims directed to "electrical operations;" and he need not report as to the patents he believes his licensees, or "persons" other than himself, are using.

9. Still referring to part (a) (1) of the rule as modified by this report and order, under the language "knows or believes" the Commission will permit the party reporting to rely on the knowledge of his patent attorneys or engineers respecting the patents he owns or has the right to sublicense which are being used by him in services he furnishes, or in the equipment he manufactures and sells for services regulated or authorized by the Commission. More specifically, if the records of the party reporting do not show which of the patents he owns or holds the right to sublicense he is using for the services he renders, or for equipment he manufactures and sells for services, he may either examine equipment for determining the patents in use, or he may rely on the knowledge of his engineers or patent attorneys for determining such use. Moreover, any one or more of these procedures may be used in the preparation of a report. Also, in order to further reduce the number of patents that must be reported under the rule the term "right to sublicense" is defined as covering only patents "which the 'person' reporting does not own but holds the right to license 'any person' to manufacture, sell and/or use thereunder." "Any person" means all "persons," and is intended to eliminate the need to report patents which the "person" reporting does not own, and holds only the right to sublicense its subsidiary or affiliated companies.

10. Another change in part (a) (1) of the rule for decreasing the work load is that instead of requiring the "specific purpose or purposes" for which each patent reported is known or believed to be in use, the rule now requires that reports state only the "principal purpose" for which each patent is being used. Also, part (a) (1) as now modified removes the requirement that the filing date and the United States Patent Office classification and subclassification numbers be given as to each patent reported.

11. Referring to part (a) (2) of the rule as modified by this Report, which deals with the information to be furnished concerning the licensees of the party reporting, it will be seen that only the transmitting or receiving equipment licensed and the patents listed under (a) (1) of the rule which are applicable to said equipment in each case need be reported as to each licensee. As heretofore shown, under part (a) (1) the number of patents reported have been greatly reduced. Thus the work under part (a) (2) would likewise be reduced, because (a) (2) is limited to the patents reported under (a) (1). Also in part (a) (2) the requirement that the "specific purpose or purposes" for which each patent reported is known or believed to be used by the licensee has been removed. This relieves the patent holder of the necessity of ascertaining the uses being made of the patents he owns or has the right to sublicense by his respective licensees.

12. Parts (a) (3) and (a) (4) of the rule call for copies of all agreements made relating to communications equipment under the patents reported in (a) (1), and the licensing policy of the party reporting, respectively. No objection was raised during the February 1, 1955, oral argument before the Commission respecting parts (a) (3) and (a) (4) of the rule; they remain unchanged. Objections to the proposed rule other than those concerning the work load imposed by said rule made during the oral argument on February 1, 1955, were dealt with in the Commission's Report of December 8, 1954, or are removed by the foregoing revisions to the rule.

13. Since the modifications to the rule made by this Report were largely for meeting the objections filed by the "persons" who have previously commented, it is believed that before final adoption, public interest would be served by permitting such "persons" to file their comments to the rule as now modified: *Accordingly, it is ordered,* That all such "persons" may submit comments on or before June 30, 1955. At the same time those favoring the modified rule may file comments in support thereof.

14. The proposed rule is issued under the authority of sections (4) (i), 218, 303 (e), 303 (g), 311, 313, and 602 (d) of the Communications Act of 1934, as amended. Replies to any comments filed may be made within 10 days from the last day for filing original comments. The Commission will consider all such comments and briefs that are presented before taking final action in the matter.

15. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: May 26, 1955.

Released: May 31, 1955.

[3] Commissioners Hyde and Doerfer dissenting. Statement of Commissioner Hyde filed as part of original document.

§ 25.1 *Filing of patent information.* (a) Any carrier subject to the provisions of Title II of the Communications Act, or any radio station licensee, or any "person" who controls, or is controlled by any such carrier or station licensee, who owns one or more groups of electrical communication unexpired U. S. patents,[1] or who has the right to sublicense one or more groups of such patents, shall prepare and file in duplicate with the Commission on or before the 31st day of August of each year, a report verified under oath (or affirmed according to law), and covering with respect to the preceding calendar year, the following:

(1) A table listing in numerical order the numbers of the unexpired U. S. patents, the "person" reporting owns or has the right to sublicense,[2] with claims directed to electrical operations which he knows or believes are being used in the transmission or reception of one or more message or program services regulated or authorized by the Commission which he furnishes, or uses in transmitting or receiving equipment manufactured and sold by him for such services; and showing as to each such patent, the rights of the "person" reporting, i. e., ownership or sublicense rights, the expiration date thereof, and the principal purpose for which he knows or believes said patent is being used by him in the transmission or reception of messages or programs in the service or services he furnishes, or in the equipment he manufactures and sells for services regulated or authorized by the Commission.

(2) A table listing the names and addresses of all "persons" who hold licenses from the "person" reporting, for the manufacture, sale and/or use of systems or equipment, in any communication service or services regulated or authorized by the Commission, under one or more of the patents listed in subparagraph (1) of this paragraph, and showing as to each such licensee; the transmitting or receiving equipment licensed, the patents listed in subparagraph (1) of this paragraph which are applicable to said equipment in each case, whether said patents are licensed on an exclusive or non-exclusive basis, whether licensed for the manufacture, sale and/or use, and the termination dates of the licenses.

(3) All agreements which the "person" filing report has with "persons" located in the U. S. or in foreign countries involving the manufacture, sale and/or use of one or more of the patents listed in subparagraph (1) of this paragraph, and covering or relating to a communication service or services regulated or authorized by the Commission. Where a standard form of license-agreement is in use, only sample copies need be filed.[3]

(4) A statement setting forth the patent licensing policy of the "person" reporting respecting the patents listed under subparagraph (1) of this paragraph.

[F. R. Doc. 55-4445; Filed, June 2, 1955; 8:51 a. m.]

[1] A group of patents in this section means 10 or more unexpired U. S. patents each having one or more claims directed to the same or similar signal transmitting or receiving operations.

[2] "Right to sublicense" in this rule covers patents which the "person" reporting does not own but holds the right to license any "person" to manufacture, sell and/or use thereunder. "Any person" means all "persons", and is intended to eliminate the need to report patents which the "person" reporting does not own, and holds only the right to sublicense its subsidiary or affiliated companies.

[3] Copies of agreements previously filed with the Commission by any "person" coming within the provisions of this section, may by reference, be made a part of any report being filed.

[Ex Parte No. 174]

LOCOMOTIVES OTHER THAN STEAM

PROPOSED RULES AND INSTRUCTIONS FOR INSPECTION AND TESTING

MAY 26, 1955.

The Interstate Commerce Commission has before it for consideration its notice of proposed rule making in Ex Parte No. 174, dated April 20, 1955, published in the FEDERAL REGISTER on May 4, 1955 (20 F. R. 2993), proposing amendments of the rules and instructions for inspection and testing of locomotives other than steam prescribed by the Commission's order of December 14, 1925, as amended. In Appendix A to the notice, special rules of practice were made applicable in this proceeding providing for the submission of certain pleadings on or before specified dates.

Upon good cause shown, the dates specified therein are hereby extended, and Appendix A to the said order of proposed rule making, dated April 20, 1955, is amended to read as follows:

APPENDIX A—SPECIAL RULES OF PRACTICE APPLICABLE IN DOCKET EX PARTE NO. 174

In addition to the general rules of practice, the following special rules will govern this proceeding.

1. *Submission of evidence in written form with affidavit attached.* The Commission desires that all evidence be submitted in written form with affidavits attached. Exhibits may be attached to the written statements, and such exhibits should conform to the general rules of practice, particularly to Rules 81 to 84, inclusive. All evidence of each witness that is submitted in exhibit form should, so far as practicable, be incorporated in a single exhibit. The written evidence, with or without exhibits attached, will be referred to as verified statements, and each verified statement will be assigned a serial number by the Commission.

2. *Evidence in chief.* Evidence-in-chief of all parties should be submitted in the form of verified statements as provided in paragraph 1. Such verified statements, with accompanying exhibit or exhibits, should be made available to the Commission by filing 25 copies thereof with the Secretary of the Commission on or before November 1, 1955. Copies of such verified statements of the railroads should be made available to the parties by mailing a copy to any person who duly makes a request therefor to W. M. Keller, Association of American Railroads, 59 East Van Buren Street, Chicago 5, Ill., on or

before November 1, 1955. Parties other than the railroads will be expected to furnish the railroads with twenty-five (25) copies of all verified statements, such copies to be sent to W. M. Keller at the address above specified, and to also furnish a copy thereof to any other party who may make a request therefor to the Secretary of the Commission on or before October 17, 1955. A list of the parties upon whom copies of verified statements should be served will be furnished the parties by the Secretary.

3. *Objections to evidence.* Notice of objections to receipt in evidence of any verified statement or any part thereof should be filed with the Secretary of the Commission on or before December 1, 1955. If the evidence is submitted on behalf of the railroads, a copy of the notice should be immediately mailed to W. M. Keller; if the evidence is submitted on behalf of any other party, a copy of the notice should be immediately mailed to the witness or his attorney.

4. *Rebuttal evidence.* Evidence on rebuttal by any party must be designated as such, and filed with the Secretary of the Commission on or before January 3, 1956, even if the original evidence is objected to as provided in paragraph 3 hereof. Its presentation and distribution will be governed by the rules set forth in paragraphs 1 and 2 hereof.

5. *Cross-examination of witnesses.* If cross-examination of a witness is desired by any party written request therefor must be given to the Secretary of the Commission and to the witness, or his authorized attorney on or before February 18, 1956. The Commission will fix the time and place for cross examination.

6. *Record.* The evidence presented and admitted pursuant to the provisions of the foregoing paragraphs of these special rules shall constitute the entire record in these proceedings upon which decision will be made.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection, by filing a copy of the notice with the Director, Division of the Federal Register, and by serving copies on each common carrier by railroad subject to the Interstate Commerce Act, and on each national organization of railroad employees.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 240, 249]

APPLICATION FOR REGISTRATION OF SECURITIES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Commission has under consideration a proposed revision of Form 10, Form 8–B and Form 8–C (17 CFR 249.210, 249.208b, 249.208c) together with § 240.12b–2 (Rule X–12B–2). The Commission is also considering the revision of Form S–1 (17 CFR 239.11) under the Securities Act of 1933. The latter proposal is the subject of Securities Act Release No. 3540 dated April 27, 1955.

These proposals are part of the Commission's continuing review of the rules, regulations, forms and procedures adopted under the various statutes administered by it.

Form 10 is the principal form for the registration of securities under the Securities Exchange Act of 1934. The principal purpose of the proposed revision of this form is to conform its requirements to the extent practicable with the corresponding requirements of Schedule 14A of the Commission's proxy rules, with the annual report Form 10–K (17 CFR 249.310) under the Securities Exchange Act of 1934, and with the proposed revised Form S–1. It is thus planned to bring the basic and most commonly used registration and reporting forms under the Securities Act of 1933 and the Securities Exchange Act of 1934 into conformity on parallel items so that registrants may report such information as is essentially similar in the same manner and subject to the same requirements under both statutes. If the proposed Form 10 is adopted, the Commission proposes to rescind Form 12 and Form 12A (17 CFR 249.212 and 249.212a), since the instructions to Form 10 would make that form available for registrants who formerly used these two forms.

The proposed revisions of Forms 8–B and 8–C are designed to simplify and clarify these forms and to conform them to the format and arrangement of Forms 8–A and 10–K and the proposed Form 10. Form 8–B is used for the registration on a national securities exchange of securities of an issuer which has succeeded to one or more predecessors, at least one of whom had securities registered on the same exchange, where the balance sheet and capital structure of the successor are substantially the same as those of a single predecessor or all predecessors on a combined basis. Form 8–C is used for registration of securities on an additional national securities exchange on which none of the issuer's securities are registered, if such securities are already registered on another such exchange.

The proposed amendment to § 240.12b–2 would change the definition of "Associate" contained in such section so that it will be identical with the definition of the same term in the proxy rules (§ 240.14a–1).

The proposed action would be taken pursuant to the Securities Exchange Act of 1934, particularly sections 12 (b) and 23 (a) thereof.

1. The definition of the term "Associate" in § 240.12b–2 would be amended to read as follows:

§ 240.12b–2 *Definitions.* * * *

(c) *Associate.* The term "associate" used to indicate a relationship with any person, means (1) any corporation or organization (other than the registrant or a majority-owned subsidiary of the registrant) of which such person is an officer or partner or is, directly or indirectly, the beneficial owner of 10 percent or more of any class of equity securities, (2) any trust or other estate in which such person has a substantial beneficial interest or as to which such person serves as trustee or in a similar fiduciary capacity, and (3) any relative or spouse of such person, or any relative of such spouse, who has the same home as such person or who is a director or officer of the registrant or any of its parents or subsidiaries.

2. Copies of the proposed revised Form 10, Form 8–B and Form 8–C are filed as part of the original document.

All interested persons are invited to submit their views and comments on the above mentioned proposals in writing to the Securities and Exchange Commission, Washington 25, D. C., on or before June 30, 1955. Unless any person submitting any such comments or suggestions requests in writing that they be held confidential, they will be available for public inspection.

By the Commission.

Bureau of the Public Debt

ASSISTANT COMMISSIONER ET AL.

ORDER OF SUCCESSION TO ACT AS COMMISSIONER

Order of succession of officials to act as Commissioner of the Public Debt, and provisions for the continuous performance of functions of the Bureau of the Public Debt in the event of an enemy attack on the continental United States.

1. It is hereby ordered that the following officers of the Bureau of the Public Debt, in the order of succession enumerated, shall act as Commissioner in the event of the absence or disability of the Commissioner or a vacancy in the office:

1. Assistant Commissioner.
2. Deputy Commissioner, Washington.
3. Deputy Commissioner, Chicago.
4. Assistant Deputy Commissioner, Chicago.
5. Chief, Division of Loans and Currency, Washington.
6. Chief, Division of Public Debt Accounts and Audit, Washington.
7. Manager, New York Regional Office of the Register of the Treasury.
8. Chief Counsel of the Bureau.
9. General Assistant to the Commissioner.
10. Technical Assistant to the Commissioner.
11. Manager, Chicago Regional Office of the Register of the Treasury.
12. Manager, Cincinnati Regional Office of the Register of the Treasury.

2. If, in the event of an enemy attack on the continental United States, neither the Commissioner nor any officer authorized to act in his stead (paragraph 1) is present at the site of the Bureau's operations, the officer acting as District Director, Internal Revenue Service at such site shall act as Commissioner of the Public Debt so long as necessary hereunder. For this purpose and in such event the functions of the Commissioner of the Public Debt shall be deemed to have been transferred to such officer acting as District Director.

3. In the event of an enemy attack on the continental United States, and without regard to the matter of succession, the Deputy Commissioners and the Managers of the Regional Offices of the Register of the Treasury are hereby authorized to perform any functions of the Secretary of the Treasury or Commissioner of the Public Debt (whether or not otherwise delegated), (a) if it is essential to the carrying out of responsibilities otherwise assigned to them, and (b) if, and so long as, they are unable to ascertain (in a manner consistent with the efficient performance of such responsibilities) whether the Commissioner or any official acting in his stead is available to discharge the Commissioner's duties with respect to the performance of those functions.

4. The foregoing order of succession and provisions for the continuous performance of functions are made under the authority of Treasury Department Order No. 129, Revision No. 2, dated April 22, 1955. F. R. Doc. 55-3479; F. R. April 28, 1955.

Office of the Secretary

[Treasury Dept. Order 19, Rev. 1]

SALE OF GOVERNMENT PROPERTY TO TREASURY EMPLOYEES

1. No employee of the Treasury Department or of any corporation under the supervision of the Secretary of the Treasury shall, either directly or indirectly, bid or purchase at any sale of Government property under the direction or incident to the functions of the bureau, office or corporation in which he is employed.

2. Government property under the control of the Treasury Department or any corporation under the supervision of the Secretary of the Treasury shall not be sold to a Government employee, either directly or indirectly, unless a properly authorized representative of the bureau, office or corporation disposing of the property has determined that it is in the best interests of the Government.

3. Before purchasing any Government property from any agency of the Government, either directly or indirectly, an employee of the Treasury Department or of any corporation under the supervision of the Secretary of the Treasury shall make known to the disposing agency that he is such an employee and shall be governed by the disposing agency's rules relating to sales to Government employees.

4. The heads of bureaus, offices and corporations shall prescribe such procedures, and shall take such disciplinary action, as are necessary for enforcing this order.

The areas described aggregate 13,571.62 acres of public lands and 24,537.93 acres of patented lands.

The lands are located in Otero and Chaves Counties, New Mexico, along the Penasco River. The Penasco River does not flow all year, and does not carry a sufficient volume of water at any time to operate power generating machinery. The power possibilities, therefore, are small and of local interest only. Part of the lands are within the Lincoln National Forest. The restored lands are in New Mexico Grazing District No. 6 and are valuable for grazing.

The restored lands shall be subject to application by the State of New Mexico for a period of 90-days from the date of publication of this order in the FEDERAL REGISTER for rights-of-way for public highways or as a source of materials for the construction and maintenance of such highways, as provided by Section 24 of the Federal Power Act, as amended.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the restored lands until 10:00 a. m. on the 91st day after the date of publication of this order. At that time the said lands shall become subject to application, petition and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Veterans' preference-right applications under the said act of September 27, 1944, may be received on or before 10:00 a. m. on the 91st day after the date of publication of this order, and those covering the same lands shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the suceeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, including the mineral-leasing laws, received on or before 10:00 a. m. on the 182d day after the date of publication of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Santa Fe, New Mexico.

W. G. GUERNSEY,
Associate Director.

FEDERAL POWER COMMISSION

[Docket Nos. E–6625, E–6626]

CAROLINA ALUMINUM CO. ET AL.

NOTICE OF APPLICATIONS

MAY 26, 1955.

In the matters of Carolina Aluminum Company and Tapoco, Inc., Docket No. E–6625; Nantahala Power and Light Company and Tapoco, Inc., Docket No. E–6626.

Take notice that on May 23, 1955, two joint applications were filed, one in Docket No. E–6625 by Carolina Aluminum Company ("Carolina") and Tapoco, Inc. ("Tapoco"), seeking an order authorizing the acquisition by Carolina of the capital stock of Tapoco and the transfer by Carolina to Tapoco of certain facilities, more fully described below, and the subsequent transfer by Carolina of the capital stock of Tapoco to Aluminum Company of America ("Alcoa"); and the other in Docket No. E–6626 by Nantahala Power and Light Company ("Nantahala") and Tapoco, Inc., seeking an order authorizing the sale and transfer by Nantahala to Tapoco of certain facilities, more fully described below.

Nantahala is a corporation organized under the laws of the State of North Carolina and doing business in said State with its principal business office at Franklin, North Carolina. Carolina is a corporation organized under the laws of the State of North Carolina and doing business in said State with its principal business office at Badin, North Carolina. Carolina is also domesticated in the State of Texas. Tapoco is a corporation organized under the laws of the State of Tennessee and doing business in said State with its principal business office at Alcoa, Tennessee. Tapoco is also domesticated in the State of North Carolina.

Carolina proposes to transfer to Tapoco two hydroelectric developments situated on the Little Tennessee and Cheoah Rivers in the Counties of Graham and Swain, North Carolina, known as the Cheoah and Santeetlah Developments, which are known and referred to as Carolina's "Western Division". The Western Division properties are a part of the project properties under license issued by the Commission in Project No. 2169. Nantahala proposes to transfer to Tapoco certain transmission facilities from the Cheoah and Santeetlah Developments which connect with the facilities of Tapoco. Said transmission facilities consist of (1) two short 161-kv lines from Cheoah substation to the Santeetlah-Alcoa 161-kv lines (2) two 161-kv Santeetlah-Alcoa lines located in the State of North Carolina and (3) substations at the existing Cheoah and Santeetlah Developments. Said transmission facilities are included as a part of the project properties under the License issued by the Commission in Project No. 2169. The properties and facilities proposed to be transferred will be transferred and conveyed by Carolina and Nantahala to Tapoco at original cost less accrued depreciation to June 30, 1955, as shown on the books of Carolina and Nantahala, respectively. The facilities, after their transfer, will be operated by Tapoco and will vest in Tapoco all of the project property under the License in Project No. 2169; all as more fully appears in the applications on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said applications should, on or before the 15th day of June 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 27-34, 27-82]

NORTH COUNTRY URANIUM AND MINERALS LTD. AND HAWKER URANIUM MINES LTD.

ORDER CONSOLIDATING PROCEEDINGS AND NOTICE OF AND ORDER FOR HEARING

MAY 27, 1955.

In the matter of North Country Uranium and Minerals Ltd., File No. 27-34; Hawker Uranium Mines Ltd., File No. 27-82.

North Country Uranium and Minerals Ltd. (North Country) of 36 Gariepy Building, Edmonton, Alberta, Canada, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation D promulgated thereunder, having filed with the Commission on March 9, 1954, a Notification on Form 1-D and an amendment thereto on April 7, 1954, relating to a proposed offering of 1,500,000 shares of its common stock 5 cents par value at 20 cents per share;

Hawker Uranium Mines Ltd. (Hawker) of 10004 Jasper Avenue, Edmonton, Alberta, Canada, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation D promulgated thereunder, having filed with the Commission on February 9, 1955, a Notification on Form 1-D relating to a proposed offering of 305,000 shares of its common stock, 5 cents par value of which 150,000 shares are to be offered on behalf of Degaetano Securities Corporation (75,000 shares at 1 mil per share to its employees and 75,000 shares to the public at the market), 150,000 shares on behalf of S. Donald Moore at the market, and 5,000 shares on behalf of Robert S. Matheson at the market, not to exceed $205,000 in the aggregate;

The Commission, on April 21, 1955, having issued orders pursuant to Rule 509 of the general rules and regulations under the Securities Act of 1933 temporarily suspending the exemption of North Country and temporarily denying the exemption of Hawker under section 3 (b) and Regulation D and affording any person having any interest therein opportunity to request a hearing pursuant to said Rule 509, and a written request for such hearing having been received by the Commission on May 20, 1955, from counsel for North Country, Hawker, and Degaetano Securities Company and Degaetano Securities Corporation, 37 Wall Street, New York, New York, the respective underwriters of said offerings; and

The Commission deeming it necessary and appropriate to determine whether to vacate either or both of said Orders or to enter orders permanently suspending the exemption of North Country or permanently denying the exemption of Hawker, or both, and it appearing to the Commission that common questions of law and fact are involved in the two proceedings:

It is hereby ordered, That the proceedings in File No. 27-34 and File No. 27-82 be and hereby are consolidated for purposes of hearing; *And it is further ordered,* Pursuant to Rule 509 of the general rules and regulations under the Securities Act of 1933, that a public hearing be held on June 8, 1955, at 10:30 a. m., e. d. s. t., at the offices of the Commission at 425 Second Street NW., Washington, D. C., with respect to the following specified matters and questions, without prejudice, however, to the specifications of additional issues which may be present in these proceedings:

1. Whether an exemption under Regulation D was available to North Country under Rule 502 (a) and, in particular, whether North Country and Hawker were affiliated and whether, and in what amount, Hawker commenced an offering of its stock under Regulation D within a period of one year prior to the commencement by North Country of the public offering of its stock covered by its Notification in File No. 27-34.

2. Whether the terms and conditions of Regulation D were complied with by North Country in respect of its said Notification and whether said Notification and the offering circular filed as a part thereof contained untrue statements of material facts or omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly, among other things, with respect to:

a. The failure to disclose an affiliation between Hawker and North Country, and a previous offering by Hawker, and pertinent information in connection therewith.

b. The statements made indicating control of North Country by Reuben Bond and indicating Reuben Bond and W. George Matthews as the founders of North Country and the original prospectors and/or stakers of the properties held by North Country, and other statements in connection therewith.

c. The failure to disclose pertinent information with respect to the proposed use of proceeds from the sale of its securities.

3. Whether an exemption under Regulation D was available to Hawker under Rule 502 (a) in that the aggregate offering price of its securities covered by its Notification in File No. 27-82 would exceed the limitation of $100,000 prescribed by said rule relating to offerings on behalf of persons other than the issuer.

4. Whether an exemption under Regulation D was and is available to Hawker in that Hawker was and is affiliated with North Country.

5. Whether the terms and conditions of Regulation D were complied with by Hawker in respect of its Notification in File No. 27-82 and whether said Notification and the offering circular filed as a part thereof contained untrue statements of material facts or omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly, among other things, with respect to:

a. The failure to disclose an affiliation between Hawker and North Country and pertinent information in connection therewith.

b. The failure to disclose the offering by North Country and pertinent information in connection therewith.

c. The failure to disclose a previous offering, by Hawker and pertinent information in connection therewith.

It is further ordered, That William W. Swift, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing, and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 19 (b), 21 and 22 (c) of the Securities Act of 1933 and to hearing officers under the Commission's rules of practice.

It is further ordered, That this notice and order shall be served upon North Country, Hawker, Degaetano Securities Company, and Degaetano Securities Corporation personally or by registered mail or by confirmed telegraphic notice and that notice of the entering of this order shall be given to all other persons by general release of the Commission and by publication in the FEDERAL REGISTER. Any person who desires to be heard or otherwise participate in such hearing should file with the Secretary of the Commission on or before June 6, 1955, a request relative thereto as provided in Rule XVII of the Commission's rules of practice.

UNITED CORP.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING REGISTERED HOLDING COMPANY HAS CEASED TO BE HOLDING COMPANY

MAY 27, 1955.

Notice is hereby given that the United Corporation ("United"), a registered public-utility holding company, has filed an application and amendments thereto under section 5 (d) of the Public Utility Holding Company Act of 1935 ("act"), requesting the Commission to declare by order that United has ceased to be a holding company and that its registration under the act has ceased to be in effect.

All interested persons are referred to said application which is on file in the offices of the Commission for a statement of the facts contained therein, which are summarized as follows:

United, a Delaware corporation organized in 1929, filed with the Commission, on March 28, 1938, a notification of registration as a holding company under section 5 (a) of the act.

At the time of registration United owned voting securities of four public-utility holding companies, as indicated below:

	Number of shares	Percent of voting securities
The United Gas Improvement Co.	6,066,223	26.1
Niagara Hudson Power Corp.	2,351,007	23.4
Columbia Gas & Electric Corp.	2,424,356	19.6
Public Service Corp. of New Jersey	988,271	13.9

On August 14, 1943, the Commission issued its findings, opinion and order, which directed, pursuant to section 11

(b) (2) of the act, that United "shall change its present capitalization to one class of stock, namely, common stock; and * * * take such action * * * as will cause it to cease to be a holding company". At that time, United's capitalization consisted of 2,488,712 shares of preference stock with a liquidating claim of $132,738,200; 14,529,491 shares of common stock; and option warrants entitling the holders thereof to purchase 3,732,059 shares of common stock of United at $27.50 per share.

Since the issuance of the Commission's order dated August 14, 1943, the United holding company system and United's portfolio holdings of securities and its capital structure have undergone major changes through the consummation of various transactions and several plans filed pursuant to section 11 (e) of the act relating to the retirement of United's preference stock, divestments of portfolio securities by United, reorganizations of subsidiary holding companies, and mergers, consolidations and dissolutions of various companies in which United had interests.

United's final and comprehensive plan under section 11 (e) of the act for completing compliance with the Commission's order of August 14, 1943, and proposing the transformation of United into an investment company was approved by the Commission on June 26, 1951. This plan provided, among other things, (1) an opportunity for United's stockholders to voluntarily withdraw from the enterprise through the exchange of shares of United's common stock for cash and shares of common stock of Niagara Mohawk Power Corporation; (2) for the sale by United of all of its holdings of common stock of South Jersey Gas Company, and of sufficient amounts of its holdings of voting securities of (a) Niagara Mohawk Power Corporation, successor corporation to Niagara Hudson Power Corporation, (b) the Columbia Gas System, Inc., formerly Columbia Gas & Electric Corporation, and (c) the United Gas Improvement Company so that United would not hold in excess of 4.9 percent of such securities of each of such companies; (3) for the amendment of United's charter and bylaws so as to provide for cumulative voting for directors and that a quorum at stockholders' meetings would require 50 per cent of the outstanding stock of United; and (4) for the cancellation of United's then outstanding option warrants without any compensation to the holders thereof.

The Commission's order dated June 26, 1951, approving United's plan was the subject of litigation extending over a period of about three years and was eventually affirmed. On March 7, 1955 the United States District Court for the District of Delaware entered an order approving and enforcing those provisions of the plan set forth in (3) and (4) above and directed, among other things, that "all rights and claims of the holders of the option warrants of United shall cease and determine, and all such warrants shall be void for all purposes". Representatives of certain holders of warrants have filed notice of appeal from the order of the District Court dated March 7, 1955.

United represents in its application that it has consummated all of the transactions provided for in the aforesaid plan, except that the amounts of fees and expenses to be allowed for services rendered in connection with the proceedings before the Commission involving United have not been fixed, and that it owns no more than 4.6 percent of the voting securities of Niagara Mohawk Power Corporation, 3.9 percent of the voting securities of The Columbia Gas System, Inc., 2.8 percent of the voting securities of Public Service Electric and Gas Company, a public utility company, and less than 1 percent of the voting securities of The United Gas Improvement Company.

United asserts that it has no representatives on the boards of directors of any of its former statutory subsidiaries, that it does not now exercise directly or indirectly (either alone or pursuant to an arrangement or understanding with one or more other persons) a controlling influence over the management or policies of any of its former statutory subsidiaries or of any other public utility or holding company, and that it is no longer a holding company within the meaning of the act.

United alleges that it has complied in all respects with the Commission's aforesaid order of August 14, 1943, and proposes, as soon as practicable, to register under section 8 of the Investment Company Act of 1940 as a closed-end, non-diversified investment company, but states that such registration cannot be effected until such time as the Commission has issued an order under section 5 (d) of the Public Utility Holding Company Act of 1935 declaring that it has ceased to be a holding company.

United has consented to the inclusion in the Commission's order which United requests be entered under section 5 (d) of the act, of a reservation of jurisdiction by the Commission to require any action of United which may become necessary by virtue of the warrant holders' appeal and to require payment by United of such allowances as may finally be determined by the Commission or the courts to be payable in connection with the aforementioned proceedings.

Notice is further given that any interested person may, not later than June 17, 1955, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on said application, stating the nature of his interest, the reason or reasons for such request, and the issues of fact or law raised by such matter which he proposes to controvert, or he may request to be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. Said application, as filed or as amended, may be granted at any time after said date or the Commission may take such other action in connection therewith as it may deem appropriate under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 655—NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

MINIMUM WAGE ORDER

Pursuant to the provisions of the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice was published in the FEDERAL REGISTER on May 7, 1955 (20 F. R. 3138), of a proposed decision to modify the decision which was originally proposed by notice published in the FEDERAL REGISTER on March 4, 1955 (20 F. R. 1345). The proposed modification affected only the Corde and Bonnaz Embroidery and Corde Handbag Division of the Industry, and consisted of approving for this Division the recommendation of a minimum wage rate of 51 cents an hour which was made by Special Industry Committee No. 15 for Puerto Rico for the Needlework and Fabricated Textile Products Industry in Puerto Rico. The notice which was published on May 7, 1955 also indicated the amendment to the minimum wage order for this industry which would be issued to carry this decision into effect.

As stated in the notice, a general conclusion that reconsideration of the record as a whole justified the proposed modification was set forth in the Minimum Wage Order which was published in the FEDERAL REGISTER on May 7, 1955 (20 F. R. 3107), and more detailed findings and conclusions were set forth in a document entitled "Supplement to Findings and Opinion of the Administrator in the Matter of the Recommendations of Special Industry Committee No. 15 for Minimum Wage Rates in the Needlework and Fabricated Textile Products Industry in Puerto Rico."

The period of 15 days from May 7, 1955, within which exceptions to the proposed decision might be filed, has now expired. Joint exceptions have been duly filed by Parisienne Handbag Corporation, Dick-Will, Inc., Corde Bonnaz Embroidery Corporation, and Arlene Manufacturing Co., Inc., employers in this Division. These exceptions set forth certain cost factors which these employers claim the Supplement to the Findings and Opinion failed to take into account, although they admit that they were taken into account in the original Findings and Opinion of the Administrator. These employers also argue that insufficient weight was given to the importance to firms operating in Puerto Rico of competition from mainland worker-contractors.

It is conceded in the exceptions that these matters were taken into account in the original Findings and Opinion of the Administrator. Both the minimum wage order, which was published in the FEDERAL REGISTER on May 7, 1955, and the more detailed Supplement to the Findings and Opinion of the Administrator make it clear that the entire record in the matter, including all evidence relating to the factors which are now stressed by the employers who have filed exceptions, was carefully reconsidered in arriving at the decision which was proposed for this Division. The Supplement to the Findings and Opinion of the Administrator cannot be considered wholly by itself. When it is considered in conjunction with the entire record, the original Findings and Opinion, and the minimum wage order which was published on May 7, 1955, it is apparent that all of the factors now in question have been fully taken into account. The present exceptions contain nothing to warrant any change in the proposed decision as to this Division.

A claim is also made in the exceptions which have now been filed that the effective date of the proposed increase on June 6, 1955 will cause great hardship because fall lines have been made up and submitted to prospective customers upon the basis of the current minimum wage of 36 cents an hour. Sample letters from two distributors were attached to the exceptions in which the distributors indicate that if the price is to be increased, it will be necessary to cancel any orders at increased prices. A delay of six months in the effective date of the proposed minimum wage increase is accordingly requested.

The employers who have filed exceptions appear to be under a misapprehension as to the effective date of the proposed increase in this Division. The minimum wage order which was pub-

lished in the FEDERAL REGISTER on May 7, 1955 specified that the amended wage order, as there published, would be effective on June 6, 1955, but that order provided in § 655.2 (n) that the current minimum wage of 36 cents an hour for this Division would continue in effect until a new wage order for this Division should be issued. No detailed evidence has been submitted as to any orders which may already have been taken on the basis of the current minimum wage rate. There is nothing to indicate how long it would take to fill any such orders or that there would be a real need for a postponement of six months in the effective date of the proposed increase in the minimum wage rate for this Division to prevent undue hardship. It is realized, however, that action already taken by employers in this Division in connection with fall lines may justify setting a later effective date for the proposed increase than might otherwise have been fixed. July 25, 1955 seems a suitable date under all the circumstances.

I have reviewed the exceptions which have been filed in the light of the entire record in this matter and have concluded that no change in the proposed decision as to this Division is warranted. The following amendment to the wage order which was published in the FEDERAL REGISTER on May 7, 1955 (20 F. R. 3107) will issue in accordance with the notice of proposed decision which was also published in the FEDERAL REGISTER on May 7, 1955 (20 F. R. 3138), and under the authority in section 8 of the Fair Labor Standards Act of 1938 (29 U. S. C. 201 et seq.), Reorganization Plan No. 6 of 1950 (5 U. S. C. 611), General Order No. 45–A (15 F. R. 3290), and, the position of the Administrator being presently vacant, General Order No. 85 (20 F. R. 2066).

Section 655.2 (n) is amended to read as follows:

(n) Wages at a rate of not less than 51 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Corde and Bonnaz Embroidery and Corde Handbag Division of the Needlework and Fabricated Textile Products Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(Sec. 8, 63 Stat. 915; 29 U. S. C. 208)

The above amendment shall become effective July 25, 1955.

Signed at Washington, D. C., this 31st day of May 1955.

STUART ROTHMAN,
Solicitor.

Subchapter C—Regulations and Standards Under the Farm Products Inspection Act

PART 53—MEATS, PREPARED MEATS, AND MEAT PRODUCTS (GRADING, CERTIFICATION, AND STANDARDS)

SUBPART B—STANDARDS

REVISION OF OFFICIAL UNITED STATES STANDARDS FOR GRADES OF CERTAIN PORK CARCASSES AND CERTAIN SWINE

On April 23, 1955, a notice of rule making was published in the FEDERAL REGISTER (20 F. R. 2725) regarding proposed revision of the official United States standards for grades of barrow and gilt carcasses (§§ 53.140 to 53.143) and the official United States standards for grades of slaughter barrows and gilts (§§ 53.150 to 53.153) under the provisions of sections 203 and 205 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622 and 1624) and the general language in the item for the Agricultural Marketing Service contained in the Department of Agriculture and Farm Credit Administration Appropriation Act, 1955 (68 Stat. 313).

After due consideration of all relevant material submitted pursuant to the notice and under the aforesaid sections of the Agricultural Marketing Act of 1946 and the item for the Agricultural Marketing Service contained in the Department of Agriculture and Farm Credit Administration Appropriation Act, 1955, official United States standards for grades of barrow and gilt carcasses and official United States standards for grades of slaughter barrows and gilts are hereby amended as follows:

Pork carcasses. 1. Section 53.142 is amended to read as follows:

§ 53.142 *Application of standards for grades of barrow and gilt carcasses.* (a) Differences in barrow and gilt carcasses due to sex condition are minor, and the grade standards are equally applicable for grading both classes.

(b) Barrow and gilt carcasses are graded primarily on the basis of (1) differences in yields of lean cuts and of fat cuts, and (2) differences in quality of cuts. These factors vary rather uniformly and consistently from one grade to another. The U. S. No. 1 grade combines an optimum ratio of lean to fat with quality characteristics indicative of acceptable palatability. U. S. No. 2 and U. S. No. 3 grades have higher degrees of finish with resulting lower yields of lean cuts and higher yields of fat cuts than U. S. No. 1 grade. In addition, the cuts from U. S. No. 2 and U. S. No. 3 grades have more internal fat remaining after trimming of external fat than do the cuts from U. S. No. 1 grade carcasses. Medium grade carcasses have a lower degree of finish and a resulting higher ratio of lean to fat than U. S. No. 1, U. S. No. 2, and U. S. No. 3 grades; however, Medium grade carcasses are underfinished and lack the quality characteristics associated with acceptable palatability as evidenced by a lack of firmness and indications of little or no marbling in the lean. Cull grade carcasses are decidedly underfinished and the pork is soft and watery with no visible marbling. Only carcasses with the firmness appropriate to their degree of finish are included under the standards described in this part. However, carcasses which are typically soft or oily as a result of feeds producing soft or oily fat may be graded in accordance with these standards provided they are specially identified as soft or oily along with the grade.

(c) Measurements of average back fat thickness in relation to carcass weight or length are closely related to yields of cuts and the quality of the cuts. The following table of measurements provides an objective guide in determining the barrow and gilt carcass grades.

WEIGHT AND MEASUREMENT GUIDES TO GRADES FOR BARROW AND GILT CARCASSES

Carcass weight or carcass length [1]	Average back fat thickness (inches) [2] by grade				
	U. S. No. 1	U. S. No. 2	U. S. No. 3	Medium	Cull
Under 120 pounds or under 27 inches.	1.2 to 1.5	1.5 to 1.8	1.8 or more	0.9 to 1.2	Less than 0.9.
120 to 164 pounds or 27 to 29.9 inches.	1.3 to 1.6	1.6 to 1.9	1.9 or more	1.0 to 1.3	Less than 1.0.
165 to 209 pounds or 30 to 32.9 inches.	1.4 to 1.7	1.7 to 2.0	2.0 or more	1.1 to 1.4	Less than 1.1.
210 or more pounds or 33 or more inches.	1.5 to 1.8	1.8 to 2.1	2.1 or more	1.2 to 1.5	Less than 1.2.

[1] Either carcass weight or length may be used with back fat thickness as a reliable guide to grade. The table shows the normal length range for given weights. In extreme cases where the use of length with back fat thickness indicates a different grade than by using weight, final grade is determined subjectively as provided in the standards. Carcass weight is based on a chilled, packer style carcass. Carcass length is measured from the forward point of the aitch bone to the forward edge of the first rib.

[2] Average of measurements made opposite the first and last ribs and last lumbar vertebra.

(d) The standards for grades of barrow and gilt carcasses include carcass measurements and descriptions of carcass characteristics which indicate the lean and fat yields and imply the quality of meat typical of the minimum degree of finish of each grade. Visual estimates of fat thickness normally alleviate the necessity for measuring carcasses in the grading operation. In addition to the measurement guides to grade differences, the standards also provide the basis for consideration of other characteristics. While carcass measurements furnish a reliable general guide to grade, the final grade of borderline carcasses may vary from that indicated by measurements due to consideration of other characteristics such as visual evidences of quality; meatiness; conformation of hams, loins,

bellies, and shoulders; and fat distribution. However, application of these additional factors is limited to borderline carcasses, and in no case may the final grade be more than one-half of the width of a grade different than that indicated by carcass measurements. The standards describe carcasses typical of each grade and no attempt is made to describe the nearly limitless number of combinations of characteristics that may qualify a carcass for a particular grade.

2. Section 53.143 is amended to read as follows:

§ 53.143 *Specifications for official United States standards for grades of barrow and gilt carcasses*—(a) *U. S. No. 1 grade.* Carcasses in this grade have near the minimum degree of finish required for the production of acceptable quality cuts. Meatiness based on yield of lean cuts in relation to carcass weight is slightly high; yield of fat cuts is slightly low. The ratio of total lean and fat to bone is slightly high. Carcasses possessing the minimum finish for U. S. No. 1 grade are slightly wide and moderately long in relation to weight. The back and loins are moderately full and thick with a well-rounded appearance. Hams are usually moderately thick, plump, and smooth and are slightly full in the lower part toward the hocks. Bellies are moderately long and smooth, slightly thick, and moderately uniform in thickness; the belly pocket is slightly thick. Shoulders are slightly thick and full but usually blend smoothly into the sides. The carcass is moderately well-balanced and smooth with moderately uniform development of the various parts. There are moderate quantities of interior fat in the region of the pelvis, a slightly thin but fairly extensive layer of fat lining the inside surface of the ribs, and a slightly small quantity of feathering. The flesh is firm. Both exterior and interior fats are firm, white, and of excellent quality. Carcasses with fat thickness typical of the thinner one-half of the U. S. No. 1 grade but with the firmness, quantity and distribution of interior fats, and belly thickness typical of the Medium grade shall be graded Medium. Carcasses with fat thickness typical of the fatter one-half of the U. S. No. 1 grade but with the fat distribution, meatiness, and thickness and fullness of hams, loins, shoulders, and bellies typical of the U. S. No. 2 grade shall be graded U. S. No. 2.

(b) *U. S. No. 2 grade.* Carcasses in this grade have a higher degree of finish than the minimum required for the production of acceptable quality cuts. Meatiness based on yield of lean cuts in relation to carcass weight is slightly low; yield of fat cuts is slightly high. The ratio of total lean and fat to bone is moderately high. Carcasses with the minimum finish for U. S. No. 2 grade are moderately wide and slightly short in relation to weight. The back and loins are full and thick and appear fuller near the edges than at the center. Hams are usually thick, plump, and smooth and are moderately full in the lower part toward the hocks. Bellies are moderately thick, smooth, slightly short, and rather uniform in thickness; the belly pocket is moderately thick. Shoulders are moderately thick and full but usually blend smoothly into the sides. The carcass is well-balanced and smooth with rather uniform development of the various parts. There are slightly large quantities of interior fat in the region of the pelvis, a slightly thick and moderately extensive layer of fat lining the inside surface of the ribs, and moderate feathering. The flesh is firm. Both exterior and interior fats are firm, white, and of excellent quality. Carcasses with fat thickness typical of the thinner one-half of the U. S. No. 2 grade but with the fat distribution, meatiness, and thickness and fullness of hams, loins, shoulders, and bellies typical of the U. S. No. 3 grade shall be graded U. S. No. 3.

(c) *U. S. No. 3 grade.* Carcasses in this grade have a decidedly higher degree of finish than the minimum required for the production of acceptable quality cuts. Meatiness based on yield of lean cuts in relation to carcass weight is low; yield of fat cuts is high. The ratio of total lean and fat to bone is high. Carcasses with the minimum finish for U. S. No. 3 are wide and short in relation to weight. The back and loins are very full and thick and appear especially full near the edges. Hams are usually thick, very plump, and smooth and are full in the lower part toward the hocks. Bellies are short, thick, smooth, and uniform in thickness; the belly pocket is thick. Shoulders are thick and full but usually blend smoothly into the sides. The carcass is well-balanced and smooth with uniform development of the various parts. There are large quantities of interior fat in the region of the pelvis, a moderately thick and extensive layer of fat lining the inside surface of the ribs, and slightly abundant feathering. The flesh is firm. Both exterior and interior fats are firm, white, and of excellent quality. Carcasses with nearly minimum fat thickness for the U. S. No. 3 grade but with the fat distribution, meatiness, and thickness and fullness of hams, loins, shoulders, and bellies typical of the U. S. No. 2 grade shall be graded U. S. No. 2.

(d) *Medium grade.* Carcasses in this grade have a lower degree of finish than the minimum required for the production of acceptable quality cuts. Yield of lean cuts in relation to carcass weight is moderately high; yield of fat cuts is moderately low. The ratio of total lean and fat to bone is moderately low. Carcasses with the minimum finish for Medium grade are rather narrow and long in relation to weight. The back and loins are rather thin and deficient in fullness and slope away from the center toward the sides. Hams are usually slightly thin and lacking in plumpness and taper slightly toward the hocks. Bellies are moderately thin, long, slightly wrinkled, and moderately uneven in thickness; the belly pocket is moderately thin. Shoulders tend to be thin and flat but often show prominence at the junction with the sides. The carcass tends to be uneven and rough with slightly irregular development of the various parts. There are slightly small quantities of interior fat in the region of the pelvis, a scanty and incomplete layer of fat lining the inside surface of the ribs, and only a small quantity of feathering. Both exterior and interior fats are moderately soft, white to creamy white, and of low quality. The flesh is moderately soft and has little evidence of marbling. Carcasses with the fat thickness typical of the fatter one-half of the Medium grade but with the firmness, quantity and distribution of interior fats, and belly thickness typical of the U. S. No. 1 grade shall be graded U. S. No. 1. Carcasses with the fat thickness typical of the thinner one-half of the Medium grade but with the firmness, quantity and distribution of interior fats, and belly thickness typical of the Cull grade shall be graded Cull.

(e) *Cull grade.* Carcasses in this grade have a considerably lower degree of finish than the minimum required for the production of acceptable quality cuts, and most cuts are suitable only for processing. Yield of lean cuts in relation to carcass weight is high; yield of fat cuts is low. The ratio of total lean and fat to bone is low. Carcasses with the degree of finish typical of the Cull grade are narrow and long in relation to weight. The back and loins are thin and decidedly lacking in fullness and have a definite slope away from the center toward the sides. Hams are usually thin, flat, and wrinkled, and show a definite taper toward the hocks. Bellies are very long, thin, wrinkled, and uneven in thickness; the belly pocket is very thin. Shoulders are thin and flat but often prominent at the junction with the sides. The carcass is uneven and rough with irregular development of the various parts. There are only small quantities of interior fat in the region of the pelvis and little or no fat as lining on the inside surface of the ribs or as feathering between the ribs. Both exterior and interior fats are soft, creamy white to white, and of low quality. The flesh is soft and watery and has no evidence of marbling. Carcasses with nearly maximum fat thickness for the Cull grade but with the firmness, quantity and distribution of interior fats, and belly thickness typical of the Medium grade shall be graded Medium.

Swine. 1. Section 53.151 is amended to read as follows:

§ 53.151 *Slaughter swine classes.* There are five classes of slaughter swine—barrows, gilts, sows, stags, and boars—defined as follows:

(a) *Barrow.* A barrow is a male swine castrated when young and before development of the secondary physical characteristics of a boar.

(b) *Gilt.* A gilt is a young female swine that has not produced young and has not reached an advanced stage of pregnancy.

(c) *Sow.* A sow is a mature female swine that shows evidence of having reproduced or has reached an advanced stage of pregnancy.

(d) *Stag.* A stag is a male swine castrated after development or beginning of development of the secondary physical characteristics of a boar. Typical stags are somewhat coarse and lack balance—the head and shoulders are more fully developed than the hindquarter parts, bones and joints are large, the skin is thick and rough, and the hair is coarse.

(e) *Boar.* A boar is an uncastrated male swine.

2. Section 53.152 is amended to read as follows:

§ 53.152 *Application of standards for grades of slaughter barrows and gilts.* (a) In the barrow and gilt classes, sex condition has exerted little effect on secondary physical characteristics, and barrows and gilts are treated as a single class in marketing and for standardization purposes. Therefore, the grade standards are equally applicable to both slaughter barrows and gilts.

(b) The standards are based on the standards for grades of barrow and gilt carcasses. The two major factors forming the bases for the grades are (1) differences in yield of lean cuts and of fat cuts, and (2) differences in quality of cuts. There are rather consistent variations in these characteristics from one grade of barrows and gilts to another. U. S. No. 1 grade barrows and gilts have about the minimum finish required to produce pork cuts of acceptable quality in which the lean is firm and has sufficient marbling, or fat interspersed within the lean, to result in the tenderness, juiciness, and flavor associated with desirable palatability. U. S. No. 2 grade barrows and gilts are overfinished and U. S. No. 3 grade barrows and gilts are decidedly overfinished in relation to the minimum finish required for the production of cuts of acceptable quality; yields of lean are lower and yields of fat are higher in these grades than in U. S. No. 1 grade. Medium grade barrows and gilts are underfinished, and although the ratio of lean to fat is higher than in U. S. No. 1 grade, the lean is soft and has little or no marbling. Cull grade barrows and gilts are decidedly underfinished and the pork is soft and watery with no visible evidence of marbling in the lean.

(c) Application of the standards requires an accurate appraisal of the live animal characteristics which indicate the grade. The standards describe the characteristics of typical animals having the minimum degree of finish for each grade. No attempt is made to describe the numerous combinations of characteristics that may qualify an animal for a specific grade, and making appropriate compensations for varying combinations requires the use of sound judgment.

(d) The general limits of grades for barrows and gilts are determined by degree of finish, but other factors are considered in certain cases to accomplish further refinement of the grades. Animals at the borderlines between grades with respect to degree of finish are graded by consideration of meatiness as evidenced by thickness and fullness (fat covering considered) of hams, loins, shoulders, and bellies; apparent firmness of fleshing; and distribution of fat covering. The application of these compensating factors is limited to borderline cases between grades, and in no case is the final grade of an animal more than one-half the width of a grade different than that indicated by apparent degree of finish.

3. Section 53.153 is amended to read as follows:

§ 53.153 *Specifications for official United States standards for grades of slaughter barrows and gilts*—(a) *U. S. No. 1 grade.* Slaughter barrows and gilts in this grade have an intermediate degree of finish. Hogs of the minimum finish for U. S. No. 1 are moderately wide over the top, and width of body over the top appears nearly equal to that at the underline. The back, from side to side, is moderately full and thick and usually appears well-rounded and blends smoothly into the sides. Width through the hams is usually nearly equal to width through the shoulders. The sides are moderately long, slightly thick, and usually smooth; the flanks are slightly thick and full. Depth at the rear flank may be slightly less than depth at the fore flank. Hams tend to be moderately thick and full with a slightly thick covering of fat. Jowls are moderately full and thick but are usually trim. Barrows and gilts in this grade produce U. S. No. 1 carcasses. Barrows and gilts with apparent degree of finish typical of the fatter one-half of the U. S. No. 1 grade but with the evidences of meatiness, firmness of fleshing, and distribution of finish more nearly typical of the U. S. No. 2 grade shall be graded U. S. No. 2.

(b) *U. S. No. 2 grade.* Slaughter barrows and gilts in this grade have a moderately high degree of finish. Hogs of the minimum finish for U. S. No. 2 are wide over the top, and width of body appears slightly greater over the top than at the underline. The back, from side to side, is full and thick and often appears slightly flat with a noticeable break into the sides. Width may be slightly greater through the shoulders than through the hams. The sides are slightly short, moderately thick, and smooth; the flanks are moderately thick and full. Depth at the rear flank is nearly equal to depth at the fore flank. Hams tend to be thick and full with a moderately thick covering of fat, especially over the lower part. Jowls are usually full and thick, and the neck appears rather short. Barrows and gilts in this grade produce U. S. No. 2 carcasses. Barrows and gilts with apparent degree of finish typical of the fatter one-half of the U. S. No. 2 grade but with the evidences of meatiness, firmness of fleshing, and distribution of finish more nearly typical of the U. S. No. 3 grade shall be graded U. S. No. 3. Those with apparent degree of finish typical of the thinner one-half of the U. S. No. 2 grade but with the evidences of meatiness, firmness of fleshing, and distribution of finish more nearly typical of the U. S. No. 1 grade shall be graded U. S. No. 1.

(c) *U. S. No. 3 grade.* Slaughter barrows and gilts in this grade have a high degree of finish. Hogs possessing the minimum finish for U. S. No. 3 are very wide over the top, and width of body appears somewhat greater over the top than at the underline. The back, from side to side, is very full and thick and often appears nearly flat with a pronounced break into the sides. Width may be greater through the shoulders than through the hams. The sides are short, thick, and smooth; the flanks are thick and full. Depth at the rear flank is equal to depth at the fore flank. Hams tend to be very thick and full with a thick covering of fat, especially over the lower part. Jowls are very thick and full, and the neck appears short. Barrows and gilts in this grade produce U. S. No. 3 carcasses. Barrows and gilts with apparent degree of finish near the minimum for U. S. No. 3 grade but with evidences of meatiness, firmness of fleshing, and distribution of finish more nearly typical of the U. S. No. 2 grade shall be graded U. S. No. 2.

(d) *Medium grade.* Slaughter barrows and gilts in this grade have a low degree of finish. Hogs of the minimum finish for the grade are moderately narrow over the top, and width over the top appears less than at the underline. The back, from side to side, is slightly thin and appears rather peaked at the center, especially at and immediately behind the shoulders, with a distinct slope toward the sides. Hips may appear slightly prominent. Width may be slightly less through the shoulders than through the hams. The sides are long, moderately thin, and wrinkled; the flanks are thin. Depth at the rear flank is less than depth at the fore flank. Hams tend to be thin and flat with a slight taper toward the shanks. Jowls are usually slightly thin and flat, and the neck appears rather long. Barrows and gilts in this grade produce medium grade carcasses.

(e) *Cull grade.* Slaughter barrows and gilts in this grade have a very low degree of finish. Hogs with the fleshing typical of the grade are narrow over the top, and width of body appears somewhat less over the top than at the underline. The back, from side to side, is thin, lacks fullness, and appears peaked at the center with a decided slope toward the sides. The hips are prominent. Width may be somewhat less through the shoulders than through the hams. The sides are very long, thin, and wrinkled; the flanks are very thin. Depth at the rear flank is considerably less than depth at the fore flank. Hams are very thin and flat with a decided taper towards the shanks. Jowls are usually thin and flat, and the neck appears long. Barrows and gilts in this grade produce Cull grade carcasses.

The foregoing amendments will become effective on July 5, 1955.

Done at Washington, D. C., this 1st day of June 1955.

PART 301—DOMESTIC QUARANTINE NOTICES
SUBPART—KHAPRA BEETLE

AMENDMENT OF ADMINISTRATIVE INSTRUCTIONS DESIGNATING PREMISES AS REGULATED AREAS UNDER REGULATIONS SUPPLEMENTAL TO KHAPRA BEETLE QUARANTINE

Pursuant to § 301.76–2 of the regulations supplemental to the Khapra Beetle Quarantine (7 CFR 301.76–2, 20 F. R. 1012) under section 8 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161), administrative instructions issued as 7 CFR 301.76–2a (20 F. R. 1237), effective March 1, 1955, as amended effective March 29, 1955, April 15, 1955, and April 30, 1955 (20 F. R. 1878, 2477, 2901), are hereby further amended in the following respects:

a. The designation as regulated areas of the following warehouses, mills, and other premises, included in the list contained in such instructions, is hereby revoked, and the reference to such premises in the list is hereby deleted, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises:

CALIFORNIA

Angiola Elevator and Warehouse Co., Angiola.

Croley Milling Co., 628 B Street, Hayward.

Vogel Seed & Feed, 860 Main Street, Brawley.

b. The following premises are added to the list, contained in such instructions, of warehouses, mills, and other premises in which infestations of the khapra beetle have been determined to exist. Such premises are thereby designated as regulated areas within the meaning of said quarantine and regulations:

ARIZONA

Arlington Cattle Company, Quick's Warehouse, Star Route, Arlington.

Dave Johnson Farm, Route 1, Box 25, Avenue "E", ¾ mile south of Seventeenth Street, Somerton.

Millett Feed Barn and Millett Feed and Storage Warehouse, 254 South Sirrine Street, Mesa.

Red Star Feed and Seed Store, 220 Mill Street, Tempe.

CALIFORNIA

Louis Carano Ranch, east of S. P. Railroad tracks at intersection of County Roads East B and No. 8, 1 mile south of Heber.

Ernest Furrer Ranch, northeast corner of intersection of County Roads West J and 18, El Centro.

Bud Gunterman Ranch, on East "G", ½ mile south of Road 8 on west side of Acacia Canal at Gate 4, Calexico.

Gunterman Ranches (Bud Gunterman, owner), intersection of East L and Road 14, Calexico.

Everet Jones Ranch, intersection of East R and Road 56, Route 2, Box 174, Brawley.

Kern Valley Farms, on Wheeler Ridge Road, 1 mile south of Herring Road, Box 184, Arvin.

Henry Kirchener Dairy, on west side of County Road East B, ¼ mile north of County Road 28, El Centro.

M. L. McFarland (small farm), County Road West A, ¼ mile north of County Road 28, P. O. Box 327, Imperial.

Mee Ranches (lessee), 1901 Brundage Lane, Bakersfield.

L. C. Myers Ranch, intersection of East V and County Road 58, Brawley.

Newhall Land and Farming Company, Route 3, Box 77, Saugus.

I. F. Porter (small farm), Route 2, Box 9A, Brawley.

C. B. Ralph's Ranch, at northeast corner of intersection of County Roads East C and 32, Imperial.

Emil Rebik Ranch, near East P on north side of Road 58, Box 184, Imperial.

Oscar Rudnick Ranch, on Highway 178, across highway from Onyx Store, Onyx.

F. W. Schoneman Ranch, at southwest corner of intersection of County Roads East T and 54, Brawley.

Sears, Roebuck & Company warehouse, "G" Street, Fresno.

Robert E. Shank Ranch, Wiest Road and Maple Canal, Route 2, Box 150, Brawley.

Herman Vossler (large farm storage), Route 1, Box 192, Porterville.

T. O. Witt Ranch, on Highway 178, 13 miles northeast of Isabella Lake, Onyx.

H. Wright Ranch, on east side of Zumwalt Road, ½ mile south of Williams.

c. The item appearing in the list contained in such instructions under the subhead California, as "Rudinick Trust Seed Lot, 1½ miles west of Oak Street, on Panama Lane, Bakersfield" is changed to read: Rudinick Trust Feed Lot, 1½ miles west of Oak Street, on Panama Lane, Bakersfield.

This amendment shall be effective June 4, 1955.

Subsequent to the third amendment of these instructions, effective April 30, 1955, infestations of the khapra beetle were discovered at the Southwest Irrigation Field Station Laboratory and at the Boyd and Kuhns property, 1663 East A Street, both at Brawley, California. Movement of regulated articles from these premises was immediately stopped. Within a few days such infested premises had been fumigated and declared free of khapra beetle infestation. Accordingly, neither property is being included in this amendment.

This amendment revokes the designation as regulated areas of a number of warehouses, mills, and other premises, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises. It also adds additional premises to the list of warehouses, mills, and other premises in which khapra beetle infestations have been determined to exist, and designates such premises as regulated areas under the khapra beetle quarantine and regulations. It further corrects the designation of one presently regulated area.

This amendment in part imposes restrictions supplementing khapra beetle quarantine regulations already effective. It also relieves restrictions insofar as it revokes the designation of presently regulated areas. It must be made effective promptly in order to carry out the purposes of the regulations and to permit unrestricted movement of regulated products from the premises being removed from designation as a regulated area. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 38]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.338 *Valencia Orange Regulation 38*—(a) *Findings.* (1) Pursuant to Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. G. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on June 2, 1955, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., June 5, 1955, and ending at 12:01 a. m., P. s. t., June 12, 1955, is hereby fixed as follows:

(i) District 1: 138,600 boxes;

(ii) District 2: 323,400 boxes;

(iii) District 3: Unlimited movement.

(2) Valencia oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "handler," "boxes," "District 1," "District 2," and "District 3," shall have the same meaning as when used in said order.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.699 *Lemon Regulation 592*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on June 1, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., June 5, 1955, and ending at 12:01 a. m., P. s. t., June 12, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 550 carloads;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter E—Alaska Wildlife Protection

PART 46—TAKING ANIMALS, BIRDS, AND GAME FISHES

MISCELLANEOUS AMENDMENTS

Basis and purposes. Investigations by the Fish and Wildlife Service and the Alaska Game Commission and personal observations of citizens and agencies within Alaska indicate that changing conditions within the Territory require further protection to wildlife and game fish in some instances and permit some relaxation of regulatory protection in other instances. Following the public meetings held at Juneau and elsewhere in the Territory on proposed regulation amendments, the Commission recommended the changes adopted herein to conserve these valuable Alaskan resources and still permit such utilization as is consistent with the preservation of the breeding stocks of game and fur animals, birds, and game fishes.

I have considered and determined that the recommendations will effectuate the purposes of the Alaska Game Law. Accordingly, the regulations under the Alaska Game Law are amended as follows:

1. Section 46.20 is amended to read as follows:

§ 46.20 *Yearly bag limit.* The greatest number of a species permitted to be taken during the current license year (July 1 to June 30) in any area designated in this part as open to hunting or trapping.

2. A new § 46.22 is added under the center headnote "Definitions" reading as follows:

§ 46.22 *Fawn deer.* Spotted young deer of the year.

3. Section 46.58 is amended to read as follows:

§ 46.58 *Reports by hunters and trappers.* Each person taking animals or birds in Alaska shall keep records to show the kind and number of each species taken, and shall, at the time of renewal of his license, make a written report to the Commission of all game taken on a form provided for that purpose: *Provided,* That each hunter taking any big game animal south of the Alaska Range or Ahklun Mountains, shall report the taking of such animal on or before December 10 to the Commission on a card form provided for the purpose.

4. Section 46.61 is amended to read as follows:

§ 46.61 *General provisions.* Animals, birds, and game fishes, parts thereof, and articles manufactured therefrom, and the nests and eggs of such birds taken in accordance with the regulations in this part, may be possessed within the Territory at any time, by any person, and in any number and kind not limited by currently applicable bag and possession limits and may be transported within and exported out of the Territory by any person at any time, except as provided in §§ 46.64 to 46.72, inclusive: *Provided,* That possession and transportation of migratory game birds are subject to such additional provisions as may be prescribed by the Migratory Bird Treaty Act regulations.

5. Section 46.81 is amended to read as follows:

§ 46.81 *General provisions.* Sales or purchases of the following game birds,

game fishes, wild animals, or parts or products thereof, may be made by any person (except fur dealers) and by fur dealers holding valid fur dealer licenses:

(a) *Tagged beaver, other fur animals, black bear and deer skins, meat and skins of hares and rabbits.* Tagged or sealed skins of beaver, skins of other fur animals, black bear and deer, and meat and skins of hares and rabbits.

(b) *Manufactured articles.* Articles manufactured from the hides and hoofs of moose, caribou, deer, and mountain goats, and from the skins of black bears.

(c) *Shed antlers.* Shed antlers of deer, moose, and caribou.

(d) *Strips of grizzly bear hides.* In Fur Districts 5 and 8, parka hood trimmings cut from hides of grizzly bears in strips not to exceed 4 inches in width.

(e) *Steelhead trout.* Steelhead trout taken in salt water incidental to commercial salmon fishing operations.

(f) *Dolly Varden trout and Mackinaw or lake trout.* Dolly Varden trout taken in salt water and Dolly Varden and Mackinaw or lake trout taken in conformity with the provisions of § 46.155 (b).

(g) *Trout reared in captivity.* Trout reared in captivity for food purposes on commercial fish farms within the Territory under permits issued pursuant to § 46.231 and trout so reared outside of and shipped into the Territory: *Provided,* That such trout must be accompanied by an invoice or bill of sale showing the names and addresses of the buyer and seller, date of sale, and the total weight and number of each species in each lot of such fish.

(h) *Game birds.* Migratory waterfowl, and game birds as defined in § 46.13, when reared in captivity in conformity with such conditions and restrictions as may be imposed by permits issued under § 46.231.

6. Section 46.100 is amended to read as follows:

§ 46.100 *General provisions.* The animals, birds, and game fishes on which open seasons are prescribed in the succeeding sections of this part may be taken during such open seasons (dates inclusive) by the methods and means, in the designated open areas, and in numbers not exceeding the limits prescribed therefor, and in conformity with the evidence of sex, permit, and stamp requirements of §§ 46.68, 46.126 and 46.145, but not at any other time, by any other method, aid, or means; nor in any other areas or numbers: *Provided,* That no birds or animals may be taken from, on, or across any railroad or from, on, across, or within 100 feet of the centerline of any public highway; nor may any big game animal be taken within the one quarter mile area on each side of any public highway in Southeastern Alaska (east of 141° W. longitude) or within the one half mile area on each side of any public highway on the Kenai Peninsula: *Provided further,* That when any person shall have taken game or fur animals equal to the yearly bag limit prescribed for any of the designated open areas within the Territory, he shall not again hunt or trap for the species so taken except in a designated open area where a greater yearly bag limit on such species is prescribed; and in no event shall the cumulative numbers of the species taken by him exceed the yearly bag limit prescribed for the respective area in which the additional game or fur animals are taken.

7. Section 46.101 is amended to read as follows:

§ 46.101 *Methods and means.* Game animals may be taken only with a shotgun (not larger than No. 10 gauge and not capable of holding more than three shells), rifle or pistol (except those using rim-fire cartridges), or bow and arrow; but not with aid or use of a dog, machine or submachine gun, set gun of any description, or spear, pit, deadfall, fire, jacklight, searchlight, or other artificial light, two-way radio communications, or artificial saltlicks, or from or by means or aid of an aircraft, motor vehicle, motorboat, or any other boat except that propelled by paddle, oars or pole; nor while such animals are swimming: *Provided,* That rabbits may be taken by snares not larger than No. 1, by rifles and pistols using rim-fire cartridges, and with the aid of a dog: *Provided further,* That no aircraft or motor-driven vehicle shall be used for the purpose of driving, circling, herding, following, molesting, spotting, or aiding in the taking of big game animals except as a means of transportation: *And provided further,* That no helicopter shall be used in any manner in the taking or transportation of game animals.

8. Section 46.102 is amended to read as follows:

§ 46.102 *Seasons, limits, and other provisions.* The open seasons (dates inclusive), yearly bag limits, and other provisions applicable to the taking of game animals shall be as shown in the following schedule:

NOTE: See §§ 46.58 and 46.68 regarding reporting kill of big game and evidence of sex and identity; §§ 46.61 to 46.72 and 46.81 regarding transportation, possession, and sale; §§ 46.165 to 46.171 and 46.186 prescribing closed areas; and § 46.100 imposing limitations upon continued hunting by persons who shall have taken game animals equal to the yearly bag limit prescribed for any designated open area within the Territory.

9. Section 46.126 is amended to read as follows:

§ 46.126 *Methods and means.* Fur animals may be taken by any means except by aid or use of a set gun, a shotgun, artificial light of any kind, a steel bear trap or other trap with jaws having a spread exceeding 9 inches, poison, a dog (other than for taking wolves and coyotes in Fur Districts 5, 6, 7, and 8), a fish trap or net, by setting any trap or snare within 25 feet of a beaver house or den or within 100 feet of a fox den, by use of smoke or chemicals, by destroying or disturbing houses, dens, dams, or runways of such animals: *Provided,* That mink and beaver may be taken only by means of a steel trap or snare only by persons who have attained the age of 11 years: *Provided further,* That snares larger than No. 1 are prohibited on the Kenai Peninsula, except in the taking of beaver: *Provided further,* That wolves and coyotes may be killed at any time by means of a bow and arrow, rifle, shotgun, or pistol, by any person permitted to carry firearms: *Provided further,* That no aircraft shall be used in taking fur animals, except as a means of transportation between a settlement or point of outfitting and a single base camp and for locating, but not for taking, polar bear, and for the taking of wolves and coyotes by authorized predator-control agents or by persons conducting operations under authority of a permit: *And provided further,* That no helicopter shall be used in any manner in the taking or transportation of fur animals, including polar bear.

10. Section 46.127 is amended to read as follows:

§ 46.127 *Permits to take wolves and coyotes during closed season on other fur animals.* During the closed season on mink, land otter, weasel, fox, wolverine, lynx, and marten, in the respective Fur Districts, no person shall set, maintain, or attend traps for wolves or coyotes without first procuring a permit issuable at the discretion of the Commission, authorizing him to do so. Applications for such permits shall be addressed to the nearest Fish and Wildlife Service field office and shall contain a statement of the nature and extent and locality of the proposed operation and the species of animals to be taken.

11. Section 46.128 is amended to read as follows:

§ 46.128 *Seasons, limits, and other provisions.* The open seasons (dates inclusive), yearly bag limits, and other provisions applicable to the taking of fur animals shall be as shown in the following schedule:

NOTE: See § 46.58 regarding reporting kill of big game; §§ 46.61 to 46.72 and 46.81 regarding transportation, possession, and sale; §§ 46.165 to 46.171 and 46.186 prescribing closed areas; and § 46.100 imposing limitations upon continued trapping by persons who shall have taken fur animals equal to the yearly bag limit prescribed for any designated open area within the Territory.

13. Section 46.144 is revoked.

14. In § 46.155, paragraph (a) and the introductory text of paragraph (b) (preceding subparagraph (1)), are amended to read as follows:

§ 46.155 *Methods and means.* (a) Except as permitted in paragraph (b) of this section, game fishes may be taken only by angling with a single line held in the hand or attached to a rod so held, or fixed within sight of the owner when used for angling through the ice (in which case the fixed line shall be clearly marked with the name and address of the operator), but no line shall at any time have attached to it more than two flies or hooks, nor more than one plug, spoon, or spinner: *Provided,* That the use of snag or gang hooks is prohibited: *Provided further,* That Dolly Varden and Machinaw or lake trout may be taken by use of gill net, trap or seine in all drainages into the Arctic Ocean north of Cape Krusenstern and in salt water; but no game fish may be taken by any means within 300 feet of any operating fish weir or fish ladder; nor in those portions of the lower Russian and Kenai Rivers which lie within 300 yards of the mouth of the lower Russian River; nor in waters where game fish planting or restocking is being conducted and such waters are so designated by appropriately posted signs.

(b) Commercial fishing for Dolly Varden and Mackinaw or lake trout may be conducted during the period December 1 through April 30 in the waters of Iliamna, Ugashik, and Becharof Lakes and their outlet rivers, the Nushagak and Chilkat river drainages, and in such additional waters as may be designated from time to time by the Director of the Fish and Wildlife Service, upon recommendation of the Commission, and announced by him through suitable publication, subject to the following terms, conditions and restrictions:

• • • • •

15. Section 46.156 is amended to read as follows:

§ 46.156 *Seasons, limits, and other provisions.* The open seasons (dates inclusive), bag limits, and other provisions applicable to the taking of rainbow, steelhead, cutthroat, eastern brook, Dolly Varden, and Mackinaw lake trout, and grayling shall be as shown in the following schedule: *Provided,* That there shall be no limit on Dolly Varden trout taken in salt water or in the drainages into Bristol Bay; nor in the coastal drainages of the Bering Sea and Arctic Ocean northward from St. Michael (except in the Nome, Snake, Flambeau, and Eldorado Rivers): *Provided further,* That there shall be no limit on Dolly Varden and Mackinaw or lake trout in any area where, and during the period when, these species are being taken by gill nets, traps or seines under authority of a permit issued pursuant to paragraph (b) of § 46.155:

Areas open to fishing	Special provisions	Seasons	Limits

(Closed on moose).

(f) *Seward Peninsula-Kotzebue Sound area.* That portion of the second division lying between the Ungalik River and the Brooks Range. (Closed on moose.)

(g) *Mount Sanford area.* All of the drainage of the Copper River south of the Tok Cutoff and east of the Richardson Highway. (Closed on caribou.)

(h) *Steese Highway.* The area lying within 5 miles of each side of the Steese Highway between Mileposts 102 and 112 on Eagle Summit. (Closed on caribou.)

(i) *Cooper Landing area.* Beginning at the Forest Service trail from Kenai Lake and running to Cooper Lake and following this trail to its confluence with upper Russian Lake; thence downstream along upper and lower Russian Lakes and Russian River to its confluence with Kenai River; thence north along the National Forest boundary line to Chickaloon River; thence easterly to Summit Lake on the Seward-Anchorage Highway; thence southerly and westerly along the Seward-Anchorage Highway and Kenai River Highway to Kenai Lake; thence southerly along the west side of Kenai Lake to the place of beginning. (Closed on goats and sheep.)

(j) *Sheep Mountain.* Beginning at Caribou Creek mile 107 Glenn Highway; thence easterly along highway to Mile 123; thence in a line going north to Squaw Creek; thence downstream to Caribou Creek and downstream to point of beginning. (Closed on goats and sheep.)

(k) *Eagle River* (near Anchorage). The entire watershed of Eagle River upstream from the Anchorage-Palmer highway. (Closed on goats and sheep.)

(l) *Mentasta Pass.* A strip one mile wide on each side of Slana-Tok Highway between the Slana and Tok Rivers. (Closed on sheep.)

(m) *Thayer Mountain.* (on Admiralty Island.) Beginning at the foot of the waterfall at the mouth of Hasselborg River on Salt Lake, head of Mitchell Bay; thence along the easterly bank of the Hasselborg River to the outlet of Hasselborg Lake, thence along the west shore of said lake to the outlet of the creek flowing into the head of the lake; thence upstream along the east bank of said creek to the trail crossing; thence in a southwesterly direction along the trail to the head of Thayer Lake; thence along the easterly shore of said lake to the extreme southern end of the lake; thence southeasterly approximately 2 miles in a straight line to the west end of Salt Lake at the head of Mitchell Bay; thence along to the line of mean high tide of Salt Lake to the foot of the waterfall on Hasselborg River, the place of beginning, containing approximately 60 square miles. (Closed on brown and grizzly bear.)

(n) *Pack Creek.* (on Admiralty Island.) The entire watershed of Pack Creek, which empties into Seymour Canal near the north side of the entrance to Windfall Harbor, containing approximately 21 square miles. (Closed on brown and grizzly bear.)

(o) *McNeil River.* (in Kamishak Bay.) The entire watershed of McNeil River which empties into the head of Kamishak Bay in lower Cook Inlet. (Closed on brown and grizzly bear.)

(p) *Mt. Hayes Blair Lakes Refuge.* Beginning at the confluence of the Wood and Tanana Rivers; thence southeasterly along the east bank of Wood River to the Bonnifield Trail; thence easterly to the mouth of the Little Delta River; thence up the east bank of the Little Delta River to the summit of Mt. Hayes; thence to a point on the Big Delta River due west of Donnelly Roadhouse; thence northerly along the west bank of the Big Delta River to the Tanana River; thence following the south bank of the Tanana River to the point of beginning. (Closed on all game animals except black bear and hare and rabbit.)

18. The schedule constituting a part of § 46.102 *Seasons, limits, and other provisions* as the same appears in 19 F. R. 2634 is amended by deleting the text under the subheading "*Brown and grizzly bear*", column heading "Areas open to hunting", and by restating the areas open to the hunting of brown and grizzly bear as following:

Areas open to hunting	Seasons	Limits
• • •	•	•
Brown and grizzly bear		
On Kodiak Island		
Remainder of Alaska (except in the Thayer Mountain, Pack Creek, and McNeil River Areas as described in § 46.180).		
• • •	•	•

19. Section 46.186 *Continuously closed areas* as the same appears in 19 F. R. 2636, is amended by adding a new paragraph (q) reading as follows:

(q) *McNeil River.* (In Kamishak Bay.) The entire watershed of McNeil River which empties into the head of Kamishak Bay in lower Cook Inlet. (Closed on brown and grizzly bear.)

The changes in the Alaska Game Law regulations governing the 1954–55 hunting season which are effected by amendments numbered 18 and 19 are necessary to afford protection to brown and grizzly bear which utilize the McNeil River drainage in Kamishak Bay as a favorite congregation area. Since immediate action is necessary, notice and public procedure on amendments numbered 18 and 19 are impracticable (60 Stat. 237; 5 U. S. C. 1003), and they shall become effective upon publication in the FEDERAL REGISTER. The remaining amendments shall become effective on July 1, 1955.

(Sec. 9, 43 Stat. 743, as amended; 48 U. S. C. 198)

Issued at Washington, D. C., and dated May 24, 1955.

DOUGLAS MCKAY,
Secretary of the Interior.

PART 100—PUBLIC BUILDINGS AND GROUNDS

SUBPART B—SUPPLEMENTAL REGULATIONS

USE OF THE AUDITORIUM IN THE GENERAL SERVICES BUILDING

Sec.
100.36 Use of the auditorium.
100.37 Assignment limitations.
100.38 Reservations.
100.39 Operating requirements.
100.40 Cancellations of reservations.

AUTHORITY: §§ 100.36 to 100.40 issued under sec. 2, 62 Stat. 281, as amended; 40 U. S. C. 318a.

§ 100.36 *Use of the auditorium.* This section governs the use of the auditorium in the General Services Building.

§ 100.37 *Assignment limitations.* The auditorium in the General Services Building is available for assignment only to:

(a) Agencies of the Federal Government and the Government of the District of Columbia, for official use.

(b) Officially recognized activities, clubs, or educational units of the Federal Government or the Government of the District of Columbia.

(c) Organizations or groups of employees of the General Services Administration or other agencies occupying space in the building.

(d) Professional, scientific, and other organizations whose purposes are closely related to the activities of the Federal Government. The auditorium shall not be available for meetings of a political, sectarian, fraternal, or similar nature, or meetings held for the purpose of promotion of commercial enterprises or commodities.

§ 100.38 *Reservations.* Written requests for the use of the auditorium shall be submitted at least one week in advance. Requests should be addressed to the Director, Administrative Facilities Division, Room 7334, General Services Building, Washington 25, D. C. (Telephone Executive 3-4900, Government Dial Code 156, Extension 4595), and include the information outlined below:

(a) Name of agency in whose behalf the request is submitted.

(b) Date of requested assignment, and hours proposed for its commencement and termination. (No program shall continue beyond midnight.)

(c) Nature of the contemplated program.

(d) Approximate number of persons expected to attend, which shall not exceed the seating capacity of 324.

(e) Whether motion pictures or lantern slides are to be exhibited, stating, (1) title and subject matter; (2) size of film, 35 mm or 16 mm; (3) size of lantern slides.

(f) A sample of any literature or folders to be distributed or posted.

Reservations shall not be granted for the use of the auditorium on Saturdays, Sundays, holidays, or any other days when the building is closed to the public.

§ 100.39 *Operating requirements.* All persons attending meetings in the auditorium will be subject to all rules and regulations governing public buildings and will be required to comply with all instructions given by the guard force, who shall have access to the auditorium at all times. In addition, the following rules shall be adhered to:

(a) No admission fee, indirect assessment, collection, or commercial advertising of any sort, nor the sale of any articles, shall be permitted in connection with the auditorium.

(b) Serving of refreshments and smoking in the auditorium are prohibited.

(c) No special equipment or decorations may be used in the auditorium without permission. No changes whatsoever in fixtures and furnishings will be permitted.

(d) Music racks, ushers, and attendants for checking wraps, if needed, must be furnished by and at the expense of the permittee.

(e) Permittees will not be allowed to operate the projection equipment in the auditorium. When the services of a projectionist are needed, and provided notice is given sufficiently in advance, a competent operator will be furnished on a reimbursable basis by the General Services Administration. Other special personnel will not be furnished.

§ 100.40 *Cancellation of reservations.* All reservations shall be made with the understanding that if the auditorium is needed by the General Services Administration, such reservations may be canceled.

Approved: May 27, 1955.

EDMUND F. MANSURE,
Administrator.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 145]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h. TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter A—Aid of Civil Authorities and Public Relations

PART 804—RELATIONS WITH AGENCIES OF PUBLIC CONTACT

RELEASE OF MATTERS OF OFFICIAL RECORD

In Part 804, new sections 804.1 to 804.5 are added as follows:

Sec.
804.1 Purpose and scope.
804.2 Policy.
804.3 Procedures for submitting applications.
804.4 Action on applications.
804.5 Fees.

AUTHORITY: §§ 804.1 to 804.5 issued under R. S. 161; 5 U. S. C. 22.

DERIVATION: AFR 11-22, June 2, 1955.

§ 804.1 *Purpose and scope.* Sections 804.1 to 804.5 set forth the places at which and procedures whereby members of the public who are properly and directly concerned may apply for access to matters of official record under the control of the Air Force Establishment. Sections 804.1 to 804.5 also state policies governing the approval of such applications. The term "members of the public" includes agencies of State and local governments, private organizations, and individuals (including military and civilian personnel of the United States Government whose official duties do not entitle them to the matters of official record concerned), but does not apply to the release of records of information to other branches, departments, and agencies of the United States Government.

§ 804.2 *Policy.* It is the policy of the Air Force Establishment to make matters of official record available to persons properly and directly concerned, except those held confidential for good cause shown.

(a) The great mass of material that relates to the internal operation of the Air Force Establishment is not a matter of official record for the purposes of these sections, and accordingly will not be released. However, there are at various locations within the Establishment many types of official records that may be released. These include certain records filed pursuant to statute or regulation and certain records embodying official action taken by the Air Force Establishment. Such matters of official record may be made available to persons properly and directly concerned subject to the limitations set forth in §§ 804.1 to 804.5. It is impracticable to list all the types and locations of records that may be made available.

(b) Matters of official record will not be made available if release of the information is inconsistent with the public interest. Information will not be released:

(1) If it is official information classified in the interests of the defense of the United States or if it is restricted data as defined by the Atomic Energy Act of 1946 as amended.

(2) If release would unduly interfere with the efficient and effective performance of functions of the Air Force Establishment or some other department, or agency of the Government, including but not limited to such functions as law enforcement, maintenance of discipline, conduct of investigations, and conduct of relations with foreign governments.

(3) If release would violate a legal or moral obligation to hold the information or its source in confidence.

(4) If the information contains unsubstantiated allegations derogatory to the character or conduct of an individual, the release of which might result in injury to an innocent person.

(c) Applications for the original copy of an official record will not be approved.

§ 804.3 *Procedures for submitting applications.* (a) Except as prescribed in paragraphs (b) and (c) of this section, persons desiring matters of official record under the control of the Air Force Establishment may apply in writing to the Secretary of the Air Force, Washington 25, D. C. The application should:

(1) Identify as exactly as possible the records involved.

(2) Indicate whether access to, copies of, or information from the records is desired.

(3) State the nature of the applicant's concern in them in sufficient detail to demonstrate that the applicant is a person properly and directly concerned.

If the applicant is an agent, attorney, or physician acting for another, evidence of this authority to act for his principal, client, or patient should be submitted with the application.

(b) Persons desiring to have matters of official record made available for purposes of pending or prospective litigation may apply in writing to The Judge Advocate General, Headquarters, USAF, Washington 25, D. C. In addition to the information described in paragraph (a) of this section, the request will include the names of the interested parties to the prospective litigation and, if the action has been filed, the exact title of the action, docket number, and full name and location of the court in which the action has been filed, together with a brief statement of the nature of the action or proceeding. If a subpoena or other similar process of the court is involved, it will be forwarded with the request.

(c) Persons desiring matters of official record concerning Air Force military personnel or former Air Force military personnel should include in their written request, in addition to the information described in paragraph (a) of this section, the first name, middle name or initial, surname, date of birth, and service number of the individual concerned.

(1) Applications concerning military personnel on active duty or retired military personnel may be addressed to the Air Adjutant General, Headquarters USAF, Attn: Military Personnel Records Division, Washington 25, D. C.

(2) Applications concerning military personnel who are members of the Air Force Reserve and who are not on active duty may be addressed to the Air Reserve Records Center, 3800 York Street, Denver 5, Colorado.

(3) Applications concerning former Air Force military personnel who are not currently members of the Air Force may be addressed to the Military Personnel Records Center, 4700 Goodfellow Boulevard, St. Louis 20, Missouri.

§ 804.4 *Action on applications.* The Secretary of the Air Force or person designated by him (including those designated in other Air Force directives) will approve or disapprove each application in accordance with the policies prescribed in § 804.2, and he will notify the applicant of the decision. If the application is approved, he will advise the applicant, whenever appropriate, of the time and place that he may have access to the records.

§ 804.5 *Fees.* As prescribed in §§ 858.1 to 858.4 of this chapter, a charge, payable in advance, will be made for copying, certifying, and searching records in accordance with the schedule of fees.

[SEAL] E. E. TORO,
Colonel, U. S. Air Force, Air Adjutant General.

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

EXTENSION OF DATE OF EFFECTIVENESS OF ORDER PERMITTING USE OF CERTAIN CANADIAN TUGS TO TOW AND TRANSPORT EQUIPMENT IN AMERICAN WATERS ON THE ST. LAWRENCE RIVER

MAY 31, 1955.

Upon the written recommendation of the Deputy Secretary of Defense in the interest of national defense and by virtue of the authority vested in me by the act of December 27, 1950 (64 Stat. 1120), and revised Treasury Department Order No. 165 (T. D. 53654), I hereby extend until October 1, 1955, the effectiveness of the order dated April 22, 1955, and published as T. D. 53785 (20 F. R. 2856), waiving compliance with section 316, title 46, United States Code, to the extent necessary to permit the use of Canadian tugs to tow and transport equipment owned by A. S. Wikstrom, Inc., now located in the vicinity of Barnhart Island, in American waters adjacent to construction work being carried out by the New York State Power Authority on the St. Lawrence River.

(Sec. 1, 64 Stat. 1120; 46 U. S. C. prec. sec. 1 note)

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

MISCELLANEOUS AMENDMENTS

The following amendments to Title 39, Chapter I, are hereby issued:

PART 12—ENVELOPES

In § 12.4 amend paragraphs (a), (b), and (c) to read as follows:

§ 12.4 *Window envelopes.* (a) The address window must be parallel with the length of the envelope.

(b) The proper place for the address window is in the lower portion of the address side.

(c) Nothing but the name, address, and any key number used by the mailer may appear through the address window.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 13—ADDRESSES

1. In § 13.4 amend paragraphs (a), (c), (d) (1), and (e) to read as follows:

§ 13.4 *Simplified address*—(a) *Style.* Where general distribution of mail is desired for all patrons on a rural or star route at any post office or for all post office boxholders at a post office which does not have city or village carrier service, you may use a simplified address provided each piece is addressed in the appropriate following style:

(1) Rural or Star-Route Boxholder.
(2) Post Office Boxholder.
(3) Postal Patron. (This style may be used instead of styles (1) or (2).).

* * * * * *

(c) *"Occupant" mail.* To address mail to a specific street number without addressing the occupant by name, the following style may be used:

Postal Patron (or Occupant, Householder, Resident, etc.)

(Street and number, including apartment number, if any)

(Post office and State, or local)

(d) *Preparation requirements.* (1) You must tie all pieces for the same post office, so far as practicable, in packages of 50 and attach a facing slip showing the distribution desired, such as: rural route, post office boxholder, etc. If the pieces are put up in quantities other than 50 for each separation, the number of pieces must be shown on the facing slip.

* * * * * *

(e) *Number of patrons.* Upon request, postmasters will furnish without charge the number of patrons served, as follows:

(1) Number of post office boxholder patrons. (Only at post offices which do not have city or village carrier service.)

(2) Route numbers, and number of patrons on each rural and star route.

2. Section 13.5 *Correction of mailing list addresses* is amended to read as follows:

§ 13.5 *Correction of mailing list addresses*—(a) *Service available.* Mailing

lists submitted by departments of State governments, municipalities, religious, fraternal, and recognized charitable organizations and mailing lists used by concerns or persons for the solicitation of business by mail will be corrected as frequently as requested, at the expense of the owners of the lists. Postal employees must not compile mailing lists, including occupant lists. See paragraph (e) of this section.

(b) *Charge.* The minimum charge for each list corrected is 25 cents. For lists of more than 25 names or addresses the charge is 1 cent per name or street address, including individual apartments. Payment must be made in advance by cash or money order, including return postage. Lists used by Members of Congress and Federal agencies are corrected without charge. Where rural routes have been consolidated or changed to another post office, no charge will be made for correction if the list contains only names of persons residing on the route or routes involved.

(c) *Method of submission.* Lists should be submitted to the post office which serves the addresses on cards, one name to a card. Cards should be approximately the size and quality of a postal card. The owner's name should appear in the upper left corner of each card. Lists should be submitted by mail only, except in the case of local firms presenting large lists for correction.

(d) *Type of corrections made.* Names to which mail cannot be delivered or forwarded will be crossed off; incorrect house, rural, or post office box numbers will be corrected; initials will be corrected where apparently the name is known to the owner of the list; and the head of the family will be indicated, if known, when two or more names are shown for the same address. New addresses for patrons who have moved will be furnished when permanent forwarding orders are on file. If no change is necessary an "x" will be marked in the upper right corner of the card. New names will not be added to a list.

(e) *Occupant mailing lists.* Lists for mail addressed to "Occupant" at a street address will be corrected. The lists may be submitted on cards, one address to a card, or in sheet form provided the sheets are made up separately by carrier routes. Numbers representing incorrect street addresses will be crossed off, but numbers will not be changed. Numbers not shown on the mailing lists and to which delivery can be made will not be added to the lists. Postmasters or employees will not compile and provide mailers with addresses or mailing lists. Numbers representing addresses of business houses will be indicated by writing "B" opposite the number. Numbers served by rural route will be indicated by "R". Where cards are submitted they will be separated by routes and arranged in the order of delivery before being returned to the owner.

(f) *Postage on lists.* Lists prepared in handwriting or typewriting are subject to postage at the first-class rate. Those prepared by stencil, mimeograph, printing, or similar process may be mailed at the third- or fourth-class rate depending on the weight. Postage for return of corrected lists is at the same rate chargeable for submission, as the changes do not affect the rate. Lists will not be returned until the necessary postage has been paid.

3. In § 13.6 amend paragraphs (c) and (e) to read as follows:

§ 13.6 *Delivery zones.* * * *

(c) *Mailing lists.* Mailing lists covering delivery-zone post offices may be sent to those offices to have the zone numbers added without charge. Return postage is not required. They shall be returned by official mail.

* * * * *

(e) *List of zone offices.* The delivery-zone post offices are shown in the *Directory of Post Offices.*

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 16—BULK MAILINGS

In § 16.1 amend paragraphs (e) (5), (f) (6), (7) and (8), and (g) to read as follows:

§ 16.1 *Second class publications.* * * *

(e) *Determination of weight.* * * *

(5) *Payment of advertising rates on reading portion.* A publisher may, if he so desires, pay postage at the advertising zone rates on both the advertising and nonadvertising portions instead of marking a copy of each issue to show the advertising and nonadvertising portions. When the advertising exceeds 75 percent, the copies filed must have endorsed on the first page by the publisher the words "Advertising over 75 percent." When the advertising does not exceed 75 percent, the copies must have endorsed on the first page by the publisher the words "Advertising not over 75 percent." The entire weight must be entered on Form 3541 in the column provided for the advertising portion. The words "Over 75 percent" or "Not over 75 percent" according to whether the copies do or do not contain over 75 percent advertising must be entered on Form 3541 and Form 3542. The word "Waived" must be written in the space provided for the weight of the reading portion on Form 3541.

(f) *Prepayment of postage.* * * *

(6) *Payment of postage at time of mailing or by advance deposits.* You must pay in money before your mailings are dispatched all postage charged at the second-class rates shown in § 22.1. Exception: The transient rate (§ 22.1 (c)) and the 1 cent for each four ounce rate to Canada (§ 22.1 (d) (1)) must be paid by adhesive or meter stamps or by permit imprints. (See §§ 34.3 (b) and 34.5 (a) (2).) Your postmaster will accept deposits of money to pay for as many mailings as desired and will give you a receipt on Form 3544 for the deposits.

(7) *Record of mailings.* Postage on the bulk mailings will be computed on Form 3541 from the weights obtained on Form 3542. The publisher will be furnished a duplicate of Form 3541 if he requests one. When postage is computed on the bulk weight of one issue, the mailings and postage will be recorded in Form 3543. When postage is computed at the end of each calendar month on the total weight of all issues mailed during the month, the total mailings and postage for the month will be computed on one Form 3541 and only the totals will be recorded in Form 3543.

(8) *How to show dates of issue and mailing.* When a number of consecutive issues are covered by one Form 3541 or Form 3542, or by one entry in Form 3543, the dates of issue and the dates of mailing must be indicated by entering the first and last dates in the appropriate spaces and columns.

(g) *Controlled circulation publications.* * * * Each mailing must be prepared and made up for dispatch in the manner prescribed for second-class mail (paragraph (d) of this section).

(R. S. 161, 396, secs. 5, 6, 18 Stat. 232, 233, as amended, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 283, 285)

PART 22—SECOND CLASS

1. In § 22.1 *Second-class rates* amend paragraph (d) (5) to read as follows:

(5) *Bulk weight.* The pound rates are computed on the bulk weight of the mailings of each issue. There is no limit of weight for second-class mail.

2. In § 22.3 *Applications for second-class privileges* amend paragraph (a) (4) by changing Form 3501–C to Form 3501–A.

3. In § 22.4 *What may be mailed at the second-class rates* amend paragraph (f) by adding new subparagraph (7) to read as follows:

(7) *Mailed by printer.* Copies sent by a printer to a publisher are chargeable with postage at the third- or fourth-class rate, whichever is applicable, according to the physical characteristics of the publication and the weight of the package or parcel.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 23—CONTROLLED CIRCULATION PUBLICATIONS

In § 23.2 *Permits* amend paragraph (b) by adding the following thereto: "The postmaster will submit the application and one copy of the publication to the Bureau of Post Office Operations, Division of Mail Classification. Notice of authorization or disapproval will be furnished."

(R. S. 161, 396, sec. 203, 62 Stat. 1262; 5 U. S. C. 22, 369, 39 U. S. C. 291b)

PART 24—THIRD CLASS

In § 24.4 *Payment of postage* make the following changes:

1. In paragraph (b) (2), change Form 3603 to Form 3544.

2. In paragraph (b) (4), amend subdivision (i) to read as follows:

(i) Mailers other than nonprofit organizations must print the words "Bulk Rate" or the abbreviation "Blk. Rt.".

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 25—FOURTH CLASS

1. In § 25.2 *Classification* amend paragraph (a) (4) to read as follows:

(4) The rates in § 25.1 (c) are for: (i) Books of 24 pages or more, at least 22 of which are printed, permanently bound for preservation and consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising other than incidental announcements of books. Advertising includes paid advertising and the publisher's own advertising. The advertising may be in display, classified or editorial style.

(ii) 16-millimeter films, which must be positive prints in final form for viewing and 16-millimeter film catalogs of 24 pages or more, at least 22 of which are printed, except films and film catalogs sent to commercial theaters.

2. In § 25.5 amend paragraph (a) (4) and (5) to read as follows:

§ 25.5 *Written additions* — (a) *Required.* * * *

(4) Books and 16-millimeter film and 16-millimeter film catalogs mailed at the rates in § 25.1 (c) must be marked "Book" or "Book Rate".

(5) Library books, 16-millimeter films, filmstrips, sound recordings, and other articles mailed at the rates in § 25.1 (d) must be marked "Library Book" or "Library Book Rate".

* * * * *

(R. S. 161, 396, 3879; sec. 1, 25 Stat. 1, as amended, 29 Stat. 262, as amended, secs. 304, 309, 42 Stat. 24, 25, sec. 204, 62 Stat. 1262, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 240, 249, 292a)

PART 27—FRANKED, PENALTY, AND FREE MAIL

Section 27.5 *State employment security mailings* is amended to read as follows:

§ 27.5 *State employment security mailings.* All mail, including parcels, of State employment security offices cooperating with the Department of Labor, that bears in the upper left corner of the address side the words "Official Business" printed immediately below the name and address of the State employment agency, and in the upper right corner the words "Employment Security Mail—United States Postage Accounted for Under Act of Congress," will be accepted without prepayment of postage. Postage chargeable is collected periodically under a special arrangement with the Post Office Department. When sent by air, airmail postage must be prepaid. Such matter sent as registered, special delivery, or special handling mail also requires prepayment of the applicable fees.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 13, 48 Stat. 117, as amended, sec. 301, 62 Stat. 1048, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 3211, 338)

PART 31—STAMPS, ENVELOPES, AND CARDS

1. In § 31.3 *Printed stamped envelopes (special request)* amend the table in paragraph (a) by striking out the first two sizes shown therein and the information opposite the said two sizes.

2. In § 31.5 *Exchange of stamps* amend the first sentence of paragraph (c) (4) to read as follows: "Sheet postal cards, spoiled in the process of cutting to size, may be redeemed at 75 percent of postage value if all cut sections are submitted."

(R. S. 161, 396, 3915, 3916, sec. 1, 18 Stat. 231, as amended, sec. 1, 65 Stat. 672; 5 U. S. C. 22, 369, 39 U. S. C. 354, 356)

PART 33—METERED STAMPS

In § 33.3 *Use of meter* amend paragraph (b) to read as follows:

(b) *Payment of postage.* You must bring the meter and Meter Record Book to the post office or station or branch where it was first set, for resettings and payments of postage. Postage must be paid at time of setting. The postmaster will issue a Meter Setting Receipt, Form 3603–A, for the amount of postage paid. If a meter is not reset within a 6-month period, it must be presented, with Meter Record Book, showing daily register readings, at the post office, station or branch where last set, for examination.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 34—PERMIT IMPRINTS

1. In § 34.1 *Permit,* make the following changes:

1. In paragraph (a), change Form 3603 to Form 3544.

2. Amend paragraph (b) to read as follows:

(b) *Revocation.* The permit may be revoked if used in operating any unlawful scheme or enterprise, for nonuse during any consecutive 12 months, or for any noncompliance with instructions on Form 3601. The method of revoking permit is described in § 32.3 (c) of this chapter.

2. In § 34.2 *Form of permit imprints* make the following changes:

a. Amend the text of the section to read as follows:

§ 34.2 *Form of permit imprints.* The permit imprints must be made by printing press, lithography, mimeograph, multigraph, addressograph, or similar device and must not be hand-stamped. The style of impression must conform with those illustrated below and in § 34.3. The impression must be printed in a color that contrasts sufficiently with the paper to make the imprint readable, and must be placed in the upper right corner of the address side of each piece.

* * * * *

b. Strike out the two imprint samples bearing San Francisco postmarks.

c. In § 34.5 *Mailings with permit imprints,* make the following changes:

1. Add the following to paragraph (e): "If a receipt is desired, present a duplicate copy of Form 3602, which will be initialed by the accepting employee after verification and returned to you."

2. Amend paragraph (f) to read as follows:

(f) *Payment of postage.* You must pay for each mailing when it is presented at the post office, or make an advance deposit of enough to cover more than one mailing. Payments for postage or deposits must be made at points designated by the postmaster. These payments will not be accepted by employees handling the mail. When the deposit becomes less than enough to pay for an entire mailing, an additional amount must be deposited before any mailings are made. The postmaster will give you a receipt for each payment, on Form 3544. Credit for postage is not allowed. Postage on a mailing must be paid by only one method; that is, postage may not be paid partly in money and partly by postage stamps.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 5, 41 Stat. 583, as amended, 47 Stat. 647; 5 U. S. C. 22, 369, 39 U. S. C. 273, 273a)

PART 41—SERVICE IN POST OFFICES

In § 41.3 *Post office boxes,* amend paragraph (c) to read as follows:

(c) *Rental rates*—(1) *Main office.* Box rent rates are adjusted annually on July 1, according to the gross receipts of the office for the previous calendar year.

(2) *Stations and branches.* Box rent rates in effect at stations and branches on June 30, 1955, remain unchanged until the rates at the main office increase or decrease, at which time stations and branches will adjust box rents in the same direction by one bracket.

(3) *Schedule.*

(R. S. 161, 396, 3901, as amended, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 279)

PART 44—CONDITIONS OF DELIVERY

In § 44.8 *Delivery of packages* amend paragraph (b) to read as follows:

(b) *Unprotected places.* Parcels will not be left on porches, steps, or elsewhere unprotected, except on the written order of the patron or when authorization for such delivery has been placed on the parcel by the mailer.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 51—REGISTRY

1. In § 51.2 *Registration* make the following changes:

a. In paragraph (b), strike out present subparagraph (2); and redesignate subparagraph (3) as subparagraph (2).

b. In paragraph (c), amend subparagraph (1) to read as follows:

(1) Articles are placed in street letter boxes or in mail drops in post offices.

2. In § 51.4 *Fees, surcharges, and return receipts* amend paragraph (g) by adding new subparagraph (7) to read as follows:

(7) The value is not required to be declared on matter entitled to free registration.

(R. S. 161, 396, 3926, as amended; secs. 304, 309, 42 Stat. 24, 25, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f, 361)

PART 52—INSURANCE

1. In § 52.3 *Mailing* amend paragraph (c) to read as follows:

(c) *Individual receipts for mailing.* You are issued a receipt for each insured parcel mailed. No mailing office record is kept of packages insured for $10 or less. You must enter the name and address of the addressee on the receipt and retain it. You must submit the receipt if you file an application for payment of insurance or if you file an inquiry concerning the parcel.

2. In § 52.5 *Delivery* make the following changes:

In paragraph (a) (2), second sentence, change "undeliverable" to "undelivered".

b. Add the following to paragraph (b): "A second notice is issued if the article is undelivered after 5 days."

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 1, 41 Stat. 581, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f, 382)

PART 53—C. O. D.

1. In § 53.3 *Mailing* add new subparagraph (5) to paragraph (d), to read as follows:

(5) The package must bear the complete names and addresses of the sender and addressee, and the c. o. d. endorsement showing the amount due the sender and the money order fee necessary to make the remittance.

2. In § 53.5 amend paragraphs (a) (1) and (2) and (b) and add new paragraph (a) (5), to read as follows:

§ 53.5 *Delivery*—(a) *At letter carrier offices.* (1) A c. o. d. parcel will be tendered to you at your home, or if you receive your mail in a post office box or through general delivery, you will be furnished a notice of the arrival of the parcel. If the parcel is undelivered after 5 days, a second notice will be sent you. If you do not accept the parcel when it is tendered, it will be returned to the post office and held for the length of time directed by the sender, but never more than 15 days. You may go to the post office and obtain the parcel or you may request that it be delivered to your home. The mailer may also request that it be delivered again.

(2) A request that a second attempt be made by a carrier to deliver a c. o. d. parcel that was refused the first time must be accompanied by postage at the local rate. A parcel that was not refused will be tendered a second time only if the addressee gives assurance that it will be accepted; and no extra postage will be charged. A request by the sender for renewed delivery service must be accompanied by postage at the local rate.

* * * * *

(5) You must have the amount of the c. o. d. charges as the carrier is not furnished change.

(b) *At offices not having carrier delivery service.* You will be notified when a c. o. d. parcel is on hand for delivery. The notice is placed in the general delivery or in a post office box. A second notice is issued if the article is undelivered after 5 days.

* * * * *

3. In § 53.6 *Registered c. o. d. mail* add the following to the present text: "If envelopes are used as covers, they must not be smaller than 4 x 7¾ inches."

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 56—SPECIAL DELIVERY

In § 56.2 *Payment for special delivery,* make the following changes:

1. Redesignate paragraph (c) as paragraph (d); and insert new paragraph (c) to read as follows:

(c) *Marking.* You should mark the words "Special Delivery" above the name of the addressee.

2. In paragraph (d), formerly (c), amend subparagraph (1) to read as follows:

(1) *Letters.* The failure of the sender to place the correct postage on a special-delivery letter will not hinder or delay the transmission and special delivery of the letter. The letter will be dispatched from the office of mailing and postage due will be collected as provided in subparagraph (4) of this paragraph.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

PART 57—SPECIAL HANDLING

1. In § 57.1 *Description of special handling* amend the first sentence to read as follows: "Special-handling service is available for fourth-class mail only, including that which is insured or sent c. o. d."

2. Amend § 57.3 *Marking of parcels* to read as follows:

§ 57.3 *Marking of parcels.* You should mark the words "Special Handling" above the name of the addressee.

3. Section 57.5 *Insufficient postage* is hereby added to Part 57—Special Handling, to read as follows:

§ 57.5 *Insufficient postage.* Parcels on which the postage is not fully prepaid are held for postage. Exception: If the fee has been fully paid but through error the postage is shortpaid and it is not practicable to collect the deficiency from the sender without delaying the parcel, it is rated with the amount due and dispatched.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF PHYGON

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act as amended (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 348 (d) (1)), the following notice is issued:

A petition has been filed by United States Rubber Company, c/o Arthur, Dry and Dole, 1230 Sixth Avenue, New York, New York, proposing that tolerances for Phygon (dichlone or 2,3-dichloro-1,4-naphthoquinone) be established at 3 parts per million on celery and tomatoes.

The analytical method proposed in the petition for the determination of residues of Phygon is a modification of the analytical method proposed by Burchfield and McNew, in Phytopathology, volume 38, page 665, 1948, and is as follows:

Approximately 1,100–1,400 grams of celery or tomatoes are extracted with 500 milliliters of benzene in a gallon jar. The benzene extract is dried and evaporated to 50 milliliters. A 10-milliliter aliquot is placed in a 25-milliliter ground glass stoppered graduated cylinder and diluted to 20 milliliters with isopropanol. One milliliter of 25 percent aqueous dimethylamine is added and the solution brought to 25 milliliters with isopropanol. At this point a color develops which is stable for 45 minutes.

The color intensity is determined on a Beckmann DU spectrophotometer. The reference cell is composed of a similar 10-milliliter aliquot diluted to 25 milliliters with 1 milliliter of water and the required amount of isopropanol. The corrected intensity is then compared to a standard intensity curve obtained on known amounts of 2,3-dichloro-1-4-naphthoquinone.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following special learner certificate was issued in Hawaii to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

Kahala Sportswear, Ltd., 1329 Kanalle Street, Honolulu, Hawaii, effective 6-2-55 to 6-1-56, 6 learners for normal labor turnover purposes as sewing machine operator, 480 hours at 70 cents for the first 320 hours of employment and 72½ cents per hour for the remaining 160 hours. All hours spent by learners employed under this certificate in previous training on scrap materials must be deducted from the authorized learning period (ladies', men's, and children's apparel).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 24th day of May 1955.

Notice of investigations for the purpose of recommending minimum wages to be paid under the Fair Labor Standards Act in the following industries or divisions thereof in Puerto Rico: The Silk, Rayon, and Nylon Underwear Division, and the Miscellaneous Division, of the Needlework and Fabricated Textile Products Industry; Alcoholic Beverage and Industrial Alcohol Industry; Food and Related Products Industry; Tobacco Industry; the Telephone Division, the Radio and Television Broadcasting Division, and the Gas Utility Division of the Communications, Utilities, and Miscellaneous Transportation Industries.

Pursuant to sections 5 and 8 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C., and sup., 201 et seq.) notice is hereby given that Special Industry Committees Nos. 17-A, 17-B, 17-C, 17-D and 17-E for Puerto Rico will be convened to investigate conditions and to recommend minimum wages for employees engaged in commerce or in the production of goods for commerce in the industries or divisions of industries in Puerto Rico in the order named below. The first committee will be convened on or about July 11, 1955, and the other Committees will be convened thereafter as quickly as feasible.

(1) *The Silk, Rayon, and Nylon Underwear Division, and the Miscellaneous Division, of the Needlework and Fabricated Textile Products Industry.*[1] These divisions are defined as follows:

(a) *Silk, Rayon, and Nylon Underwear Division.* The manufacture, from any fabric containing a mixture of cotton and other fibers, of women's, misses', and girls' underwear and nightwear, including, but not by way of limitation, slips, nightgowns, negligees, panties, step-ins, pajamas, and similar articles.

(b) *Miscellaneous Division.* The manufacture of all products included in the Needlework and Fabricated Textile Products Industry, as defined, which are not included in any of the other divisions of the industry.[1a]

In addition to the above defined divisions, the Needlework and Fabricated Textile Products Industry includes the following divisions, not to be considered by Committee No. 17:

Art Linen and Needlepoint Division; Blouse, Dress, and Neckwear Division; Children's and Dolls' Wear Division; Corde and Bonnas Embroidery and Corde Handbag Division; Cotton Underwear and Infants' Underwear Division; Crochet Beading, Bullion Embroidery, Machine Embroidered Lace, Insignia, and Chevron Division; Crocheted Hats and Infants' Bootee Division; Crocheted Slipper Division; Dungarees, Slacks, and Related Products Division; Fabric Glove Division; Handkerchief and Square Scarf Division; Hat Body Division; Infants' Wear Division; Knit Glove Division; Leather Glove Division; Sweater and Bathing Suit Division.

(2) *Alcoholic Beverage and Industrial Alcohol Industry.* This industry is defined as follows: The manufacture, including, but without limitation, the distilling, rectifying, blending or bottling of rum, gin, whiskey, brandy, cordials, liqueurs, wines, ale, beer and similar malt beverages with or without alcohol, and other alcoholic beverages; industrial alcohol, such as ethyl alcohol, butyl alcohol, and acetone; antifreeze; and any related by-products resulting from the manufacture of any of the foregoing products.

(3) *Food and Related Products Industries.* These industries are defined as follows: The canning, preserving (including freezing, drying, dehydrating, curing, pickling, and similar processes), or other manufacturing or processing, and the packaging in conjunction therewith, of foods, ice, and non-alcoholic beverages, including, but without limitation, meat animals and meat animal products; poultry and poultry products; milk and dairy products; fish and seafood products; fruits or vegetables, and fruit or vegetable products; grains and grain products; bakery products; confectionery and related products; and miscellaneous foods and food products.

The handling, grading, packing, or preparing in their raw or natural state of fresh vegetables, fresh fruits, or nuts; and the gathering of wild plant or animal life:

Provided, however, That the definition shall not include any product or activity included in the Sugar Manufacturing Industry or the Chemical, Petroleum, and Related Products Industries, as defined in the wage orders for those industries in Puerto Rico, or in the Alcoholic Beverage and Industrial Alcohol Industry, as defined herein.

(4) *Tobacco Industry.* This industry is defined as follows: The processing of leaf tobacco including, but without limitation, the grading, fermenting, stemming, chopping, packing, storing, drying, and handling of tobacco prior to use in the manufacture of cigars or other finished tobacco products; the manufacture of cigarettes, cigars, cheroots, and little cigars, including the stemming of cigar wrappers or binders by a cigar manufacturer; and the manufacture of snuff, chewing tobacco, and smoking tobacco.

(5) *The Telephone Division, the Radio and Television Broadcasting Division, and the Gas Utility Division of the Communications, Utilities, and Miscellaneous Transportation Industries.*[2] These divisions are defined as follows:

(a) *Telephone Division.* This division consists of the industry carried on by any telephone system of communication.

(b) *Radio and Television Broadcasting Division.* This division consists of the industry carried on by any concern engaged in radio or television broadcasting.

(c) *Gas Utility Division.* This division consists of the industry carried on by any concern engaged in the production or distribution of gas.

All persons who desire to participate in these proceedings are requested to file not later than July 1, 1955, notices of appearance together with written statements or briefs for the consideration of the committees. Eight copies of such statements or briefs should be filed with Dr. James G. Johnson, Territorial Director of the Wage and Hour Division, Post Office Box 9061, Santurce 29, Puerto Rico.

The statements or briefs should be material and pertinent to the issues under consideration by the committee. Illustrative of the types of information in which the committee is interested are the following items: (1) Name and address of firm, organization or individual supplying the information, (2) if a manufacturer, items produced and corporate affiliations, (3) employment and labor conditions and trends in Puerto Rico and/or the mainland, particularly since the promulgation of the presently applicable wage orders, including such items as present and past employment, present wage rates and fringe benefits, changes in average hourly earnings or wage structure, provisions of collective bargaining agreements, hours of work, labor turnover, absenteeism, productivity, learning periods, rejection rates, and similar factors, (4) market conditions and trends, in Puerto Rico and/or on the mainland, including changes in the volume and value of production, market outlets, price changes, style factors, consumer demand, competitive relationships, tariff rates, and similar marketing factors, (5) comparative production costs in Puerto Rico, the mainland, and foreign countries and the factors responsible for differences, (6) financial conditions and trends since promulgation of present wage order as reflected in profit and loss statements and balance sheets, copies of which should be appended to the statement or brief, (7) data bearing on proper definitions of divisions within an industry, and (8) such other data as may assist the committee in the performance of its functions under the criteria established in section 8 of the Fair Labor Standards Act. At the discretion of the committee, parties who request to be heard orally may be afforded the opportunity.

Signed at Washington, D. C., this 31st day of May 1955.

STUART ROTHMAN,
Solicitor of Labor.

[Case No. 177]

GEORG HAUPTFELD

ORDER CONDITIONALLY TERMINATING DENIAL ORDER

In the matter of Georg Hauptfeld, Hochstrasse 19, Frankfurt, Germany, respondent; Case No. 177.

The respondent, Georg Hauptfeld, having heretofore by order dated April 21, 1954, published April 24, 1954, 19 F. R. 2432, been denied all United States export privileges for the duration of export controls, subject, however, to the privilege of applying for the restoration of the export privileges so denied on and after April 21, 1955, upon showing that he (1) had fully and faithfully complied with and adhered to the terms of the denial order and of the Export Control Act and the regulations thereunder since the issuance of the denial order, (2) had permanently and irrevocably severed all business connections and associations with Franz Hanke, Vienna, Austria, and with the latter's business organizations and related ventures, all of which had likewise been denied all United States export control privileges for the duration of export controls by the denial order above cited, and (3) that the restoration of export privileges to respondent would not be used as a subterfuge to enable him to act as a front or coverup for Hanke's possible transactions in commodities exported from the United States while the denial order remained in effect as to him and his various business enterprises, and

The respondent having filed an application with the Bureau of Foreign Commerce on April 24, 1955 for restoration of the export privileges denied by said order and it appearing therein that respondent is no longer affiliated with Franz Hanke or his business organizations and that he has duly complied with the terms of the denial order and adhered to the export law and regulations, and an investigation into the representations made by the respondent in the application having apparently confirmed said representations, and it appearing that there is reasonable cause to believe that the respondent will not conduct himself henceforth in a manner contrary to the United States export program and the laws and regulations relating thereto;

It is ordered, That the denial order dated April 21, 1954, 19 F. R. 2432, as it applies to the respondent, Georg Hauptfeld, is hereby conditionally terminated and shall be inoperative as to the respondent subject only to being summarily reinstated and made operative if the respondent shall at any time during the period while the said denial order is in effect against Franz Hanke or his business organizations in any manner or form, directly or indirectly, knowingly assist Franz Hanke or his business organizations in any transaction or transactions involving commodities exported or to be exported from the United States or the servicing thereof.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-287]

EL DORADO OIL WORKS

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

MAY 31, 1955.

In the matter of El Dorado Oil Works, Capital Stock, No Par Value; File No. 1-287.

The above named issuer, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw the specified security from listing and registration on the San Francisco Stock Exchange.

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

Pursuant to an exchange agreement, 370,078 of the 388,614 outstanding shares of the applicant have been acquired by Foremost Dairies, Inc., which is also shortly to acquire 10,000 shares held by a director of the applicant.

The remaining 8,536 shares are held by approximately 70 shareholders, to whom the offer of exchange is still available.

The San Francisco Stock Exchange has waived the requirement of its rules for a vote upon delisting and has suspended the stock from dealings thereon at the close of business May 19, 1955.

Upon receipt of a request, on or before June 16, 1955, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this

security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[File No. 70-3373]

SOUTHWESTERN GAS AND ELECTRIC CO.

ORDER PERMITTING DECLARATION REGARDING PROPOSED AMENDMENT TO CERTIFICATE OF INCORPORATION AND ISSUANCE AND SALE AT COMPETITIVE BIDDING OF PREFERRED STOCK TO BECOME EFFECTIVE

MAY 31, 1955.

Southwestern Gas and Electric Company ("Southwestern"), an exempt holding company and a public-utility subsidiary of Central and South West Corporation, a registered holding company, has filed a declaration with this Commission pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder in respect of the following proposed transactions:

Southwestern proposes to amend its corporate charter to effect certain changes in the terms and provisions of its preferred stock principally as follows: (i) An increase in the amount of unsecured indebtedness which Southwestern may issue or assume, without the consent of the preferred stockholders, from 10 percent to 20 percent of the aggregate of secured debt and capital stock and surplus, provided, however, that no more than an amount equal to 10 percent of such aggregate may be of a maturity of less than 10 years; (ii) a relaxation of the restrictions on the payment of common stock dividends so as to permit the payment of any dividends which Southwestern could have paid, but had not paid, in any previous year or years; (iii) a reduction in the vote required to authorize the issuance of additional preferred stock ranking on a parity with the outstanding preferred stock, unless specified requirements as to gross income and common stock equity are met, from the holders of two-thirds to the holders of a majority of the preferred stock; and (iv) a prohibition of the acquisition or redemption of preferred stock when dividends are in arrears, unless all outstanding stock shall be redeemed or retired or authorization therefor is obtained under the act.

Upon the effectuation of the proposed charter amendment, Southwestern proposes to issue and sell at competitive bidding, pursuant to Rule U-50, 60,000 shares of -- Percent Preferred Stock, par value $100 per share. The price to be paid Southwestern (which shall be not less than $100 per share nor more than $102.75 per share) and the dividend rate (which is to be expressed in a multiple of 0.04 of 1 percent) are to be fixed at competitive bidding.

The fees and expenses to be paid or incurred by Southwestern in connection with the proposed transactions are not to exceed the following amounts:

Securities and Exchange Commission filing fee	$624
Federal original issue stamp tax	6,600
Printing and engraving	7,900
Accountants fees—Arthur Andersen & Co	1,500

T. M. Markley, Tulsa, Okla	500
Prendergast & Prendergast, Marshall, Tex	100
Miscellaneous expenses	2,066
Total	34,000

The filing states that Middle West Service Company; Stevenson, Dendtler, Bailey & McCabe; Wilkinson, Lewis & Wilkinson and Prendergast & Prendergast are on annual retainers and that the foregoing indicated amounts are the portions of these annual retainers allocated by Southwestern to the issuance and sale of the new preferred stock. The fee of Messrs. Isham, Lincoln & Beale, Chicago, Illinois, counsel for the successful bidder or bidders who are to pay such fee, will not exceed $5,000.

No State commission and no Federal regulatory agency other than this Commission has jurisdiction over the proposed transactions;

The Commission having, by order dated May 2, 1955, approved the solicitation of proxies from stockholders of Southwestern in respect of the proposed charter amendment; and, at the same time, notice of the filing of the declaration in respect of the issuance and sale of preferred stock having been given in the form and manner prescribed by Rule U-23 of the act, and the Commission not having received a request for and not having ordered a hearing in respect of said declaration; and

The Commission finding that the applicable provisions of sections 6 (a) and 7 of the act and Rule U-50 promulgated thereunder have been satisfied and observing no basis for any adverse findings or for the imposition of terms and conditions, other than those contained in Rules U-24 and U-50; finding that the fees and expenses, if they do not exceed the estimates, are not unreasonable; and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said declaration be, and the same hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-24 and U-50.

By the Commission.

WEST PENN ELECTRIC CO.

NOTICE OF FILING REGARDING SALE BY REGISTERED HOLDING COMPANY OF CAPITAL STOCK OF NON-UTILITY SUBSIDIARY COMPANY

MAY 31, 1955.

Notice is hereby given that The West Penn Electric Company ("West Penn"), a registered holding company, has filed a declaration with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act"). West Penn has designated section 12 (f) of the act and Rule U-43 thereunder as applicable to said filing.

All interested persons are referred to said declaration which is on file in the offices of the Commission for a statement of the transaction proposed therein, which is summarized as follows:

West Penn and The Greyhound Corporation ("Greyhound"), which is not affiliated with West Penn, each owns 10,000 shares (50 percent) of the outstanding common stock of Penn Bus Company ("Penn Bus"), a non-utility company. Pursuant to a contract dated October 1, 1953, West Penn proposes to sell, on or before November 30, 1955, its holdings of the Penn Bus stock to Greyhound for a cash consideration equivalent to one-half of the amount, on the last day of the month preceding the date of the sale, of the total assets less the total liabilities (other than capital stock and unappropriated surplus) of Penn Bus, which consideration as of March 31, 1955 amounted to $146,263. The filing states that the consideration for the 10,000 shares of Penn Bus stock was determined at arm's-length between West Penn and Greyhound.

The contract for the sale by West Penn of its holdings of Penn Bus stock is stated to have been executed simultaneously with, and is related to, a contract entered into jointly by The Blue Ridge Transportation Company ("Blue Ridge"), and White Star Lines, Inc. ("White Star"), both of which are direct or indirect subsidiaries of West Penn, for the sale of all of their assets and businesses to Greyhound. West Penn represents that the contracts between it and its subsidiaries, on the one hand, and Greyhound, on the other hand, are subject to rescission unless all of the proposed transactions are approved by the regulatory authorities having jurisdiction with respect thereto.

West Penn states that no State commission and no Federal regulatory agency, other than this Commission, has jurisdiction over the sale by it of the Penn Bus stock; that acquisition of the Penn Bus stock by Greyhound has been approved by order of the Interstate Commerce Commission and that no other State commission or Federal regulatory agency has jurisdiction over the acquisition; and that the sale by Blue Ridge and White Star of their assets to Greyhound is exempt from the provisions of the act pursuant to Rule U-8 promulgated thereunder.

Notice is further given that any person may, not later than June 14, 1955, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on this matter, stating the nature of his interest, the reason for such request, and the issues of fact or law, if any, raised by said filing which he proposes to controvert, or he may request to be advised if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the declaration, as filed or as it may hereafter be amended, may be permitted to become effective pursuant to Rule U-23 of the rules promulgated under the act, or said transaction may be exempted as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

TRI-STATE INVESTMENT CO.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF INTRA-STATE CLOSED-END INVESTMENT COMPANY

MAY 31, 1955.

Notice is hereby given that Tri-State Investment Company ("Tri-State"), a New Jersey corporation, with principal offices located in Woodbury, New Jersey, has filed an application pursuant to section 6 (d) of the Investment Company Act of 1940 ("act"), and Rule N-6D-1 thereunder, for an order of the Commission exempting it from the provisions of the act.

Tri-State is a closed-end management investment company as defined in the act and was organized on April 12, 1955. Its authorized capital consists of 20,000 shares of Common Stock, having a par value of $5 per share. The company proposes to offer its stock at not less than par, and represents that the aggregate sums to be received from the sale of all of its outstanding securities, plus the aggregate offering price of all securities (including any security issued in connection with the borrowing of money) of which applicant is the issuer and which it proposes to offer for sale, will not exceed $100,000. The proposed offering will be restricted to the State of New Jersey, and no offering will be made to any person not a resident of the State of New Jersey.

Tri-State represents that 75 percent of all of its investments (excluding investments in United States Government securities) will be made in the securities of corporations doing business in the States of New Jersey, Delaware, and Pennsylvania.

At the present time, Tri-State has outstanding 1,020 shares of stock held by six persons. Its assets consist of $5,100 in cash, in a bank account. The company has six directors, four of whom are also officers and all of whom are residents of New Jersey.

Section 6 (d) of the act provides in substance that the Commission by order upon application shall exempt a closed-end investment company from any or all provisions of the act, but subject to such terms and conditions as may be necessary or appropriate in the public interest or for the protection of investors, if the aggregate sums received from the sale of all its securities, outstanding and proposed to be offered, do not exceed $100,000, and if the sale of its securities is restricted to the residents of the state of its organization.

Notice is further given that any interested person may, not later than June 15, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

E. I. DUPONT DENEMOURS AND CO.

NOTICE OF FILING OF APPLICATION REGARDING THRIFT PLAN FOR EMPLOYEES

MAY 31, 1955.

E. I. DuPont DeNemours and Company ("DuPont"), which is controlled by Christiania Securities Company, a registered closed-end non-diversified investment company, which in turn is controlled by Delaware Realty and Investment Company, also a registered closed-end non-diversified investment company, has filed an application pursuant to Rule N-17D-1 of the rules and regulations promulgated under the Investment Company Act of 1940 ("act") for an order under that rule granting such application in respect of a Thrift Plan for employees.

The purpose of the Thrift Plan is to encourage employees in the habit of thrift and to provide an opportunity for employees, at no cost to themselves, to become stockholders of DuPont.

In essence, the Thrift Plan provides that any employee who has completed two years of continuous service may participate by authorizing DuPont to make savings deductions from his salary or wages in an amount ranging from $12.50 to $37.50 per month. The amounts so deducted will be deposited in a separate bank account pending purchase of United States Savings Bonds, Series E, in $50 denominations by a designated savings bond custodian. As sooon as practicable after the fourth anniversary of the effective date of an employee's participation in the plan, and annually thereafter, savings bonds held by the custodian for more than three years from issue date will be delivered to him.

A trust to be known as the Thrift Incentive Fund will be established by DuPont for the exclusive benefit of Thrift Plan participants. Generally speaking, DuPont will make monthly deposits to the trust equal to 25 percent of the savings deducted during that month. Such contributions will be invested by the trustee in the common stock of DuPont. The trustee will enter on the record of each individual participant his proportionate share of common stock acquired by the trustee during the month. The trustee will hold any full share of stock registered in the participant's name until four years following the effective date of the participant's participation in the plan or for two years after the participant becomes entitled to a full share, whichever is later. Any cash or dividends payable on such stock during the period held by the trustee will be paid to the participant. Provision is made for split-ups and purchase warrants applicable to DuPont's common stock.

Provision is also made for prompt payment of an employee's accumulated savings in the event he no longer participates in the Thrift Plan and if participation ends after one year's participation he will receive full shares to which he is entitled plus cash for fractional shares and his proportionate share of any uninvested cash in the Thrift Incentive Fund. Except under certain enumerated conditions, if participation terminates prior to one year after effective date of participation, the participant's proportionate share in the Thrift Incentive Fund is forfeited.

DuPont reserves the right to modify the Thrift Plan in any respect, or to terminate it, at the end of the month. However, no termination or modification shall make it possible for DuPont to receive any part of the Thrift Incentive Fund except any balance remaining after satisfaction of all fixed and contingent obligations of DuPont under the Thrift Plan.

It is represented that the Internal Revenue Service has determined that the Thrift Incentive Fund established under the Thrift Plan constitutes a stock bonus trust which will be exempt from Federal

income tax and that the contributions to such trust will be allowed as deductions from DuPont's gross income.

It is anticipated that 50 percent or more of DuPont employees will participate and assuming an average of $25 of savings per month for each employee participant, the estimated annual contribution by DuPont would be approximately $2,700,000. Annual costs of administration, to be borne by DuPont, on the basis of the above assumption are estimated at approximately $175,000.

DuPont believes that the Thrift Plan will prove to be of substantial benefit to it in that employees' performance will thereby be enhanced.

Rule N-17D-1 provides, among other things, that it shall be unlawful, with certain exceptions not applicable here, for any affiliated person of a registered investment company or of any company controlled by any such registered investment company to participate in, or effect any transaction in connection with any bonus, profit-sharing or pension plan in which any such registered investment company or controlled compay is a participant unless an application regarding such plan has been granted by the Commission prior to adoption thereof if not submitted to stockholders for approval.

Since affiliated persons of the registered investment companies, referred to above, which control DuPont would be eligible to participate, the Thrift Plan is subject to the provisions of Rule N-17D-1. The Thrift Plan has been adopted with respect to employees who are not affiliated with such registered investment companies and will be effective as to the affiliated employees only upon issuance of an order of this Commission granting the application herein.

Notice is further given that any interested person may, not later than June 15, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

TITLE 3—THE PRESIDENT

PROCLAMATION 3097

FLAG DAY, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the flag which we cherish as the emblem of our unity, our strength, and our free institutions, was adopted by resolution of the Continental Congress on June 14, 1777; and

WHEREAS under the protecting folds of this banner generations of Americans have enjoyed the blessings of liberty and justice inherent in our form of government; and

WHEREAS it has become our custom to observe June 14 with appropriate ceremonies commemorative of the adoption of the flag and expressive of our devotion to the Republic which it so nobly represents; and

WHEREAS in recognition of the fitness of such commemoration, the Congress, by a joint resolution approved August 3, 1949 (63 Stat. 492), designated June 14 of each year as Flag Day and requested the President to issue annually a proclamation calling for its observance:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby call upon the appropriate officials of the Federal Government, and of the State and local Governments, to arrange for the display of our colors on all public buildings on Flag Day, June 14, 1955; and I urge all of our people to observe the day by flying the Stars and Stripes at their homes or other suitable places and by participating in ceremonies especially designed to honor the flag of the United States.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this first day of June in the year of our Lord nineteen hundred and fifty-five, and of the Independence of the United States of America the one hundred and seventy-ninth.

PROCLAMATION 3098

CITIZENSHIP DAY, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS, by joint resolution approved February 29, 1952 (66 Stat. 9), the Congress of the United States has designated the 17th day of September of each year as Citizenship Day in commemoration of the signing of the Constitution of the United States on September 17, 1787, and in recognition of all our citizens who have come of age and all who have been naturalized during the year; and

WHEREAS in this time of world uncertainty and unrest it is most appropriate that every one of our citizens, whether native-born or foreign-born, give special thought to the priceless blessings secured to us by our Constitution; and

WHEREAS the aforesaid resolution authorizes the President to issue annually a proclamation calling for the observance of Citizenship Day with appropriate ceremonies:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, call upon the appropriate officials of the Government to

§ 421.1328 *Definitions.* As used in this subpart, and in all instructions, forms and documents in connection herewith, the words and phrases defined in this section shall have the meaning herein assigned to them unless the context or subject matter otherwise requires.

(a) *Farm.* "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the County Committee determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(b) *Person.* "Person" means an individual, partnership, association, corporation, estate, trust, or other business enterprise or legal entity, and, wherever applicable, a State, political subdivision of a State, or any agency thereof.

(c) *Operator.* "Operator" means the person who, as landlord or tenant, is in charge of the supervision and conduct of the farming operations on the entire farm.

(d) *Producer.* "Producer" means any person engaged in the production of rice

as landowner, landlord, tenant, or sharecropper and includes a person owning and operating his own farm; a tenant operating a farm rented for cash; a tenant operating a farm under a crop share lease, contract, or agreement; a landlord leasing to share tenants; and a person or irrigation company furnishing water for a share of the crop. For all purposes of the regulations in this subpart, the term "tenant" shall be deemed to include a person or irrigation company furnishing water for a share of the rice crop.

(e) *Rice acreage.* "Rice acreage" means the acreage planted to rice and the acreage of volunteer rice (self seeded) which reaches maturity excluding, (1) any acreage of non-irrigated (dry land) rice of three acres or less, (2) any acreage planted to Mochi gomi rice, commonly known as sweet, glutenous, or candy rice, and (3) any excess rice acreage which is destroyed or otherwise handled or treated (by the producer or from some cause beyond his control) not later than the date established by the county committee with the approval of the State Committee so that rice cannot be harvested therefrom. Such date for each county or areas within the county shall be far enough (but not to exceed 30 days) in advance of the date the harvesting of rice normally begins in the county to permit sufficient time to remeasure the farms in the county and issue marketing cards to eligible producers prior to harvest. Notice of 1955 Acreage of Rice on Form CSS–598 shall be mailed to the operator of each farm on which there is excess rice acreage at least 15 days prior to such established date: *Provided,* That if such notice is not mailed at least 15 days prior to such established date the producer shall have 15 days from the date the Notice of 1955 Acreage of Rice is mailed to destroy or treat the excess rice acreage so that rice cannot be harvested therefrom. Each State committee shall furnish such established dates to the Director of the Grain Division, CSS.

(f) *Rice acreage allotment.* "Rice acreage allotment" means that rice acreage allotment established for the farm under "Regulations Pertaining to Farm Acreage Allotments for the 1955 Crop" as published in the FEDERAL REGISTER under date of January 18, 1955 (20 F. R. 385), and any amendments thereto.

§ 421.1329 *Compliance requirements; producers.* A producer shall not be eligible for price support on rice produced in 1955 unless the 1955-crop rice acreage on the farm on which such rice was produced is not in excess of the rice acreage allotment: *Provided,* That if a producer has an interest in the 1955 rice crop produced on any other farm in the same county, he must also be entitled to receive a marketing certificate for each such farm in order to be eligible for price support.

§ 421.1330 *Compliance requirements; rice.* Rice shall not be eligible for price support unless it is produced by a producer eligible for price support on a farm on which the 1955-crop rice acreage is not in excess of the rice acreage allotment.

§ 421.1331 *Effect of unknowingly exceeding rice acreage allotment, method of determination.* The rice acreage on a farm shall not be deemed to be in excess of the rice acreage allotment unless the operator knowingly exceeded such allotment. If the rice acreage allotment is, in fact, exceeded, such allotment shall be considered as having been knowingly exceeded unless it is determined by the County Committee on the basis of evidence submitted to it that the rice acreage allotment was unknowingly exceeded. The operator of a farm will only be considered to have unknowingly exceeded the rice acreage allotment if through no fault of his (a) the rice acreage(s) was not measured or he was not notified of the measured acreage(s) in time to dispose of the excess acreage in the manner specified in § 421.1328 (e), or (b) he received an erroneous notice of the measured acreage and acted in good faith on the basis of such notice, and the corrected acreage was not furnished until it was too late to dispose of the excess acreage in the manner specified in § 421.1328 (e) and, with respect to both paragraphs (a) and (b) of this section, the operator made a reasonable effort by measuring or otherwise to comply with the rice acreage allotment.

§ 421.1332 *Application for review and request for reconsideration.* Any producer who is dissatisfied with any determination with respect to compliance with rice acreage allotments may, within 15 days after mailing of the official notice of the farm acreage allotment and marketing quota, file application with the County committee to have such determination reviewed by a review committee: *Provided,* That such application for review must be based on a determination which the producer has the right to have reviewed under the Regulations Pertaining to Rice Marketing Quotas for the 1955 Crop of Rice, 7 CFR Part 730. Unless application for review is made within such 15-day period, such determination shall be final as to the producers on the farm. The procedures governing such review are contained in the regulations issued by the Secretary of Agriculture, 7 CFR Part 711.

Done at Washington, D. C., this 1st day of June 1955.

PART 443—OILSEEDS

SUBPART—1954 COTTONSEED PRODUCTS PURCHASE PROGRAM

EXTENSION OF FINAL DATE FOR TENDERING COTTONSEED PRODUCTS

The regulations of Commodity Credit Corporation with respect to the purchase of cottonseed products as a means of supporting the price of 1954-crop cottonseed (1954 CCC Cottonseed Bulletin 3, as amended (19 F. R. 4119, 20 F. R. 2853)), are hereby amended, in order to extend the final date for tendering cottonseed products from July 15, 1955 to August 15, 1955, by changing paragraph (b) of § 443.1034 thereof to read as follows:

§ 443.1034 *Purchase of cottonseed products by CCC.* * * *

(b) *Time of tender.* The crusher shall notify the CSS commodity office not later than the 15th day of November 1954, of the quantity of cottonseed crushed prior to November 1, 1954, and the respective quantities of products from such crush tendered to CCC, indicating delivery dates. With respect to cottonseed crushed on and after November 1, 1954, and through May 31, 1955, the crusher shall notify CCC not later than the 15th day of December 1954, and not later than the 15th day of each succeeding month through June 15, 1955, of the quantity of cottonseed crushed during the preceding month and the respective quantities of the products from such crush tendered to CCC, indicating delivery dates. With respect to 1954 crop cottonseed crushed on and after June 1, 1955, the crusher shall notify CCC not later than August 15, 1955, of the respective quantities of products from such crush tendered to CCC, indicating delivery dates. The delivery dates specified by the crusher shall be not later than September 15, 1955, or such later date as may be approved by the Executive Vice President, CCC: *Provided, however,* That no products may be delivered from a mill later than one week from the date processing of 1954 crop cottonseed ceases at such mill unless otherwise approved by the CSS commodity office. CCC shall have no obligation to purchase any products which are not tendered by the applicable dates specified in this paragraph. The crusher may make a tender of a cottonseed product hereunder even though, at the time of the tender, the quantity of the product which he has on hand and which has not been sold or contracted for sale to other persons is less than the quantity tendered.

PART 473—SPECIAL PRICE SUPPORT PROGRAMS

SUBPART—1955 CROP WHEAT DISTRESS LOAN PROGRAM

A price support program has been announced for the 1955 crop of wheat and the applicable regulations (20 F. R. 3017 and 3455) have been issued by Commodity Credit Corporation. This bulletin contains the regulations applicable to the 1955-Crop Wheat Distress Loan Program through which, as an adjunct to the price support program, recourse loans on wheat are made available through the Commodity Credit Corporation and the Commodity Stabilization Service (hereinafter referred to in this bulletin as CCC and CSS, respectively). This program is designed to assist producers in holding their wheat until they can qualify for the regular nonrecourse loans under the price support program.

AUTHORITY: §§ 473.201 to 473.222 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c.

§ 473.201 *Administration.* The program to which this subpart applies will be administered by CSS under the general direction and supervision of the Executive Vice President, CCC, and, in the field, will be carried out by Agricultural Stabilization and Conservation State Committees and Agricultural Stabilization and Conservation County Committees (hereinafter called State and county committees) and CSS commodity offices. All documents will be approved by the county office manager, or other employee of the county office designated by him to act in his behalf. Such designations shall be on file in the county office. Copies of all such documents shall be retained in the county office. State and county committee and CSS commodity offices do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements hereto.

§ 473.202 *Availability of loans*—(a) *Approved forms.* Loans will be evidenced by promissory notes and loan agreements and secured by chattel mortgages.

(b) *Area.* Distress loans are authorized on wheat (1) stored on the ground, or (2) stored in temporary facilities in areas in any State where the State Committee determines that conditions are such that the wheat can be so stored temporarily. In areas where it is not feasible to store wheat on the ground, the State Committee may authorize distress loans on wheat stored in temporary facilities only.

(c) *Where to apply.* Application for a distress loan should be made at the office of the ASC county committee which keeps the farm program records.

(d) *When to apply.* Loans will be available from the date the program is announced for the area. Applicable loan documents must be signed by the producer and delivered to the county committee within 30 days from the date the program is announced for the area, or within 30 days from the time of harvest, whichever is later. The applicable documents are the Producer's Note and Supplemental Loan Agreement (Commodity Loan Form A), the Supplemental Loan Agreement—Distress Loan, and the Commodity Chattel Mortgage, (Commodity Loan Form AA).

§ 473.203 *Disbursement of loans.* Disbursement of loans will be made to producers by ASC county offices by means of sight drafts drawn on CCC, or by approved lending agencies under agreement with CCC. No disbursements shall be made later than 15 days after the final date of availability of loans unless authorized by the Executive Vice President, CCC. Payment in cash, credit to the producer's account, or the drawing of a check or draft shall constitute disbursement. The producer shall not present the loan documents for disbursement unless the wheat is in existence and in good condition. If the wheat was not in existence and in good condition at the time of disbursement, the proceeds shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized under this subpart, the producer shall be personally liable for repayment of the amount of such excess.

§ 473.204 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative marketing association, corporation, partnership, individual, or other legal entity, with which CCC has entered into a lending agency agreement.

§ 473.205 *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, estate, trust, or other business enterprise, or legal entity, and wherever applicable, a State, political subdivision of a State, or any agency thereof, producing wheat in 1955 as landowner, landlord, tenant, or sharecropper: *Provided,* That a producer shall not be an eligible producer unless he is in compliance with the regulations pertaining to farm acreage allotments for the 1955 crop as determined in accordance with 1955 CCC Wheat Bulletin A, and any amendments thereto.

§ 473.206 *Eligible wheat.* The conditions of eligibility for wheat shall be the same as under the 1955-crop wheat price support program, except that there shall be no requirement for storing wheat for a specified period prior to inspection.

§ 473.207 *Storage.* (a) Temporary storage facilities shall be facilities which, in the opinion of the county committee, are suitable for the temporary storage of wheat.

(b) Wheat piled on the ground shall be protected from animals and shall be piled on ground which will afford maximum protection from water damage.

§ 473.208 *Determination of quantity.* The quantity of wheat will be estimated, but measurements, threshing records, and other guides shall be used to the extent that they are practicable or available.

§ 473.209 *Determination of quality.* Grade and other quality factors will be determined in accordance with the Official Grain Standards of the United States for Wheat following the same practices as under the 1955-Crop Wheat Price Support Program: *Provided,* That determinations with respect to sanitation requirements shall be made in accordance with instructions issued by CCC and available for examination in the county office.

§ 473.210 *Liens.* If there are any liens or encumbrances on the wheat, proper waivers must be obtained.

§ 473.211 *Service charges.* The producer shall pay a service charge of 1 cent per bushel on the number of bushels of wheat placed under a distress loan, or $3.00 whichever is greater. Such service charge shall be collected from the proceeds of the loan at the time the loan is disbursed. State committees, however, are authorized to require prepayment of $3.00 of the service charge at the time a producer applies for a loan. If, on or before the maturity date of the note, the producer obtains a regular price support loan on the wheat under the 1955 wheat price support program, he shall pay an additional service charge of 1 cent per bushel if placed under farm-storage loan, and ½ cent per bushel if placed under warehouse-storage loan, on any number of bushels by which the quantity of wheat placed under the regular loan exceeds the number of bushels placed under the distress loan. No refunds of service charges will be made.

§ 473.212 *Set-offs.* Set-offs shall be made against the proceeds of the distress loan in accordance with the provisions of the 1955-crop wheat price support program.

§ 473.213 *Interest rate.* Loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement of the loan, except that where there is a default in satisfaction of the loan, the deficiency shall bear interest at the rate of 6 percent per annum from the date of default.

§ 473.214 *Release of wheat; transfer of producer's interest.* A producer may at any time obtain release of the wheat under loan by paying to the holder of the note the principal amount thereof, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. Upon presentation of the paid note, the county committee shall arrange for the release of the chattel mortgage. The producer shall not transfer either his remaining interest in or his right to redeem the wheat mortgaged as security for a distress loan nor shall anyone acquire such interest or right. A producer who wishes to liquidate all or part of his loan by contracting for the sale of the wheat must obtain written prior approval of the county committee on Commodity Loan Form 12 to remove the wheat from the premises when the proceeds of the sale are needed to repay

all or any part of the loan. Any such approval shall be subject to the terms and conditions set out in Commodity Loan Form 12, copies of which may be obtained by producers or prospective purchasers, at the office of the county committee.

§ 473.215 *Safeguarding of the wheat.* The producer obtaining a distress loan shall take whatever action is practicable to keep the wheat in good condition, and in the event of damage to the commodity, he shall notify the county committee in writing of such damage.

§ 473.216 *Insurance.* CCC will not require the producer to insure the commodity placed under loan; however, if the producer insures such commodity and an indemnity is paid thereon, such indemnity shall inure to the benefit of CCC to the extent of its interest.

§ 473.217 *Losses in quantity or quality.* CCC will not assume losses in the quantity or quality of the wheat occurring for any reason.

§ 473.218 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan, or the conversion or unlawful disposition of any portion of the commodity by him, may render the producer subject to criminal prosecution under the Federal Law and shall render him personally liable not only for the amount of the loan (including interest) but also for any resulting expense incurred by any holder of the note.

§ 473.219 *Loan rates.* Loans will be made under this program at 80 percent of the regular county rate established for the wheat under the 1955-crop wheat price support program.

§ 473.220 *Maturity.* Loans will mature 90 days from the date of the note, or earlier on demand.

§ 473.221 *Settlement*—(a) *Producer eligible for regular loan.* If, on or before maturity, the producer places the wheat in eligible farm storage or in an approved warehouse, he may obtain a regular price support loan at the full support rate. The regular loan will be made at the full support rate on the basis of the quantity and quality of eligible wheat which has been placed in an eligible storage structure. When the regular loan is made, the principal of the distress wheat loan, plus interest at the rate of 3½ percent per annum from the date of disbursement of the distress loan to the date of disbursement of the regular loan, shall be repaid to CCC either in cash or out of the proceeds of the regular loan. If the producer does not obtain a regular loan, he shall upon maturity repay his distress loan in cash or deliver the wheat to CCC as set forth in paragraphs (c) and (d) respectively, of this section.

(b) *Producer not eligible for a regular loan.* If, on or before maturity, the producer does not place the wheat in eligible farm storage or approved warehouse storage, or if the wheat is not eligible for a regular loan, the producer shall, upon maturity, repay his distress loan in cash or deliver the wheat to CCC as set forth in paragraphs (c) and (d), respectively, of this section.

(c) *Repayment of distress loan.* Repayments made in satisfaction of distress loans shall be made in cash and shall include the amount of the principal due on the loan plus interest at the rate of 3½ percent per annum from the date of disbursement to the date of repayment (except that loans in default will bear interest at the rate of 6 percent from the date of default).

(d) *Delivery to CCC.* If the producer desires to deliver the wheat he should, prior to maturity, give the county committee notice in writing of his intention to do so. Delivery of the wheat to CCC shall be made in accordance with instructions issued by the county committee. When the wheat is delivered to CCC under the distress loan, credit shall be given to the producer for the quantity and quality of wheat actually delivered, at the market price at the time and place of delivery as determined by CCC: *Provided, however,* That if such wheat is sold by CCC in order to determine its market price, the settlement value shall not be less than such sales price: *And provided further,* That if upon delivery, the wheat contains more than 2 rodent pellets per pint, or comparable amounts of other filth, or contains 2 percent or more by weight of kernels visibly damaged by weevils or other insects, the wheat shall be sold to the highest bidder for feed, or for industrial uses other than food and beverages, and the basic settlement value, per bushel, shall be the same as the sales price. If the amount of such credit exceeds the amount due on the principal of the loan plus interest, the amount of the excess shall be paid to the producer by sight draft drawn on CCC by the ASC county committee, subject to set-off in accordance with § 473.212. If the amount of such credit is less than the amount due on the principal of the loan plus interest, the amount of the deficiency plus interest thereon shall be paid to CCC. Any payment which would otherwise be due to the producer under any agricultural program administered by the Secretary of Agriculture, or any other payments which are due or may become due the producer from CCC or any other agency of the United States, may be set off against such deficiency.

(e) *Payments and collections; amounts not exceeding $3.00.* To avoid administrative costs of making small payments and handling small accounts, amounts due the producer of $3.00 or less will be paid only upon his request and a deficiency of $3.00 or less, including interest, may be disregarded by a producer unless demand for payment is made by CCC.

§ 473.222 *CSS commodity offices.* The CSS commodity offices and the areas served by them are shown below:

PART 717—HOLDING OF REFERENDA ON MARKETING QUOTAS

ADVANCE VOTING BY PERSONS WHOSE RELIGIOUS BELIEFS FORBID VOTING ON DAY OF REFERENDUM

The amendment herein is issued under the Agricultural Adjustment Act of 1938, as amended, and is for the purpose of permitting voting in advance of the day of the referendum by any person whose religious belief forbids his voting on the day of the referendum.

Since wheat producers will be voting in a referendum on June 25, 1955, it is hereby found and determined that compliance with the notice, procedure, and effective date provisions of the Administrative Procedure Act are unnecessary and contrary to the public interest, and this amendment shall become effective upon the date of its publication in the FEDERAL REGISTER.

Section 717.7 is amended by adding at the end of paragraph (c) thereof the following: "Any person whose religious belief forbids him from voting on the day of the referendum, may secure one ballot form and cast his vote at the office of the county committee for the county in which he is eligible to vote at any time within five days prior to the date of the referendum. Each ballot so cast shall be placed in a sealed envelope and designated and handled as an absentee ballot. For the purpose of the regulations in this part such manner of voting shall be considered to be voting by mail."

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (20 F. R. 2881, 2973, 3499), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

1. Subparagraphs (3) and (15) of paragraph (a), relating to Marin and Ventura Counties, in California, are deleted.

2. Subparagraphs (2), (9), (11), and (12), of paragraph (a), relating to California, are amended to read:

(2) SE¼ Sec. 28, SW¼ Sec. 27, NE¼ Sec. 23, and NW¼ Sec. 34, T. 5 N., R. 15 W., SBBM, in Los Angeles County.

• • • • • •

(9) NE¼ Sec. 28, T. 15 S., R. 1 E., SBBM, in San Diego County.

• • • • • •

(11) SW¼ Sec. 11, T. 3 S., R. 6 N., MDBM; NE¼ Sec. 26, T. 3 S., R. 6 W., MDBM; and NW¼ Sec. 28, T. 4 S., R. 6 W., MDBM, in San Mateo County.

(12) NE¼ Sec. 22, T. 6 S., R. 1 W., MDBM; SE¼ of T. 5 S., R. 1 W., MDBM; and NE¼ Sec. 14, T. 6 S., R. 1 W., MDBM, in Santa Clara County.

3. A new subdivision (iv) is added to subparagraph (4) of paragraph (d), relating to Burlington County in New Jersey, to read:

(iv) East Hampton, Mansfield, and Springfield Townships.

4. A new subdivision (vi) is added to subparagraph (11) of paragraph (d), relating to Monmouth County in New Jersey, to read:

(vi) That part of Wall Township lying southeast of the Garden State Parkway, southwest of State Route No. 34, and north of the southern boundary line of Wall Township.

5. A new subdivision (vi) is added to subparagraph (3) of paragraph (f), relating to Kent County in Rhode Island, to read:

(vi) That part of the Town of East Greenwich lying north of Middle Road, south of Frenchtown Road, east of Tillinghast Road, and west of Carr's Pond Road.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in California, New Jersey, and Rhode Island, from the areas heretofore quarantined because of vesicular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1954 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from nonquarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 80—GENERAL RULES OF PROCEDURE ON APPLICATIONS FOR DETERMINATION OF REASONABLE ROYALTY FEE, JUST COMPENSATION, OR GRANT OF AWARD FOR PATENTS, INVENTIONS OR DISCOVERIES

MISCELLANEOUS AMENDMENTS

Pursuant to the Atomic Energy Act of 1954 (Pub. Law 703, 83d Congress; 68 Stat. 947ff) and to section 4 (a) of the Administrative Procedures Act of 1946 (Pub. Law 404, 79th Congress) and in accordance with § 80.5 of Title 10, Chapter I, Part 80, Code of Federal Regulations, entitled "General Rules of Procedure on Applications for Determination of Reasonable Royalty Fee, Just Compensation or Grant of Award for Patents, Inventions or Discoveries," promulgated on June 18, 1948 and published in Volume 13, No. 91, Pages 2487 et seq. of the FEDERAL REGISTER for May 8, 1948, as amended February 1, 1953 (18 F. R. 619), changes in the general rules are set forth hereunder.

A. Section 80.1 is revised to read as follows:

§ 80.1 *Scope of the part.* The regulations in this part provide the rules of procedure to be followed by any person making application to the Atomic Energy Commission for the determination of a reasonable royalty fee, just compensation, or the grant of an award, and for the consideration of such applications pursuant to section 157 of chapter 13 of the Atomic Energy Act of 1954 (68 Stat. 947; 42 U. S. C. 2187) and section 173 of chapter 15 of the Atomic Energy Act of 1954 (68 Stat. 953; 42 U. S. C. 2223).

B. Paragraph (b) of § 80.2 is revised to read as follows:

(b) "Board" shall mean the Patent Compensation Board designated by the Commission pursuant to subsection (a) of section 157 of chapter 13 of the act.

C. Section 80.4 is revised to read as follows:

§ 80.4 *Security.* In any proceeding under the regulations in this part, the Commission may issue any general or specific order, directive, or further regulation which it determines to be appropriate pursuant to chapter 12 of the act to assure the common defense and security.

D. Section 80.10 (a), (b), (c) and (d) are revised to read as follows:

§ 80.10 *Applicants.* (a) Any person claiming just compensation for any patent revoked in whole or in part by subsections (a) and (b) of section 151 of the act may file an application for just compensation.

(b) Any owner of a patent licensed under section 158 or subsections (b) or (e) of section 153 or any patent licensee thereunder may file an application for the determination of a reasonable royalty fee.

(c) Any person making any invention or discovery useful in the production or utilization of special nuclear material or atomic energy, who is not entitled to compensation or royalty therefor under the act, and who has complied with the provisions of section 151 (c) thereof, may file an application for an award.

E. There is added to § 80.10 a new paragraph designated as (d) reading as follows:

(d) Any owner of a patent application that contains restricted data not belonging to the United States which the Commission has communicated to any foreign nation may make application for just compensation pursuant to section 173.

F. Section 80.11 (c) (3) is revised to read as follows:

§ 80.11 *Form and content.* • • •

(c) • • •

(3) In the case of an invention or discovery as to which a report has been filed with the Commission pursuant to subsection (c) of section 151 of chapter 13 of the act, a copy of such report.

G. There is added to § 80.11 (c) a new subparagraph designated as (9) reading as follows:

(9) In the case of an application for just compensation pursuant to section 173 the ownership of the invention that

is the subject matter of the patent application at the time of the communication shall be set forth as well as the restricted data contained in said application specifically identified.

H. Section 80.21 is revised to read as follows:

§ 80.21 *Recommendation for acquisition by purchase.* At any time following the filing of an application and prior to final determination, the applicant may be requested in writing to meet with one or more members of the Commission staff to discuss the possibility of acquisition by purchase of the invention or discovery or patent or patent application, as the case may be. The time prescribed in § 80.22 for the filing of the response shall be extended by a time equivalent to any period in which negotiations are being conducted (beginning with the initial communication to the applicant and ending either with acceptance or rejection of a proposal or with a written communication by the applicant stating that negotiations are to be terminated).

I. There is added a new section designated as § 80.32 reading as follows:

§ 80.32 *Interrogatories by the Board.* The Board in its discretion may submit to either party interrogatories for the purpose of eliciting and placing upon the record any facts which the Board considers relevant to the consideration and disposition of the application, and may require answers to these interrogatories to be made under oath. The interrogatories and answers thereto shall become part of the record.

J. There is added to § 80.50 a new paragraph designated as (c) reading as follows:

(c) In the event that the application and any response filed by the Office of the General Counsel, and any answers to interrogatories which may be submitted to the applicant by the Board under § 80.32 disclose that the application does not present a basis for the payment of just compensation, the determination of a reasonable royalty fee, or the grant of an award, the Board may prepare and serve upon the parties its proposed findings and proposed determination with a statement of the reasons or basis therefor, with a notice that the proposed findings and proposed determination will be entered unless the applicant or Office of the General Counsel, within thirty (30) days after receipt of the notice, requests a hearing upon the application. If a hearing is requested under this section, the hearing prescribed in § 80.40 shall be ordered by the Board. If no hearing is requested in response to the notice of the proposal to enter the proposed findings and proposed determination, the order of the Board shall be entered.

(Sec. 161, 68 Stat. 948; 42 U. S. C. 2201. Interpret or apply secs. 157, 173, 68 Stat. 947, 953; 42 U. S. C. 2187, 2223)

The foregoing revisions and additions to the rules shall be effective June 1, 1955.

NOTE: The additions and revisions to the rules were published in proposed format in 20 F. R. 2193, April 7, 1955.

Dated at Washington, D. C., this 27th day of May 1955.

K. E. FIELDS,
General Manager.

In the Matter of United States Steel Corporation, and Its Subsidiary, United States Steel Company; Jones & Laughlin Steel Corporation, and Its Subsidiary, Jones & Laughlin Steel Barrel Company; Inland Steel Company, and Its Subsidiary, Inland Steel Container Company; Rheem Manufacturing Company and Republic Steel Corporation

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the Commission's complaint which charged the respondents with unfair methods of competition and unfair acts and practices in commerce, by cooperating, combining, agreeing, and entering into and carrying out an understanding and planned common course of action between and among themselves with respect to prices, terms and conditions of sale, and other pricing practices, in the offering for sale, sale, and distribution in commerce of steel drums, in violation of the Federal Trade Commission Act, and upon a Stipulation for Consent Order, submitted to the hearing examiner for the purpose of disposing of all the issues involved in the proceeding, pursuant to an agreement entered into by respondents, by their duly authorized attorneys, with counsel supporting the complaint.

By the terms of said stipulation, said respondents admitted all the jurisdictional facts set forth in the complaint and agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance therewith; stated that they withdrew their answers to the complaint and expressly waived the right to file answer in the matter, also expressly waiving hearing before a hearing examiner or the Commission, the making of findings as to the facts or conclusions of law by the hearing examiner or the Commission, the filing of exceptions and oral argument before the Commission, and all further proceedings before the hearing examiner and the Commission to which respondents might be entitled under the provisions of the Federal Trade Commission Act or the rules of practice of the Commission.

Respondents agreed that the order contained in the stipulation should have the same force and effect as if it were made after full hearing, presentation of evidence, and findings and conclusions thereon, respondents specifically waiving any and all right, power, or privilege to challenge or contest the validity of such order, and that said Stipulation for Consent Order, together with the complaint, should constitute the entire record in the proceeding, upon which the initial decision should be based; and said stipulation further set forth that the complaint in the matter might be used in construing the terms of such order which might be altered, modified, or set aside in the manner provided by statute for orders of the Commission, and provided that the signing of the Stipulation for Consent Order was for settlement purposes only, and did not constitute an admission by respondents of any violation of law alleged in the complaint.

Thereafter said examiner made his initial decision in which he set forth the aforesaid matters; that respondents' answers, theretofore filed, should be considered withdrawn, in accordance with said stipulation; noted that counsel supporting the complaint stated, in his memorandum submitting the Stipulation for Consent Order to the hearing examiner, that the order contained in the stipulation differed from the order accompanying the complaint, but averred that the order agreed upon provided adequate relief from all the violations charged in the complaint; set forth that while the order contained in the stipulation included a provision requiring a report of compliance within 60 days, no such provision was included in the cease and desist order to be issued in his initial decision in view of the Commission's present practice, and the confusion thereby avoided, of itself issuing such orders of compliance as a part of its notification to a respondent that the initial decision of the hearing examiner had become the decision of the Commission; set forth his conclusion, in view of the aforesaid facts and statement by counsel supporting the complaint that the order to cease and desist contained in the stipulation would safeguard the public interest to the same extent as if it had been issued after the completion of hearings and all other adjudicative procedure waived in said stipulation; and accordingly, in consonance with the terms of said stipulation, accepted the Stipulation for Consent Order submitted in the matter; found that the proceeding was in the public interest; and issued his order to cease and desist.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order to File Report of Compliance", dated April 28, 1955, became, on that date, pursuant to Rule XXII of the Commission's rules of practice, the decision of the Commission.

Said order is as follows:

It is ordered, That Respondents, United States Steel Corporation, a corporation, Jones & Laughlin Steel Corporation, a corporation, Inland Steel Company, a corporation, Rheem Manufacturing Company, a corporation, and Republic Steel Corporation, a corporation, and their respective officers, agents, representatives, and employees, in, or in connection with, the offering for sale, sale, and distribution in interstate commerce of the steel drums involved in this proceeding, do forthwith cease and desist from entering into any planned common course of action, understanding or agreement between any two or more of said respondents, or between any one or more of said respondents and others not parties hereto, and from cooperating in, carrying out, or continuing any such planned common course of action, understanding, or agreement, to do or perform any of the following things:

(1) Adopting, establishing, fixing, or maintaining prices or any element thereof at which steel drums shall be quoted or sold, including but not limited to base prices, the extras which shall be added to, or the deductions which shall be made from, any base price for any specified characteristic, or other conditions of sale;

(2) Collecting, compiling, circulating, or exchanging between or among respondents, or any of them, any pricing factor, statement of pricing method, or extra charges thereto or deductions therefrom for any specified characteristic or quantity of steel drums or services connected therewith used or to be used in computing prices or price quotations of steel drums; or using, directly or indirectly, as a factor in computing price quotations or in making, quoting, or charging prices, any such factor or method so collected, compiled, circulated, or exchanged;

(3) Quoting or selling steel drums at prices calculated or determined pursuant to, or in accordance with, any system or formula which produces identical price quotations or prices or delivered costs, or which establishes a fixed relationship among price quotations or prices or delivered costs, or which prevents purchasers from securing any advantage in price in dealing with one or more of the respondents as against any of the other respondents.

It is further ordered, That each of the respondents do forthwith cease and desist from acting, individually or otherwise, so as knowingly to contribute to the maintenance or operation of any planned common course of action, understanding, or agreement between and among any two or more of the respondents or between any one or more of them and others not parties hereto through the commission of any of the acts, practices, or things prohibited by subparagraphs (1) through (3) of paragraph I of this order:

Provided, however, That in interpreting and construing the foregoing provisions of this order, it is understood that:

(1) The Federal Trade Commission is not considering evidence of uniformity of prices or any element thereof of two or more sellers at any destination or destinations alone and without more as showing a violation of law;

(2) The Federal Trade Commission construes the phrase "planned common course of action" and the word "continuing" contained in this order as interpreted by the Supreme Court in FTC v. Cement Institute, 333 U. S. 683, at page 728, and by the court in American Chain & Cable Co. v. FTC (CA 4th 1944), 139 F. 2d 622;

(3) The Federal Trade Commission is not acting to prohibit or interfere with delivered pricing or freight absorption as such when innocently and independently pursued, regularly or otherwise, with the result of promoting competition.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents United States Steel Corporation, Jones & Laughlin Steel Corporation, Inland Steel Company, Rheem Manufacturing Company, and Republic Steel Corporation, corporations, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have compiled with the order to cease and desist.

Issued: April 28, 1955.

By the Commission.

Secretary.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

RALPH ADAMS ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment or Acceptance of Commission, Brokerage, or Other Compensation Under (c): §13.820 *Direct buyers.* In connection with the purchase of food products in commerce, and on the part of respondents, individually, as copartners doing business as Adams Brothers Produce Co. or through any other device, and on the part of their representatives, etc., receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of food products or other commodities for their own account, or for the account of Adams Brothers Produce Co., or while acting for or in behalf of Adams Brothers Produce Co. or any other buyer as an intermediary or agent, or subject to the direct or indirect control of such buyer; prohibited.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Adams Brothers Produce Co., Birmingham, Ala., Docket 6263, April 21, 1955]

In the Matter of Ralph Adams, Carl Adams, Sr., Paul Adams, Carl Adams, Jr., Hugh Adams, Charles H. Adams, and James R. Adams, Individually and as Copartners Doing Business as Adams Brothers Produce Co.

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondents with receiving and accepting, directly or indirectly, commissions, brokerage fees or other compensations, allowances, or discounts in lieu thereof from sellers in connection with the purchase in commerce of food products for their own account, in violation of subsection (c) of section 2 of the Clayton Act, as amended by the Robinson-Patman Act (15, U. S. C. 13), and a Stipulation for Consent Order, disposing of all the issues involved in the proceeding, submitted pursuant to an agreement entered into by respondents with counsel supporting the complaint, whereby respondents admitted all the jurisdictional allegations set forth in the complaint, agreed that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance therewith, and all parties requested that the answer of respondents, theretofore filed with the Commission, be withdrawn, and expressly waived the filing of answer, a hearing before a hearing examiner of the Commission, the making of findings as to the facts or conclusions of law by the hearing examiner or the Commission, the filing of exceptions and oral argument before the Commission and all further and other procedure before the hearing examiner and the Commission to which respondents might be entitled under the Clayton Act, as amended, or the rules of practice of the Commission.

It was agreed by respondents that the order contained in the stipulation should have the same force and effect as if made after full hearing, presentation of evidence, and findings and conclusions thereon, respondents specifically waiving any and all right, power, or privilege to contest the validity of such order, and that said Stipulation for Consent Order, together with the complaint, should constitute the entire record in the proceeding, upon which the initial decision should be based, and said stipulation also set forth that the complaint in the matter might be used in construing the terms of such order which might be altered, modified, or set aside in the manner provided by statute for orders of the Commission, and provided also that the signing of the Stipulation for Consent Order was for settlement purposes only and did not constitute an admission by respondents of any violation of law alleged in the complaint.

Thereafter said hearing examiner made his initial decision in which he set forth his conclusion, in view of the aforesaid facts and the further fact that the order embodied in said stipulation was identical with that which accompanied the complaint, that such order would safeguard the public interest to the same extent as could be accomplished by the issuance of an order after full hearing and all other adjudicative procedure waived in said stipulation; and in which he accordingly, in consonance with the terms of said stipulation, granted the request for withdrawal of respondents' answer, accepted the Stipulation for Consent Order submitted in the matter, found that the proceeding was in the public interest, and issued his order to cease and desist, and granted also request of all parties that respondents' answer to the complaint in the matter be withdrawn.

Thereafter said initial decision, including said order, as announced and decreed by "Decision of the Commission and Order To File Report of Compliance", dated April 21, 1955, became, on that date, pursuant to Rule XXII of the Commission's rules of practice, the decision of the Commission.

Said order is as follows:

It is ordered, That Respondents Ralph Adams, Carl Adams, Sr., Paul Adams, Carl Adams, Jr., Hugh Adams, Charles H. Adams, and James R. Adams, individually, as copartners doing business as Adams Brothers Produce Co. or through any other device, their representatives, agents, or employees, directly or indirectly, in connection with the purchase of food products in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from: Receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of food products or other commodities for their own account, or for the account of Adams Brothers Produce Co., or while acting for or in behalf of Adams Brothers Produce Co. or any other buyer as an intermediary or agent, or subject to the direct or indirect control of such buyer.

It is further ordered, That the request of all parties hereto, that Respondents' answer to the complaint herein be withdrawn, be, and the same hereby is, granted.

By said "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Ralph Adams, Carl Adams, Sr., Paul Adams, Carl Adams, Jr., Hugh Adams, Charles H. Adams, and James R. Adams, individually and as copartners doing business as Adams Brothers Produce Co., shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 21, 1955.

TITLE 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

[Order 179; Docket No. R-146]

PART 1—RULES OF PRACTICE AND PROCEDURE

HEARINGS

The Commission has under consideration in this proceeding the amendment of § 1.20 of Part 1 of its general rules and regulations (18 CFR, Chapter I, Subchapter A, Part 1) by amending paragraphs (f) and (h) thereof. Both are for the purpose of establishing a uniform policy in certain aspects of the Commission's hearings which (1) will automatically incorporate applications (including attached exhibits), complaints, and similar formal documents as part of the hearing record, as pleadings, and (2) will allow prepared testimony to be received in exhibit form without being copied into the stenographic transcript of the hearing.

The first purpose is carried out by the addition of a sentence at the end of paragraph (f) *Order of procedure* of § 1.20 and the second by a revision of paragraph (h) *Prepared expert testimony* thereof.

It appears that the amendments to § 1.20 adopted herein would be of considerable benefit to hearings in progress if such amendments are made effective at once.

It appears also that the proposed amendment of § 1.20 represents a matter of procedure which does not require notice of hearing under section 4 (a) of the Administrative Procedure Act.

The Commission finds: The amendments as hereinafter adopted are necessary and appropriate to carry out the provisions of the Federal Power Act and the Natural Gas Act.

The Commission, acting pursuant to authority granted by sections 308 and 309 of the Federal Power Act (49 Stat. 858, 16 U. S. C. 825g, 825h) and sections 15 and 16 of the Natural Gas Act. (52 Stat. 829, 830, 15 U. S. C. 717n, 717o) orders:

(A) Paragraph (f) of § 1.20 of the rules of practice and procedure is amended by adding the following sentence at the end thereof:

(f) *Order of procedure.* * * * The applications (including attached exhibits), declarations of intention, complaints, formal protests, determinations of actual legitimate original cost of licensed projects, orders to show cause and responses thereto, and similar formal documents upon which hearings are fixed shall, without further action, be considered as parts of the record as pleadings: *Provided, however,* That in no event, except as contemplated by the provisions of § 1.32 (b), shall such pleadings, or any part thereof, be considered as evidence of any fact other than that of the filing thereof unless offered and received in evidence in accordance with the Commission's rules.

(B) Paragraph (h) of § 1.20 of the rules of practice and procedure is amended to read as follows:

(h) *Prepared expert testimony.* Direct testimony of any witness within his special field may be offered as an exhibit: *Provided,* That copies of such proposed exhibit shall have been served upon all parties to the proceeding or their attorneys of record, including staff counsel of record, at least 5 days in advance of the session of the hearing at which such exhibit is offered unless all parties in attendance at the session of the hearing at which such exhibit is offered and staff counsel shall agree that all or any part of such 5 days' prior service be waived: *Provided,* That the presiding officer, absent such agreement, may permit the introduction of such written testimony after having given all parties and staff counsel present a reasonable opportunity (not less than 24 hours) to examine it. Whenever in the circumstances of a particular case it is deemed necessary or desirable, the Commission or the presiding officer may direct that expert testimony to be given upon direct examination shall be reduced to exhibit form and be served and offered in the manner hereinbefore described. A reasonable period of time shall be allowed for the preparation of such written testimony.

(C) The amendments to § 1.20 herein prescribed be and they are hereby made effective June 1, 1955.

(Sec. 309, 49 Stat. 858, sec. 16, 52 Stat. 830; 16 U. S. C. 825h, 15 U. S. C. 717o)

Adopted: May 20, 1955.

Issued: June 1, 1955.

Appendix C—Public Land Orders

[Public Land Order 1157]

NEW MEXICO

WITHDRAWING PUBLIC LANDS AND RESERVED MINERALS IN PATENTED LANDS FOR USE OF DEPARTMENT OF THE AIR FORCE FOR MILITARY PURPOSES IN CONNECTION WITH HOLLOMAN AIR FORCE BASE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the public lands and the minerals reserved to the United States in patented lands in the following-described areas in New Mexico are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved for use of the Air Force for military purposes in connection with Holloman Air Force Base:

NEW MEXICO PRINCIPAL MERIDIAN

T. 17 S., R. 8 E.,
Sec. 22, E½SE¼, that portion lying north of U. S. Highway 70;
Sec. 23, E½, E½W½, W½SW¼, those portions lying north of U. S. Highway 70;
Sec. 24, that portion lying north of U. S. Highway 70;
Sec. 26, NW¼NW¼NW¼, that portion lying north of U. S. Highway 70;
Sec. 27, E½NE¼, that portion lying north of U. S. Highway 70.
T. 17 S., R. 9 E.,
Sec. 6, lots 1, 2, 3 and 4.

The areas described, including both public and non-public lands, aggregate approximately 611.78 acres. The lands in Section 24 have been patented with a mineral reservation. The remainder are public lands.

This order shall take precedence over but not otherwise affect the Departmental order of April 8, 1935, establishing New Mexico Grazing District No. 4.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1939) Part 101]

TAXES ON ADMISSIONS, DUES, AND INITIATION FEES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 3791 of the Internal Revenue Code of 1939 (53 Stat. 467; 26 U. S. C. 3791).

[SEAL] O. GORDON DELK, *Acting Commissioner of Internal Revenue.*

In order to conform Regulations 43 (1941 edition) (26 CFR Part 101), relating to the excise tax on admissions, dues, and initiation fees under Chapter 10 of the Internal Revenue Code of 1939, to the Excise Tax Reduction Act of 1954 (Public Law 324, 83d Cong.), approved March 31, 1954, such regulations are amended as follows:

PARAGRAPH 1. Section 101.0, as amended by Treasury Decision 6007, approved April 15, 1953, is further amended as follows:

(A) By striking out the words "and the Excise Tax Act of 1947" at the end of the first sentence and adding in lieu thereof the following: "the Excise Tax Act of 1947, and sections 201, 202, 203, 504 (a), 505 (c) (1) and (2), and 506 of the Excise Tax Reduction Act of 1954".

(B) By changing the last paragraph of the section to read as follows:

The statutory references are to the Internal Revenue Code of 1939 (53 Stat., Part 1) unless otherwise stated.

PAR. 2. Immediately preceding § 101.1 there is inserted the following:

SEC. 203. EFFECTIVE DATE OF TITLE II [EXCISE TAX REDUCTION ACT OF 1954, APPROVED MARCH 31, 1954].

The amendments made by section 201 (other than subsection (b) thereof) shall apply only with respect to amounts paid for admissions on or after April 1, 1954. In addition, such amendments shall apply—

(1) In the case of any season ticket or subscription; only if all the admissions under such ticket or subscription can occur only on or after April 1, 1954; and

(2) In the case of the permanent use of a box or seat or a lease for the use of such box or seat, only if all the performances or exhibitions at which the box or seat is used or reserved by or for the lessee or holder can occur only on or after April 1, 1954.

The amendment made by subsection (b) shall apply only with respect to amounts paid on or after April 1, 1954, for admissions on or after such date.

PAR. 3. Section 101.1, as amended by Treasury Decision 6007, is further amended by adding at the end thereof the following new paragraph (e):

(e) The reduction in rates provided by section 201 of the Excise Tax Reduction Act of 1954 is generally effective with respect to amounts paid for admissions on and after April 1, 1954. In the case of a season ticket or subscription the reduction is effective only if all the admissions under the season ticket or subscription can occur only on or after

April 1, 1954, and in the case of the permanent use of a box or seat or a lease for the use of such box or seat, only if all the performances or exhibitions at which the box or seat is used or reserved by or for the lessee or holder can occur only on or after such date. The reduction with respect to the tax imposed on sales outside the box office is effective only with respect to amounts paid on or after April 1, 1954, for admissions on or after such date. For special provisions relating to payment, credit, or refund of the admissions tax in cases of amounts collected prior to April 1, 1954, at the rate in effect prior to such date, for admissions on or after such date, see § 101.43a.

PAR. 4. Immediately preceding section 1704 of the Internal Revenue Code of 1939, which immediately precedes § 101.2, there is inserted the following:

SEC. 201. TAX ON ADMISSIONS [EXCISE TAX REDUCTION ACT OF 1954, APPROVED MARCH 31, 1954.

* * * * *

(d) *Single or season tickets and subscriptions.* For reduction in rate of tax on admission by single or season ticket or subscription, see section 504 (a).

(e) *Rate to apply to major fractions.* Section 1700 (a) (1) (relating to rate of tax on single or season tickets and subscriptions) is hereby amended by striking out "fraction" and inserting in lieu thereof "major fraction".

(f) *Exemption of admissions of fifty cents or less.* Section 1700 (a) (1) (relating to rate of tax on single or season tickets and subscriptions) is hereby amended by striking out the second sentence thereof and inserting in lieu thereof the following: No tax shall be imposed under this paragraph on the amount paid for admission—

(A) If the amount paid for admission is 50 cents or less, or

(B) In the case of a season ticket or subscription, if the amount which would be charged to the holder or subscriber for a single admission is 50 cents or less.

(g) *Admissions to certain race tracks.* (1) Section 1700 (a) (relating to rate of tax on single or season tickets and subscriptions) is hereby amended by adding at the end thereof the following:

(3) *Certain race tracks.* In lieu of the tax imposed under paragraph (1), a tax of 1 cent for each 5 cents or major fraction thereof of the amount paid for admission to any place (including admission by season ticket or subscription) if the principal amusement or recreation offered with respect to such admission is horse or dog racing at a race track. The tax imposed under this paragraph shall be paid by the person paying for such admission.

(c) The amendment made by section 504 (a) shall apply—

(1) Insofar as it affects the rate of the tax imposed by section 1700 (a) (1) of the Internal Revenue Code, with respect to amounts paid for admissions on or after April 1, 1954, but, in the case of any season ticket or subscription, only if all the admissions under such ticket or subscription can occur only on or after April 1, 1954;

* * * * *

PAR. 5. Paragraph (g) of § 101.2 (26 CFR 101.2 (g)), as amended by Treasury Decision 5096, approved November 1, 1941, is further amended by striking "50 cents" in the first sentence, and inserting in lieu thereof "75 cents".

PAR. 6. Section 101.4 (26 CFR 101.4), as amended by Treasury Decision 5349, approved March 17, 1944, is further amended as follows:

(A) By striking out the first sentence of paragraph (a) and inserting in lieu thereof the following:

(a) *General rules.* The amount paid for admission to any place, including any amount paid for a season ticket or as a subscription, is subject under section 1700 (a) of the Code, as amended, to tax at the rates set forth in paragraphs (b) and (c) of this section.

(B) By striking out the last two sentences of paragraph (d) and inserting in lieu thereof the following: "Thus, if a combination ticket is issued entitling the holder to admission before April 1, 1954, and to the use of a reserved seat for $1.50, using the rate of tax in effect before April 1, 1954, the tax is 30 cents, and the same amount of tax would be due if separate tickets of admission and for a reserved seat were sold for 75 cents each. In the latter case the tax on the first admission charge of 75 cents is 15 cents and the tax on the additional charge of 75 cents for a reserved seat is 15 cents. The same rule would apply to a combination ticket entitling the holder to admission on or after April 1, 1954, using however, the new rates provided by the Excise Tax Reduction Act of 1954."

(C) By striking out paragraph (f) and inserting new paragraphs (b) and (c) in lieu of the existing paragraphs (b) and (c):

(b) *Admissions before April 1, 1954.* (1) The rate of tax applicable to amounts paid for admission before April 1, 1954, to any place is 1 cent for each 5 cents or major fraction thereof (except that no tax is due on the amount paid for the admission of a child under 12 years of age if the amount paid is less than 10 cents). For special provisions relating to payment, credit, or refund of the admissions tax in cases of amounts collected prior to April 1, 1954, at the rate in effect prior to such date, for admissions on or after such date, see section 101.43a.

(2) The following table sets forth the amount of tax applicable to certain admission charges when the rate of tax is 1 cent for each 5 cents or major fraction thereof:

Admission charges:	Tax
$0.01 to $0.02	$0.00
$0.03 to $0.07	.01
$0.08 to $0.12	.02
$0.13 to $0.17	.03
$0.18 to $0.22	.04
$0.23 to $0.27	.05
$0.28 to $0.32	.06
$0.33 to $0.37	.07
$0.38 to $0.42	.08
$0.43 to $0.47	.09
$0.48 to $0.52	.10

The tax on all other admission charges where the rate of tax is 1 cent for each 5 cents or major fraction thereof shall be computed in a manner corresponding to that set forth in the foregoing table.

(c) *Admissions on or after April 1, 1954*—(1) *Places other than horse or dog race tracks.* Any amount paid for admission on or after April 1, 1954, to any place (other than to a place at which the principal amusement or recreation is horse or dog racing at a race track, for treatment of which see subparagraph (2) of this paragraph), including any amount paid for a season ticket or subscription, is subject to tax at the rate of 1 cent for each 10 cents or major fraction thereof, determined under the following rules:

(i) For the purposes of the regulations in this part, 5 cents is not considered a major fraction of 10 cents.

(ii) If the amount paid for a single admission is 50 cents or less, the amount so paid is exempt from tax. In the case of a season ticket or subscription, the amount paid therefor is exempt from tax only if the amount which would be charged to the holder or subscriber for each single admission covered by the season ticket or subscription is 50 cents or less. Thus, for example, if A pays $2.50 for a season ticket or subscription which entitles him to admission to 6 performances and if the amount which would be charged A for each single admission to these performances is 50 cents or less, then the entire amount paid for the season ticket or subscription is exempt from tax. However, if A pays $3 for a season ticket or subscription which entitles him to admission to 6 performances and if the amount which would be charged A for each single admission to these performances is more than 50 cents, then the entire amount paid for the season ticket or subscription is taxable. Further, if A pays $3 for a season ticket or subscription which entitles him to admission to 6 performances and if the amount which would be charged A for each single admission to 5 of these performances is 50 cents or less and for a single admission to the sixth performance is more than 50 cents, then the entire amount paid for the season ticket or subscription is taxable.

(iii) The following table sets forth the amount of tax applicable to certain admission charges when the rate of tax is 1 cent for each 10 cents or major fraction thereof:

Admission charges:	Tax
$0.01 to $0.50	$0.00
$0.51 to $0.55	.05
$0.56 to $0.65	.06
$0.66 to $0.75	.07
$0.76 to $0.85	.08
$0.86 to $0.95	.09
$0.96 to $1.05	.10
$1.06 to $1.15	.11
$1.16 to $1.25	.12

The tax on all other admission charges where the rate of tax is 1 cent for each 10 cents or major fraction thereof shall be computed in a manner corresponding to that set forth in the foregoing table.

(2) *Places at which the principal amusement or recreation is horse or dog racing.* Any amount paid for admission on or after April 1, 1954, to any place including any amount paid for a season ticket or subscription, if the principal amusement or recreation offered with respect to such admission is horse or dog racing at a race track, is subject to tax at the rate of 1 cent for each 5 cents or major fraction thereof. For computation of tax at this rate see the table in paragraph (b) of this section.

PAR. 7. Section 101.5, as amended by Treasury Decision 6007, is further amended by striking out the last sentence of paragraph (a) and inserting in lieu thereof the following: "A child under 12 years of age admitted prior to April 1, 1954, for less than 10 cents is not liable for tax. A charge of 50 cents or less for an admission on or after April 1, 1954, to certain places is tax free (see § 101.4 (c) (1))."

PAR. 8. Immediately preceding § 101.7 there is inserted the following:

SEC. 201. TAX ON ADMISSIONS [EXCISE TAX REDUCTION ACT OF 1954, APPROVED MARCH 31, 1954].

(a) *Permanent use or lease of boxes or seats.* Section 1700 (b) (1) (relating to tax on permanent use or lease of boxes or seats) is hereby amended by striking out "11 per centum" and inserting in lieu thereof "10 per centum".

* * * * *

(g) *Admissions to certain race tracks.*

* * * * *

(2) Section 1700 (b) (relating to rate of tax on permanent use or lease of boxes or seats) is hereby amended—

(A) By striking out "paragraph (1) of subsection (a)" and inserting in lieu thereof "paragraph (1) or (3) of subsection (a)"; and

(B) By inserting after "per centum" the following: "(20 per centum if paragraph (3) of subsection (a) would otherwise apply)".

(c) The amendment made by section 504 (a) shall apply—

* * * * *

(2) Insofar as it affects the rates of the taxes imposed by subsections (b) * * * of section 1700 of the Internal Revenue Code, as though the rates listed under the heading "Old Rate" in the table in section 1650 of such Code were the rates established by the amendments made by title II of this Act;

* * * * *

PAR. 9. Section 101.8, as amended by Treasury Decision 5349, is further amended as follows:

(A) So much of the section as precedes the examples is amended to read as follows:

§ 101.8 *Basis, rate, and computation of tax*—(a) *General rules.* In the case of a person having the permanent use or a lease for the use of a box or a seat in any opera house or other place of amusement the tax imposed by section 1700 (a) (1) or (3) on "the amount paid for admission to any place" does not apply. Instead, the provisions quoted above impose a tax on the right to the use of the box or seat equivalent to a percentage of the total amount that would be realized by the sale, at the established price, of the right to occupy a similar box or seat for each performance or exhibition during the period for which such box or seat is reserved. For applicable percentage rates of tax, see paragraph (b) of this section. In other words, the tax is based not on the amount, if any, actually paid for the particular box or seat, but on the amount that would be paid, at the established price, for admission to all performances given, not merely those attended, if payments were made for each performance separately. The tax is not on the actual use of the box or seat, but on the most extensive possible use. Note that the rate of the tax here is a percentage rate and is not "1 cent for each 10 cents or major fraction thereof", or "1 cent for each 5 cents or major fraction thereof", as the case may be, as under section 1700 (a) (1) or (3). In the case of a box, if there is no comparable box for the use of which on single occasions admission charges are made, the tax is to be computed by determining the amount for which a single box seat in the same part of the house is sold, multiplying that amount by the number of seats in the box, and calculating the tax at the applicable percentage rate. If there is no box located in a similar position, the tax is to be computed by determining the amount for which a single seat in the same part of the house is sold, multiplying that amount by the number of seats in the box, and calculating the tax accordingly. The following examples (based upon a tax rate of 20 percent) will illustrate the application of the general rules of this section:

(B) By inserting at the end thereof the following new paragraph:

(b) *Rate of tax on permanent use or lease of boxes or seats.* The rates of tax applicable to the permanent use, or lease for the use, of a box or seat in any opera house or other place of amusement, are as follows:

Period of use:	Rate (percent)
July 1, 1940, to Mar. 31, 1944, inclusive	11
Apr. 1, 1944, to Mar. 31, 1954, inclusive	20
On or after Apr. 1, 1954:	
(1) Horse and dog race tracks	20
(2) All other places	10

The reduced rate of 10 percent for admission to "all other places" applies only in those cases where all the performances or exhibitions at which the box or seat is used or reserved by or for the lessee or holder can occur only on or after April 1, 1954, regardless of the time payment is made for the permanent use or lease of the box or seat. For special provisions relating to payment, credit, or refund of the admissions tax in cases where the tax was collected prior to April 1, 1954, at the 20 percent rate and all the performances or exhibitions can occur only on or after April 1, 1954, see § 101.43a.

PAR. 10. Immediately preceding § 101.9 there is inserted the following:

(3) Section 1700 (c) (relating to rate of tax on sales outside box office) is hereby amended—

(A) By striking out "paragraph (1) of subsection (a)" and inserting in lieu thereof "paragraph (1) or (3) of subsection (a)"; and

(B) By inserting after "per centum" the following: "(20 per centum if paragraph (3) of subsection (a) applies)".

(2) Insofar as it affects the rates of the taxes imposed by subsections * * * (c) * * * of section 1700 of the Internal Revenue Code, as though the rates listed under the heading "Old Rate" in the table in section 1650 of such Code were the rates established by the amendments made by title II of this Act;

* * * * *

PAR. 11. Section 101.11 (26 CFR 101.11), as amended by Treasury Decision 5349, is further amended as follows:

(A) By inserting immediately preceding the first sentence of paragraph (a) thereof "(a) *General rules:*".

(B) By striking out the second sentence of paragraph (a) and inserting in lieu thereof the following: "The tax is determined by applying the appropriate percentage to the amount by which the selling price exceeds the sum of the regular or established price and the tax thereon (see section 101.4). The appropriate percentages are: 20 percent, with respect to (1) an amount paid before April 1, 1954, for admission at any time, (2) an amount paid after March 31, 1954, for admission before April 1, 1954, (3) an amount paid on or after April 1, 1954, for admission on or after such date to a place if the principal amusement or recreation offered with respect to such admission is horse or dog racing at a race track; 10 percent, with respect to an amount paid on or after April 1, 1954, for admission on or after such date to any place of amusement other than a place where the principal amusement or recreation offered with respect to such admission is horse or dog racing at a race track."

(C) By changing paragraph (a) thereof to read as follows:

(b) In determining the amount of the excess charge, the amount of any tax imposed under section 1700 (a) (1) or (3) is always added to the regular or established price and the sum so obtained is subtracted from the selling price. The remainder represents the excess charge, and the applicable percentage rate of tax applies to that amount. Thus, by way of illustration, if a ticket broker sells for $6.00 a ticket or card of admission to a theater the regular or established price of which is $4.00, plus the applicable admission tax (80 cents or 40 cents, as the case may be), the excess charge and the tax due thereon are determined as follows:

	Sale by broker before Apr. 1, 1954	Sale by broker on or after Apr. 1, 1954, for admissions on or after such date
Established price	$4.00	$4.00
Admission tax (1 cent for each 5 cents)	.80	
Admission tax (1 cent for each 10 cents)		.40
Total	4.80	4.40
Sale price	6.00	6.00
Difference, representing taxable excess charge	1.20	1.60
Tax due at 20 percent	.24	
Tax due at 10 percent		.16

(D) By inserting "or (3)" immediately following "1700 (a) (1)" at the end of the first sentence of paragraph (f).

(E) By inserting immediately following paragraph (f) and immediately preceding the first example, the following new paragraph (g):

(g) The following examples (based upon a tax rate of 20 percent of the excess charge) will illustrate the application of this section:

PAR. 12. Section 101.12, as amended by Treasury Decision 5349, is further amended by inserting after the words "40 cents" in the parenthetical phrase of the first sentence of the example the following: ", based on the rate of 1 cent for each 5 cents or major fraction thereof", and by adding at the end of the example the following new sentence: "If in this example the broker resold the ticket on or after April 1, 1954, his liability for the tax on the excess charge over the established price would be 5 cents (that is, 10 percent of the 50 cents excess)."

PAR. 13. Immediately preceding § 101.13 there is inserted the following:

(h) *Certain athletic games for benefit of hospitals for crippled children.* Section 1701 (a) (2) (relating to nonexempt admissions) is hereby amended by striking out "between two elementary or secondary schools" and inserting in lieu thereof the following: "between teams composed of students from elementary or secondary schools".

(i) *Exemption of school or college athletic events.* Section 1701 (a) (2) (relating to nonexempt admissions) is hereby amended by adding at the end thereof the following new sentence: "Clauses (A) and (B) shall not apply in the case of any athletic event between educational institutions held during the regular athletic season for such event, if the proceeds therefrom inure exclusively to the benefit of such institutions."

(j) *Historic sites, museums, and planetariums.* Section 1701 (e) (2) (relating to exemption from admissions tax of historic sites) is hereby amended to read as follows:

(2) *Historic Sites, Museums, and Planetariums.* Any admission to an historic site, house, or shrine, to a museum of history, art, or science, to a planetarium, or to any exhibition in connection with any of the foregoing, operated—

(A) By any State or political subdivision thereof or by the United States or any agency or instrumentality thereof—if the proceeds therefrom inure exclusively to the benefit of the State, political subdivision, United States, agency, or instrumentality, or

(B) By any society or organization not organized for profit—if no part of the net earnings thereof inures to the benefit of any private stockholder or individual.

For purposes of subparagraph (A), the term "State" includes Alaska, Hawaii, and the District of Columbia.

(k) *Certain amateur theater performances.* Section 1701 (relating to exemptions from the admissions tax) is hereby amended—

(1) By striking out the period at the end of subsection (e) and inserting in lieu thereof "; or"; and

(2) By adding at the end thereof a new subsection as follows:

(f) *Certain amateur theater performances.* Any admission to an amateur performance presented and performed by a civic or community theater group or organization—if no part of the net earnings thereof inures to the benefit of any private stockholder or individual.

The amendments made by section 201 (other than subsection (b) thereof) shall apply only with respect to amounts paid for admissions on or after April 1, 1954. In addition, such amendments shall apply—

(1) In the case of any season ticket or subscription, only if all the admissions under such ticket or subscription can occur only on or after April 1, 1954; and

(2) In the case of the permanent use of a box or seat or a lease for the use of such box or seat, only if all the performances or exhibitions at which the box or seat is used or reserved by or for the lessee or holder can occur only on or after April 1, 1954.

The amendment made by subsection (b) shall apply only with respect to amounts paid on or after April 1, 1954, for admissions on or after such date.

PAR. 16. Section 101.15, as amended by Treasury Decision 6007, is further amended as follows:

(A) By amending paragraph (c) to read as follows:

(c) *Nonexempt admissions.* The exemptions provided by section 1701 (a) (1) in the case of events held for the benefit of the organizations specified therein (paragraph (b) (2) through (8) of this section) do not apply with respect to admissions to:

(1) *Athletic games or exhibitions*—(i) *Prior to April 1, 1954.* Any athletic game or exhibition held before April 1, 1954, unless the proceeds inure exclusively to the benefit of an elementary or secondary school; or unless, in the case of an athletic game between two elementary or secondary schools, the entire gross proceeds from such game inure to the benefit of a hospital for crippled children. (See paragraph (d) (6) (i) of this section.)

(ii) *On and after April 1, 1954.* Except as provided in paragraph (f), any athletic game or exhibition held on or after April 1, 1954, unless—

(a) The proceeds inure exclusively to the benefit of an elementary or secondary school; or

(b) In the case of an athletic game between two teams composed of students from elementary or secondary schools, the entire gross proceeds from such game inure to the benefit of a hospital for crippled children; or

(c) In the case of any athletic game or exhibition between educational institutions held during the regular athletic season for such event, the proceeds from such game or exhibition insure exclusively to the benefit of such participating institutions. Admissions to any athletic game or exhibition between educational institutions held other than during the regular season schedule for such athletic activity, such as a postseason game or exhibition, is not exempt from tax under this subdivision. (See paragraph (d) (6) (ii) of this section.)

(2) *Wrestling matches, prize fights, etc.*—(i) *Prior to April 1, 1954.* Any wrestling match, prize fight, or boxing, sparring, or other pugilistic match or exhibition, held before April 1, 1954, irrespective of the status of the participants, the character of the organization sponsoring the event, or to whom the admission proceeds are payable.

(ii) *On and after April 1, 1954.* Except as provided in paragraph (f), any wrestling match, prize fight, or boxing, sparring, or other pugilistic match or exhibition, held on or after April 1, 1954, irrespective of the status of the participants, the character of the organization sponsoring the event, or to whom the admission proceeds are payable, except that such event held between educational institutions during the regular athletic season for such event shall be exempt from tax if the proceeds therefrom inure exclusively to the benefit of the participating institutions. This exemption shall not apply to any such event held other than during the regular season schedule for such athletic activity. See paragraph (d) (7) of this section.

(3) *Carnivals, rodeos, or circuses.* Any carnival, rodeo, or circus in which any professional performer or operator participates for compensation. It is immaterial whether the professional performer or operator is paid for his services from the admission proceeds or from some other source.

(4) *Motion picture exhibitions.* Any motion picture exhibition.

(B) By amending paragraph (d) (5) to read as follows:

(5) *Historic sites, etc.*—(i) *Prior to April 1, 1954.* Admissions prior to April 1, 1954, to historic sites, houses, and shrines, and museums conducted in connection therewith, maintained and operated by a society or organization devoted to the preservation and maintenance of such historic sites, houses, shrines, and museums are exempt from tax, if no part of the net earnings thereof inures to the benefit of any private stockholder or individual. This exemption applies regardless of the disposition made of the proceeds from the admissions. Historic museums not maintained in connection with historic sites, houses, or shrines are not entitled to exemption with respect to admissions thereto.

(ii) *On and after April 1, 1954.* Except as provided in paragraph (f) of this section, admissions on or after April 1, 1954, to an historic site, house, or shrine, to a museum of history, art, or science, or to a planetarium, or to any exhibition in connection with any of the foregoing, is exempt from tax if:

(a) Operated by any State (including Alaska, Hawaii, and the District of Columbia) or any political subdivision thereof, or by the United States or any of its agencies or instrumentalities, provided that the proceeds derived therefrom inure to the benefit of such State, political subdivision, the United States, or its agency or instrumentality, or

(b) Operated by any society or organization not organized for profit provided that no part of the net earnings thereof inure to the benefit of any private stockholder or individual.

(C) By amending paragraph (d) (6) to read as follows:

(6) *Athletic events*—(i) *Prior to April 1, 1954.* Admissions to any athletic game or exhibition held before April 1, 1954, the proceeds of which inure exclusively to the benefit of an elementary or secondary school are exempt from tax. Admissions to any athletic game or exhibition held before April 1, 1954, between two elementary or secondary schools are exempt from tax, if the entire gross proceeds from such game inure to the benefit of a hospital for crippled children. For purposes of this exemption, the term "secondary school" includes any high school, or the equivalent thereof, through grade twelve.

(ii) *On and after April 1, 1954.* Except as provided in paragraph (f), admissions to—

(a) Any athletic game or exhibition held on or after April 1, 1954, the proceeds of which inure exclusively to the benefit of an elementary or secondary school, or

(b) Any athletic event or exhibition held on or after April 1, 1954, between teams composed of students from elementary or secondary schools, if the entire gross proceeds from such game inure to the benefit of a hospital for crippled children, or

(c) Any athletic event or exhibition between educational institutions held on or after April 1, 1954, and during the regular season schedule for that particular type of athletic activity, if the proceeds from such event inure exclusively to the benefit of the participating institutions,

are exempt from tax. For purposes of this exemption, the term "secondary school" includes any high school or the equivalent thereof through grade twelve.

(D) By adding at the end of paragraph (d) the following new subparagraphs (7) and (8):

(7) *Wrestling matches, prize fights, etc.* Except as provided in paragraph (f) of this section, admissions to any wrestling match, prize fight, or boxing, sparring, or other pugilistic match or exhibition between educational institutions held on or after April 1, 1954, and during the regular season schedule for that particular type of athletic activity are exempt from tax, if the proceeds from such event inure exclusively to the benefit of the participating institutions.

(8) *Amateur theater performances.* Except as provided in paragraph (f) of this section, admissions on or after April 1, 1954, to any amateur theater performance presented and performed by a civic or community group or organization devoted to the presentation of amateur theatricals are exempt from tax, if no part of the net earnings of such group or organization inures to the benefit of any individual or private stockholder. Within the meaning of this section, an amateur theater performance occurs when none of the performers having a part therein receive any compensation for their participation.

(E) By redesignating paragraph (f) thereof as paragraph (g).

(F) By adding after paragraph (e) the following new paragraph (f):

(f) *Effective date of certain exemptions under the Excise Tax Reduction Act of 1954 in the case of season tickets, etc.* The exemptions added to section 1701 by subsections (h), (i), (j), and (k) of section 201 of the Excise Tax Reduction Act of 1954 shall apply, in the case of a season ticket, subscription, permanent use of a box or seat, or lease for the use of such box or seat, only if all the admissions under such ticket or subscription, or all the performances or exhibitions at which the box or seat is used or reserved by or for the lessee or holder, can occur only on or after April 1, 1954. In the case of sales outside the box office, such exemptions shall apply only with respect to amounts paid on or after April 1, 1954, for admissions on or after such date.

PAR. 17. Section 101.18, as amended by Treasury Decision 5611, approved March 16, 1948, is further amended as follows:

(A) By changing the first table in example (1) to read as follows:

Gallery (last 4 rows)	.50	None	.50

PAR. 19. Immediately preceding § 101.22 there is inserted the following:

SEC. 202. TAX ON DUES [EXCISE TAX REDUCTION ACT OF 1954, APPROVED MARCH 31, 1954].

(a) *Dues or membership fees.* Section 1710 (a) (1) (relating to tax on dues or membership fees) is hereby amended by striking out "11 per centum" and inserting in lieu thereof "20 per centum".

(b) *Initiation fees.* Section 1710 (a) (2) (relating to tax on initiation fees) is hereby amended by striking out "11 per centum" and inserting in lieu thereof "20 per centum".

SEC. 504. TECHNICAL AMENDMENTS [EXCISE TAX REDUCTION ACT OF 1954, APPROVED MARCH 31, 1954].

(a) *Termination of tax rates under section 1650.* Section 1650 (relating to war tax rates of certain miscellaneous taxes) is hereby amended by inserting after "beginning with the effective date of title III of the Revenue Act of 1943" the following: "and ending March 31, 1954,".

* * * * *

PAR. 20. Section 101.31 is amended by adding at the end of paragraph (d) thereof the following new sentence: "For special provisions relating to payment of the admissions tax collected prior to April 1, 1954, at the rate in effect prior to such date, for admissions on or after such date, see § 101.43a."

PAR. 21. Immediately preceding § 101.41 there is inserted the following:

SEC. 506. SPECIAL CREDIT OR REFUND OF * * * ADMISSIONS TAXES [EXCISE TAX REDUCTION ACT OF 1954, APPROVED MARCH 31, 1954].

Notwithstanding any other provision of law, in any case in which tax has been collected prior to April 1, 1954, at the rate in effect (without regard to the amendments made by this Act) prior to April 1, 1954, * * * for admissions (referred to in section 201, other than subsections (b), (c), and (g) thereof, of this Act) on or after April 1, 1954, the person who collected the tax shall pay the same over to the United States; but credit or refund (without interest) of the tax collected in excess of that applicable (by reason of the amendments made by this Act) on or after April 1, 1954, shall be allowed to the person who collected the tax as if such credit or refund were a credit or refund under the applicable provision of the Internal Revenue Code, but only to the extent that, * * * prior to the event to which the right to admission relates, he has repaid the amount of such excess to the person from whom he collected the tax, or has obtained the consent of such person to the allowance of the credit or refund. * * *

PAR. 22. Immediately following § 101.43 there is inserted the following new § 101.43a:

§ 101.43a *Special provisions relating to payment, credit, and refund under section 506 of the Excise Tax Reduction Act of 1954*—(a) *Requirement to pay over tax collected at the old rate.* Section 506 of the Excise Tax Reduction Act of 1954 requires every person to pay over to the United States any tax on admissions referred to in section 1700 (a) (1) or (b) collected by him prior to April 1, 1954, at the rate in effect prior to such date, for admissions on or after such date. See paragraph (b) of this section for rules relating to the credit or refund of the excess collection of such taxes.

(b) *Credit or refund*—(1) *In general.* Section 506 of the Excise Tax Reduction Act of 1954 provides that a credit or refund shall be allowed (as if such credit or refund were a credit or refund under the applicable provisions of the Internal Revenue Code) to any person who, prior to April 1, 1954, collected any tax on admissions referred to in section 1700 (a) (1) or (b), at the rate in effect prior to such date, for admissions on or after such date.

(2) *Amount.* The amount to be credited or refunded is the excess of the tax collected at the rate in effect prior to April 1, 1954, over the tax at the rate in effect on and after such date. A claim for refund may be filed on Form 843 for the amount of such excess, or credit for such amount may be taken against the tax shown to be due on a subsequent return. The claim for refund should be filed with the district director for the internal revenue district in which the amount claimed was paid.

(3) *Conditions precedent.* The credit or refund will be allowed only if all the following conditions are met:

(i) The tax has been collected at the rate in effect prior to April 1, 1954;

(ii) Such tax actually has been paid over to the United States by the person claiming the credit or refund; and

(iii) Prior to the event to which the right to admission relates, such person either has repaid the amount of such excess to the person from whom he collected the tax or has obtained the written consent of such person to the allowance of the credit or refund of such amount.

(4) *Evidence required.* In order to obtain a credit or refund under section 506 of the Excise Tax Reduction Act of 1954 and this section, the claimant must have satisfactory evidence to substantiate his right to such credit or refund, such as a signed, dated statement from the ticket purchaser showing his name and address and the fact that such purchaser has obtained a refund of the excess tax or has consented to the allowance of the credit or refund of such excess tax to the claimant.

(5) *Interest.* No interest shall be allowed with respect to any amount of tax refunded or credited under the provisions of this section.

FEDERAL TRADE COMMISSION

[16 CFR Ch. I]

[File No. 469]

COMMERCIAL DENTAL LABORATORY INDUSTRY

NOTICE OF HEARING AND OF OPPORTUNITY TO PRESENT VIEWS, SUGGESTIONS, OR OBJECTIONS ON PROPOSED TRADE PRACTICE RULES

Opportunity is hereby extended by the Federal Trade Commission to any and all persons, firms, corporations, organizations, or other parties, including farm, labor, and consumer groups, affected by or having an interest in the proposed trade practice rules for the Commercial Dental Laboratory Industry, to present to the Commission their views concerning said rules, including such pertinent information, suggestions, or objections as they may desire to submit, and to be heard in the premises. For this purpose they may obtain copies of the proposed rules upon request to the Commission. Such views, information, suggestions, or objections may be submitted by letter, memorandum, brief, or other communication, to be filed with the Commission not later than June 24, 1955. Opportunity to be heard orally will be afforded at the hearing beginning at 10 a. m., d. s. t., June 24, 1955, in Room 332, Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D. C., to any such persons, firms, corporations, organizations, or other parties, who desire to appear and be heard. After due consideration of all matters presented in writing or orally, the Commission will proceed to final action on the proposed rules.

The industry for which trade practice rules are sought to be established through these proceedings is composed of persons, firms, corporations, and organizations engaged in the design, formulation, and fabrication under written or oral authority, and/or from impressions, casts, or models, of a licensed practitioner of dentistry, a licensed medical physician, or other authorized person, of orthodontic corrective appliances, prosthetic dental appliances, ceramic or plastic teeth encapments, cast-metal dental appliances, dental inlays, dental bridges, and other types of oral restorations.

These proceedings were instituted pursuant to an industry application and have for their purpose the establishment of a comprehensive set of trade practice rules directed to the maintenance of fair competitive conditions in the industry and to the elimination and prevention of such acts and practices as are deemed violative of statutes administered by the Federal Trade Commission. A general trade practice conference for the industry was held in New Orleans, Louisiana, and this announced hearing constitutes a further step in the proceedings.

Issued: June 2, 1955.

By the direction of the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

The areas described aggregate 764.90 acres.

Of the remaining lands aggregating approximately 16,480 acres, some are mainly range lands, generally rough and mountainous. Others are valuable for timber and still others are arable.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the restored lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C 279–284) as amended.

Veterans' preference-right applications under the said act of September 27, 1944, may be filed on or before 10:00 a. m. on the 35th day after the date of this order, and those covering the same lands shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, including the mineral-leasing laws, filed on or before 10:00 a. m. on the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

W. G. GUERNSEY,
Associate Director,
Bureau of Land Management.

JUNE 1, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

Of the released lands, approximately 3,460 acres are State lands and about 1,353 acres are patented lands. The remaining lands are embraced in exchange application, Arizona 07257, filed by the State of Arizona under section 8 of the act of June 28, 1934, as amended by section 3 of the act of June 26, 1936 (48 Stat. 1272; 49 Stat. 1976; 43 U. S. C. 315g) by which the offered lands will benefit a Federal Land Program. The lands, therefore, are not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

[Docket No. G-3669]

CHRISTIE MITCHELL & MITCHELL

ORDER FIXING DATE OF HEARING AND SPECIFYING PROCEDURE

On October 14, 1954, the Commission issued its order suspending proposed changes in rates filed by Christie Mitchell & Mitchell (Applicant) in the foregoing designated docket, pertaining to sales of natural gas in interstate commerce to Cities Service Gas Company.

The Commission finds: It is proper and in the public interest that the proceedings in the foregoing designated docket be set for hearing and that prior thereto Applicant shall submit the hereinafter specified material to the Commission for consideration in this proceeding.

The Commission orders:

(A) Pursuant to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 4, 14, 15 and 16, a public hearing be held commencing June 20, 1955, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in these proceedings.

(B) Applicants shall submit to the Commission, at least 5 days prior to the commencement of the hearing in this proceeding as herein provided, 5 copies of maps verified by a responsible officer of Applicant, showing the following:

(i) Full details of the facilities at the point or points of deliveries to Cities Service Gas Company;

(ii) Major pipeline facilities by which the gas is transported from each well to the points of delivery to Cities Service Gas Company; and,

(iii) Important pipeline facilities such as dehydration and gasoline plants, compressor stations, product removal plants, measuring stations, regulators, purification plants, and the like, connected to the pipeline facilities specified in (i) and (ii) above.

(C) At the hearing, Applicant shall go forward first and shall present its complete case-in-chief with respect to the issues in these proceedings. Upon completion thereof, other parties to these proceedings, including Commission Staff Counsel, may proceed with such cross-examination as they are prepared to conduct.

(D) Following the presentation of Applicant's case and such cross-examination as is provided in paragraph (B), other parties may present such testimony and evidence as they are prepared to offer with respect to the issues in these proceedings.

(E) Upon completion of the proceedings as provided in paragraphs (B) and (C), upon request of any party to the proceedings, including Commission Staff Council, the hearing may be recessed by the Presiding Examiner to prepare for full cross-examination and the preparation of testimony and evidence which such parties desire to offer.

(F) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: May 25, 1955.

Issued: May 27, 1955.

The increased rates and charges proposed in the aforesaid filing has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until October 29, 1955, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: May 25, 1955.

Issued: May 27, 1955.

FEDERAL REGISTER

VOLUME 20 NUMBER 111

Washington, Wednesday, June 8, 1955

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 27—COTTON CLASSIFICATION UNDER COTTON FUTURES LEGISLATION

MISCELLANEOUS AMENDMENTS

On March 23, 1955, a notice of proposed rule making was published in the FEDERAL REGISTER (20 F. R. 1740) regarding the proposed amendment of §§ 27.1, 27.9, 27.14, 27.24, 27.28, 27.67, 27.82, 27.86, and 27.92 of the regulations relating to cotton classification (7 CFR 27.1, 27.9, 27.14, 27.24, 27.28, 27.67, 27.82, 27.86, and 27.92, as amended) issued pursuant to authority contained in section 4863 of the Internal Revenue Code of 1954 (Public Law 591, 83d Congress, 68A Stat.).

After consideration of all relevant matters presented pursuant to the notice, said regulations are hereby amended as follows, pursuant to the authority contained in the provisions of the Internal Revenue Code cited above.

1. Section 27.1 (i) is amended to read:

(i) *Appeal Board of Review Examiners.* The Appeal Board of Review Examiners at Memphis, Tennessee.

2. Section 27.9 is amended to read:

§ 27.9 *Boards of cotton examiners; Appeal Board.* Boards of cotton examiners shall be maintained at points designated for the purpose by the Administrator. The members of such boards and the chairman of each shall be designated by the Administrator. The Appeal Board of Review Examiners established at Memphis, Tennessee and committees of such board authorized to serve at other points will review the classification of any cotton in accordance with §§ 27.61 to 27.72. A Board of Supervising Cotton Examiners shall perform duties as assigned.

3. Section 27.14 is amended to read:

§ 27.14 *Filing of classification requests.* Requests for classification shall be filed with the chairman of the board of cotton examiners through the exchange inspection agency at the point where the cotton is sampled and shall be transmitted to the chairman by the exchange inspection agency in accordance with procedures approved by the Administrator or his representative. If there is no board of cotton examiners at the point where the cotton is sampled, requests shall be filed through a supervisor of cotton inspection or the exchange inspection agency at such point, or at some other place designated in particular cases by the Administrator. Requests for classification shall be filed within 30 days after sampling and before classification of the samples.

4. Section 27.24 is amended to read:

§ 27.24 *Delivery of samples of cotton.* The original sample from each bale to be classified shall be delivered to the board of cotton examiners with which the classification request was filed, at its classification room. If there is no board of cotton examiners at the point where the cotton is sampled, the samples shall be delivered to a supervisor of cotton inspection or to the exchange inspection agency at such point, for forwarding to the proper board. No samples covered by pending classification requests which are ready for delivery as provided for herein shall be withheld from such delivery except as authorized in writing by the chairman of the board of cotton examiners or the Administrator.

5. Section 27.28 is amended to read:

§ 27.28 *Removal of original sample; conditions.* The original sample may be removed by the holder of the cotton class certificate covering the cotton represented by such sample at any time within two weeks after whichever of the following occurs first: (a) Such certificate becomes invalid as provided in § 27.42 or (b) the certificate (covering tenderable cotton) is surrendered for cancellation without the issuance of a new certificate in lieu thereof, or (c) the cotton is classified as untenderable and an application for review is not filed within the time specified in § 27.62, or (d) the classification of the cotton is reviewed, or (e) a period of one year elapses following the date of issuance of the original cotton class certificate: *Provided*, That the chairman of the board of cotton examiners may for good cause retain the samples for a longer period.

6. Section 27.67 is amended to read:

§ 27.67 *Use of new samples in reviews.* Unless the use of new samples shall be necessary in the judgment of the chairman of the board of cotton examiners, a review pursuant to §§ 27.61 to 27.72 shall be made by reference to the samples, if any, of the cotton involved in the possession of the board; but if a review is requested more than one year after the date of original certification of the cotton involved, or if there are no samples of such cotton in the possession of the board, the person requesting the review shall cause new samples to be drawn for the purpose and submitted to such board in accordance with this subpart.

7. Section 27.82 is amended to read:

§ 27.82 *Fees; review of classification.* For the review of the classification of any cotton, the fee shall be 35 cents per bale, which shall cover the review and any expense incident to forwarding and returning samples or other additional expense connected therewith, whether the review classification is performed by the Appeal Board of Review Examiners at Memphis, Tennessee, or by a committee of such board functioning in the field.

8. Section 27.86 is amended to read:

§ 27.86 *Proceeds from sale of samples and loose cotton.* Samples not removed in accordance with this subpart and loose cotton separated from the samples in the handling and classification thereof by a board shall become the property of the Department of Agriculture. Such cotton shall be disposed of in the manner prescribed by the property regulations of the Department of Agriculture.

9. Section 27.92 is amended to read:

§ 27.92 *Method of payment; advance deposit.* Any payment or advance deposit under this subpart shall be by check, draft, or money order, payable to the order of "Agricultural Marketing Service, USDA," and may not be made in cash except in cases where the total payment or deposit does not exceed $1.

The primary purposes of the amendments are to (1) require that requests for classification of samples be filed within 30 days after the date upon which the samples were drawn from the cotton instead of within one year as specified in the present regulations; (2) clarify procedures for filing classification requests and submitting samples for classification; (3) change conditions and time limits under which samples in the custody of the Department of Agriculture may be removed by the owner of such samples; (4) require new samples for review classification purposes when a review classification is requested more than one year after the date of the original certification (present regulations require new samples when a review classification is requested after two years from the date of the original certification); and (5) provide that checks, drafts, or money orders for payment of costs in connection with classification of cotton be made payable to "Agricultural Marketing Service, USDA" instead of "Treasurer of the United States." The amendments would also make changes necessitated by the transfer of the headquarters of the Appeal Board of Review Examiners from Washington, D. C., to Memphis, Tennessee.

The foregoing amendments shall become effective 30 days after publication in the FEDERAL REGISTER.

(Sec. 4863, 68A Stat. 582; 26 U. S. C. 4863)

Done at Washington, D. C., this 3d day of June 1955.

Deputy Administrator,

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 475—ADMISSION OF AGRICULTURAL WORKERS UNDER SPECIAL LEGISLATION

ADDITIONAL CONDITION OF ADMISSION

The following amendments to Chapter I of Title 8 of the Code of Federal Regulations are hereby prescribed:

Section 475.3 is amended by redesignating existing paragraph (d) as (e) and by adding a new paragraph (d) which, when taken with the introductory material, will read as follows:

§ 475.3 *Conditions of admission.* Any alien who applies for admission into the United States under the provisions of Title V of the Agricultural Act of 1949, as amended, and the provisions of this part, must:

* * * * *

(d) Comply with and continue to fulfill all of the terms, conditions, and requirements of his individual work contract.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rule prescribed by the order is an interpretative rule.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 202—ANCHORAGE REGULATIONS

SAN FRANCISCO BAY, SAN PABLO BAY, CARQUINEZ STRAIT, SUISUN BAY, SAN JOAQUIN RIVER, AND CONNECTING WATERS, CALIF.

Pursuant to the provisions of section 7 of the River and Harbor Act of March 4, 1915 (38 Stat. 1053; 33 U. S. C. 471), § 202.224 establishing and governing the use and navigation of anchorages in San Francisco Bay and tributary waters, California, is hereby revised to include maximum limits on the quantity of explosives which may be present at any one time in an anchorage, the relocation of explosives anchorages No. 13 and 14, revocation of explosives anchorage No. 16, and other minor modifications and editorial changes, as follows:

§ 202.224 *San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, San Joaquin River, and connecting waters, Calif.*—(a) *San Francisco Bay*—(1) *Anchorage 1 (general).* (i) That portion of San Francisco Bay bounded by the north shore of the City of San Francisco and lines joining points which are the following bearings and distances from Alcatraz Light: 201° 40', 2,670 yards; 220° 20', 1,800 yards; 251°, 4,210 yards; 234° 30', 4,410 yards.

(ii) All of this area is a general anchorage with the exception of a 333-yard wide cable area therein.

(2) *Anchorage 2 (general).* That portion of Richardson Bay north of a line bearing 257° from Peninsula Point to the shore at Sausalito, except so much of this area as is included in Naval Anchorage 11 and the improved channel to, and the turning basin at, Sausalito.

(3) *Anchorage 3 (general).* That portion of Belvedere Cove west of a line bearing 25° 30' from Peninsula Point to the shore at Tiburon.

(4) *Anchorage 4 (general).* Bounded by the westerly shore of San Francisco Bay and the following lines: Beginning on shore at Bluff Point; thence to a point bearing 286°, 3,630 yards, from Southampton Shoal Light; thence to a point bearing 228°, 4,450 yards from East Brother Island Light; thence along a line bearing 266° to the shore south of Point San Quentin. Excluded from this anchorage are the portions of the following areas included therein: The restricted area at the Naval Net Depot, Tiburon (see § 207.640 (h) of this chapter); Quarantine Anchorage 17 when being used for quarantine purposes; and Explosives Anchorage 13 and the forbidden anchorage zone surrounding it.

(5) *Anchorage 5 (general).* (i) Bounded by the easterly shore of San Francisco Bay and the following lines:

Beginning at the shoreward end of the Standard Oil Wharf at Point Orient; thence along the wharf to the southwest corner thereof; thence to a point bearing 334° 30′, 4,050 yards, from Southampton Shoal Light; thence along a line bearing 93° to the shore; except so much of this area as is included in the restricted area. Naval Fuel Annex, Molate Point (see § 207.640 (i) of this chapter), and the improved channel to Richmond Inner Harbor.

(ii) Vessels may anchor in this anchorage immediately adjacent to the improved channel to Richmond Inner Harbor: *Provided*, That any ship obstructing the channel must move from its position immediately if and when the fairway is required by a vessel navigating the channel.

(6) *Anchorage 6 (general)*. Bounded by the easterly shore of San Francisco Bay and the following lines: Beginning at the shore at the southernmost extremity of Point Isabel; thence along the northerly shore of Brooks Island to the training wall extending westerly therefrom; thence westerly along the training wall to its bayward end; thence to a point bearing 104°, 1,035 yards, from Treasure Island North End Light; thence along a line bearing 144° 30′ to a point 290 yards northerly of the center of Pier K of the San Francisco-Oakland Bay Bridge; thence along a line bearing 71° to the shore; excluding from this area, however, the cable areas therein.

(7) *Anchorage 7 (temporary)*. (i) That portion of San Francisco Bay bounded by the westerly shore of Treasure Island and the following lines: Beginning at the most westerly corner of Treasure Island at a point bearing 89°, 4,135 yards, from Alcatraz Light; thence to points which are the following bearings and distances from Alcatraz Light: 73° 30′, 3,100 yards; 117° 40′, 2,087 yards; 122° 30′, 3,730 yards; 101° 40′, 4,783 yards.

(ii) That portion of this anchorage lying westerly of a line having a bearing of 311° 30′ from Pier E of the San Francisco-Oakland Bay Bridge and passing through Point Knox Light on Angel Island, is reserved for the use of vessels while undergoing examination by quarantine, customs, immigration, Coast Guard, and other governmental authorities. Upon completion of these examinations, vessels shall promptly move out of this portion of the anchorage.

(iii) That portion of this anchorage lying easterly of the said line, having a bearing of 311° 30′ from Pier E of the San Francisco-Oakland Bay Bridge, is for use of vessels undergoing examination, as in subdivision (ii) of this subparagraph, and also for use of vessels requiring a temporary anchorage. Vessels shall not remain in this portion of the anchorage for longer than 36 hours.

(8) *Anchorage 8 (general)*. That portion of San Francisco Bay east of the City of San Francisco, the corners of which are the following bearings and distances from the center of the anchor pier (Pier C) of the San Francisco-Oakland Bay Bridge: 118°, 2,635 yards; 175° 30′, 2,420 yards; 172°, 3,470 yards; and 168°, 3,520 yards.

(9) *Anchorage 9 (general)*. Bounded on the north by the shore, the breakwater and turning basin at the Naval Air Station, Alameda, and a line from Air Station Channel Lighted Buoy 6 to Air Station Channel Entrance Lighted Buoy 2; bounded on the west by a line beginning at Air Station Channel Entrance Lighted Buoy 2, thence to a point bearing 17°, 4,050 yards, from Hunters Point Light, thence to a point bearing 343° 30′, 4,000 yards, from Hunters Point Light, and thence to a point bearing 343° 30′, 3,330 yards, from Hunters Point Light, and thence 146°; bounded on the south by a line 1,000 yards northerly from and parallel to the Hayward-San Mateo Bridge; and bounded on the east by the shore, including all of San Leandro Bay. The following areas are excluded from this anchorage: The seaplane restricted area, Naval Air Station, Alameda (described in § 207.640 (e) of this chapter); Explosives Anchorage 14, Explosives Storage Anchorage 15, and the forbidden anchorage zone surrounding each of these two anchorages.

(10) *Anchorage 9–A (general)*. Shoreward of the following lines: Beginning at the outer end of the south fender of the former automobile ferry slip at the end of the Alameda Mole; thence 270°, 400 yards; thence 216°, approximately 2,000 yards; thence along a line bearing 127° from Alcatraz Light, 1,200 yards; thence 36° to the shore.

(11) *Anchorage 10 (naval)*. (i) The triangular-shaped area immediately east of Sausalito northwest of a line bearing 234° from Point Stuart Light, and southwest of a line bearing 303° from Alcatraz light.

(ii) This anchorage is for the use of public vessels of the United States, but may be used by yachts when not required for use by public vessels. All yachts making use of this anchorage shall be prepared to move immediately upon notice should the anchorage be required for public vessels. With the permission of the District Commander or Captain of the Port, permanent yacht moorings may be placed within this anchorage, not more than 300 yards from the shore.

NOTE: As used in this section, the term "District Commander" means the Commander, Twelfth Coast Guard District, and the term "Captain of the Port" means the officer who has been designated by the Commandant, U. S. Coast Guard, as Captain of the Port, San Francisco.

(12) *Anchorage 11 (naval)*. (i) That portion of Richardson Bay the corners of which are the following bearings and distances from Point Stuart Light: 273°, 1,150 yards; 271°, 2,520 yards; 257° 30′, 2,580 yards; and 248° 30′, 1,530 yards; except so much of this area as is included in the improved channel to Sausalito.

(ii) This anchorage is reserved for the exclusive use of vessels and seaplanes of the United States Navy.

(13) *Anchorage 12 (naval)*. (i) That portion of San Francisco Bay east of the City of San Francisco the corners of which are the following bearings and distances from the center of the anchor pier (Pier C) of the San Francisco-Oakland Bay Bridge: 95°, 3,035 yards; 110°, 980 yards; 188°, 1,170 yards; 175° 30′, 2,420 yards; and 118°, 2,635 yards.

(ii) This anchorage is reserved for the use of vessels of the United States or foreign navies and for other public vessels of the United States. With the permission of the District Commander or Captain of the Port, this anchorage may be used temporarily by vessels other than public vessels, but vessels availing themselves of this privilege must hold themselves in readiness to shift berth immediately upon receiving notice to do so.

(14) *Anchorage 13 (explosives)*. (i) A circular area having a radius of 333 yards around a white buoy used to mark its location bearing 51° 30′, 1,900 yards, from the northerly extremity of California Point.

(ii) This anchorage is for the use of vessels loaded with, loading, or unloading explosives. This provision is not intended to prohibit lighters and barges from lying alongside ships for transfer of cargo.

(iii) The maximum total quantity of explosives that may be on board vessels in this anchorage shall be limited to 50 tons; except that, at the discretion of the District Commander or Captain of the Port, vessels in transit, loaded with explosives in excess of this limitation, may be permitted to anchor temporarily in this area provided the hatches to the holds containing explosives are not opened.

(iv) A circular zone 667 yards wide partially surrounding the anchorage is a forbidden anchorage zone and shall not be used for anchorage purposes by any vessels.

(15) *Anchorage 14 (explosives)*. (i) The area 1,000 yards wide and 2,760 yards long, the end boundaries of which are semicircles with radii of 500 yards and centers, respectively, 100° 00′, 3,270 yards, and 120° 30′, 4,800 yards from Hunters Point South End Light, and the side boundaries of which are parallel tangents joining said semicircles. The anchorage is marked at each extremity by a white buoy.

(ii) The anchorage is for the use of vessels loaded with, loading, or unloading explosives. This provision is not intended to prohibit lighters and barges from lying alongside ships for transfer of cargo.

(iii) The maximum total quantity of explosives that may be on board any one vessel moored in this anchorage shall be limited to 3,000 tons. Vessels will be assigned berths in this anchorage by the District Commander or Captain of the Port on the basis of the maximum quantity of explosives that will be on board the vessel.

(iv) Vessels in this anchorage shall not anchor closer than 400 yards to one another but the number of vessels which may anchor in this area at any one time shall be at the discretion of the District Commander or Captain of the Port. This provision is not intended to prohibit barges or lighters from lying alongside vessels for transfer of cargo.

(v) The 667-yard wide area partially surrounding this anchorage is a forbidden anchorage zone and shall not be used for anchorage purposes by any vessels.

(vi) This anchorage and the surrounding forbidden anchorage zone may be temporarily discontinued by the District Engineer, Corps of Engineers, San Francisco, California, when the area is required for general anchorage purposes.

(16) *Anchorage 15 (explosives storage)*. (i) An area 1,000 yards square whose center is marked by a white buoy bearing 124° 30′, 9,835 yards, from Hunters Point Light, and whose sides are due north-south and east-west.

(ii) This anchorage is for the purpose of storage of explosives. Barges and vessels shall be anchored so as not to approach within 167 yards of one another. All barges using this anchorage for storage purposes shall anchor with two or more anchors. The District Commander or Captain of the Port may authorize the placing of moorings within this anchorage, provided these moorings are so placed that barges at one mooring shall at all times be not less than 167 yards from barges at an adjacent mooring.

(iii) A square zone 500 yards wide surrounding this anchorage is a forbidden anchorage zone and shall not be used for anchorage purposes by any vessels.

(17) *Anchorage 17 (quarantine)*. An area 1,000 yards square, the easterly side of which is coincident with the easterly boundary of General Anchorage 4 and the northeasterly corner of which is on the said easterly boundary 97° 30′, 2,250 yards, from the northerly extremity of California Point.

NOTE: This anchorage is under the jurisdiction of the Medical Officer in charge of the Port of San Francisco and is included in this section for information only.

(b) *San Pablo Bay*—(1) *Anchorage 18 (general)*. Bounded by the westerly shore of San Pablo Bay and the following lines: Beginning at the shore at Point San Pedro; thence 90° to the easterly of the Sisters Islands; thence to points which are the following bearings and distances from Petaluma Creek Entrance Channel Light and Echo Board 2: 202° 30′, 1,200 yards; and 288° 30′, 5,870 yards; excluding from this area, however, the channel to Hamilton Field and the extension of this channel easterly to the boundary of the anchorage, and the pipeline area therein.

(2) *Anchorage 19 (general)*. Bounded by the northeasterly shore of San Pablo and the following lines: Beginning at the shore at a point bearing 03° 15′, 6,830 yards, from Petaluma Creek Entrance Channel Light and Echo Board 2; thence to points which are the following bearings and distances from Petaluma Creek Entrance Channel Light and Echo Board 2: 177° 30′, 8,600 yards; 131°, 7,000 yards; 103° 00′, 9,500 yards; 95° 30′, 13,370 yards, 93° 30′, 13,330 yards; and thence along the long dike extending southwesterly from Mare Island to the shore at Mare Island.

NOTE: See § 204.215 of this chapter establishing a target area in San Pablo Bay adjacent to the westerly shore of Mare Island for use of the Mare Island Navy Yard.

(3) *Anchorage 20 (general)*. Bounded by the southeasterly shore of San Pablo Bay and the following lines: Beginning at the northeast corner of Parr Terminal No. 4 at Point San Pablo; thence to a point bearing 14°, 1,135 yards from the northeast corner of the wharf at Pinole Point; thence to a point on the Union Oil Company Pier at Oleum, 206° 00′, 1,870 yards from Mare Island Pier 35 Light; and thence along this pier to the shore; excluding from this area Explosive Anchorages 22 and 23.

(4) *Anchorage 21 (naval)*. A rectangular area south of Mare Island the corners of which are the following bearings and distances from the tall stack at the Selby Smelting Works: 331° 30′, 1,285 yards; 300° 30′, 1,830 yards; 286° 30′, 1,530 yards; and 321°, 800 yards.

(5) *Anchorage 22 (explosives)*. (i) A circular area having a radius of 500 yards whose center is at the northwest corner of the wharf of the Atlas Powder Company at Pinole Point.

(ii) This anchorage is for the use of vessels loaded with, loading, or unloading explosives, and this anchorage shall not be used by any other vessel.

(iii) The maximum quantity of explosives that may be in this anchorage at one time shall be limited to 500 tons.

(6) *Anchorage 23 (explosives)*. (i) A circular area having a radius of 500 yards whose center is at the northwest corner of the wharf of the Hercules Powder Company which is located approximately 2,330 yards southwesterly of Lone Tree Point at Rodeo, California.

(ii) This anchorage is for the use of vessels loaded with, loading, or unloading explosives, and this anchorage shall not be used by any other vessels.

(iii) The maximum quantity of explosives that may be in this anchorage at any one time shall be limited to 100 tons.

(c) *Carquinez Strait*—(1) *Anchorage 24 (general)*. Bounded by the northerly shore of Carquinez Strait and lines joining points which are the following bearings and distances from Port Costa Light: 332° 30′, 1,820 yards; 347°, 1,330 yards; 347°, 710 yards; and 109° 30′, 1,800 yards.

(2) *Anchorage 25 (general)*. Bounded by the south shore of Carquinez Strait and lines joining points which are the following bearings and distances from Benicia City Wharf Light; 145° 30′, 2,970 yards; 141°, 1,970 yards; and 234°, 1,300 yards.

(d) *Suisun Bay*—(1) *Anchorage 26 (general)*. On the west side of Suisun Bay adjacent east and northeast of the City of Benicia within the following boundaries: The northeast edge of the Southern Pacific Bridge from the north shore to the first siren; thence 77° 30′, 550 yards; thence 35°, 6,650 yards; thence 44°, 2,100 yards; thence 314° to the shore; thence along the shore to the point of beginning.

NOTE: A portion of Anchorage 26 is occupied by the Suisun Bay Reserve Fleet of the Maritime Administration, and § 207.900 of this chapter establishes a restricted area in the vicinity of this Reserve Fleet.

(2) *Anchorage 27 (general)*. An area in the northeast portion of Suisun Bay lying east of a line due north through tripod on Roe Island at Preston Point; north of a line bearing 84° from fixed range light located 1,187 yards to the southwest of said tripod on Roe Island, to the old lighthouse at the most southerly point of Roe Island; thence bearing 101° to Middle Ground Light, thence bearing 88° to Chipps Island.

(e) *San Joaquin River*—(1) *Anchorage 28 (general)*. The waters adjacent to Lower Sherman Island southeasterly of a line 450 yards long bearing 238° from Sherman Island North End Light; easterly of a line bearing 163° 30′ from the west end of said 450-yard line; and northerly of a line bearing 27° from New York Slough East End Light and Echo Board.

(2) *Anchorage 29 (general)*. The entire water area southerly of West Island between West Island and the mainland lying between lines bearing 150° from the eastern extremity of West Island and 211° from the western extremity of West Island.

(3) *Anchorage 30 (explosives)*. (i) That portion of the Old San Joaquin River channel bounded on the west by Mandeville Point and on the north, east, and south by lines joining points which are the following bearings and distances from Stockton Channel 3 Light: 341°, 1,400 yards; 348° 30′, 1,520 yards; 355° 20′, 1,340 yards; 08° 30′, 835 yards; and 341°, 870 yards.

(ii) This anchorage is for the use of vessels, lighters, and barges loaded with, loading, or unloading explosives or explosive materials, and shall not be used by any other vessel or craft while such operations are in progress. At all other times the area will be open to fishing and navigation without restriction.

(iii) Notice of loading and unloading operations will be given by notice published by the United States Coast Guard in "Notice to Mariners", and by notice given by the Port of Stockton to local radio stations and newspapers, and by telephonic means to any organization that may request that such advice be given. In all cases the notice will state how long the operations will be in progress and on what days.

(f) *Sacramento River, Decker Island; restricted anchorage for vessels of the United States Government*—(1) *The anchorage ground.* An elongated area in the waters of the Sacramento River adjacent to the northeast shore of Decker Island within the following boundaries: Beginning at Sacramento River Light 4, FL. R., at the northerly tip of Decker Island, thence 90°, 117 yards; thence 180°, 633 yards; thence 184°, 817 yards; thence 186° 30′, 450 yards; thence 209°, 467 yards; thence 231°, 383 yards; thence 330° to shore; thence with the shore to the point of beginning.

(2) *The regulations.* No vessel or other craft except those owned by or operating under contract with the United States shall navigate or anchor within fifty feet of any moored Government vessel in the area. Commercial and pleasure craft shall not moor to buoys or chains of Government vessels, nor shall they, while moored or underway, unreasonably obstruct the passage of Government or other vessels through the area.

(3) *Enforcement.* The regulations in this paragraph shall be enforced by the Commanding General, San Francisco Port of Embarkation, Fort Mason, California, or his authorized representative.

(g) *General regulations.* (1) Except in cases of distress, great emergency, or heavy fog, no vessel shall be anchored in the navigable waters of San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, New York Slough, San Joaquin River Deep Water Channel, and the Stockton Turning Basin, California, outside of the anchorages defined and established in this section, nor anchor within an improved channel or a cable or pipe line area shown on Government charts, nor be moored, anchored, or made fast to any pier, wharf, bulkhead, or vessel in such manner as to impede or endanger the passage of any vessel in transit by, or to or from, adjacent wharves, piers, slips, or navigation channels.

(2) Whenever in the opinion of the District Commander or Captain of the Port such action may be necessary, that officer may require any or all vessels in any designated anchorage area to moor with two or more anchors. (Vessels using Anchorage 15 for the purpose of storage of explosives will be required to anchor with two or more anchors at all times.)

(3) Every vessel whose crew may be reduced to such number that it will not have sufficient men on board to weigh anchor at any time shall be anchored with two anchors, with mooring swivel put on before the crew is reduced or released.

(4) Anchors shall not be placed outside the anchorage areas, nor shall any vessel be so anchored that any portion of the hull or rigging extends outside the boundaries of the anchorage area.

(5) Vessels anchoring outside of the designated anchorage areas because of distress or heavy fog, shall be placed in such position as not to interfere with navigation or obstruct the approach to any pier, wharf, slip, or boat harbor. They shall move from such position as soon as the emergency ceases or when ordered by the District Commander or Captain of the Port or by his duly authorized representative.

(6) The anchorages will be used only for the purposes stated for each and under the special limitations applicable thereto.

(7) The District Commander or Captain of the Port shall assign berths in the anchorages to all vessels applying for such permission. He may grant permits to those vessels habitually maintaining and using the same mooring place in an anchorage area, and no vessel shall occupy a permanent berth in an anchorage area except under authority of such permit which may be revoked at any time.

(8) A vessel, upon being notified to move into the anchorage limits or to shift its position in the anchorage grounds shall get under way at once or obtain a tug and change its position with reasonable promptness, as directed.

(9) Whenever required by maritime or commercial interests of the United States, the District Commander or Captain of the Port is empowered to shift the position of any vessel anchored within or outside of an anchorage area, of any vessel which is so moored or anchored that its position impedes or obstructs vessel movements in any channel or obstructs or interferes with range lights, and of any vessel which, lying at the exterior end of a pier or alongside of a wharf or bulkhead, obstructs or endangers the passage of vessels to or from adjacent wharf property or impedes the movement of vessels entering or leaving slips and boat harbors.

(10) Permits to anchor in channels within the limits of the waterways covered by the regulations in this section may be granted by the District Commander or Captain of the Port to wrecking plants or other vessels legally engaged in recovering sunken property or in laying pipe or cable lines legally established or in repairing same when the application for such anchorage is approved by the District Engineer, Corps of Engineers, and to plant engaged in dredging operations when authorized by the District Engineer. The provisions of this subparagraph will not apply to plant engaged under the supervision of the District Engineer upon works for the improvement of rivers and harbors, but the District Engineer will advise the District Commander or Captain of the Port in advance of the proposed work for such improvement in all cases where the plant is to be employed under his supervision.

(11) Nothing in this section shall be construed as relieving the owner or person in charge of any vessel from the penalties of law for obstructing navigation or for obstructing or interfering with range lights, or for not complying with the navigation laws in regard to lights, fog signals, or for otherwise violating the law.

(12) (i) Anchorages 13, 14, 15, 22, 23 and 30 are reserved for vessels carrying explosives. All vessels carrying explosives shall be within these areas when anchored, except as provided in subparagraph (15) of this paragraph.

(ii) A written permit shall be obtained from the District Commander or Captain of the Port before vessels carrying explosives, or on which explosives are to be loaded, may proceed to the anchorages provided for them, and no vessel shall occupy a berth in such anchorage except by authority of such permit, which may be revoked at any time.

(iii) At the discretion of the District Commander or Captain of the Port, written permits to occupy a berth in explosive anchorages may be issued to vessels carrying flammable liquids, flammable solids, oxidizing materials, corrosive liquids, compressed gases and poisonous substances. Such permits must be obtained prior to entering the anchorage and are revokable at any time.

(iv) Vessels used in connection with transporting explosives to be loaded on or unloaded from other vessels in explosive anchorage areas, shall obtain and carry a written permit from the District Commander or Captain of the Port. The District Commander or Captain of the Port may, at his discretion, require every person having business on board vessels which are either laden or being loaded with explosives, to have a document which is acceptable to the Coast Guard for identification purposes. Such identification shall be shown whenever required by the District Commander or Captain of the Port.

(13) (i) Whenever any non-self-propelled vessel, or any self-propelled vessel that is unable to maneuver under its own power due to mechanical difficulties, lack of personnel, or for any other reason, occupies explosives anchorages 13, 14, 15, 22, 23 and 30, the District Commander or Captain of the Port may require the attendance of a tug upon such vessels when, in his judgment, such action is deemed necessary.

(ii) Every vessel loading, unloading, or laden with explosives shall, while within an explosive anchorage, display by day at its masthead, or at least 10 feet above the upper deck if the vessel has no masthead, a red flag 16 square feet or more in area, and shall display by night, in the same position specified for the flag, an electric red light visible through 360° for a distance of at least one mile.

(14) When vessels are conducting loading operations from barges at any of the established anchorages, as indicated by the display at its masthead of a red flag by day or a red light by night, passing vessels shall reduce speed to six knots.

(15) The District Engineer, Corps of Engineers, is empowered to authorize in writing, the anchoring of a single barge carrying explosives in or near the vicinity of work being done directly under his supervision, or under a Department of the Army permit, but only in quantities considered by him as safe and necessary. The District Engineer shall prescribe the conditions under which this explosive shall be stored and handled and in each case shall furnish the District Commander or Captain of the Port with a copy of the written permit to anchor explosives on the wharf and a copy of the rules and regulations for storing and handling.

(16) Vessels other than those under Federal supervision shall not go alongside or in any manner moor to any Government-owned vessel, mooring buoy, or pontoon boom, their anchor cables, or any of their appendages. Vessels other than those under Federal supervision shall not obstruct or interfere in any manner with the mooring, unmooring or servicing of vessels owned by the United States.

(17) Vessels anchoring in the San Joaquin River Deep Water Channel or the Stockton Turning Basin because of distress or heavy fog, shall be placed as near the edge of the channels or turning basin as possible, and in such position as not to interfere with the free navigation thereof, nor obstruct the approach to any pier, wharf, slip, or boat harbor. They shall move from such position as soon as the emergency ceases or when ordered by the District Commander or Captain of the Port, San Francisco. No vessel shall be permanently moored in areas adjacent to the San Joaquin River Deep Water Channel except on permission in writing from the District Commander or Captain of the Port.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10832; FCC 55-640]

[Rules Amdts. 2-39, 3-47]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 3—RADIO BROADCAST SERVICES

DENIAL OF PETITION; EXTENSION OF EFFECTIVE DATE

In the matter of amendment of Parts 2 and 3 of the Commission's rules and regulations and the Standards of Good Engineering Practice concerning FM Broadcast Stations to permit FM Broadcast Stations to engage in specified non-broadcast activities on a simplex and/or multiplex basis; Docket No. 10832.

1. The Commission has before it for consideration the petition filed May 3, 1955, by WWDC, Inc., licensee of Station WWDC-FM, Washington, D. C., requesting reconsideration and modification or waiver of the Commission's rules relating to functional music operation of FM broadcast stations; an Opposition to the WWDC petition filed on May 13, 1955, by the Good Music Station, Inc., licensee of WGMS-FM, Washington, D. C.; Joint Comments filed on May 16, 1955 by Multiplex Development Corporation and Multiplex Services Corporation; and Reply to Opposition filed by WWDC, Inc. on May 23, 1955.

2. On March 22, 1955, the Commission issued its Report and Order (FCC 55-340) in this proceeding amending its rules relating to the functional music operations of FM broadcast stations. On April 29, 1955, the Commission extended the effective date of the new rules to June 1, 1955. WWDC, Inc., by the instant petition requests that the Commission modify or waive these rules.

3. Following extensive rule making proceedings in which the comments of all interested parties were carefully considered, the Commission issued its Report and Order in this proceeding concluding that functional music operations conducted by FM broadcast stations did not constitute broadcasting within the meaning of the Communications Act. Nevertheless, the Commission adopted amendments to the rules which would permit FM broadcast stations to engage in functional music operations as an adjunct to their regular FM broadcast operations.

4. In the instant petition WWDC contends that functional music operations are broadcasting; that such operations do not violate any provisions of the Communications Act or the Commission's Rules or Regulations; and that enforcement of the rules at this time will retard the development of FM broadcasting. WWDC argues that the touchstone of the definition of broadcasting contained in the Communications Act and in earlier enactments dealing with radio is the "intent of the sender rather than the number of people receiving the matter broadcast or the methods of reception"; that "the intention of the sender must be determined from the inherent nature of the transmission and the circumstances surrounding its dissemination"; and WWDC submits that it intends its transmissions to be received by the public. It contends that only a small percentage of its revenue is derived from functional music operation and points to the results of listener surveys which it alleges indicate that its programming meets the needs, demands and requirements of a substantial segment of the public. WWDC states that WWDC-FM has suffered continuing operating losses since its inception, is now being operated at a loss and that its losses will be further increased if the rules are made effective at this time. It maintains that in order to comply with the rules, it must either multiplex its FM programs or delete 27 hours per week of its functional music activities; that multiplexing is impossible at this time because of the unavailability of equipment; and that the reduction in income which will necessarily result from a reduction in its functional music operations may necessitate termination of the services of WWDC-FM or the mere duplication of its AM programs.

5. In its opposition to the WWDC petition, WGMS opposes any modification of the rules which would permit functional music operations on any basis except that presently authorized and objects to any waiver on behalf of WWDC or any other station. WGMS contends that the Commission has twice decided that functional music operations are not broadcasting and that the WWDC petition has alleged nothing new in support of its contentions to the contrary. WGMS further submits that enforcement of the rules will not retard the development of FM or the development of functional music as such.

6. In their joint comments, Multiplex Development Corporation and Multiplex Services Corporation state that firm prices and delivery dates for multiplexing equipment are now available. They emphasize the importance of reasonable finality of the rules with respect to multiplexing.

7. Because it challenges the basic concept upon which the Commission's rules concerning the functional music operations of FM stations is founded, we shall first consider WWDC's contentions that functional music operations are broadcasting within the meaning of section 3 (o) of the Communications Act. This is not a novel question: It has been considered by the Commission on two previous occasions—once in connection with the issuance of the Notice of Proposed Rule Making in this proceeding and again in the Report and Order of March 16, 1955, which we are here asked to reconsider. In the Notice of Proposed Rule Making we expressed our view, based on the data then available to us, that functional music, while capable of being received by the general public, was not so intended and that these operations are essentially geared and directed to reception by the commercial institutions, stores, transit audiences, or other subscribers involved. We therefore concluded that functional music operations are predominatly non-broadcast in nature. However, in order that our ultimate determination might be based on complete and accurate information concerning the nature of functional music operations, we specifically invited comments concerning this question from all FM broadcasters and other interested parties. Extensive comments were filed. After careful consideration of the comments, including those submitted by WWDC, Inc., we again concluded that functional music operations are not broadcasting as defined by the act.

8. The substance of the arguments advanced by WWDC in support of its position that functional music operations are broadcasting within the meaning of section 3 (o) of the act are the same as those previously advanced by the petitioner, and others, in this proceeding. The only additional facts submitted by WWDC relate to its 1954-1955 revenues

and the results of a listener survey conducted in April of this year. Since no arguments have been presented which have not already been considered and disposed of and since no additional facts have been adduced which makes those arguments any more persuasive, we adhere to and reaffirm our conclusion that functional music operations of FM broadcasters do not fall within the statutory definition of broadcasting.

9. In view of this conclusion, we find it unnecessary to consider WWDC's contention that functional music operations do not violate any provisions of the Communications Act or any rules or regulations of the Commission. The rules and regulations concerning FM broadcasting stations, as amended by our Report and Order of March 16, 1955, permit FM stations to engage in functional music operations. Whether these operations were of questionable legality prior to our recent action amending the rules is academic.

10. We have concluded that functional music operations are nonbroadcast in nature. This conclusion dictates that we also reject WWDC's contention that the enforcement of the functional music rules at this time would retard the development of FM broadcasting. This conclusion also requires that we deny the request of WWDC for modification, or waiver of the rules to permit unrestricted functional music operations on a simplex basis. Although we have concluded that functional music operations are nonbroadcast in nature, we are permitting FM stations to conduct such operations as an adjunct to their regular FM broadcast activities. Anything more than this could be accomplished only by a reallocation of the FM band which we are not here proposing. The only alternative to this action, as we noted in our Report and Order, would be a complete cessation of functional music operations.

11. WWDC requests that the rules would be modified to permit FM broadcast stations engaging in functional music operations to request a hearing on the question of whether its programming serves the public interest. The Commission's functional music rules were adopted after an extensive rule making proceeding in which all interested parties, including the petitioner, had ample opportunity to present their views to the Commission. Voluminous comments were filed. To permit any licensee at this stage to request a hearing with respect to its individual operation would merely nullify the results of this extensive proceeding.

12. We have concluded in light of the above that the request of WWDC, Inc. for modification or waiver of the functional music rules should be rejected. The rules are now scheduled to become effective June 1, 1955. In light of our further action in this matter at this time, we believe the public interest would be served by extending the effective date of the new rules adopted in this proceeding to July 1, 1955.

13. In view of the foregoing: *It is ordered,* That the petition of WWDC, Inc. for reconsideration and modification or waiver is denied. *It is further ordered,* That the effective date of the amendments to the Commission's rules and regulations issued pursuant to its Report and Order in this proceeding on March 22, 1955, is extended to July 1, 1955.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter A—General Rules and Regulations

[Service Order 903]

PART 95—CAR SERVICE

RAILROAD FREIGHT CARS TO BE STOPPED TO COMPLETE LOADING

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 2d day of June A. D. 1955.

It appearing that there is a critical shortage of railroad freight cars; that shippers are appropriating such cars and shipping them almost empty to other points to complete loading; that such practice is wasteful and aggravates the car shortage, depleting and diminishing the use, control, supply, distribution and interchange of such cars; the Commission is of the opinion that an emergency requiring immediate action exists in the States of Oregon and Washington: It is ordered, that:

§ 95.903 *Railroad freight cars to be stopped to complete loading.* (a) No common carrier by railroad subject to the Interstate Commerce Act shall accept for transportation, or transport or move (whether ordered or appropriated without being ordered), any railroad freight car loaded with lumber, shingles, plywood, doors, and other lumber or forest products in Oregon or Washington and tendered to be forwarded to another point to be stopped off to complete the loading thereof, unless or until the lumber, shingles, plywood, doors, and other lumber or forest products loaded in the car at the first loading point equals or exceeds fifty percent (50%) of the marked capacity of the car used.

(b) *Special and general permits; appointment of agent.* (1) Paragraph (a) of this section shall be subject to any special or general permits issued by the Permit Agent named below.

(2) Charles W. Taylor, Director, Bureau of Safety and Service, Interstate Commerce Commission, Washington 25, D. C., is hereby designated and appointed as Permit Agent of the Interstate Commerce Commission with authority to issue special or general permits to meet exceptional circumstances.

(c) *Application.* The provisions of this section shall apply to intrastate and foreign commerce, as well as interstate commerce.

(d) *Regulations suspended; announcement required.* The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended and each railroad subject to this section, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing such suspension.

(e) *Effective date.* This section shall become effective at 12:01 a. m., June 6, 1955.

(f) *Expiration date.* This section shall expire at 11:59 p. m., November 30, 1955, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that a copy of this order and direction shall be served upon each State railroad regulatory body, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Subchapter B—Carriers by Motor Vehicle

[Ex Parte MC-43]

PART 207—LEASE AND INTERCHANGE OF VEHICLES

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 31st day of May A. D. 1955.

Upon consideration of the record in the above-entitled proceeding and of informal requests of Heavy Haulers, Machinery Movers and Erectors Section of the Local Cartage National Conference for clarification of § 207.5 (c) (1) insofar as it is applicable to them:

It appearing that it is desirable in the public interest to amend § 207.5 (c) (1); and good cause appearing therefor:

It is ordered, That § 207.5 (c) (1) of the rules and regulations prescribed by order of May 8, 1951, in this proceeding, as subsequently amended, reading:

(1) Authorized common carriers, holding certificates of public convenience and necessity from this Commission authorizing the transportation, in interstate or foreign commerce, over irregular routes, of articles or commodities which, because of their size, weight or shape, require the use of special equipment, may perform a through movement of such articles or commodities on such special equipment, without change of drivers at the point of interchange; and that, until March 1, 1956, such drivers may make the inspection required by paragraph (e) of this section and regulations on behalf of any carrier party to the through movement.

Be, and it is hereby, further amended to read as follows:

(1) Two or more common carriers, when engaged in the transportation of an article which, because of its size, weight, or shape, must be transported on a vehicle of special or unusual construction, may when transporting such article on such special or unusual vehicle, perform a through interchange service with such vehicle without a change of drivers at the point of interchange; and that, until March 1, 1956, such drivers may make the inspection required by paragraph (e) of this section on behalf of any carrier party to such through movement.

It is further ordered, That this order shall become effective on the date hereof.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 3]

[Docket No. 11405; FCC 55-639]

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

1. Notice is hereby given of further proposed rule making in the above entitled matter.

2. It is proposed to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations in the following manner:

General area	Channels	
	Delete	Add
Dover, Del.		234
Baltimore, Md.	234	
Reading, Pa.	233	

3. The purpose of the proposed amendment is to allocate Channel No. 234 to Dover, Delaware, in response to a request for such a rule making proceeding in order to facilitate consideration of an application which is to be filed for a new Class B FM broadcast station in that city.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before July 1, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed before or on the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: June 1, 1955.

Released: June 3, 1955.

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a request by Rib Mountain Television, Inc. for the institution of rule-making proceedings to consider the amendment of the table of television channel assignments contained in § 3.606 of the Commission's rules and regulations by shifting the educational reservation in Des Moines, Iowa, from VHF Channel 11 to a UHF channel.

2. Five television channels are presently assigned to Des Moines—VHF Channels 8, 11 and 13, with Channel 11 reserved for noncommercial educational use, and UHF Channels 17 and 23. VHF Station WHO-TV operates on Channel 13; Cowles Broadcasting Company is authorized to operate VHF Station KRNT-TV on Channel 8; and petitioner Rib Mountain Television, Inc. operates UHF Station KGTV on Channel 17. No applications have been filed for Channel 11 or Channel 23.

3. Rib Mountain Television, Inc. has advanced a number of alternative requests to the Commission with respect to operation on VHF Channel 11 in Des Moines; and these requests have been denied by the Commission. As its final alternative in the event its other requests are rejected by the Commission, Rib Mountain asks that the Commission institute a rule-making proceeding to look into the matter of shifting the educational reservation in Des Moines from VHF Channel 11 to a UHF frequency in order to make Channel 11 available for commercial use. Rib Mountain also requests that the Commission permit it to operate on a temporary basis on Channel 11 during the pendency of the rule-making proceeding, or that the Commission direct it to show cause in the rule-making proceeding why its authorization should not be modified to specify operation on Channel 11 in place of Channel 17. The Joint Committee on Educational Television has filed an Opposition to the Rib Mountain request.

4. The Commission is of the view that the public interest would be served by instituting a rule-making proceeding to consider the matter of shifting the educational reservation in Des Moines from VHF Channel 11 to a UHF frequency in order that all interested parties may have the opportunity of presenting their views to the Commission before final action is taken. The Commission does not believe, however, that Rib Mountain should be permitted to operate on Channel 11 in Des Moines during the pendency of this proceeding. Such action might appear to constitute a prejudgment of the outcome of this proceeding, and it has not been the Commission's policy to permit such operation. Nor do we believe that as a part of this proceeding we should include an Order directing Rib Mountain to show cause why its current authorization should not be modified to specify Channel 11 rather than Channel 17. For if at the termination of this proceeding the Commission concludes that the educational reservation should be shifted from Channel 11 and that this frequency may be employed for commercial use, Channel 11 will be available upon application by all interested parties. Rib Mountain would not be the only party eligible to apply for this frequency. And if we determine that the public interest would be served by shifting the educational reservation from VHF Channel 11, it would not be necessary to disturb Rib Mountain's present authorization on Channel 17 since UHF

Channel 23 would be available as an educational channel in Des Moines. Accordingly, we have concluded that Rib Mountain's request that it be ordered to show cause why it should not modify its authorization to operate on Channel 11, should be rejected.

5. Authority for the adoption of the amendment proposed by petitioner is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before July 1, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for the filing of such additional comments is established. The Commission will consider the comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: June 1, 1955.

STATIONS ON LAND AND SHIPBOARD IN MARITIME SERVICES

CERTAIN FREQUENCIES IN BOSTON, MASS., AREA

In the matter of amendment of Parts 7 and 8 of the Commission's rules regarding frequencies in the band 2000–2850 kc in the Boston, Massachusetts, area.

1. On February 10, 1954, the Commission adopted a Report and Order in Docket No. 10444 finalizing a plan of frequency assignment for all areas which would be used as the basis for carrying out the Maritime Mobile radiotelephone portions of the Geneva Agreement (1951) in the frequency bands between 2000 and 2850 kc. However, the effective dates of deletion of certain existing frequencies and availability of new frequencies were to be made the subject of later proceedings.

2. The rules presently provide that the frequency pair 2450 kc (coast)–2366 kc (ship) for use at Boston shall replace the existing frequency pair 2550 kc (coast)–2158 kc (ship) on a date to be designated. Police Radio Service assignments at Freehold, New Jersey, and Norristown, Pennsylvania, on 2366 kc have prevented, prior to this time, the utilization of that frequency in the Maritime Mobile Service at Boston. However, the police assignments on 2366 kc are being transferred to other frequencies and it is expected that the transfer will be completed by August 1, 1955. Since the new frequency pair is urgently needed at Boston because of interference to the present ship frequency 2158 kc, it is proposed to make the new frequency pair available for assignment on a full time basis as soon after August 1, 1955, as is feasible. Simultaneously, the old frequency pair (2550 kc–2158 kc) would be deleted.

3. The proposed amendment is issued under the authority contained in section 303 (f) and (r) of the Communications Act of 1934, as amended.

4. Any interested person who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before July 8, 1955, written data, views or briefs setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within ten days from the last day for filing said original data, views or briefs. The Commission will consider all such comments prior to taking final action in this matter.

5. In accordance with the provisions of § 7.164 of the Commission's rules, an original and fourteen copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: June 1, 1955.

[Docket No. 11402; FCC 55-629]

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND CLASS B TELEPHONE COMPANIES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matters.

2. The American Telephone and Telegraph Company (A. T. & T.) by letter dated September 30, 1954, and the U. S. Independent Telephone Association (USITA) by letter dated February 21, 1955, have requested that the Commission revise Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies) so as to provide that the accounting for contributions to, and membership fees and dues in, organizations engaged in activities beneficial to the community, should be chargeable to the operating expense accounts rather than to account 323, "Miscellaneous income charges." The Company's suggested form of the amendment to reflect such changes with respect to contributions, and membership fees and dues is as follows:

a. In § 31.323 *Miscellaneous income charges,* eliminate the following item:

Contributions for charitable or social or community welfare purposes.

b. In § 31.675 *Other expenses:*

i. Omit present item "Association dues."

ii. Add as the third item the following:

Contributions to, and payments for memberships in, organizations engaged in activities beneficial to the community and organizations engaged in trade, technical and professional activities. (See also Note B to this account.)

iii. Add an additional note as follows (relettering present Notes B and C):

NOTE B: Contributions and payments for memberships for the direct benefit of a particular company activity or department should be charged to the operating expense account appropriate for such activity or department.

c. In § 31.661 *Executive department,* change the fifth item to read as follows:

Membership fees and dues of officers and employees in organizations useful in the conduct of the activities of the executive department.

d. In § 31.662 *Accounting department,* change the fifth item to read as follows:

Membership fees and dues of officers and employees in organizations useful in the conduct of the activities of the accounting department.

e. In § 31.663 *Treasury department,* change the fifth item to read as follows:

Membership fees and dues of officers and employees in organizations useful in the conduct of the activities of the treasury department.

f. In § 31.664 *Law department,* change the fourteenth item to read as follows:

Membership fees and dues of officers and employees in organizations useful in the conduct of the activities of the law department.

g. In § 31.665 *Other general office salaries and expenses,* change the third item to read as follows:

Membership fees and dues of officers and employees in organizations useful in the conduct of the activities chargeable to this account.

h. Appendix A—Case 17: Eliminate this case as unnecessary.

3. While not mentioned in the requests filed with the Commission, a variation of the above proposal (which involves the use of a number of departmental expense accounts) would be to include the items in question in one expense account designed especially for the purpose or in account 675, "Other expenses," thereby making these items more readily available for study and analysis.

4. Another possibility for amendment of the present regulations governing the accounting for contributions for charitable or social or community welfare purposes would be to continue the requirement that such contributions be charged to account 323, "Miscellaneous income charges" but to add a provision that a credit should be made to account 323 in the amount of the reduction in Federal and State income taxes attributable to the contributions. The offsetting charge for such credit to account 323 would be to an "above-the-line" expense account such as a subdivision of account 305, "Operating taxes." Such an amendment would seem to be an extension of the application of an accounting principle which the Commission has authorized upon request by the telephone companies on a number of occasions in connection with accounting for transactions involved in refinancing operations. Recent examples of such accounting will be found in the 1954 annual reports of New York Telephone Company and the Pacific Telephone and Telegraph Company. There the effect of the special accounting authorized was to leave Net Income unaffected by an unusual happening reducing Federal income tax liability. Here the effect of the possible amendment under consideration would be to leave Net Operating Income unaffected by the reduction in tax liability flowing from contributions excluded from operating expenses in the accounts.

5. If the Commission were to revise its accounting regulations in the manner set forth in paragraph 2 above, or in the variation contained in paragraph 3, the question arises whether or not a maximum limit on amounts or restrictions on the types of contributions which could be so treated in the accounts should be provided for. If there should be such a maximum or restrictions how should the maximum be fixed and what should be the restrictions on types.

6. Before reaching a decision as to whether or not to amend Part 31 as requested by A. T. & T. and USITA, or in accordance with any of the other methods described above, the Commission desires to give all interested parties an opportunity to comment. Accordingly, the matter is made the subject of a notice of proposed rule making. This Notice is issued under authority of section 4 (i) and 220 of the Communications Act of 1934, as amended.

7. The Commission is therefore inviting comments not only on the proposal of A. T. & T. and USITA as set forth in paragraph 2 above, but also on the variation contained in paragraph 3 and on the alternative possibility contained in paragraph 4 as well as on the questions presented in paragraph 5. Any interested person who is of the opinion that the proposed amendment, the variation thereof, or the alternative to it, should not be adopted, or should not be adopted in the manner proposed herein, may file with the Commission on or before August 1, 1955 a statement or brief setting forth his comments. At the same time, persons favoring the amendment, or its variation or alternative as proposed, may file statements in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within ten days of the last day for filing said original comments. No additional comments may be filed unless (1) specifically requested by the Commission, or (2) good cause for filing of such additional comments is established. The Commission will consider all such comments that are presented before taking action in the matter and, if any comments are submitted which appear to warrant the holding of oral argument, notice of the time and place of such oral argument will be given.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements or briefs filed shall be furnished to the Commission.

Adopted: June 1, 1955.

Released: June 3, 1955.

CORTLANDT SHIPPING CO. ET AL.

NOTICE TO SHOW CAUSE WHY FREIGHT FORWARDER CERTIFICATES OF REGISTRATION ISSUED TO CERTAIN REGISTRANTS SHOULD NOT BE CANCELLED

Notice is hereby given that at a session of the Federal Maritime Board held at its Office in Washington, D. C., the 27th day of May, 1955, the Board entered the following order:

Whereas the following registrants were issued freight forwarder certificates of registration pursuant to General Order 72 (46 CFR Part 244):

Name, Registration No., and Date Issued

Cortlandt Shipping Company; 1555; October 23, 1952.

Ricardo Pena, d/b/a Latin American Trading Service; 1572; December 17, 1952.
Joseph F. Mariano, d/b/a J. F. Mariano Company; 1603; May 11, 1953.
Edmund Rodriquez; 973; August 4, 1950.
Southwestern Shipping Corporation; 250; August 30, 1950.

Whereas letters mailed to these registrants at their last known addresses have been returned by the post office, and the Board is unable to exercise regulatory authority over them because their present whereabouts is unknown; and

Whereas it appears that these registrants are no longer in the business of freight forwarding at their last known addresses;

It is ordered, That each of the above-named registrants show cause in writing or—if requested by registrant—at a public hearing, within thirty (30) days from the date of publication hereof in the FEDERAL REGISTER, why its freight forwarder certificate of registration should not be cancelled for the reasons above stated; and

It is further ordered, That failure of any registrant named above to respond as ordered hereby will result in automatic cancellation of its freight forwarder registration certificate, without further action by the Board and that notice of such cancellation shall be sent by the Secretary to the registrant; and

It is further ordered, That a copy of this order be sent by registered mail to each of the above-named registrants at its last known address; and

It is further ordered, That this order be published in the FEDERAL REGISTER.

Dated: June 2, 1955.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

ALABAMA

RESTORATION ORDER UNDER THE FEDERAL POWER ACT

JUNE 2, 1955.

Pursuant to a determination of February 4, 1955, of the Federal Power Commission, Docket Numbers DA-8 and DA-9-Alabama, and in accordance with Order No. 541, section 1.5 (d) and 2.0 (a) of the Director of the Bureau of Land Management, approved April 21, 1954, it is ordered as follows:

Subject to valid existing rights, the following-described lands, so far as they are withdrawn or reserved for power purposes in Power Site Classification No. 7 of July 30, 1921, and Power Projects No. 82 of May 7, 1921, and No. 618 of July 1, 1931, are hereby opened to disposition under the public-land laws, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and subject to the right of the licensee for Projects Nos. 82 and 618 and its successors to use the lands for project purposes as provided by the licenses for the projects:

POWER SITE CLASSIFICATION NO. 7 AND POWER PROJECT NOS. 82 AND 618

ST. STEPHENS MERIDIAN

T. 21 N., R. 16 E.,
Sec. 14, fractional SW¼ lying west of Coosa River.

POWER PROJECT NO. 82

T. 22 N., R. 16 E.,
Sec. 5, fractional lots A, B and C.
T. 22 N., R. 17 E.,
Sec. 18, NW¼SW¼;
Sec. 20, SE¼SE¼.
T. 23 N., R. 15 E.,
Sec. 24, SE¼SW¼;
Sec. 36, fractional NE¼.

The NW¼SW¼ of sec. 18, T. 22 N., R. 17 E., is patented.

The lands are adjacent to the Coosa River and range from rolling to steep and rough. They are unsuitable for cultivation, but have value for timber production and recreation.

Effective on the date of publication of this order in the FEDERAL REGISTER, the public lands affected by this order shall be subject for a period of 90 days to application by the State of Alabama for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways pursuant to section 24 of the Federal Power Act, as amended (16 U. S. C. 1946 ed., Supp. V, 818).

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m. on the 91st day after the date of publication. At that time, the said lands shall become subject to application, petition, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file application for these lands may be obtained on request from the Supervisor, Eastern States Office, Bureau of Land Management, Washington 25, D. C.

ORDER SCHEDULING HEARING

In re applications of Radio Associates, Inc., Biloxi, Mississippi, Docket No. 10844, File No. BPCT-1150; WLOX Broadcasting Company, Biloxi, Mississippi, Docket No. 10845, File No. BPCT-1157; for construction permits for new television stations (Channel 13).

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of June 1955;

The Commission having under consideration (1) a petition filed by WLOX Broadcasting Company on May 3, 1955 seeking the Commission's review and reversal of the Hearing Examiner's Memorandum Opinion and Order dated April 29, 1955, denying its petition that further hearing in the above-entitled proceeding be held in Biloxi, Mississippi, instead of Washington, D. C.; and (2) an opposition filed thereto by Radio Associates, Inc.

It appearing that the Commission has carefully considered the matters and issues raised in the petition and opposition herein, and the Examiner's Memorandum Opinion and Order of April 29, 1955;

It further appearing that while the Examiner acted in accordance with the policy laid down by the Commission as usually applicable to such requests as here involved, the circumstances of this case (see the Commission's Memorandum Opinion and Order of February 23, 1955; FCC 55-249) make it desirable to hold the hearing in the field;

It is ordered, That the above-entitled petition filed by WLOX Broadcasting Company, on May 3, 1955, is granted; that the Examiner's Memorandum Opinion and Order released April 29, 1955 is set aside; and that the hearing herein be scheduled to commence at Biloxi, Mississippi at the earliest date practicable.

NIAGARA BROADCASTING SYSTEM (WNIA)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Gordon P. Brown tr/as Niagara Broadcasting System (WNIA), Cheektowaga, New York, Docket No. 11404, File No. BMP-6773; for modification of permit to extend completion date.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of June 1955;

The Commission having under consideration the above-entitled application for an extension of time to complete construction of Station WNIA, Cheektowaga, New York; and an opposition to the subject application filed on March 15, 1955, and a petition to intervene filed on May 17, 1955 pursuant to § 1.388 of the Commission's rules by Walter J. Urbanski; and

It appearing that on July 1, 1953 the Commission granted the application of Gordon P. Brown, trading as Niagara Broadcasting System, for a construction permit for a new standard broadcast station to operate on 1230 kilocycles, with a power of 250 watts, unlimited time, at Cheektowaga, New York (File No. BP-8766); that the application was filed on a site-to-be determined basis; that an extension of time for filing application for modification of permit to specify site was granted to October 1, 1953 on the grounds of "unable to complete negotiations to acquire title for WNIA site"; that a further extension of time to file application to specify site was granted to November 12, 1953 on the grounds of "inability of Cheektowaga Town Board to act on rezoning request until this week"; that application to specify site was filed on October 15, 1953 and granted on January 21, 1954 (File No. BMP-6343); that said permit specified that construction was to begin by March 21, 1954 and completed by September 21, 1954; that an extension of time to complete construction of the station was granted to March 21, 1955 on the grounds of difficulty in purchase and rezoning of site; and that the subject application for extension of time to complete construction of WNIA was filed on February 15, 1955, because progress toward installation of this station has been retarded by the necessity of applicant's devoting all time available to completion of construction at his station, WSAY, Rochester, New York, and because climatic conditions during the past winter months made construction impracticable; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated March 23, 1955 that the grounds advanced in support of the subject application did not appear sufficient to warrant a grant thereof; and

It further appearing that in a pleading filed on March 15, 1955, Walter J. Urbanski requested the Commission to deny the subject application and to "further permit that the frequency for said station be open to new applicants who may apply forthwith" on the grounds that the "petitioner together with other substantial associates are interested in building a radio station for the town of Cheektowaga" and that "Niagara Broadcasting Company has taken no action nor is any action contemplated to build the station and that the delay in construction is due to personal reasons and difficulties of Gordon P. Brown, the owner of the Niagara Broadcasting Company"; that in support of the allegations the petitioner contends that no difficulty was encountered in the rezoning and that "construction of WSAY has been going on seven years"; and that the applicant has deliberately created reasons to obtain extensions of time for completion date; and

It further appearing that in a petition filed on May 17, 1955, Walter J. Urbanski requested permission to intervene in any hearing on the subject application to present evidence on the issues in question pursuant to § 1.388 of the Commission's rules; and

It further appearing that replies to the Commission's above-referenced letter were filed by the applicant on April 21 and 22, 1955, denying the allegations of the petitioner, and in a letter dated May 20, 1955, it was stated that a new contractor has been retained; and

It further appearing that the Commission, upon consideration of the above-described pleadings, is unable to conclude that a grant of the subject application would be in the public interest and is of the opinion that a hearing is necessary; and

It further appearing that in the above-described petition to intervene Walter J. Urbanski has shown insufficient legal interest in a hearing proceeding on the subject application to be made an intervenor, but that his interests will be adequately protected in accordance with the provisions of § 1.723 of the Commission's rules which provides that persons submitting communications relative to certain matters before the Commission will have an opportunity to appear and give evidence at a hearing thereon;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at the offices of the Commission in Washington, D. C., at 10:00 a. m. on July 11, 1955, upon the following issues:

1. To determine whether or not Niagara Broadcasting System has been diligent in proceeding with the construction of Station WNIA as authorized in its construction permit (as modified).

2. To determine whether or not Niagara Broadcasting System has been prevented from beginning or completing construction of Station WNIA as authorized by its construction permit by causes not under its control within the meaning of section 319 (b) of the Communications Act of 1934, as amended.

3. To determine whether a grant of the above-entitled application would serve the public interest, convenience and necessity.

It is further ordered, That the above-described petition of Walter J. Urbanski is denied, with the understanding, however, that pursuant to § 1.723 of the Commission's rules, said petition be considered as a communication relating to the merits of the application of Niagara Broadcasting Company and that Walter J. Urbanski shall have the opportunity to appear and give relevant evidence at a hearing on said application.

Released: June 3, 1955.

[FCC 55-641]

NATIONAL CIVIL DEFENSE TEST EXERCISE "OPERATION ALERT (1955)" AND FUTURE CIVIL DEFENSE DRILLS OR EXERCISES

PARTICIPATION OF STATIONS LICENSED BY COMMISSION

JUNE 3, 1955.

The Federal Communications Commission (FCC), in cooperation with the Federal Civil Defense Administration (FCDA), is issuing this Public Notice for the purpose of advising Commission licensees as to the extent they are authorized to participate in the national civil defense test exercise "Operation Alert (1955)" which is scheduled to occur on June 15/16, 1955, or any other similar test exercise or drill held in the future. In staff meetings between the two agencies, it has been indicated that other drills and exercises, either local or national in character, may be required to be held from time to time in the future. Such future exercises may be conducted without prior special coordination and arrangement. This Public Notice is not only an interpretation of radio operating authority applicable to the forthcoming June 15th exercise but is also applicable to any future instances of civil defense drills or exercises.

Participation in this or future civil defense test exercises by FCC licensed stations operating in accordance with the Commission's rules, is authorized subject to the following:

(a) Domestic fixed (point-to-point) communications service for civil defense shall not be rendered on frequencies below 25 Mc except by those stations licensed in the Amateur or Disaster Communication Services or by broadcast stations. However, this does not serve to prevent the regularly authorized fixed service use of frequencies for the purpose of performing functions of normal character already authorized within a single service. For example, police fixed stations and land stations may intercommunicate for the purpose of handling civil defense drill police business in addition to normal police business.

(b) When the civil defense organization diverts an activity which utilizes an FCC licensed radio system from its normal civil function and integrates it into a civil defense exercise, radio stations licensed to that system shall be used only in the conduct of the civil defense task assigned to that system. For example, if a mobile system is to perform the civil defense task of an ambulance corps, its radio facilities shall be utilized only within its existing system and under the control of the licensee of the stations in that system. However, this does not preclude a licensee from operating a transmitter at or near a civil defense control center for liaison purposes. Furthermore, as a special exception to this policy, stations of taxicab systems may be utilized temporarily to furnish a civil defense communications service in a civil defense exercise in the hypothetical absence of stations in the Radio Amateur Civil Emergency Service (RACES), Disaster of Domestic Public services. However, stations of such taxicab systems shall cease to perform this function as soon as RACES, Disaster or Domestic Public services can be re-established.

(c) Any radio station having limited hours of normal service specified in the rules governing its operation or in the terms of its instrument of authorization is authorized to operate only during the hours so specified.

(d) A valid station authorization is necessary before a radio transmitter may be utilized in any exercise.

(e) No interference shall be caused to the regular service of stations which are not participating in an exercise and the normal communications required by any station for the purpose of carrying on its regular functions takes priority over the communications required by the exercise. This does not preclude voluntary arrangements being made in particular areas so as to minimize possibilities of interference to regular service.

(f) Due to the safety requirements of services and stations governed by Part 9, of the Commission's rules, the only aviation facilities permitted to participate in a civil defense exercise are aeronautical advisory stations, civil air patrol stations, and aircraft stations authorized to communicate with these stations.

(g) Stations in the Domestic Fixed Public or Domestic Public Land Mobile service are not authorized to participate in an exercise beyond the authority contained in the regular rules and regulations governing these services.

(h) CONELRAD. It is not contemplated that a CONELRAD test will be run during the June 15th exercise. However, standard broadcast stations may, if the licensee so desires, operate during the experimental period in accordance with the station's National Defense Emergency Authorization and the CONELRAD rules and regulations of the Commission, provided such operation is approved by the FCC Field Supervisor in the Air Defense Force area in which the station is located as follows:

FCC Field Supervisor (CONELRAD) (O&T),
Hq. Eastern Air Defense Force,
Stewart Air Force Base,
Newburgh, New York.

FCC Field Supervisor (CONELRAD) (PO&R),
Hq. Central Air Defense Force,
Grandview Air Force Base,
Grandview, Missouri.

FCC Western Supervisor (CONELRAD),
Drawer 12, Hamilton, California.

Such operation shall be voluntary on the part of the broadcast station and shall be initiated by local, State or Federal Civil Defense Authorities.

(i) The Federal Civil Defense Administration has requested the voluntary cooperation of all amateurs to the end that the planned RACES procedures will be effective in the portions of this exercise which will be conducted by amateurs. In order to accomplish this the local civil defense organizations may enlist voluntary cooperation as follows:

Any RACES stations operating under an approved plan may be asked to participate in the June 15 exercise on RACES frequencies. It is planned that such activities will be carried out in accordance with all the operational requirements of the RACES rules as outlined in Subpart B of Part 12 of the Commission's rules. Amateur radio operators who are not included in an approved RACES plan may be asked to participate in the exercise on RACES frequencies as specifically required by the cognizant Civil Defense Director of any geographic area and their operation must be in accordance with Subpart A of Part 12. It is further planned that all such communications will be conducted on the RACES frequencies on radio frequency channels which have been established for each geographic area as agreed to by the State and local Civil Defense organization and the Federal Civil Defense Administration. Amateurs who do not participate in this exercise are expected to cooperate by not operating on RACES frequencies during the period of the exercise.

(j) Only those stations in the Amateur, Disaster, Domestic Public, Citizen's Radio and Special Emergency communications services are authorized to perform the function of a "Civil Defense Communications Service" during an exercise. However, this does not preclude the use of the communications facilities associated with licensed systems in other services for the purpose of handling the communications necessary to perform the activity assigned such services by the civil defense authorities. For example, a taxi mobile radio system may not, except as an interim measure as indicated in paragraph (b) above, serve as the communication service to take the place of public communication facilities which, for purposes of an exercise, are considered destroyed. On the other hand, the taxi radio system may continue to operate its system in connection with the emergency function assigned it by the civil defense authorities as indicated in paragraph (b) above.

(k) Stations authorized to operate under the authority of Parts 3 and 4 of the Commission's rules may participate in the manner and to the extent indicated in § 2.405 of Part 2 of the Commission's rules. However, for the purpose of this or other civil defense exercises, reports to the Commission will not be required.

A definitive policy regarding the availability of frequencies of non-Government services referred to in this Notice under the extremes of emergency conditions and areas of attack is being prepared within the Federal Government and appropriates information in this regard will be made known at the earliest possible date. The Commission in the interim reminds its licensees that there might be occasions wherein, depending upon the nature of the attack and the area in question, some of the frequencies that are presently alllocated to non-Government services referred to in this notice may be withdrawn and reassigned to better meet an extreme emergency. It is emphasized that nothing in this public notice in any way alters the existing situation or earlier announcements with respect to frequencies for the RACES and Disaster Communications services.

The Commission will not accept applications for special authority to operate any radio station in this exercise.

Adopted: June 1, 1955.

[SEAL] MARY JANE MORRIS,
Secretary.

ALABAMA-TENNESSEE NATURAL GAS CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JUNE 1, 1955.

In the matter of Alabama-Tennessee Natural Gas Company, Docket No. G-2534; Tennessee Gas Transmission Company, Docket No. G-8805; The Superior Oil Company, Docket No. G-8812; United Gas Pipe Line Company, Docket No. G-8813; The California Company, Docket Nos. G-8817, G-8818; Shell Oil Company, Docket No. G-8837; East Tennessee Natural Gas Corporation, Docket No. G-8899; E. J. Hudson, et al., Docket No. G-8938; M. L. Mayfield Co., et al., Docket No. G-8971.

Take notice that on August 6, 1954, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee), a Delaware Corporation with principal office in Florence, Alabama; on April 27, 1955, Tennessee Gas Transmission Company (Tennessee), a Delaware corporation with principal office in Houston, Texas; on April 28, 1955, The Superior Oil Company (Superior), a California corporation with principal office in Houston, Texas; on April 28, 1955, United Gas Pipe Line Company (United), a Delaware corporation with principal office in Shreveport, Louisiana; on April 28, 1955, The California Company (California), a California corporation with principal office in New Orleans, Louisiana; on April 29, 1955, Shell Oil Company (Shell), a Delaware corporation with principal office in New York City, New York; on May 13, 1955, East Tennessee Natural Gas Company (East Tennessee), a Tennessee corporation with principal office at Knoxville, Tennessee; on May 23, 1955, E. J. Hudson, et al. (Hudson), with principal office in Shreveport, Louisiana; on May 27, 1955, M. L. Mayfield Co., et al. (Mayfield), with principal office in Houston, Texas, filed applications for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, as amended, authorizing them to render service, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Alabama-Tennessee proposes to construct and operate approximately 21.2 miles of 12¾-inch pipeline loop in Colbert County, Alabama, paralleling its existing 10-inch main line for the transportation and sale of natural gas to proposed new customers and additional gas to existing customers. The remainder of the application in Docket No. G-2534 was disposed of by the Commissioner's order issued January 4, 1955.

Tennessee seeks authorization to construct and operate additional gas-supply laterals and main line facilities for the sale and delivery of natural gas to new wholesale customers and to increase sales and deliveries to several existing wholesale customers. The gas-supply laterals consist of approximately 376 miles of pipelines varying in diameter from 6-inch to 24-inch, which lateral lines will be used to connect new sources of gas supply in southeastern Louisiana and in the Mississippi River delta area. The main line facilities proposed consist of approximately 220 miles of 26-inch and 30-inch main line loops to be located in Kentucky and Ohio. Tennessee also proposes to install 12,540 Hp of additional compressor facilities. The proposed facilities would increase Tennessee's system average-day design capacity from 1,728,390 Mcf to 1,836,000 Mcf and the peak-day design capacity from 2,115,969 Mcf to 2,223,579 Mcf. The estimated cost of the proposed facilities is $56,000,000, to be financed by Tennessee through the issuance of first mortgage pipeline bonds, debentures, and preferred and common stocks.

Tennesseee proposes to sell and deliver specified volumes of gas, as set forth in the application, to the following new wholesale customers:

Natural Gas & Oil Corporation (Newark, Ohio).
Town of Centerville, Tennessee.
Delta Natural Gas Company (Berea and Salt Lick, Kentucky).
City of Hohenwald, Tennessee.
City of Linden, Tennessee.
New York State Electric and Gas Corporation.
City of Savannah, Tennessee.
United Gas Pipe Line Company (Coffeeville, Mississippi).

Tennessee also proposes to sell and deliver specified additional volumes of gas to its following existing wholesale customers:

The East Ohio Gas Company.
Equitable Gas Company.
Inland Gas Corporation.
City of Morehead, Kentucky.
North Penn Gas Company.
Republic Light, Heat and Power Company, Inc.
Texas Gas Transmission Corporation.
Alabama-Tennessee Natural Gas Company.
The Berkshire Gas Company (Pittsfield, Massachusetts).
Town of Bolivar, Tennessee.
Concord Natural Gas Corporation.
East Tennessee Natural Gas Company.
The Greenwich Gas Company.
City of Holyoke, Massachusetts, Gas and Electric Department.
Manchester Gas Company.
Cities of New Albany and Pontotoc, Mississippi.
New Britain Gas Light Company.
City of Portland, Tennessee.
Cities of Ripley and Booneville and the Town of Baldwyn, Mississippi.
Tennessee Natural Gas Lines, Inc.
Western Kentucky Gas Company.
City of Westfield, Massachusetts, Gas and Electric Light Department.

The proposed sales by Tennessee are to be made under its existing tariffs on file with the Commission. Tennessee states that the proposed additional facilities will not result in a material change in its average cost of service.

United proposes to construct and operate approximately one mile of 2⅜-inch pipeline, together with metering and regulating facilities in Yalobusha County, Mississippi, extending from Tennessee's measuring station to United's Coffeeville measuring station for the transportation and sale of natural gas to United Gas Corporation for resale in the Town of Coffeeville, Mississippi.

East Tennessee proposes to construct and operate approximately 1½ miles of 3½-inch pipe line, together with metering and regulating facilities in Hickman County, Tennessee, extending from a connection with Tennessee's Kinder-Portland line to the chemical plant of Tennessee Products & Chemical Corp.

Superior proposes to sell natural gas to Tennessee, which gas will be produced from the Bayou Panchant and Four Isle Dome Fields in Terrebonne Parish, Louisiana. California proposes to sell natural gas to Tennessee, which gas will be produced from La Rose and Cut-off Fields in Lafourche Parish; West Delta Farms and Little Lake Fields in Jefferson and Lafourche Parishes; Bay Marchand Field in Lafourche Parish (and offshore); Dixon Bay, South Pass Block 24, Cox Bay, West Black Bay; Main Pass Block 24, and Main Pass Block 35 Fields in Plaquemines Parish; Charenton Field in St. Mary Parish; and Gillis English Bayou Field in Calcasieu Parish, Louisiana. Shell proposes to sell natural gas to Tennessee, which gas will be produced from the Halter Island area in Terrebonne Parish; and the Main Pass Block 35 area, the Main Pass Block 69 area, and the South Pass area in Plaquemines Parish, Louisiana. Hudson proposes to sell natural gas to Tennessee, which gas will be produced from the West Delta Farms Field in Lafourche Parish, Louisiana. Mayfield proposes to sell natural gas to Tennessee, which gas will be produced from the Amelia Field in Assumption, Terrebonne, and Lafourche Parishes, Louisiana. This gas to be produced in the State of Louisiana will be commingled with other gas and resold at markets in other states served by Tennessee's transmission pipeline system. The initial price of this gas to be purchased by Tennessee is 17 cents per Mcf.

Take further notice that these related matters should be heard on a consolidated record, and, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure, a hearing will be held on June 21, 1955, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 16, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket Nos. G-8571, G-8572]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

JUNE 1, 1955.

Take notice that Cities Service Gas Company (Applicant) a Delaware Corporation with its principal place of business in Oklahoma City, Oklahoma, filed applications on March 14, 1955, in the above-entitled Dockets, for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to abandon and remove certain facilities and to construct and operate in lieu thereof new facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant in its application in Docket No. G-8571 proposes to:

(1) Abandon and remove approximately 6.5 miles of 8⅝-inch transmission pipeline and construct and operate in lieu thereof a like amount of 12¾-inch pipeline in Johnson County, Missouri.

(2) Abandon and remove approximately 10 miles of 6⅝-inch transmission pipeline and construct and operate in lieu thereof a like amount of 10¾-inch pipeline in Lafayette County, Missouri.

(3) Construct a 1,350 horsepower compressor station in Cass County, Missouri.

Applicant proposes in its application in Docket No. G-8572 to:

(1) Abandon and remove approximately 20 miles of 10¾-inch transmission pipeline and construct and operate in lieu thereof a like amount of 16-inch pipeline in Lawrence and Newton Counties, Missouri.

(2) Abandon and remove approximately 1.28 miles of 16-inch transmission pipeline and construct and operate in lieu thereof a like amount of 30-inch pipeline; abandon and remove approximately 0.25 mile of 16-inch transmission line and install in lieu thereof a like amount of 4½-inch pipeline.

(3) Abandon and remove 3.15 miles of 16-inch line.

(4) Construct and operate 0.5 mile of 20-inch and 0.5 mile of 16-inch pipeline.

Items (2), (3) and (4) of Docket No. G-8572 are portions of the so-called "inside Glavin Station" system, Johnson County, Missouri used to serve the Kansas City area, while item (1) of that docket is on the Saginaw-Springfield system of Applicant.

Applicant states that the proposed abandonment, replacement and new construction is required to meet the increasing demands of its presently existing utility customers except the so-called "inside Glavin Station" proposal. The latter, Applicant states, is required because of deterioration of the existing facilities due to age and to promote safety in the highly congested area.

The total out-of-pocket cost for both projects is estimated to be $1,685,900 to be paid for out of treasury cash.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on June 21, 1955, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

R. H. GOODRICH

ORDER SUSPENDING PROPOSED CHANGES IN RATES

R. H. Goodrich (Applicant), on May 3, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, dated Apr. 30, 1955.	United Gas Pipe Line Co., Duck Lake Field, St. Mary and St. Martin Parishes, La.	Supplement No. 1 to applicant's FPC gas rate schedule No. 1.	June 3, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by applicant, if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until November 1, 1955, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: May 25, 1955.

Issued: June 1, 1955.

PAINTS AND RELATED ARTICLES FROM CALIFORNIA TO UTAH AND IDAHO

INVESTIGATION OF RATES AND CHARGES

At a session of the Interstate Commerce Commission, Board of Suspension, held at its office in Washington, D. C., on the 27th day of May, A. D., 1955.

There being under consideration the matter of rates and charges, and the rules, regulations and practices affecting such rates and charges, applicable on interstate or foreign commerce of paints and related articles from points in California to points in Utah and Idaho, as set forth in Item 2510, 22nd Revised Page 264, Rocky Mountain Motor Tariff Bureau, Inc., Agent, MF-I. C. C. No. 52, or as same may be amended or reissued;

It appearing that upon consideration of the tariff schedules and protest thereto there is reason to believe that they result in rates and charges, rules, regulations and practices that are unjust and unreasonable in violation of the Interstate Commerce Act; and good cause appearing therefor:

It is ordered, That an investigation be, and it is hereby, instituted upon the Commission's own motion, into and concerning the lawfulness of the rates, charges, rules and regulations and practices contained in said schedules, with a view to making such findings and order in the premises as the facts and circumstances shall warrant.

It is further ordered, That the investigation in this proceeding shall not be confined to the matters and issues hereinbefore stated as the reason for instituting this investigation, but shall include all matters and issues with respect to the lawfulness of the said rates, charges, rules, regulations and practices under the Interstate Commerce Act.

It is further ordered, That a copy of this order be served on the respondents' attorneys in fact who filed the schedules containing the rates under investigation herein; and that further notice of this proceeding be given to the respondents, and that notice be given to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

And it is further ordered, That this matter be assigned for hearing at a time and place to be hereafter fixed.

By the Commission, Board of Suspension.

[SEAL] HAROLD D. McCOY, *Secretary.*

MOTOR CARRIER APPLICATIONS

JUNE 3, 1955.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (a) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

NEW ENGLAND ELECTRIC SYSTEM AND ATTLEBORO ELECTRIC CO.

NOTICE OF FILING REGARDING PROPOSED ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARY TO PARENT

JUNE 2, 1955.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary, Attleboro Electric Company ("Attleboro"), have filed a joint application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"). Applicants have designated sections 6 (b) and 10 of the act and Rule U-42 (b) (2) promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Attleboro proposes to issue and sell 27,000 additional shares of common stock of the par value of $25 per share and NEES, the owner of all of the presently outstanding common stock of Attleboro, proposes to acquire said additional shares for a cash consideration of $1,215,000. Attleboro proposes to apply the proceeds derived from said sale to

the payment of a like amount of 3 percent note indebtedness payable to NEES.

The joint application states that incidental services in connection with the proposed transactions will be performed by New England Power Service Company, an affiliated service company, at the actual cost thereof, estimated not to exceed $1,500 with respect to Attleboro and $300 with respect to NEES. The total expenses to be borne by Attleboro are estimated at $2,800. The joint application further states that the Massachusetts Department of Public Utilities has approved the proposed sale of common stock by Attleboro and that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

NEES and Attleboro request that the Commission's order herein become effective forthwith upon issuance thereof.

Notice is further given that any interested person may, not later than June 17, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the joint application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it deems appropriate.

By the Commission.

ATOMIC INDUSTRIES FUND, INC.

NOTICE OF MOTION TO TERMINATE REGISTRATION

JUNE 2, 1955.

Notice is hereby given that the Securities and Exchange Commission ("Commission") on its own motion, is proposing to declare by order, pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") that Atomic Industries Fund, Inc. ("Atomic"), a registered investment company, has ceased to be an investment company.

Atomic (formerly Stuyvesant Bond and Share Corporation) filed a Notification of Registration under the Act on December 29, 1951. Since that date it has not issued or sold any securities.

On May 4, 1953 this Commission issued an order (I. C. A. Rel. 1863, File No. 812-814) granting an application regarding the sale by Atomic of all its assets to Axe-Houghton Fund B, Inc. ("Axe-Houghton"), a registered investment company, in exchange for newly issued shares of the capital stock of Axe-Houghton, which shares were to be distributed to the stockholders of Atomic in proportion to their respective interests. The stockholders of Atomic at a meeting held on March 16, 1953 pursuant to notice and proxy material previously filed with the Commission had voted in favor of such proposal (out of 23,954.34 shares entitled to vote, 21,190 shares were voted in favor of and 28 against the proposal).

The sale of assets as proposed has been effected and the shares of Axe-Houghton received in exchange therefor have all been distributed to the stockholders of Atomic.

All interested persons are referred to File Nos. 811-599 and 812-814 which are on file at the Washington, D. C. office of this Commission for a more detailed statement of the matters therein set forth.

Notice is further given that any interested person may, not later than June 17, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may, acting on its own motion, declare that Atomic Industries Fund, Inc. has ceased to be an investment company, by order as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

DIVERSIFIED FUND TRUST SHARES

NOTICE OF MOTION TO TERMINATE REGISTRATION

JUNE 2, 1955.

Notice is hereby given that the Securities and Exchange Commission ("Commission") on its own motion, is proposing to declare by order, pursuant to section 8 (f) of the Investment Company Act of 1940 ("act") that Diversified Fund Trust Shares ("the Trust"), a registered investment company, has ceased to be an investment company.

The Trust was organized by a Trust Agreement dated January 15, 1940, between its sponsor, investment adviser and manager, Diversified Fund Corporation ("the Corporation"), Albuquerque, New Mexico, a corporation organized under the laws of New Mexico, and Horton & Bixler, certified public accountants, as Trustee of the Trust. The Trust filed a notification of registration under the act on November 1, 1940.

The Fund's balance sheet as of June 30, 1941, the latest on file with the Commission, shows liabilities to its shareholders aggregating $11,354.37. The Commission's files reflect that all securities held by such shareholders had been sold by the corporation to shareholders prior to the effective date of the act. On November 21, 1941, a registration statement was filed under the Securities Act of 1933 proposing the sale of additional shares of the Fund, which statement was withdrawn on January 14, 1942.

No reports have been filed by the Fund with the Commission since 1941 and this Commission has been advised by the State Corporation Commission of the State of New Mexico that Diversified Fund Corporation was dissolved by operation of law under New Mexico Statutes on January 28, 1946, for failure to pay State franchise taxes. No information appears to be available concerning the disposition of the assets of the Fund and information that is available indicates that the original Trustee of the Fund is no longer in existence.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission on its own motion finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than June 17, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may, acting on its own motion declare that Diversified Fund Trust Shares has ceased to be an investment company, by order as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1954 CCC Cotton Bulletin 1, Amdt. 4]

PART 427—COTTON

SUBPART—1954 COTTON LOAN PROGRAM

CARRYING LOANS IN PAST-DUE STATUS AND PURCHASE OF COTTON

The regulations issued by Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 3597 and containing the instructions and requirements with respect to the 1954 Cotton Loan Program are hereby amended as follows:

1. Section 427.517 is amended to provide for carrying loans on upland cotton in a past-due status through October 31, 1955, to provide that CCC will purchase all such upland cotton on which loans have not been repaid as of November 1, 1955, and to provide that CCC will purchase all extra long staple cotton on which loans have not been repaid as of August 1, 1955, so that the amended section reads as follows:

§ 427.517 *Maturity.* (a) Loans mature on July 31, 1955, but loans on upland cotton will be carried in a past-due status through October 31, 1955. If a producer or his equity purchaser does not repay a loan on extra long staple cotton on or before July 31, 1955, or on upland cotton on or before October 31, 1955, CCC will purchase the cotton securing the loan in accordance with the provisions of the loan agreements.

(b) Any sum due the producer as a result of the purchase of the cotton or collection of insurance proceeds therefrom shall be payable only to the producer or his personal representative without right of assignment to or substitution of any other person.

(c) If the producer does not repay his farm-storage loan on upland cotton on or before maturity, he may deliver the cotton in accordance with the provisions of Form FF, or he may retain possession of the cotton until October 31, 1955, unless delivery of the cotton is requested sooner. If the producer does not own the premises where the cotton is stored and his lease on such premises expires prior to December 31, 1955, a new Consent for Storage must be secured from the owner of the premises. If the cotton is not delivered to a warehouse or the loan repaid by October 31, 1955, he will be required to deliver the cotton in accordance with the provisions of Form FF, and if the cotton is not so delivered by the producer, the holder of the note may enter on the premises where the cotton is stored and remove the cotton. Upon such delivery or removal, the holder may purchase the cotton in accordance with the provisions of this section.

(Sec. 4, 62 Stat. 1070, as amended, 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054, 15 U. S. C. 714c, 7 U. S. C. 1441, 1421)

Issued this 6th day of June 1955.

from Hawaii throughout the year in compliance with the inspection and certification requirements of the regulations.

The purpose of this amendment is to authorize the movement from Hawaii throughout the year of the fruit-bearing panicles of Aechmea bracteata. These bright red bracts, with densely fruited panicles and berry-like fruits are used as ornamentals in the florist trade. At present treatment of such fruit is required as a condition of such movement. The amendment therefore relieves a restriction on the movement of such fruit. Extensive experimental work conducted in Hawaii has disclosed that such fruit is not a host of the oriental, melon, or Mediterranean fruit fly. Consequently, it has been determined that treatment is not necessary as a condition of the movement of the fruit and that inspection and certification procedures will give adequate protection. Commercial growers and florists in Hawaii desire to ship the panicles to mainland markets. In order to be of maximum benefit to persons subject to the present restrictions the amendment should be made effective as promptly as possible. Therefore, pursuant to paragraphs 4 (a) and (c) of the Administrative Procedure Act (5 U. S. C. 1003 (a) and (c)), it is found upon good cause that notice and other public procedure with respect to this amendment are impracticable and contrary to the public interest, and good cause is found for the issuance of the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

This amendment shall be effective June 9, 1955.

Done at Washington, D. C., this 2d day of June 1955.

GENERAL

§ 722.641 *Basis and purpose.* The provisions of §§ 722.642 to 722.688 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended. These provisions govern the identification and measurement of farms; the amount, adjustment, and review of the farm marketing quota and farm marketing excess; the issuance of marketing cards and marketing certificates; the identification of cotton which is marketed as being subject to or not subject to the penalty and lien for the penalty; the rate of the penalty and the manner in which penalties shall be paid by producers and buyers; the refunding of penalty overpayments; the records and reports required to be made by cotton producers, ginners, buyers and others; and other miscellaneous provisions regarding the production and marketing of cotton. The provisions apply (a) to cotton produced in 1955, and (b) to cotton produced in 1954 or any prior year which is marketed by producers during the 1955–56 marketing year. The provisions of §§ 722.642 to 722.688 supplement the "Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1955 Crop of Upland Cotton to States, Counties, and Farms," issued November 6, 1954 (19 F. R. 7213), as amended. In accordance with section 4 of the Administrative Procedure Act (60 Stat. 237), notice was published in the FEDERAL REGISTER on April 23, 1955 (20 F. R. 2740) that the Secretary of Agriculture had under consideration the formulation and issuance of such provisions. The data, views, and recommendations submitted by interested persons have been duly considered within the limits of the applicable provisions of the Agricultural Adjustment Act of 1938, as amended, in connection with the preparation of §§ 722.642 to 722.688.

§ 722.642 *Definitions.* As used in §§ 722.642 to 722.688 and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings and the masculine shall include the feminine and neuter genders and the singular shall include the plural number:
